Prize Night, 1941

CIVIC THEATRE, DECEMBER 12, 1941.

The Chairman of the Board of Governors, Mr W. Bell, presided over a large attendance. The prizes were presented by Mr R. W. Murray, the president of the Old Boys' Association. The proceedings terminated with a programme of music by the choir. In spite of an earlier start, the night's programme was not completed until a late hour and some further modification would appear to be necessary. Since a very large number of boys were working in all parts of the city and province, the attendance of the school was much smaller than is normally the case.

The following is the prize list:-

Form IIIC.-L. A. Riley (1st English, 1st Science, 1st Aggregate), J. E. Armstrong (1st French, 2nd English, 2nd aggregate), N. G. Chambers (1st History), F. M. Robb (1st Mathematics), R. J. Hinton (2nd History, 2nd Science), Aggregate Prize, L. A. Riley.

Form IIIB.-W. H. Graham (1st English), J. Logan (1st French), J. R. Pont (1st History, 1st Mathematics, 1st Science, 1st Aggregate), W. R. Duston (1st III. Drawing), L. D. Ross (2nd Science, 2nd Aggregate).

Form IIIA.-B. C. Tuson (1st English, 1st Mathematics, 1st equal Science), N. L. W. Smith (1st French, 1st Latin), J. B. Tait (1st equal Science, 2nd Latin, 2nd Mathematics), I. G. Hodges (2nd English, 2nd equal French), G. J. H. Cox (1st III. Geography), Aggregate Prize, B. C. Tuson.

Form IVC.-B. M. Dalton (1st English), R. A. Allen (1st French), E. J. Conway (1st History), W. J. Tuckey (1st Mathematics), W. D. Wilson (1st Science), Aggregate Prize, M. Hyndman.

Form IVB.-A. B. Ott (1st English, 1st French, 2nd Mathematics, 2nd Aggregate Prize), N. Tennet (1st History), R. H. Clearwater (1st Mathematics), D. C. Gillanders (1st Science), Aggregate Prize, N. Tennet.

Hockey Season, 1941

School again had three teams in the local competitions. Playing senior hockey, after an interval of several years, the first eleven performed very creditably, and though few games were won, the margin of defeat was always narrow. The Junior A team was bracketed equal as winners of the Junior Competition.

For the first time in the history of school hockey, matches were played against three outside schools.

The first match was played at Dunedin against Otago Boys' High School. This game was very evenly contested till halfway through the second spell, when school gained the ascendancy, ultimately winning by four goals to one.

We next travelled to Gore and met the local High School. Unfortunately, they had had a lean year, and though they played gamely, school had no difficulty in winning by ten goals.

Advantage was taken of the visit of the Choir to Christchurch to play Christchurch Boys' High School. This proved probably the fastest and most fiercely contested match that a school team has ever played, the game ending in a draw, five goals each. Outstanding features of the game were the excellent goal-keeping of Bainbridge, and school's recovery from a deficit of one goal to four, to a lead of five goals to four.

The first eleven for the Otago and Gore matches was as follows: B. Bainbridge, A. M. Bradfield, M. Hyndman, C. S. Anderson, P. D. Skelt, R. B. Shieffelbein, J. M. Geddes, R. Welsh, J. Pettigrew, T. Skelt, G. Speirs. In the Christchurch match, Hyndman and Geddes were replaced by M. Woodsford and D. Sturman.

Swimming and Life Saving Notes

Once again swimming and life-saving had quite a successful year with performances not as good as might have been expected from swimmers of the proved calibre of some of the better boys in the school. Except for D. B. Doake's diving, too, in the junior championship, the standard here was disappointing. However, we have perhaps begun to grow accustomed to such a standard that cannot be maintained indefinitely and when all is said and done, D. J. Kirkland's 27 1-5secs. in the championship 50 yards freestyle, his 34 1-5secs. in the schools championship backstroke, W. G. Chalmers's 66 1-5secs. for 100 yards in the same series and D. B. Doake's time of 2mins. 57 4-5secs. in the junior 220 yards are all highly satisfactory performances. The general standard shown at the sports among the handicap swimmers was also satisfactory. Congratulations are due to Doake and Kirkland for their victories in New Zealand championships at New Plymouth. Chalmers also swam well in the Southland team at the same meeting. The number of Southland provincial titles held by the school makes a large and impressive list. Because of war conditions the polo team has lacked competition so much so that the two teams available grew quite restive for want of games.

