THE CONTEMPORARY SEVENTH FORM — A STUDY IN FUTILITY

At present the secondary school system is divided into two major segments: the junior and the senior schools, which are respectively, third and fourth forms, and the fifth to seventh forms. Some may argue that although this segregation is only academic it should not be encouraged, because it prohibits the school from functioning as a unit. However, due to the varying needs of each level of the educational hierarchy, this is simply not true. From the fifth form onwards the pressure exerted by public examinations requires a different approach to scholastic problems than that which is encountered in the junior school. But unfortunately division is not carried out to its fullest extent; the removal of the seventh form from the senior school and its re-allocation into a more intellectually stimulating environment.

The teachers, the syllabus, and indeed even the minds of the majority of seventh formers are geared to accept this final year of secondary schooling as nothing more than an extension of the sixth form. A dry, dull collection of data presented in much the same fashion as that which has gone before it. This dreary monotony does little to stimulate academic maturation, and many students find the year devoid of interest for them, with the inevitable result that the quality of their work bears no comparison with earlier achievements. Perhaps it seems strange that a system which has worked so well for the majority of earlier students has failed to arouse the excitement and co-operation of many seventh formers. Does the fault lie within maturing minds and changing attitudes, or is the school format to blame? The answer is, of course, a combination of both. The stable school environment with its rigidly formalized institutions is running up against the heightened mental awareness of young men. The two factions see things through different eyes, and naturally conflict ensues. It is impossible to state categorically which side is right and which wrong, but it is important to realize that the difference exists, and something should be done to rectify the situation.

The answer will not be found in complete capitulation by one side or the other. Compromise is necessary. A state half-way between secondary school and university, a type of dilute polytechnic, is desirable. Work could be carried out on a lecture - tutorial - practical basis, accompanied by assignments and examinations. There would be a need for co-operation with local technical institutes in order to obtain the use of their lecture halls and lecturers, although both would probably need augmentation to cope with the increased number of students. A wider range of subjects would be available, thus enabling the student to pursue a course with more relevance to his proposed university studies than the traditional physics, biology, chemistry etc. Irritating and irrelevant matters governing hair length and uniform could be abolished (apart from the common-sense maxim of cleanliness), leading to less pupil - teacher strife. The student would be also introduced to some of the pressures and disciplines of university life while he still has the psychological security - blanket of being on home ground. A combination of all these factors would help the individual to decide whether or not he has the ability (or desire) to profit from a tertiary education.

If the major problems of finance and intellectual complacency can be overcome, such a system as that proposed would allow seventh formers of the future to assimilate much more of value from this crucial year than have their predecessors.

DIARY - FIRST TERM

JANUARY

1st Cricket Eleven plays touring Geelong College Team from Australia.

TERM I

FEBRUARY

Tues. 6: Senior school returns from a rather generous vacation.

"Arise ye workers from your slumbers."—Number 1, Moscow Pop Parade since 1917.

Wed. 7: The junior school returns to the fray and such has been the toil of the last 24 hours that the sixth and seventh forms promptly decide to take the day off.

"No man needs a vacation so much as the person who has just had one."—Hubbard.

Thurs. 8: The masses are deeply shocked, for it is suggested that today be the first day of formal classes; a mere two days after resumption and most certainly an all-time record. The apparent lack of knowledge is astounding.

"You can lead a boy to college, but you cannot make him think."—Hubbard.

John Fraser is appointed Head Prefect and receives a great ovation from the multitude. Two other prefects are also announced.

"Upon my head they placed a fruitless crown."—Shakespeare.

Fri. 9: Lost one common room. Finder please return to seventh form.

Fri. 16: Mr. Pollock from Australia shows two wildlife films.

Tues. 20: Seventh form geography and biology set off for Borland Lodge.

Mon. 26: Standards meeting held. Pearce House scores well after officials are bribed.

"I'll make you an offer you can't refuse."—M. Brando.

Nevertheless, the invocation of mass participation works well and everybody seems to enjoy himself despite forebodings to the contrary.

MARCH

Thurs. 1: School sports proper. Try as he might Mr. Waterston fails yet again to shoot anyone. Fraser meets the Girls' High mob dressed only in a pair of tight shorts and the results are so devastating that a composite 7th Form team runs away with the annual novelty race.

Fri. 2: The rector 'fishes' for a laugh in assembly.

"If Adam came on earth again the only thing he would recognise would be the old jokes."—Dewar.

Mon. 5: The common room for those miscellaneous oddities known as the 7th Form is opened. Later the main batch of prefects is announced.

"Thou hast it now, King, Cawdor, Glamis, all . . ."—Shakespeare.

Thurs. 8: Girls' High Sports, at which Fraser is thrown by an eighteen inch trike. Later at the sports' dance the V8 boys arrive, but various masters reveal hitherto unknown talents and the situation is handled admirably.

"We stuck it up 'em."—Corporal Jones.

Sat. 10: Biology boys escape to Cascade Creek. Skelt makes off with Mr. Crouch's trousers . . . "O, Horror, Horror."—Shakespeare.

Wed. 14: Senior cricketers take advantage of the province's anniversary day and the Firsts play the rest.

Tues. 20: The annual two day cricket match with Kings begins today at school. From a disastrous position school almost wins

McEwan suggests to an astonished 7A Chemistry that 9 plus 5 equals 14 and he is consequently advised to take Varsity maths.

"When God endowed human beings with brains, He did not intend to guarantee them."—Montesquieu. Later in the same period Mr. Fitzgerald reveals that Mr. Crouch went to sleep on top of Key Summit. On someone remarking that this being has also attempted to sleep on Mount Cuthbert, Mr. Fitzgerald replies, "Oh, yes I could quite believe it. He's slept all around New Zealand!"

Wed. 21: Guise decorates the Prefects' Room and for the next week or so fatigue boys show a great willingness to turn up on time.

"I like my nudes," Anon. Rector.

Sun. 25: School play the staff at cricket. Not wishing to show up the infamous brothers, school lets them gain a few wickets before knocking up the required runs. On the same occasion Mr. Williams dispels all claims of blindness with a brilliant catch as he dives to the ground.

"I do not play cricket because it requires me to assume such indecent postures."—Wilde.

Mon. 26: A veritable masterpiece from the Rector when he states in senior assembly: 'The modern artists of my youth are now ancient masters.' However, the junior assembly sees this in its true light and there is an embarrassing silence with the action replay. "The older I grow, the more I distrust the familiar doctrine that age brings wisdom."—Mencken. Sports teams escape to Otago Boys'.

Tues. 27: Mr. Lonsdale admits that it is quite alright and natural to flirt with married women!

"Adultery: democracy applied to love."—Mencken.

APRIL

Mon. 2: School has slipped by yet another April 1st, but Messrs. Crouch, Lonsdale and Roche decide to act the Fool at the Wool Exchange.

"April 1 is the day upon which we are reminded of what we are on the other 364."—Twain.

Tues. 3: McEwan brings some of his home brew to chemistry for distillation, but O'Connor makes off with a full bottle so the experiment fails.

"Drinking makes such fools of people, and people are such fools to begin with, that it's a compounding felony."—Benchley.

Fri. 6: A roulette wheel is set up in the Common Room and it proves formidable competition for 7th Physics.

"The urge to gamble is so universal and its practise so pleasurable that I assume it must be evil."—Brown.

Mon. 9: The Rector commands that the defacing of the Common Room walls with various photos should be stopped.

"There are those who so dislike the nude that they find something indecent in the naked truth."—Bradley.

Tues. 10: After weeks of preparation and top secret plans the prefects hold 4th Form dance. Needless they enjoy themselves the most.

Wed. 11: 1st XV picked, but there is a 'Broad' gap in the backline, which seems to be the centre of Mr. Williams' problems.

Mon. 16: Cellist Fallot and pianist Lamasse play to the junior school.

A renovated Common Room committee is press-ganged into existence following the resignation of some superfluous prefects.

"Politics is perhaps the only profession for which no preparation is thought necessary."— Stevenson.

Tues. 17: Fraser sets off to gain names for the approaching Red Cross Appeal, two hours later he returns . . . with one name!

"Woll that wiz blimmin pawrr."— Farmer Joe Weir. The Rector tells an impressed assembly what he thinks of a suggestion of the education department. "I'll have 'em on."— L. M. Cornwell.

Wed. 18: S.G.H.S. arrives in force (but mostly in cars) in an effort to pass Comment, over to the masses. Mrs. Cave admits that she is over 25!

"No woman should ever be quite accurate about her age — it looks so calculating."— Wilde.

Thurs. 19: Easter has finally arrived and the school rushes home to have a rest before the May holidays.

Thurs. 26: Celebrating the restarting of school McEwan tells 7A of a philosopher named "Des Carters".

"Genius may have its limitations, but stupidity is not thus handicapped."— Hubbard.

Fri. 27: Swimming sports held. In the relay 7A makes a sterling effort and comes from behind to finish third. It is quite irrelevant that only three teams participate.

Mon. 30: There appears to be a fire drill, but as most of the bells are inoperative and as no one knows that it is going to happen beforehand nobody seems to mind that everything is done wrong.

"Confusion now hath made his masterpiece."— Shakespeare.

O'Connor leaves the junior school standing yet again in assembly.

Auditions are held for Macbeth. The array of characters is astonishing:

"In the name of truth,
Are ye fantastical, or that indeed
Which outwardly ye show?"— Shakespeare.

MAY

Tues. 1: Work Day and it's wet. Nevertheless 700 boys dig, cut, paint, trim, hose, polish, and even work their way to raising \$2,800.