A large number of boys trained for the life-saving team which competed in the Secondary Schools' Championships held in Invercargill at the Municipal Baths. The Superintendent made all the arrangements as easy as possible and a large crowd of spectators enjoyed an exciting evening's swimming and life-saving. The school team was a good one but had to concede a win in life-saving to a better one—that from Waitaki (95.1pts); School (H. C. B. Rowley, D. J. Kirkland, H. W. Bath, D. B. Doake) scored 91.93pts, with King's third (90.68pts).

In the swimming championships school fared better as is shown by the following results:

- 100 Yards Freestyle—W. Chalmers (S) 1, N. Chadwick (K) 2, J. de C. Hanafin (W)
3 Time, 1min 6 1-5sec.
- 50 Yards Freestyle—D. J. Kirkland (S) 1, R. G. Barrett (W) 2, C. Adams (K)
3 Time 28sec.
- 100 Yards Breaststroke—D. Peat (W) 1, H. Newall (K) 2, R. W. C. Duncan (S) 3
Time, 1min 28 1-5sec.
- 50 Yards Backstroke—D. J. Kirkland (S) 1, N. Chadwick (K) 2, R. Belsham (T)
3 Time, 34 1-5secs.
- Relay Race—Waitaki 1, Southland 2, King's 3. Time, 1min. 15 1-5secs.
- Aggregate Points—Southland 19, Waitaki 16, King's 11, Technical 1

Cricket Notes

When school resumed last February many of the members of the 1st eleven took the field again. In the event of Waitaki coming down for the annual match, much preparation was done to the main wicket. However, we were to be disappointed once more, and had to travel to Waitaki for the third successive year.

School won the toss and elected to bat on a wicket, the appearance of which belied its true character. The only batsmen who were at all comfortable were Skelt, who made 37, and Thompson, 26. School was all out for 124 runs. McDonald was the most successful bowler for Waitaki and he took 7 wickets for 55 runs. Whilst school was batting the wicket dried quickly and when Waitaki went into bat they batted on a wicket to which they were suited.

Waitaki made 270 runs to which Simpson contributed a confidently-played 67. He was well partnered by Wilson who made 30. The other Waitaki batsmen added useful scores to the total and all seemed to be accustomed to the playing conditions. Gilbertson bowled consistently for 4 wickets for 97; while Dun took 2 for 25.

Once again school took strike and bettered their first score by 23 runs. Again Skelt and Thompson batted well for 37 and 31 runs respectively. Only three other batsmen reached double figures and school were all out for 147 runs. Bowling for Waitaki McDonald 3 for 37 and Wilson 3 for 37 were the most successful.

Waitaki required 2 runs for an outright win and they did this without the loss of any wickets. Once again we would like to thank all those who made our stay in Waitaki so enjoyable.

In the Grade Competition matches, school suffered only one defeat, and were very fortunate in having a good wicket. In order to avoid a bye in the competition, the 1st eleven carried on during the holidays with some scratch teams managed to hold their own, and once school starts again the school teams should be as strong as past years. This year the 2nd eleven were promoted to the Junior "B" grade, and when school broke up they had a good lead in the competition, but unfortunately they could not continue during the holidays, so it rests with those who return to make up the loss.

1941 Rugby Season

The first fifteen showed every promise of being a really first-class side. It had height, weight and speed all leavened with a good deal of experience; unfortunately their season generally was disappointing-not judged by results but by standard of play. They won the third grade competition in town and two of the school matches against Waitaki and King's. The losses were to Timaru and Otago. Their best game of the season was undoubtedly against Waitaki where forwards and backs combined really well, to win a decisive victory. King's were beaten only by 9-5, but school had a fairly firm grip on the game all through. Against Timaru (6-16) the forwards played remarkably well, earning high praise from Timaru followers of the game. The backs, however, were outclassed. As captain, H. D. MacGibbon, led his team well and set a practical example with his vigour and impenetrable defence at centre three-quarter. Scores:-

- v. Waitaki, 29-8.
- v. King's, 9-5.
- v. Otago, 5-13.
- v. Timaru, 6-16.
- v. Wakitipu Sub-union, 17-6.