"I am a friend of the working-man, and I would rather be his friend than be one."— Darrow.

Thurs. 3: Play is abandoned in Herbert Street for two weeks owing to the lack of prefects who head off to Borland Lodge with their counterparts from Girls' High, for a wet weekend in reasonable weather.

"The living are the dead on holiday."— Maeterlinck.

DIARY - SECOND TERM

MAY

Tues. 22: The process of education resumes at school, but blow by blow descriptions of various antics during the holidays are curtailed by the suspected presence of a small group of the human species known generally as inspectors.

Thurs. 24: Insull ceases to worry about H.S.C. today as the English inspector embraces him in Mr. Lonsdale's class. Later in the same period this latter being manages to find some warped definition of the word "English" and plays 7A The Goons. "Wise men learn more from fools than fools from wise men."— M. Cato.

Fri. 25: Insull's impression has been great and the Rector tells the 7th Form of their high esteem amongst the female portion of the inspectorial group. If you heard the noise "OW OW OW EE AH EY" coming from the Prefects' room today it was't from some poor wretched third former being disciplined, but O'Connor teaching Matheson the recently re-discovered Haka.

Sat. 26: In the final of a South Island basketball tournament, school lose to James Hargest.

Tues. 29: The 7th Form stupefy Fraser with their rendition of the Haka. Dylan Thomas is referred to as the English "Barry Crump" in 7A English.

Wed. 30: Careers evening held at school. Some person from the junior school, who would be advised to remain anonymous is heard to tactfully say: "You've made it sound so boring."

Thurs. 31: A tactical manoeuvre is carried out by several prominent pupils as they outwit the Girls' High 7th Form to gain a list of unattached females.

"We're Sergeant Pepper's lovely hearts club band." — Beatles.

JUNE

Fri. 1: Senior school burst into song (well it was almost singing) as they express their joy on the occasion of John Fraser's birthday. At the same time Fraser creates a new record for the Prefects' sprint between their abode and the Assembly Hall.

Fri. 1: Guise arrives at School having suffered from, as Shepherd blatantly puts it "a severe accident with an overhead fan".

"It got to a point where I had to get a haircut or a violin."— F. Roosevelt.

Mon. 4: Nothing funny happened this Queen's Birthday because everyone remembered to stay at home.

Tues. 5: The Rector stupefies the mob with the astute observation that "your neck grows as well as many other parts of your body".

Thurs. 7: O'Connor is prompted during double English to state while note taking: "I thought we were studying a novel, not writing one."

Tues. 12: Thanks to many strenuous practices and some brilliant movements the Prefects' netball team gives a dynamic display of classy handling in a game against Girls' High's first team. The 8 all score demonstrates school's dominance in all facets of play.

- Wed. 13: The first XI Hockey defeated Girls' High 3-0.
- Thur. 14: The exams begin and all students seem to tackle the long standing tradition of failure with much gusto.
- "A little learning is a dangerous thing." — Pope.
- Tues. 19: The exams are brought to a close and as the marks start to arrive, it would appear that the school life of some 7th Formers suffers the same fate. O'Connor's English mark does not do justice to his obvious ability with words.
- "Hartley's writing is as subtle as a compost heap." — O'Connor.
- Wed. 20: J. C. Alabaster casually remarks to 7A Maths: "I presume that you all found the paper yesterday straightforward and simple." An embarrassing silence ensues, but finally a bold "No" arises from the amazed multitude, to which the former gentleman replies: "I said straightforward and simple. I didn't say you could do it."
- Later in the day Mr. Williams points towards a sack of sawdust crudely disguised as a Waitaki forward and tells his forwards to get on with it. They obligingly ruck it to pieces.
- Thur. 21: O'Connor describes the proposed Computer Ball as "Russian Roulette".
- Fri. 22: J. C. A. is stupefied as O'Connor takes advantage of a moment of stress whilst the Binomial Theorem is explained to remark: "I see what you mean about it driving people crazy."
- Sat. 23: Hargest First XV defeated our Seconds at Rugby Park.
- Tues. 26: In a return match the prefects' netball team defeats Girls' High 17-10. Albatross, a brilliant tactical play has everyone bamboozled including the players.
- Wed. 27: S.B.H.S. downs Waitaki in the annual rugby match, whilst some over-exuberant 7ths demonstrate how easy it is to lose one's voice.
- Thur. 28: Mr. Fitzgerald reveals to 7A Chemistry "I have got a problem" to which they retort; "But we have got you". That night the senior school holds a Hillbilly Hop. It's a good show, but in cleaning up, the high gloss surface is taken off the hall floor.
- Fri. 29: Whilst the more conscientious sportsmen stay at home the majority arrive at the Hargest Ball. Needless to say the First XV gives up its first try of the season next day.
- "'Twas a rough night." — Macbeth.
- ## JULY
- Fri. 6: Entries for Bursary and Scholarship are taken. Several unlikely lads end up on the Scholarship list. "There's a sucker born every minute." — Barnum.
- Mon. 9: Mid Term break.
- Tues. 10: The Rector tells an awed assembly that he has intimate knowledge of drugs.
- Wed. 11: School wins the annual tournament with King's 4-3 at King's.
- Thurs. 12: The second Ball of the season is held at Marist and is well attended by school.
- "Arrr, 'twas a foyn dee for de Irish." — Guise-Matheson.
- Fri. 13: 7th Form pay exam fees. The date is very encouraging.

"Well that's \$18 I won't be seeing again." Anonymous 7th Former.

Brass caps the week off by falling asleep in geography.

"No small art is it to sleep: it is necessary to keep awake all day for that purpose." — Nietzsche.

Mon. 16: Mr. Fitzgerald reveals that he has been having dentist trouble.

"Dentist a juggler who, putting metal into your mouth, pulls coins out of your pocket." — Bierce.

Mr. Lonsdale refers to Charles the Second and his court as: "The Harlot Globetrotters".

THE
CROUCH
ODYSSEY

Wed. 18: Otago Boys' become the third school to bow their heads to S.B.H.S. this season.

Fri. 20: Pagliara Mills makes short work of any semblances of hair on the heads of McBride and O'Connor.

"What are these, so withered and so wild in their attire." — Shakespeare.

Sat. 21: Second XV hold Marist Firsts to a draw, indisputably through the efforts of Skelt and the boys on the sideline.

Mon. 23: The First XV gain their 4th inter-school scalp of the year at Timaru Boys' whilst the Soccer team loses. This means a hundred percent inter-school record for 1973; a feat not matched for many years. However, although the prospects at Timaru are bright, the situation on the home front is grim when a pipe in the staff conveniences bursts. The foyer is awash with water which is somehow directed out the front door. The area is declared a disaster area and renamed SLOSHMERLE as a dozen worthy lads rush to the scene of this the second WATERGATE SCANDAL.

"Water taken in moderation cannot hurt anybody." — Twain.

Tues. 24: Those in "Macbeth" take the afternoon off under the pretext of a rehearsal.

Wed. 25: Fraser announces that tickets are available for the Computer Formal. The reception is mixed, but the boos finally give way to the hisses.
In the afternoon organisation takes place for the winter House competitions

Fri. 26: O'Connor sets sail from Maths to find an imaginary person. Surprisingly for O'Connor he doesn't find him.

"The best way to convince a fool that he is wrong is to let him have his own way."—Billings.

Mon. 28: Dress rehearsal for Macbeth.

Tues. 29: Macbeth is presented to the public and despite a few mishaps which were to be expected, praise is received from the critic, which was also to be expected.

"Opening night: the night before the play is ready to open."—Nathan.

Wed. 30: House sports, after which many miscellaneous persons congregate in the prefects' room to listen to the All Blacks. Mr. Cornwell upsets the party, but . . .

"If you can't beat them, join them."—Anon.

Macbeth again.

Thurs. 31: Macbeth for the penultimate night. A generous audience extracts the best performance.

AUGUST

Fri. 1: Final night of Macbeth. Banquo comes very close to a real death, but his sword mercifully bends at the critical moment. Backstage activity is great and Athos, Porthos and Aramis perform with enthralling ability.

"Three for one and one for all."—Dumas.

Sun. 3: Several unbiased prefects match up the plebeians' computer cards.

Mon. 4: Everett secures his name on the accrediting list when the Rector states that the former is cleverer.
"When he said we were trying to make a fool of him, I could only murmur that the Creator had beat us to it."—Chase.

Wed. 6: Sports against Gore at Gore. First XI Hockey win and Third XI Soccer draw.

Thurs. 7: The round the park race. Despite fears of over-doing things before the formal the majority runs, (not to get to the winning tape, but to the dancing classes at Girls' High).

Later on Invercargill's first mass blind date takes place and despite several obvious programming blunders and an incompetant band all are in high spirits.

"Cupid is a blind gunner."—Farquhar.

Fri. 8: The prefects somehow manage to clean up the hall, but a sumptuous morning tea makes it all worth while. It is on a par with the preceding night's supper, come to think of it, it is the supper!

"Food glorious food."—Oliver.

Sat. 10: The First XV wins the final game of the season to secure an unbeaten record.

Tues. 12: Mr. Lonsdale tells of a compromising situation in which John the Baptist was once placed, when a lusty maid tried to win his favour. His excuse? "I'm sorry ma'am, but it's Lent!"—Lonsdale.

Wed. 13: Inter-house sports are concluded. Page manages to snatch a draw in the senior rugby much to the annoyance of the "unbiased" referee.

Thur. 14: The staff valiant in defeat are beaten by the school in the annual basketball match. Weir loses any hope of gaining H.S.C. by fouling Mr. Williams off, and it could not be said that the game was incident free.

"He owned and operated a ferocious temper."—Ybarra.

Fri. 15: Such was the pace of the basketball that it is suggested that three weeks be given over to rest. Thus at 3.30 the chairs are stacked and the chalk dust allowed to settle for the August holidays.

Sat. 16: The Otaki Scholar and the Narwee tourists arrive. From this time on till the following Saturday much activity takes place. It is even suggested that several games of rugby, soccer and basketball were played although a trip to Queenstown appears to be the main attraction. The rugby and soccer matches are won by school, but the basketball team loses.

DIARY - THIRD TERM

SEPTEMBER

Mon. 10: School returns.

Thurs. 13: A mottley band of Prefects and Staff take on School in what is billed as a rugby match. Once Hamill slows down his passes and Mr. Williams begins to see them, the Staff backline starts to operate, but it would appear that their brilliance is confined to the classroom and School romps away for a 26-13 victory. Mr. Tiplady's black eye should not go without mention, as should the fact that School's first victory in some years occurs when the referee is not a staff member.

Tues. 18: Buchanan blatantly challenges Mr. Williams' card playing ability when he suggests that he could take him down anytime at 500. The master immediately retorts: "All you could take down Buchanan, is a milk shake!"

Wed. 19: After last week's rugby performance a determined Staff soccer team takes the field against School and turns on a great show before bowing to School's strongest side ever. Star performance comes

from Peter Mills, who as referee and a prefect is uncertain as to where his true feelings lie and his control of the whistle is thus revolutionary.

Thurs. 20: Blackie is referred to, in History, as the "Kingston Flier".

Wed. 26: Mr. Alabaster explains to 7A Maths that "A statistician is a man who has his head in a fridge, his feet in an oven and who says "on the average I'm just right!"

"He uses statistics as a drunken man uses lampposts — for support rather than for illumination."—Lang. S.G.H.S. hold a Dating Game and four press-ganged volunteers from school enter the fray.

Thurs. 27: The End of Year Exams for seniors arrive and it is not long before all understand what the word "End" refers to. In the afternoon the 7th Form turn up for Maths, but the majority unfortunately find that like the German paper in the morning it is in a foreign language.

"We, my lords, may thank Heaven that we have something better than our brains to depend on."—Chesterfield.

OCTOBER

Tues. 2: The exams thankfully withdraw, but not before all have made fools of themselves.

"Man has made use of his intelligence; he invented stupidity."—Gourmont.

Thurs. 4: Mr. Lonsdale discloses to 7A that—"One can hardly enter a morgue without one's heart missing a beat!"

Fri. 5: Six 6th Form prefects are announced in assembly and whilst the other prefects look on them with knowing and pitiable smiles, juniors size up their prey.

Tues. 9: The true democratic flavour is introduced into assembly as voting for the Sports' Committee takes place. The standard counting procedure of one, two, —a lot is in evidence.

"Democracy means simply the bludgeoning of the people, by the people, for the people."—Wilde.

Thurs. 11: The extroverts amongst us have class photos taken. The photographer's assistant gives an impressive display of how to stand with one's chest out, much to the 7th Form's delight.

Mon. 15: Those desiring to get paid to go to Varsity have Studentship interviews. Weir finds himself being put in the First XV and being made a librarian by the interviewers, but let these minor misunderstandings pass.

"Everybody who is incapable of learning has taken to teaching."—Wilde.

Tues. 16: Peter Snell speaks to the Senior Assembly about "The Games".

Fri. 19: A group of unwary 7th Formers find themselves at the Blood Bank giving up their pints and as they lie back watching their precious blood draining away they have time to reflect how glorious double Physics would be. Nevertheless they survive and later to herald Labour Day weekend, some try various experiments concerning blood ratios.

"The best blood will at some time get into a fool or a mosquito."—O'Malley.

Mon. 22: Labour Day—"The day Bursary candidates say they're going to start swatting, but never do."—Anon.

Wed. 24: Fraser is tutored by various prefects in how to greet "the Guvna".

"How are ya mate."—Anon.

Thurs. 25: The Governor General is in town and half a dozen prefects and three junior forms join Invercargill's schools at the Centennial Hall. Details are irrelevant and it is sufficient to say that he gave us a day off.

Wed. 31: After flooding out their own abode a group of sturdy prefects declares war on the Common Room. Water abounds and many get wet in the ensuing battles, as the prefects squirt to victory.

THE YEAR'S HIGHLIGHTS

Macbeth

Following last year's successful but rather mundane efforts it was felt that something a bit more ambitious should be attempted in the field of drama, but when Mr. Lonsdale announced late in Term 1 that auditions were to be held for "Macbeth" there were many who had reservations as to the success of such a venture. Shakespeare, they said was for the "Londales," Oliviers and Burtons and there were certainly none of these apparent at the auditions. Nevertheless Mr. Lonsdale ploughed on and following the mid-year exams full scale rehearsals commenced. However, an undecorated, freezing stage seemed to offer little enticement to would-be actors and for the first month of rehearsal our despondent producer was often forced to direct a mere 50% of his cast about the stage whilst the other half preferred to spend its time at balls, or skiing, or playing rugby. Morale had reached a low ebb and the arrival of Polanski's film version of the play in the city added to the despondency when our then primitive version was compared.

But a lot can happen in a few weeks and with the arrival of a realistic set things began to click. Actors started to be actors and to remember their lines and with the bustle of lighting and sound crews adding to the scene a great atmosphere began to build. Three days to go and the first dress rehearsal eventuated. Costumes were donned and the novelty of make-up with beards, appeared on previously innocent cheeks, but despite these added incentives much work was still

required and this was poured into the second and final dress rehearsal. Hidden nerve ends now made their presence felt and with 24 hours to go the cast was a mixture of anxiety and subdued confidence. The telling moments finally arrived and although the audience was little help, our efforts received praise from local congenial critic: "Powerfully produced and played with perception remarkable in a young cast, Shakespeare's "Macbeth" was staged last night and gripped a large audience".

Such comment was pleasing but the cast was not altogether sure of its performance and on the ensuing three nights the results were better, with Thursday, thanks to a good hostel crowd, being the high-point of the season. Friday and the final curtain call came and then this unbelievably successful effort was all over. Success was slow in coming but it was finally there and it was only through the efforts of a gallant producer in Mr. Lonsdale, his subalterns, an enthusiastic and skilful lighting crew in Tim Snow and Peter Mills, an equally enthusiastic set designer in Mr. Sarson, an effective sound crew, and a temperamental cast of 38 headed by Paul Miller that it was all possible. To them and the many others involved the School owes a lot, and it is to be hoped that next year's production gains worthy support, for to be involved in such a venture is a great experience, with the actual performance being only part of the enjoyment gained.

Borland Lodge Field Trip

The 7th Form Geography - Biology trip to Borland Lodge was received with mixed feelings after the accounts of the terrorising ordeals sustained by last years poor unfortunates. Since half of the 7th Form failed to survive last years adventure, the \$16 fee was imparted with much reluctance. In return a 30-page assignment book was given to each pupil. This book contained a Tour Guide on Monowai, assignment work, field work, and pictures to colour in.

The bus left Boys' High on Tuesday 20th without Ian Bannister, some say this was because more room was needed for all our scientific equipment, others say it was because Ian was allergic to haircuts. However Ian rejoined us at night with a haircut.

First stop Otautau: quick break for refreshments. Second stop at Clifton to explore the limestone caves. Arrived at Borland Lodge for a late lunch and an introduction to Mr. Dainty the resident warden. "Look boys, no guns and no fires". Immediately a fire drill was held and Geoff Moffat was to call out "Fire", raise the alarm, and approach the leaders and tell them of the imaginary fire. Geoff screams out fire and proceeds to put out the fire by turning on the hose and squirting the hut, "poor fellow such a vivid imagination".

The next incredible feat was Mr. Thyne had us working. Group work immediately began, involving the setting up of the field work apparatus such as air and temperature gauges. At 3.30 p.m. everyone knocked off — force of habit — but Mr. Thyne forced us to carry on, pushing us to our physical and mental limits and had us working to the early hours of the morning. Slides and talks were given on the Fiordland area.

A seal was found in hut one and because of the National Park regulations on introducing foreign animals to the area, an all out effort was made to get rid of the seal "but the seal came back the very next day".

The porridge boys were up early the following morning and soon the camp arose in the knowledge that a big day was in store for them. A quick check on the scientific equipment and we were all strolling to the Borland Saddle. The landrovers running a shuttle service had the boys and gear to the top of the Saddle in no time. Once everyone was at the Saddle top rations were given out in the hope that this would encourage us to work. Some note worthy observations were made "This is a lake" Mr. Thyne. Even some of the boys made some observations "I'm tired and I'm hungry".

A climb up Mt. Cuthbert in misty conditions and more observations "This is a rock" Mr. Hamill. On arrival at the top of Mt. Cuthbert most boys were cold, wet, and hungry. So the prepared lunches were eaten and more work done in these misty conditions. After heading off from Cuthbert one group followed Mr. Thyne while the other group followed Mr. Crouch. Visibility was reduced to about 20 feet and the compass was not functioning correctly so it was inevitable that we got lost. While descending a steep slope Geoff Patterson slipped on a wet rock and fell 50 feet and sprained his ankle. The situation was not good as carrying on was practically impossible, so everything halted while Mr. Crouch reconnoitred for a way to get out. The minutes ticked by as the rest of the group was huddled together under a piece of canvas waiting for Mr. Crouch to return. "Maybe we should have tied a piece of string to him". He returned later with the good news that he now knew his way out. An ingenious idea of tying packs together made a stretcher and Geoff was carried out on a bumpy trip. The arrival at camp at eight o'clock was a welcome sight for many tired fellows. Incredible as it may sound, Mr. Thyne had us working again that night.