The second fifteen had an excellent forward pack supported by some backs who were able to capitalize on many of the opportunities which came their way. They finished the season as runners-up in the fourth grade city

competition. They played two school games against Waitaki and Gore, winning the first and losing the second by 12-13. This game, too, would have been won by a point had Duncan's final kick at goal not bounced the wrong way just as the whistle blew. Scores:-

v. Waitaki, 17-3.

v. Gore, 12-13.

O. N. Halbert was a cool and quiet captain, but his play was not consistent.

The third fifteen for the second year in succession found itself short of sufficient players to keep a strong team in the field and consequently had to draw upon the sixth grade group for some of the bigger and "tougher" boys in that division. Once again too, the thirds were much too young and light to compete at all favourably with the town clubs, with the result that some of their defeats were by very large margins indeed. It is to be hoped that the thirds are experiencing merely a lean period and that those good old days when the group could place two good fifteens in the field are about to return.

The sixth grade group consisting of the fourth and fifth fifteens had no very extensive competition in which to play as only the Technical College and an occasional game with primary school teams could be relied upon to provide some variety. As has been the case for some years, the group has been very big and very energetic. The "A" team played some very good football and will pass on promising material for the higher grades of 1942. The "A" team won the Stott Cup for 1941.

Boxing Notes

As a climax to the many weeks of preparation and training supervised by Mr Braithwaite, the boxing tournament, on a modified scale when compared with previous years, was held in the hall at the end of the second term. The Southland Boxing Association again lent us their ring, and, as is necessary in boxing tournaments in New Zealand, they also supervised the night's programme of events. The officials were: Referees, Messrs W. Syamore and G. Spencer; Judges: Messrs G. Singleton, J. C. Kirkland and E. H. Ball; Ringmaster: Mr F. Johnston; Timekeepers: Messrs R. T. Meredith and J. R. Officer.

There was a large attendance to see the bouts which were nearly all enthusiastic and fast. What was lacking in science was made up for willingness and ability to "mix it," so that those traditional toe to toe contests common to school tournaments, enlivened every weight. Except in the under 6st 6lbs. class, all the bouts were of three three-minute rounds; the lightweights boxed three rounds of a minute and a half each. N. Tennet won the school championship and also the cup presented by the Old Boys' Association for the most scientific boxer. There were six competitors in this class the heaviest of whom was M. R. Murray boxing at just under 12st. D. A. Wilson, 10st. 11lb. was the lightest and he boxed out the final with Tennet; N. G. Leckie, E. W. Walker, M. R. Murray and D. J. Kirkland "fell by the wayside." Tennet won on points after a bout in which his greater skill allowed him to keep clear of the consequences of succumbing to Wilson's greater vigour. Some wild swinging mixed well with a great deal of solid punching and skilful and honest footwork.

In the 9st. 12lb. class R. F. Waldron won fairly comfortably from G. A. Padget on points. There was little difference in weight.

A. A. Redpath was the winner of the 8st. 12lb. final from H.P. Harvey, A. Hart and E. T. Thwaites being defeated in their preliminary bouts. Redpath won the bulk of his points in the first two rounds so that Harvey's recovery came too late to affect the result.

In the under 8st. 2lb. group there were four competitors-R. B. Shieffelbein, K. J. McLeod, Robbie and Keast. Shieffelbein and Robbie fought the final the latter having an advantage of eight pounds. He fought coolly and quietly to win by what was probably a comfortable margin.

J. Logan won the lightest weight fought in the tournament, under 6st. 6lbs. He defeated N. A. Reid in the final, while R. Harris and J. T. McKenzie were unsuccessful in their bouts. The final was an excellent match even though Reid was ten pounds lighter than his opponent. Both fought gamely to the end of the rounds but Logan had too great an advantage added to his native skill.