On the Thursday a trip by bus to the limestone bluffs (without incident) and in the afternoon a trip to the Monowai power station and to Mr. O'Brien's Sunnyside Station. More observations "This is a sheep" Mr. O'Brien. On returning to camp a stop at the Surge Canal and a dip in the water proved popular — the 'seal' was a disappointing spectacle. More work undertaken that night.

Friday morning and a walk to the swamp where malaria carrying sandflies attacked everyone — only the strongest boys survived. Then a trip to the regenerative bush area and another important observation made, "This is a tree" Mr. Crouch. In the afternoon a bus trip to Monowai lake and after that another swim at the Surge Canal. Finally everyone dead or alive was piled on board the bus and headed off home.

Most boys would agree that the work undertaken was worthwhile and would be beneficial for exam purposes. The boys who went on this trip would like to thank Mr. Thyne (Geography studies), Mr. Crouch (Biology studies) and Mr. Hamill (Geology studies) in the time spent in preparing the camp, in the work undertaken at camp, for getting lost twice, and finally for the \$5 refund.

Concert by Fallot and Lamasse

On Monday, 16th April, the cellist Guy Fallot and pianist Emmanuelle Lamasse presented a short concert to the junior school. Both born in France, they have distinguished careers and the school, barren of music until term 3, was fortunate in having an opportunity to hear them. The cello, an unusual soloist instrument, created considerable interest during the initial stages of the programme but a slight restlessness towards the end hinted that the programme could well have harboured

some more well known numbers. The skill of both cellist and pianist is indisputed and they played through their selection of Bach, De Falla, Bartok, Bazelaire, and Nin, with superb concentration and grace. Stimulating and polished the recital was altogether a worthwhile experience and it is to be hoped that further recitals from travelling artists will be arranged to give a boost to the flagging musical sector of the school.

Sixth Form Biology Trip

It was decided again to undertake a Sixth Form Biology course in the Hokonuis following the initial success of last year's trip to the same area.

On the afternoon of the first Saturday in March, the first party of students swept into the Hokonuis and the two other successive groups followed at two day intervals. Once again the Y.M.C.A. camp provided a retreat from the elements, while the surrounding bush-clad hills were the scene of constant activity. Although throughout the week the weather gradually deteriorated one zealous student even found it necessary to make the trip twice.

The programme was based on last year's and included a hike to West Peak, various studies of zonation, stratification and succession, plus numerous biology films to further confuse already bewildered students.

Overall the camp was very successful and enjoyed by all, and although a vast quantity of the Hokonui plant life must have found itself as so called "samples" in many students' home bound luggage, private plant collections and assignments, it is hoped that under present levels of forest regeneration, by the same time next year, there should be sufficient bush to hold another camp in the same area.

Prefects' Notes

PREFECTS

Back row: D. W. Hamill, P. E. Mills, J. H. Watson

Middle row: R. C. Guise, P. D. Middlemiss, D. G. Matheson, H. J. Weir, B. J. Broad, P. G. Mitchell

Front row: M. B. O'Connor, B. R. Riddell (Deputy Head Prefect), J. K. Fraser (Head Prefect), G. W. Patterson, M. K. McBride

With only one prefect returning from 1972, the role of John Fraser looked as if it would be one of great responsibility involving hard work and long hours. However, two more individuals (namely Geoff Patterson and Bruce Riddell) were elevated to this most glorious position, thus alleviating the strain on the newly-elected Head Prefect. Eventually, after some three weeks, it was announced to the multitude that another eleven badges were to be distributed amongst the chosen few. Those "honoured" were: Derek Hamill, Huntly Watson, Roger Guise, Peter Middlemiss, Peter Mills, Dugald Matheson, Howard Weir, Brian Broad, Peter Mitchell, Michael O'Connor and Murray McBride.

The first official duty of this "1st Fifteen" was to uphold the good name of the school in the annual novelty race at the S.G.H.S. sports. This year the race took the form of a relay tricycle race which resulted in

a narrow loss to the Boys' prefects. That same evening, the first dance of the year was held at S.G.H.S. with somewhat spectacular results. Several weeks later the fourth form social was held by the prefects at S.B.H.S.

During the first weekend of the May holidays, prefects from both schools had a joint trip to Borland Lodge. This was a most enjoyable excursion highlighted by the high spirited activities and rivalry of the two factions. As a result of this camp, negotiations between the two schools throughout the year was made more pleasant and easier.

Three more dances were held by the prefects during the rest of the year, including the highly successful computer formal. At the beginning of October, sixth form prefects were announced: Gavin Sinclair, Philip Adamson, Nigel Skelt, Garth Cowie, Warwick Humphries and John Anderson.

School Council

The council started enthusiastically this year with the election of R. Fowler to the chair and J. Scandrett as Secretary. Some of the topics discussed during the year included: One distribution of Sport's funds, the organ-

ising of a Hair referendum and Dress at Dances. The Council would like to thank Mr. Fitzgerald for attending meetings and acting as adviser. His contributions have been well appreciated.

Staff Notes

As always the new year revealed some gaps in our ranks. The departure on promotion of Mr. McIntosh and Mr. Scott were real losses. The library section on vintage cars will now probably grow at a much reduced rate. The irrepressible Wally Clarke left for England, and we were very pleased indeed to welcome Mrs. France to fill this vacancy in music. Wally was a colourful character; the incredible state of his vehicles, nearly always without warrants of fitness, prepared us for his departure from one cause or another. We knew, too, that Mr. Crouch was to leave at the end of term one to continue his world tour. It is perhaps only a coincidence that soon after his departure from Chile, President Allende ran into difficulties. Ewan entered very fully into the life of the school, becoming an almost permanent weekend resident of the outbacks with biology and tramping parties.

Our genial caretaker Jack Caldwell left for the more spiritual atmosphere of First Church in Dunedin, to be replaced by Tony Cox. New face, similar shape.

Recruits to our teaching staff were Miss Hood and Mr. Hamill, who stayed for the year, Miss Hood leaving for England, and Mr. Hamill for Training College. Both would be welcome back. More permanently settled are Mr. Mares, Mr. Shirley, Mr. Bailey, and Mr. Claver. To all these people we wish a long and pleasant association with the school. A late arrival was Mr. Lee-Smith, who, after reeling from his first encounter with the pupils, is now starting to enjoy his work so much that unless he is careful he will become that unfashionable, even dangerous, animal, the dedicated teacher.

Parent - Teacher Association

The Annual Meeting held in April attracted a slightly larger attendance than usual—110 people—reflecting the quickened interest among parents in the Association's affairs generated largely by the vigorous leadership given by the outgoing President, Mr. F. W. Mark. The following officers were elected for the ensuing year:

President: Mr. C. M. Hammington; Vice-Presidents: Messrs J. Derry Lee and L. M. Cornwell; Immediate Past President: Mr. F. W. Mark; Secretary: Mr. A. B. Burt; Treasurer: Mr. A. Manson; Hon. Auditor: Mr. J. G. Henderson; Committee Members: Messrs J. R. Lindsay, E. C. Mills, S. D. Bridgman, and Mesdames A. Frew, A. R. Rankin, J. Matheson, A. L. Naylor, D. H. Murdoch, E. C. Mills, P. D. Skelt, M. Christie, O. C. Pierce and J. G. Sherborne.

The Staff appointed the following members: Messrs J. C. Alabaster, A. D. Fyffe, V. W. Bemrose and R. A. F. Lonsdale.

General Meetings

We were again in debt to the Rotary Club of North Invercargill for providing speakers covering a wide range of vocations on the occasion of Careers Night organised in May by Mr. A. D. Fyffe. A large number of parents and students made good use of this valuable opportunity to help crystallise career ideas in the minds of the boys.

Meet the teachers night in July again proved highly successful with a high proportion of parents coming to prove their interest in the progress of their sons and we take this opportunity to record our appreciation to those of the staff who contributed so much in concentrated discussion for a lengthy period.

Third term meeting took the form of a Panel Discussion, preceded by a rewarding half hour of excellent entertainment. This short recital comprising musical and speech items by boys of the School was a very well received move in the direction of performance by competent students of well prepared serious works which reflected credit on performers and the staff who arranged the programme. The Panel consisted of Messrs E. B. Anderson, S.M.; C. B. Fischer, Social Welfare Dept.; Michael Deaker, Central Southland College, and Superintendent W. E. Hollinshead; chaired by Mr. H.

A. Poole and gave the appreciative audience of parents and boys much food for thought in their treatment of the topic 'The Home, The School and Juvenile Crime'.

Projects completed

We have made a donation to the Prize List fund of \$100 in continuance of our policy of supporting the principle of reward for effort. The School was able to purchase equipment costing \$900 with another donation we made for this purpose. Some of the profit made in the Canteen's first year helped the Association to achieve this performance — well in excess of its income from contributions from parents.

The overhaul of the constitution under which we operate became necessary with the acquisition of assets in the canteen and this work has been completed in readiness for the next Annual General Meeting.