Athletic Notes for 1941

To quote our athletic notes for 1940 "it is probably true that the less said about the weather on sports day, the better." Truth compels us to add to the melancholy monotony of that statement by repeating it for 1941 so that posterity may gaze upon the meteorological records of so many sports days and marvel at the Spartan restraint of those who grimly buttoned up their overcoats when they came along on sports day to see it through to the bitter end. As it was the Diamond Jubilee Year of the school it was decided that as many as possible of the handicap events should be run off at an earlier date and that in the main, sports day would be a Jubilee Day of championship events. It was intended to hold a special gathering and parade of old boys on the school grounds, led by the band, with a few appropriate speeches to mark the occasion.

By half-past two, however, heavy rain was falling. The proceedings were adjourned to the hall where the Rector presided over a very big audience of old boys and parents, together with the school. The speakers were the Rector, the Chairman of the Board (W. Bell, Esq.), the Head Prefect (I. G. Gilbertson) and the President of the Old Boys' Association (R. W. Murray, Esq.). Reference was made to the occasion of the Diamond Jubilee and the intention of the Old Boys' Association to celebrate 1941 in fitting style. The war, however, had made that both impossible and unseemly.

Afternoon tea was served to the large number of people present (including the school itself) and most of them took advantage of the Rector's request that they make a tour of the school. It was apparent that the photographs on the walls reminded many men of incidents and personalities which they thought they had forgotten.

To return to the actual athletic standard reached during the year 1941. The senior champion, H. C. B. Rowley, won the three middle distance races, 440, 880 and one mile and of these his 58 1-5secs. for the 440 was the best run. He ran into third place in the tournament at Oamaru in this event, where the winner recorded 54 2-5sec.; and also into second place in the half mile which was won in 2mins. 9 3-5sec. Rowley was narrowly defeated (by

inches, indeed) although his time at school was not as good as that. At school, H. D. MacGibbon was the most consistent of the sprinters being second in the 100 yards, first in the 220 and third in the 440. His 220 time was 24 1-5secs- a good run on a heavy track. P. D. Skelt was erratic with his jumping for he covered 18ft. 4 $\frac{1}{2}$ in in the senior championship but 19ft. 3in. in the handicap event. Similarly in the high jump, the official figure was 4ft. 7ins. whereas the handicap event in the same grade is returned as 5ft.

The intermediate champion was J. F. Pettigrew who ran and jumped strongly at school but was out of luck at Oamaru, straining his leg. He recorded 25secs. for 220 yards and this, under good conditions would have been a record but the wind caused his record to be disallowed. With his long jump he was just half an inch short of 18 feet. R. J. Hishon ran excellently at Oamaru winning the 220 in 25 3-5secs. and being second in the 440. He made an intermediate 120 hurdles record, too, at school of 18 1-5secs. McDougall won the 90 yards hurdles quite comfortably in 13 1-5sec. at Oamaru.

By winning the 100 yards sprint in 12secs., the broad jump with 16ft. 10 $\frac{1}{2}$ ins. and the high jump at 4ft. 7 $\frac{1}{2}$ ins. I. C. Bates scored 15 points thus becoming junior champion. This series was disappointing but Bates and W. R. Duston give promise of satisfactory performances later on. The latter ran third in the 220 at Oamaru, in a race run in the fine time of 24 3-5secs. Bates was third in the broad jump and also won the high jump. The complete results of the sports are given elsewhere in this issue.

Singing Notes

The school has good reason to be more than satisfied with the year's work controlled by Mr Black. From the main body of voices he chose some 60 voices which he moulded into a schoolboy choir of considerable and varied attainments. This choir received invitations to sing in both Christchurch and Dunedin-these invitations were accepted.

Late in August, the choir, financially aided by parents and friends, set forth, full of excitement and a little trepidation. All were somewhat anxious about the standard of performance their Christchurch hosts would expect. Could the choir make the grade?