Other activities

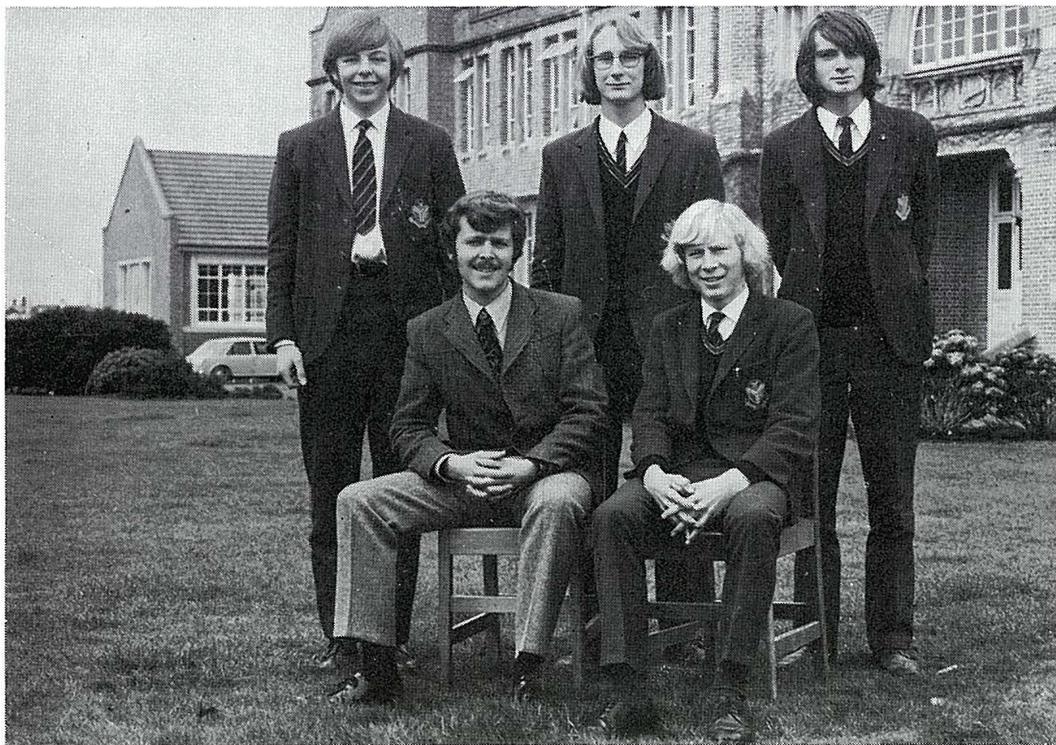

As custodian of the parents and teachers interests in the association's affairs, the Executive has had a busy year in fields which have become relevant to those interests during the past twelve months. The news that demolition of the original building was intended prompted the members to become involved in study of the proposed plans and discussion with other parties. The Association's views have been placed before the Southland High Schools Board for presentation to the authorities and the Executive will continue to take an active part in this matter.

The executive took part in discussions which were held during the year concerning the type of administration the High Schools in this province should have and supported the principle of multi-school control as it is now exercised.

Members of the Executive have formed part of a School Visiting Committee set up by the Board for inspection of and assistance to the School. This is a new venture by the Board and it has been welcomed by the Association as guardian of the parent's interests.

The Association now faces the prospect of involvement in a large fund-raising effort to provide the balance of cash for a new gymnasium and this subject is currently under discussion for action to complete the requirements during 1974.

Debating Club

DEBATING TEAM

Standing: N. C. Walker, A. D. K. Burt, R. J. Buchanan

Sitting: Mr. R. A. F. Lonsdale (Coach), K. O. Hammington (Leader)

The Debating Club had an enjoyable but not really successful year, perhaps the happiest point being the progression of the club, now comprising three inter-school debates.

The first competition debate of the year was against our sister school S.G.H.S. and despite a little misunderstanding in the times, it was a closely fought and enjoyable debate. The team for Boys' High was Hammington, Wilson and Miller, and we took the affirmative on the topic "That the ethics established by yesterday's society are no longer relevant to the modern teenager". Sadly, they achieved more points than we did.

The second debate was our first inter-school fixture at Invercargill, and it was against Waitaki Boys' High. We again took the affirmative on the topic "That the observance of ANZAC Day should be abolished". Our relatively new and inexperienced team of Hammington, Buchanan and Walker were no match for Waitaki's polished and experienced speakers, and we went down by a very wide margin.

Next we travelled to Dunedin for a first ever debate against King's High, and it was a very close and hard fought affair. We were now a little more experienced, and the team of Hammington, Burt and Walker yet again took the affirmative on the topic "That the most important factor in choosing a career is its financial reward". It was disappointing to lose by only three points, 235 - 232.

Our last major inter-school fixture was against a team from Otago Boys', and it was at Invercargill. With more experience, the team was looking for a win and it finally came in the form of seven points. Perhaps it was because we took the negative on "That the Government has a right to intervene in matters concerning sport". With the points score being 242 - 235 the team of Hammington, Burt and Walker had finally some success.

The final debates of the year were the annual Competitions' Society and they were not quite as successful as other years. There was rather a large entry, something like ten teams. Few turned up for the eliminations, and this resulted in three of our teams and one from Hargest being in the final. The topic was "That Corporal Punishment should be retained in N.Z. Secondary Schools", and did not offer a lot of scope. With the spartan audiences the debates did not really have a convincing atmosphere. As you may have guessed, we lost, but only by four points. This was the No. 1 team of Hammington and Walker, taking the negative against Hargest. Two other teams took part from Boys' High, Buchanan and Miller against Henderson and Skene. The former team took the negative and won.

And so ends the year, but not without a great many thanks to Mr. Lonsdale, who gave up a lot of his time to make the Club a success. Our thanks also to other staff members who gave assistance during the year to Club members.

Junior Debating

Cum Verbis Pugnamus

As per usual we began our year with the election of officers — T. Hammington (President) and Ralph McArthur (Secretary). There were seven fourth formers and nine thirds at our opening meeting.

We began our series of internal School debates with a fourth form debate and two thirds. This was mainly for experience and developing our debating techniques. Our first Inter-School debate was when our fourth form team, of McArthur, Hammington and Hunt, travelled to James Hargest and took the affirmative to the topic "That N.Z. is a Dirty Country and Becoming Dirtier". No judge's decision was taken however and there was just remarks made about the individual speakers.

The Club had several more interesting and well-fought-out mixed third and fourth form debates after that, but the numbers of the Club were slowly dwindling away and willing debaters were hard to come by. Then the Club was weakened considerably when McArthur left in the second term, as he was one of our best debaters.

However all throughout we were lead by Mr. Lonsdale who toiled continuously throughout the year for the Club and our sincere thanks must go to him for all that he has put into the Club. We also thank other staff for their guidance and their judging of debates, as well as the school for their support and attendance at our debates.

Photographic Club

The initial stimulus provided by Mr. Lonsdale last year in the creation of the Club has generated enough momentum to keep us rolling steadily, if unspectacularly into 1973, making up in enthusiasm whatever we may lack in expertise — although in this respect, Hugh Brierley as Chairman of the Club, has been a great asset.

Although the dark room has its limitations the dedication of members has at least rendered it light-proof and a generous gift of both chemicals and photographic paper from the Southland Times has enabled members to get the very best from our limited facilities.

The Manager of the Photo Centre, Mr. Mike Pemberton, very kindly gave us the benefit of his wide experience in printing and developing film in a lunch hour lecture that provided some very useful practical information. The Club is also indebted to Mr. J. D. Hughes for his help in the selection and purchase of materials through Brown's Pharmacy Ltd. Under the avuncular eye of Mr. Bailey the Club is currently involved in the School Photographic Competition, the fruits of which will shortly be judged by a panel under the chairmanship of Mr. Lonsdale, the winning selections we hope will be found within these pages.

The School Social Committee

This year, the Social Committee has been made up of the prefects, who along with other individuals within the School, have run four School Dances including the Annual Formal. The committee worked in close liaison with the S.G.H.S. Social Committee which was also made up of the School's prefects.

The first function for the year, dubbed the "Sports Dance" was held on March 8th at S.G.H.S. It featured a road safety theme, as this was also road safety week. The group which played was "Abraham" and stage lighting and effects were provided by the "Strobe Lighting Gang". The second function for the year was the fourth form social which was held at S.B.H.S. Hall in late April. The band which played was called "Marcia" and lighting and effects were again provided by the "Strobe Lighting Gang".

Elated by their success, the social committee immediately started to prepare for its next, and so far most ambitious happening. This was the "Hillbilly Hop" which took place on June 28th, just after the first School exams. To set the scene, approximately two dozen bales of hay were procured and strewn around the Hall floor. As further entertainment, the School's 16 mm movie projector was set up on a specially constructed stand, and films of major groups in concert, including "Jethro Tull" and "Led Zeppelin", were shown.

The group who appeared, "Watchdog", arrived with its full entourage. Manager, sub-manager, roadies and general hangers-on all accompanied their friends to this occasion. As an extra added attraction, a guest soloist (an old boy) Rud Wilson gave a very short performance. The lighting and effects were provided by Watchdog's own "lighting technicians extraordinaire" (who were really only the Strobe Lighting Gang). Four weeks later the

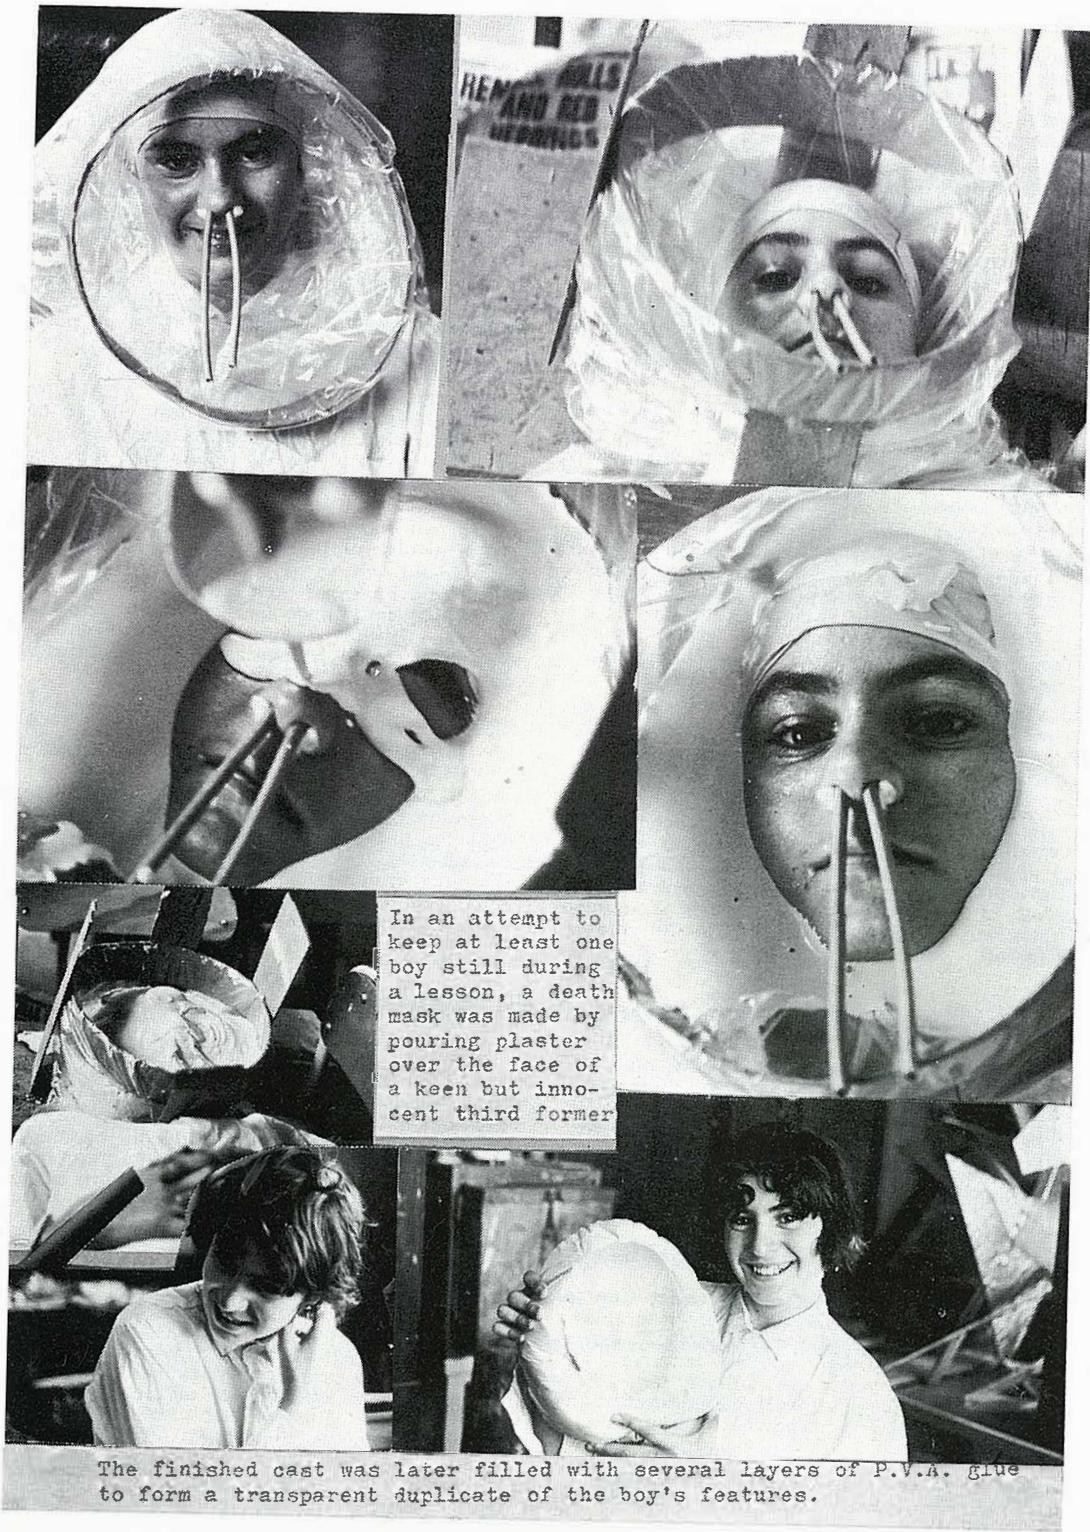

hall had been completely tidied out, the floor and wood panels re-waxed, and all the remaining hay returned to its rightful owners.

The Annual Formal Dance was next on the list of functions for the year. At the suggestion of the S.G.H.S. Social Committee. The Dance was a Computed Formal. Computer cards were issued and various categories such as sex (male or female), hair-colour, hobbies and sporting activities, were filled in. The cards from both schools were put together and a group of dubious "Experts" correlated all available information and came up with a series of computerised couples. On the afternoon of Thursday, August 9th the S.B.H.S. Hall was transformed from its usual sober, scholarly interior aspect, to one of spaced out frivolity. The evenings dancing was divided between ancient and modern, the former being provided by a country band, and the latter from records via the School's P.A. system. A most enjoyable supper was prepared and served by the S.G.H.S. prefects.

Altogether the year's social activities have been a great success and this has been due to the many people who helped to run the functions.

The Social Committee would like to thank the following people: Miss Hood, Mr. Thyne, Mr. McMullan, Mr. Spedding, Mr. Williams, Mr. Lonsdale and Mr. Bennett, for supervising the Dances. Mr. Cornwell and Mr. Alabaster for their guidance in the planning of the functions. Mr. Caldwell and Mr. Cox for helping in the preparation of the Hall. Tim Snow, David Comer and Russel Fowler for their expert technical advice and assistance. And all the other helpers who made the whole affair possible.

P.E.M.

Art Notes

Although 1973 cannot be said to be an active year for many in the art room, a large quantity of work in proportion with past years was extracted from students this year.

The year's beginning was marred by an influx of 3rd formers, in such force of numbers that 3rd form classes and periods had to be increased, at the expense of the senior classes.

It was not until the preparation for the school play "Macbeth" that the art room engaged in any notable activity, when a strange and unusual atmosphere overcame all pupils — that of fervent productivity, that enthusiasm owed undoubtedly to the chance for students to express their character in the manufacture of lethal weapons and other allied accessories.

Tim Snow and David Comer handled the technical effects for the play, with imaginative use of lighting techniques, while Mr. Sarson designed an ingenious stage setting overcoming the inadequacies of a small and poorly designed stage.

Snow and Comer were also responsible for the lighting effects at school dances and the Strobe. They also toured doing the light show with the group 'Cripple' in the August holidays. Tim also built a geo-desic dome, at present on display at the Annual Anderson Park Exhibition. The school has purchased several prints ranging from works of Turner to Picasso. These prints are in close parallel to the 6th form art syllabus.

In the second term the senior art class set out once again, to gaze upon Dunedin's wonders. Together with the Southland Girls' High School 6th Form art class and an assortment from Gore High, the art class explored the Hocken Library, Museum, and Art Gallery.

With much stimulation from teachers the sixth-formers exerted themselves, in an effort to absorb something relevant and of value, however work proved to be too overpowering for most and subsequently many wandered off to pursue their own interests. The bus trip itself was very enlightening and fruitful. An enjoyable time for all.

Roger Guise was selected as one of 24 students from the whole of N.Z. to attend the National Bank Annual Art Workshop, held in Wellington, for two weeks in the August holidays. The workshop was tutored by three known artists, Brian Carmondy, Gordon Crook and Jeanne Cassidy.

Roger is the only 7th form art pupil this year. He has displayed talent in more fields than one. He has set a pattern in work, which the 6th form art class followed closely.

The Young Contemporary Exhibition received much preliminary discussion, among art classes of Southland High Schools, and many exciting plans put forward. However these were unfortunately stifled by the art society, as too daring for Southland.

Exhibited work was mainly from S.B.H.S. with good representation from 3rd to 7th forms. Roger Guise was awarded a prize for the most imaginative use of media. His work was sold for \$45 to S.G.H.S.. It is emphasised that anyone can enter this exhibition. Its object is enjoyment of participation, not having to win.

The art room was honoured this year with the rare but regal visit of Blackie (7B). These brief appearances were found only to be sorties to procure and replenish private stockpiles of art supplies and art materials. He has subsequently made a valuable contribution to Jokers Corner -- 7th form Common Room with several sketches on topical events, foreign and domestic, (thus little time was allocated to the art syllabus).

The making of a death mask in the 3rd form was the climax to a series of projects and washes. Success was achieved on the second attempt. Hazelmore was volunteer (live) both times.

Mr. Sarson, the school art teacher has been the much appreciated shot in the arm to school art, managing with the aid of only a small range of equipment to considerably diversify the range of techniques and ideas. His work in developing the art room has brought about a vast improvement in quality and quantity for equipment and media. We sincerely hope that he continues on at the school.

Report from Non-Sport Team

This year's study group showed the obvious effect of intelligence on health. The team members all showed the long-known fact that high intellect pays its price in a high disease rate and attendance at "matches" was gratifyingly, extremely poor. This valuable non-sport again proved that the true spirit of non-participation within the school runs deep.