Great sheets of water on the Canterbury Plains proved that it could rain in other provinces also, but there was a warm welcome at the station for the 60 boys. The first day was a most strenuous one. At 10 a.m. the choir were the guests of the Travel Club at Ballantyne's Tea-rooms which were packed to the doors. All the ladies in Christchurch appeared to be there and they warmly received three numbers by the choir.

The boys escaped by a rear exit and went to the Civic Theatre to be allotted places on the stage and after a short rehearsal they repaired to the spacious council chambers where the Mayor of Christchurch, the president of the Harmonic Society and leading educationalists welcomed them. The sextette sang two numbers.

At 2 p.m. 1500 scholars from the primary and secondary schools filled the theatre and after an entertainment of an hour and a half the choir found any anxiety they had nursed quite evaporated. Their efforts had been received with enthusiasm, and the Christchurch children appeared to enjoy the singing to the full.

After this concert the choir visited that great institution for the entertainment of the fighting forces, the Union Jack Club, where they were entertained at afternoon tea. For the fourth time the boys sang-on this occasion-"There Will Always be an England"-conducted by J. Thompson.

In the evening came the first harmonic society concert. The school choir gave the second portion of each half of the programme. The large audience received the boys well, but what was most gratifying was the satisfaction of the Christchurch choir with the singing of their guests.

On the next day (Saturday) a hockey match against Christchurch Boys' High School took place in the afternoon and in the evening a packed audience filled the theatre. Once again the concert was highly successful. Sunday in Christchurch was gloriously sunny and the boys had a free day to inspect the city and its attractions. At 11 p.m. they relaxed on their seats on the "midnight train" and tried to woo what sleep they could and dream of their happy experiences.

The choir was naturally most grateful to Mr Kennedy Black for the trip itself was possible only because of his skill and industry. Of their Christchurch hosts Messrs Peters and Archer deserve special mention for their care and kindness.

To sing under the auspices of the Dunedin Choral Society, the choir left Invercargill by the early express on Saturday, October, 18, 1941, being

welcomed unofficially at the Dunedin railway station by Mr Alfred Fels, the president of the Dunedin Society. A "try-out" in what seemed at first sight the rather appalling vastness of the Town Hall was followed by a successful distribution amongst the many hosts and hostesses who were offering hospitality.

An official welcome to the choir was offered that evening on the stage, Mr L. M. Wright representing the Dunedin City Council, and Mr Fels speaking for his Society. Mr Dunlop replied for school. The choir had a most generous reception, singing the following programme: Road to the Isles, Reaper's Song (Schumann), Adeste Fidelis, Silent Night, Pilgrim's Chorus (Wagner), Benedictus (K. Black), Minuet from Don Giovanni (Mozart), Santa Lucia, The Waltz Scene from Faust, Toreador Song with chorus from Carmen, Excerpt from the Pirates of Penzance, Mirpa, Barcarolle, Chorale and Soldiers' Chorus from Gounod's Faust.

On the Sunday afternoon the choir was taken for a ride to Signal Hill and round Dunedin to the Otago Boys' High School where afternoon tea was waiting. Groaning tables were emptied in the shortest time compatible with an observance of manners. Here the choir sang twice and after short speeches by Mr Kidson (Rector of Otago Boys' High School) and Messrs Dunlop and Ross, there was a rush for the train. There was neither accident nor incident to report on the choir's return.

The principal soloist on both journeys to "foreign parts" was J. L. Thompson.

The results of the singing competitions were:-

Senior Section.-J. L. Thompson, "The Linden Tree" (95pts) 1, M. A. McDougall, "Young Tom o' Devon" (90pts) 2, I. G. Gilbertson, "For England" (87pts) 3.

Junior Section.- I. A. Wilson, "The Holy City" (80pts) 1, A. Aitken, "The Holy City" (79pts) 2, J. A. McKenzie, "I'll Walk Beside You" (78pts) 3.

The rector (Dr G. H. Uttley) thanked Mr J. M. McCrostie for judging the contests. He also said he was pleased to see the boys showed so much interest in their singing. Mr Kennedy Black, the school singing teacher, was the accompanist.