We are all deeply indebted to our two coaches, Mrs. Cave who quelled the gay atmosphere of the study group by cutting the bodily contact of this nevertheless exciting non-sport, and Mr. Duncan who improved traffic safety 100% in Room 12 by banning all dangerous matter from the aisles. All in all a very successful season.

House Competition - 1973

The Winner of the Uttley Cup for the House Competition is Uttley House.

Radio Transmitting Club, ZL4CT

This year saw much increased activity on the two metre band. Many contacts were made with ZL4GW, 4PR, 4CC, 4NO, 4AY, 4OX, 4GJ, 4TCS, 4PE, 4TCD and ZL4NY.

In the third term transmissions on 80 metre SSB commenced using Tx and Rx lent by the Trustee. At the time of writing, 5-9 reports for daytime qso's have been exchanged with 3rd and 4th district stations.

Congratulations go to Donald Calder, Mark Fitzgerald, and Donald Collie all of 4A, who passed the Amateur Radio Operator's examination held in September. They will soon be issued with call signs and join John Gibson, 5A, whose own call is ZL4ICS. Donald Collie also passed the morse examination held in October and now qualifies for a general licence. Future plans include setting up a fixed beam for limited activity on 20.

President: G. W. Patterson
Secretary: G. C. Bridgman
Treasurer: G. R. Sinclair

Interest in the Club was a little less than last year but there were still many keen members. There was a pleasing response from the sixth form this year as well as the usual strong contingent from the junior school.

Unfortunately, because of lack of a suitable time no inter-school matches were played.

The School Championship, the highlight of the Chess year was played in late September and early October and after an exciting final between Geoff Patterson and Garth Cowie with Garth ending up the winner by 2 games to 1.

We thank Mr. T. Berridge for his support and the use of room 9 for club games.

Speech Competitions

The Senior Speech Competition suffered from a dearth of entries and finally only three contestants took part. The standard could have been considerably higher judging from the previous performances of the speakers who showed aptitude for keeping the audience entertained but little else. The winning entry was a Rabelaisian look at the Invercargill telephone directory, read by G. Patterson.

The Junior Speech Competitions were held in the previous week before an appreciative audience. A high standard was achieved by the competitors although in

some cases the prepared speech developed into a read essay. The topics were varied and interesting and from the mass of material the essential points were well presented in most cases. Humour was very much to the fore but this proved a difficult vehicle to handle for some entrants. The placings were:

- G. Adamson 1st
- A. W. Christie 2nd
- G. Hammington 3rd
- V. H. C. W. J. Greive.

Life Saving

The Life Saving Club started at the Coldstream pool in the second term. The boys were sitting for the Bronze Medallion. They went Tuesday and Wednesday mornings at 8.15 a.m. All six boys passed the exam

and they were: A. Aitken, N. Harris, P. Beaton, N. Sutton, A. Coldicott, D. Branthwaite.

On behalf of the boys I would like to thank Mr. R. Tiplady for taking us for the Bronze Medallion.

Feats of Distinction

During the year, some members of the school gained distinction outside the normal routine of school life in a variety of fields. Although these are mainly sporting achievements, there are one or two that are in the fields of art.

Art

Roger Giese succeeded in obtaining a position at the art workshop in Wellington, and was one of two from Invercargill.

Music

As many will know, the Southland Youth Orchestra toured Tasmania, and presented a concert in Hobart in conjunction with their orchestra. Members of the school who participated in this worthwhile venture to our sister city were Ian Sherborne, Daryl Kaye, Norman Scott, Ross Murdoch, Gary Osborne, Ewan Murdoch, and Donald Watson.

Ross Murdoch was also selected to play in the New Zealand Secondary School's orchestra.

Because of the number of distinctive sporting achievements by pupils of the school, it has become necessary to list them only.

THE BUSH

Absolute silence prevailed as I rose from my abode and looking at the predawn scene, I found myself trapped in a peaceful fantasy. A fantasy in which I played so insignificant a role that my very existence seemed doubtful, so furtively I glanced all around for reassurance. I found none.

Wherever my eyes travelled I saw creation at work, Rimu trees rising to great heights with their low drooping branches, Pungas and Ferns — curled up and not yet aware of the prolific joys awaiting the new day, Manuka scrub in the distance — transformed from its normal scraggly ugliness to an abstract object of beauty, the lake — lifeless and foreboding, and finally the giant Totara, rising tall and regal, establishing a picture of utmost majesty as it stretched towards a new day. This tree alone, knew of daybreak yet how could he warn the world?

Such a rugged and romantic scene awaited for me to feast my eyes upon. Immediately I moved, my clumsy actions promoted a guilt that I should disturb such natural environs. Pacified in all respects, I waited, and waited, and waited.

Suddenly, soaring swiftly across the sky came a Mallard Duck, providing a splurge of colour on the watery sky. Gliding gracefully, high above the earth, he sounded the message of dawn. For immediately a fish rose in the lake with a resounding splash, kicking it into a shimmering prism, a fantail fluttered fancifully about, foraging for the first feed of the day, a pigeon rose in flight, great wings beating in a handsome and distinctive fashion, and finally a robin came and perched on my shoulder, chattering friendly secrets in my ear.

For me, this was the climax of a pantomime, unknown ever before. To think that I was involved in such a remote beauty gave a secure feeling of immediate tranquillity.

My eyes, still filled with wonderous sights, glimpsed a great flooding of the horizon and, hoping beyond all hope, I thought the creator of such splendour had arrived to share my triumph — but alas, it was only the sun, come to officialize this day of all days.

Glancing at my watch, I hurriedly began my daily chores which contrasted so violently with what I had just witnessed.

YOU

You walked
a figment, a filagree,
remote in childlike wonder
You asked, did I have You
but forgot to question Yourself.

I wrote the part,
produced the play.
But acting You forgot to act.
I cannot play your life
You must learn to live in others.

I cried
a faintness, a shadow,
come, give my eyes
feel with my heart
But in the rush to conquer
You forgot to return the pieces.

VOLCANO

Volcano so fiery,
Steaming vents so loud,
Explosive orange lava running down,
Billowing smoke,
Surging mass of lava,
Then it's over,
Sizzling trees,
Burnt down buildings,
The inferno is over,
The Volcano is dead.

DEEP COVE

Deep Cove so lovely,
Deep Cove so quiet,
Deep down lies the sea,
The sea so green,
Not a wave around,
Deep Cove so quiet.

A storm breaks,
The Cove gets rough,
The waves lash against the rock wall,
The silence is gone,
The Cove so rough.

The storm is over,
The Cove is quiet,
The Cove is quiet for ever more,
Deep Cove so green and cool,
Quiet is Deep Cove.

HARVEST

Peasants strew haphazardly beneath a twisting tree for shade and rest from labouring in the fields. The harvest is well under way. Stooks stand in the areas reaped and a morose peasant slashes at the crop with a scythe. The golden fields gently drop towards the small village and the beach.

Small ships lie at bay in the calm harbour and the sea reaches out into oblivion at the horizon. Rough rocks and sparse sand make up the beach.

In the village children run playing games on the common. To their left an old cart drags painfully up the slope on a dry rutted track.

Many trees lie on the far side of the village — perhaps orchards. The trees are dark, lost in the distance.

An old lady stoops low filling her apron with fallen apples near the lunching peasants. They carve slices of bread wearily chat and drink from large earthenware jars. Food is simple and spread on small cloths in the middle of the peasants group. They sit on fallen logs forming a broken triangle, leaning on the tree or lounging lazily on the logs. On the other side of the tree a man shades his eyes with his forearm and lays prostrate resting legs flung out.

Behind the haze of trees on the hill lies a solemn church steeple grey uninviting.

A man struggles up a track slashed through the field bending low under the stool on his back.

1983 was turning out to be a bad year for Reginald Agrarian Fogerty Langdale, (ex RAF) gay (but not Gay) tho' somewhat blunted blade about town with a mousey leer, a penetrating stare and a herd of problems. At the present time his major problem was that he wasn't making any money and, having only fountain-pen ink left, he decided to revive his other profession, journalism. Intermittently (for the tide never usually rose that high) he had been working on his pet project, a history of the Augustan poet Pope. As it was short in meat and long in gristle his present state was not to be unexpected.

The answer appeared painfully obvious. He would have to find a real story to cover, original and new. Having had a basic interest in science from earliest times he resolved to investigate a research lab located on the outskirts of the city.

By way of distracting the gate guard he gave him a draft copy of his history. He slipped past as the guard had his head down, vomiting. Once inside he donned a white coat whereupon he imagined a sensation of complete integration and engulfment by the aura of cerebral splendour displayed by many of the inspired, dedicated crew of that grandiose cutter slaying the shrouds of mystery and baring the bones of truth. Reginald penetrated even deeper into the building and finally, as was to be expected he was found. But (that's a heavy but), there was instant recognition between the finder and findee. Reginald recognised the other as Doctor Doe hyphen Mi, a person with whom he had often argued with about this and that in the past.

Dr. Doe-mi was delighted. Reginald perceived that he was getting close to finding the story he wanted. The, by this time, ebullient Dr. Doe-mi set about telling Reginald of a project he had just completed. About ten years previously he and Reginald had failed to reach agreement over a theory of Doe-mi's. Doe-mi had postulated that the human brain was nothing other than a very concentrated network of off-on chemical switches very much the same as the off-on system of switches involved in a computer. Further, if the number of circuits could be increased many thousands of times over the then existing systems a type of brain would be the result. Doe-mi said that a human thought was nothing more than the emergence of a certain off-on pattern and its translation into more familiar patterns such as speech. Each person would have a slightly different layout of networks thus would think slightly differently. Things such as emotion would be as a result of a typical pattern being operated which would effect the body as a whole. A man-made computer capable of the same type of pattern generation would bear no physical resemblance to the then-existing computer systems. It would certainly have a more efficient source of energy than an electric terminal. Many sources are available even perhaps including the structure of space itself!