News and Notes

There have been three changes among the masters during the year under review. Mr J. C. Braithwaite was called into the army during the third term and is now overseas. He carries our wishes for a safe return. Mr A. S. Hogg was appointed first assistant master at the Thames High School so that his fifteen years service at school finished at the end of 1941. Mr Hogg was senior science master during that period and achieved results of which he might well be proud. He made cricket his principle outside interest and particularly in the affairs of the Old Boys' Cricket Club of which he was for two years president, was his leadership apparent. The school too, owes much to him for his invaluable work in keeping many records up to date - particularly those relating to the armed forces. Presentations were made to him by both his colleagues and the boys on the last day of the year.

FIRST XV, 1941.

N. Tennet, J. L. Thompson, H. C. B. Rowley, J. S. Young.

W. R. Pennington, I. G. Gilbertson, R. F. Waldron, C. W. Snow, M. R. Murray, A. I. McKay.

S. C. Smart, R. J. Dun, J. A. Weavers (Vice-Capt.), H. D. MacGibbon (Capt.), N. G. Leckie, E. Walker, D. B. Doake.

Absent: R. Robb, O. Hunter.

Mr A. T. Begg accepted an appointment to the Correspondence school after two years here. He too, was particularly interested in cricket and had the satisfaction of seeing the first eleven win the grade championship-a reward for his many hours of work in its interest.

A visitor to the school during the year was the Rev. A. T. Thompson of Masterton, a New Zealand poet, who spoke to the school in the hall.

We were glad, during the first term, to give the use of the hall to Mr P. A. Smithells who was conducting a primary school and physical training course in Invercargill. Some very good films were shown on modern methods of "keeping fit."

Messrs Oscar Natzke and Peate, accompanied by Mr Henri Penn, in return for the choir's best efforts, sang for the school during the year. This was a most enjoyable half hour.

Combining with the Orphan's Club, the school choir presented a highly successful concert in the Civic Theatre in aid of patriotic funds. As this was their last appearance in public before singing for the Christchurch Harmonic Society, a particular effort was made by the choir and the results were very encouraging. A good sum was paid over to the Provincial Patriotic Council.

At the annual speech competitions C. G. Anderson gave a well-reasoned speech on "Post-War Reconstruction" and was placed first in the senior section. A. U. McCurdy, who was most oratorical in style and showed good voice control, was placed second with his subject, "Man, The Beast," and B. J. Dalton gained third place with a thoughtful discussion on "Socialism." There were 11 competitors.

In the junior contest G. E. Ramage's easy and humorous style gave him a clear-cut win. His subject was "The Smoky Jungle Frog." H. A. Roxburgh, who described in interesting style the "Story of the Motor-car," was second, and R. Wilson, making light of the technicalities of "Signalling," was third. There were 12 competitors.

During the year some appropriate and interesting Latin mottoes were gathered and created in the hope (expressed to us by interested people outside the school) that some of them might be accepted by our own air units. Some boys went to a great deal of trouble, too, with suggestions for badges. Among the best were: 'Ex nubibus ferimus (we strike from the clouds); Aquilae namquam dorminus (we eagles never sleep); Volamus ad liberandum (we fly for freedom); Alas denu invenit (Kiwi) (It has found its wings again) Nomen in astra ferat.

Cadet Notes

During 1941 the cadet organization was on a two company basis as follows:-

O.C.-Major H. W. Slater, V.D.

A. Company-Capt. J. Page O.C.; Lt. A. H. Robins.

B Company-Lt. A. R. Dunlop O.C.; Lt. J. C. Braithwaite; Lt. G. H. Geddes.

Bn.S.M.-H. C. B. Rowley.

C.S.M.'s-A. Coy: I. G. Gilbertson; B. Coy.: R. J. Dun.

Q.M.-Capt. H. Drees.

Q.M.S.-Sgt. A. M. Bradfield.

Platoon Sergeants-A. Coy.: J. L. Thompson, J. S. Young, R. W. A. Duncan, P. D. Skelt. B. Coy.: N. G. Leckie, C. W. Snow, J. A. Weavers, H. D. MacGibbon.

Bearer Section-Lt. A. T. Begg, Sgt. T. E. Lees.

Bandmaster: Lt. J. L. Napier. Bugle Major: H. Raines. Sgt. Drummer: G. J. Shirley. Sgt. Bugler : T. M. Cushen.

The battalion had a very broken year's work, interruptions from the weather and the use of the drill period for other purposes being frequent. The usual "barracks" period was conducted at the beginning of the year with the equally customary competitions at the close. The results appear in the prize list.

C.S.M. R. J. Dun was nominated for the William Friar Memorial Prize so that we had high hopes of winning for the third successive year. In this we were disappointed, the award going elsewhere, but we were inspired that Dun was placed second.

SHOOTING

There was not as much shooting as usual during the year since the amount of ammunition available was limited to a small supply of 22 only. This meant that no .303 practices were fired-an abrupt change from previous years. The small range at school, however, was moderately busy. The Weekly Press tam competed without much success.

Every boy fired in the inter-form competition and from the results of this the school champions were found. Since the competitions for both the Earl Roberts and the Victory Challenge Shields have been abandoned for the duration of the war, these two trophies will remain in our custody indefinitely.

The general standard was maintained at the high level of the last few years and Mr Geddes is to be congratulated on the excellent marksmanship of the battalion as a whole.

The Earl Roberts Trophy, won at the close of 1940, was presented to the school by Major H. C. McKenzie on August 20, 1941. The members of the team were: V. C. Officer, H. C. B. Rowley, C. W. Snow, A. M. Bradfield, D. B. Doake (fire leader). There was a large attendance in addition to the school.

"This shield has been all over the British Empire during the last 30 or 40 years and has been won by schools or cadet corps in many countries," said Dr Uttley. "We consider that it is a high honour that the school should have been successful."

Dr Uttley expressed pleasure at the good representation of citizens. The school had been very successful in shooting in the past and much of its success was due to the fine coaching of school masters. They had taken a keen interest in the boys and their work had been rewarded with some fine achievements. Dr Uttley added that they owed a great deal to Sergeant-Major H. Sutton for his valuable help and to Mr G. H. Geddes, a master of the school, for his coaching.

"This is a competition designed to produce good rifle shots," said Major Mackenzie. The total possible score was 320 and the score of 301 returned by the Southland Boys' High School team was one of the highest yet made. The school team had been unfortunate the previous year. The school had sent

in a score of 286, but because of the war, and not through any neglect, the results had been too late in reaching England. The school's score of 286 was actually three points higher than that registered by the team to which the shield was awarded. Major Mackenzie presented the shield to A. M. Bradfield, a member of the team.

Dr. A. F. Ritchie Crawford, president of the National Rifle Association, said there was no question at all about the value of rifle shooting. It was a sport that called for decent and clean living; a man who smoked heavily and kept late hours could not expect to be a good rifleman. On behalf of the association he extended his heartiest congratulations to the school on its success.

On behalf of the Invercargill Defence Rifle Club, Mr A. R. Wills congratulated the boys on winning the shield. Rifle shooting, he said, had a fascination not possessed by many other sports. It demanded not only steady nerves and keen eyesight, but complete physical fitness.

The Southland Miniature Rifle Association had taken a keen interest in the shooting of the boys, said Staff-Sergeant D. G. Davies, who offered the association's congratulations to the boys and to the instructors.

THE BAND

The Band's principal parades were the Anzac Day Parade and the Gor'c National Fitness Rally.

The full complement of the band being 31 buglers and 19 drummers, these boys have maintained their well-known qualities and have been active in parades throughout the year, the most important one was probably Anzac Day. In conjunction with the Technical School band, they played the "Reveille" at the Showgrounds in front of a very large audience. In the afternoon the band travelled to Gore to lead the parade there, and completed the day by sounding the "Last Post" and "Reveille" at the Anzac Concert in Invercargill. It may be stated here, that the Gore Returned Soldiers' Association provided a welcome reception for the band and many thanks are due to them.

In November, the band visited Gore a second time, on the occasion of the National Fitness Rally. Again the R.S.A. and the Women's War Service Auxiliary did everything in their power to make them comfortable, and together with an excellent display of marching and playing a very enjoyable day was experienced.

In Invercargill during the year, the band has helped in many ways to obtain funds for the war effort. The parades included Red Cross day, the Karitane Hospital Garden Party and many others.

Other parades of importance were at the Girls' High School Sports and the Annual Show, where the band gave very satisfactory displays. It was rather disappointing that the Governor-General, who was expected to arrive in Invercargill at this date, did not see the second of these parades.

Once again we must congratulate Lt. J. L. Napier for his untiring efforts in maintaining the enthusiasm of the band, which has attained a high standard of drill and playing.

The Armed Forces

The following is a list of Old Boys who are known to have served, or to be serving, with the armed forces. It does not include many men who were posted to what were known as Territorial Units. Any information will be welcomed and should be sent to Mr A. R. Dunlop, at the school.

Old Boys' Notes

We record the death of Professor Albert R. Acheson in New York during the year 1941. Professor Acheson was born in Riverton on October 12, 1882. He attended the Southland Boys' High School from 1897 to 1900, being dux of the school in his last year. He was also wing three-quarter in the school football team. Professor Acheson then went to the Canterbury College Engineering School and graduated as a Bachelor of Science in Engineering (mechanics) and as a Bachelor of Engineering (electrical) in 1906. After being with the Westinghouse Air Brake Company at Addington and the Wellington and Manawatu Railway Company, he went to America and was employed by the Westinghouse Electric and Manufacturing Company at Pittsburgh from 1906 to 1908. In 1908 he was appointed professor of mechanical engineering and head of the department of mechanical engineering at the Syracuse University with the right of private practice. Professor Acheson was an industrial engineer with the Westinghouse Company in 1910 and reported on factory power plants throughout the state of New York. He was operating engineer in charge of the 6000 horse-power boiler room of the Utica and Mohawk Valley Railway Company in 1911, and from 1914 to 1919 was consulting engineer for the Bureau of Gas and Electricity in the city of Syracuse.

We also record the death of Edmund R. Wilson, at school 1886. He was for many years a practising architect in Invercargill, designing the Town Hall, the Fire Station and the Municipal Baths. The Kew Hospital was his largest single undertaking. He had a particular interest in, and love of church architecture, much beautiful work, particularly in church detail, coming from his designs in buildings right throughout New Zealand. He delighted in a beautiful garden and from his fine private library came many books which grace the school library shelves today. He was 70 years of age.

Eric C. S. Marshall, who was at school from 1910-14 has been having interesting journeys and adventures in the Netherlands East Indies, Malaya and Thailand. He is now foreign editor of the Sydney Sun. Travelling on the Burma road he was taken in charge by a Chinese lorry driver and was released by the secret police after very close questioning.

According to fairly recent information the following Old Boys were employed throughout New Zealand; R. T. J. Blick at the Cawthron Institute, Nelson; E. G. Edie at the Meteorological Office, Wellington; J. Noble by the Government printer; G. R. Duthie in the Education Department; T. O. Brandford Patents Office and K. Lythgoe in the Treasury.

G. F. Bruce and F. J. Lehany were in Australia. The former at the National Standards Office, Sydney, and the latter at the headquarters of Amalgamated Wireless, Melbourne.

A number of old boys occupied official positions at Otago University during 1941. As controller of Capping Collection J. C. Hazledine (completing his medical course at Hamilton) had the pleasure of counting £730 in small money; R. P. H. Hewat was co-editor of the Capping Book and sold 9000 copies in 48 hours—he was also secretary of the Literary Society; N. F. Gilkison completed his B.A. degree, was editor of the Knox "Collegian" and the "Critic," secretary of the University S.C.M. and the most successful convenor of Capping Concert farces that the University has had for many years; W. R. Mayhew (who relieved at school for a few weeks) was secretary of the Arts

Association and the Society of International affairs; at football he captained the 3rd Rugby fifteen; J. W. McChesney was secretary of the Science Association.

Congratulations are offered to C. H. Baird for his winning the A. J. F. McKee Memorial Scholarship in medicine and to D. W. Crowley as the Macgregor Prizeman in Philosophy.