This, announced Dr Doe-mi, is precisely what he and his team had achieved.

Perhaps Reginald would like to see the creation.

Reginald was devastated. He was looking at a 'something' which according to Doe-mi had the potential of greater thought than any human being ever to have walked the surface of this planet and also having the advantage of being able to exist at any place in the universe independent of any separate means of life support. Reginald was still desperately clinging to the fallacy that man was incapable of being surpassed when he stated that this thing wasn't all that very much because it couldn't move, but he had never heard of telekinesis.

He learnt now that Doe-mi's biggest problem was to keep it under control. If he had relaxed the hold he had on the thing, it would be lost to human control for ever

and a potential threat to civilisation as we know it would exist.

Reginald left quickly for he had a scoop that would bring in the money he so desperately needed. He stretched the 90 cc rubber bands of his vespa to the limit as he drove wildly at 15 m.p.h. towards central city all the time becoming increasingly aware of his goal.

The life of the city was flickering and dying . . .

COURAGE

That whose abstract being has for centuries been fortified and called Dutch. Days gone saw it bountiful on the battlefield, now it is used but little by those of modern push button death. It has unclasped its compatriots wringing hands of survival and scuttled to murky depths in human hearts. Mocking little men give pretence at it in petty squabbles of rights to women and seats to a football match. Its afflictors have humiliated it and vented upon its degradation. Brave men of decades past have died with it in their hearts, and in their hearts it has died.

THE CELL

Here I lie in my cell. I look around in boredom. I don't know why I look around at all, I've seen everything there is to see about ten thousand times before. There's only one thing new and that's just a spider web in the corner of the roof, and I've already studied that about ten times before. There's also all the initials of inmates that have been in this cell before.

The light will be going off soon not that there will be much difference if it does go off, there's more light coming through the window that is specially designed so that the light comes through, but you can't see out of it. The window is at the end of the cell, there are bars there too to make sure no one tries to escape, not that I would because I've tried in my mind ten thousand times before.

Sometimes I wonder if these cells are designed to drive you insane so that when they let you out after you've done your time you are so mad that you aren't capable of committing any crimes. After you've been in here for about a month or two you run out of things to think about and that's when you start talking to yourself. The only thing you can think about is what the next meal will be.

I also listen to the warden's footsteps as he walks along the aisle. I could walk the same path blindfolded because I know it so well and I've walked it in my mind one thousand times before.

The bed I lie on is hard and lumpy and I know every bump off by heart I could almost tell you the dimensions of them because I lie on them one thousand times before.

I can see that spider now spinning his web to catch some fly, he'll be lucky if he gets any in here, the only chance they have got of getting in is when the door opens for them to give me my meals, and that's only for ten seconds. Come to think of it I wonder how he got in here. What a dumb spider, he must be mad to live here when he's got a choice of a hundred other places to live. Even I can think of better places to live and I should know, I've been to those places in my mind ten thousand times before.

I know what I should do is bang on the door and yell and when the warden comes along I complain to him that there's a spider in here going to kill me, ha! what a laugh, he might even think I'm insane and put me in the padded room. Well if I was in there I could count all the little buttons on the wall. I'm glad I can't say I've counted them ten thousand times before.

Here comes the warden, twenty-five along, six up, one two three, he's outside my cell now and looking through that little hole in the door and now the light will go off.

Well off to sleep now if I can, because I sleep too much, I'm getting sick of it. Good night spider, me old pal, sweet dreams about the flies you won't catch. I'll dream about the same thing I've dreamed about ten thousand times before.

A FISHERMAN'S REVERIE

A lone fisherman stands peacefully casting his rod, smoke curling gracefully skywards from his worn briar pipe, gently disturbing the evening air. Raising his rod, he prepares to cast his favourite 'Greenwills Glory' over a secluded spot, hoping that some creature in the never-ending depths below will spot the craftsman's enticement. Pausing for a moment and relaxing his concentration he turns slightly, to absorb his surroundings.

The sleepy silence of the night, sleepy because of a cricket's listless chirping, and a blackbird's weary trek home to waiting mouths. A gentle stirring sways the tired old willows. As night approaches and day ebbs to an end, a silence succumbs all, all but the river. This endless source of life coming from somewhere, going to nowhere, mystifies the fisherman as does the awesomely monolithic mountain, rising towards the east and the thin crescent barely visible on the horizon. Alone with his solitude he ponders, until a splash abruptly wakes his fantasy.

The struggle for supremacy has begun.

FIRST RUGBY FIFTEEN

Back row: W. B. Humphries, D. J. McKenzie, S. Shepherd, M. B. O'Connor, M. K. McBride, R. M. Fowler, G. A. Clark

Middle row: Mr. N. G. Bennett (Trainer), R. C. Guise, G. G. McAuliffe, B. C. Everett, D. W. Hamill, Mr. C. R. Williams (Coach).

Front row: R. S. Forbes, M. S. Bell, B. J. Lindsay, J. K. Fraser (Captain), J. L. Ballam (Vice-captain), P. T. Skelt, B. J. Broad

FIRST FIFTEEN

Captain: J. K. Fraser

Coach: Mr. C. Williams

This year's team proved to be the most successful one for several years. Two players returning for their third year in the team were J. Ballam and J. Fraser who at vice-captain and captain respectively contributed a lot to the team's success. Six other players returned for their second season in the team. In the forwards, M. O'Connor contributed much and B. Lindsay stood out as one of the strongest and experienced props the team has seen. S. Shepherd developed well as one of the regular flankers and along with D. McKenzie and W. Humphries, two new caps, was one of the key players. G. Clarke and B. Everett proved of great value in the inter-schools both playing to their full capacity. G. Clarke developed as a strong scrum-mager. M. McBride in his few games stood out impressively. Half-back D. Hamill filled his position superlatively and he combined well with star first five-eight M. Bell who had an outstanding season. Special mention must be made of Skelt and Broad who were never matched for cohesion, strong running and most notably, strong, hard tackling. Our wings did their jobs as was expected of them. R. Forbes always played well and was very elusive on the move. R. Fowler and G. McAuliffe complemented him well.

The team recorded no losses this year and in inter-school rugby this is a feat worthy of much recognition. The club record is just as impressive with big wins over most of the teams: one hopes that the team will keep

up this fine record and win the club competition next year which will be the sixth consecutive year.

Coach Mr. Williams deserves much praise and recognition for his efforts and valuable contribution to the team. The success of the team is due in no small measure to his efforts.

Trainer Mr. Bennett persevered with the team in getting them very fit for the interschool games. Marks must go to him as his training sessions were some of the most enjoyable times for the team.

To all supporters, parents, and Old Boys who came along to the games, thank you, this was much appreciated by the team.

INTER-SCHOOL GAMES

v. Waitaki B.H.S. won 7-3 (at Invercargill)

The first half saw a fairly even encounter and at the change over the score was 3 all. The school attacked from the opening of the second half and were rewarded with a fine try by Fowler after a well-judged kick by Bell. Although a narrow victory all players showed determination and skill in this first inter-school match.

v. K.H.S. won 15-7 (at Dunedin)

After some initial careless play, the school settled down to some good play resulting in a try by Fowler, converted by Ballam. King's came back in the second half and took the initiative. However a converted try and a penalty enabled school to run a reasonable margin.

v. Otago B.H.S. won 9-4 (at Invercargill)

After a slow start a spectacular interception was made by McAuliffe which enabled Skelt to score and Ballam to convert. Otago responded with a try and towards the end of the spell Ballam kicked a penalty. There was no further score and the second half saw Otago desperately trying to break our defence. However school held out to win a memorable game.

v. Timaru B.H.S. won 9-7 (at Timaru)

Hard driving play by the forwards and good attacking rugby from the backs paved the way for a try by Broad which Ballam converted. The school held the territorial advantage for much of this spell. Timaru opened its account early in the second half with a try and a penalty. Disaster then struck the school with the loss of Hamill and captain Fraser, but the team excelled themselves and managed to hold out for a narrow win. All credit must go to Timaru who played well, but just couldn't beat us on the day.

Club Record:

Played 16, won 16, Drew 0, Lost 0, points for 479, Against 21.

SECOND FIFTEEN

Captain: R. A. Ward

Coach: Mr. L. J. Hamill

Eleven teams entered in the fourth grade competition and because of a somewhat easy draw and similarly easy wins a strong team spirit was soon built up. The team's confidence reached a high point halfway through the season, but after a loss to James Hargest and the injury of several prominent players a feeling of lethargy took grip of the team. Subsequent performances rarely

achieved the standard of early season games and by the close of the season the 2nd XV was placed third equal with Marist College.

Winger B. McPherson was the team's most prolific point scorer, in seventeen games played he totalled some 104 points in tries. Creditable performances by backs P. Stevenson, R. Ward and L. Forbes throughout the season resulted in many high scoring games. In the forwards vice-captain G. McCrostie played consistently well as did B. Hagen and B. Jones.

Generally the team functioned well, but periodic lapses in the quality of tackling and cohesion in the forwards resulted in varied performances.

Inter-school Record

v. Waitaki Boys' High School, won 24-6

Slippery ground conditions and an early try sealed the game for the Southland side. Noticeable individual performances were turned in by fullback L. Forbes and half-back A. Blackie.

v. Otago Boys' High School, lost 14-12

Because of varying fortunes of both teams the game went in a distinct cyclic pattern. Weak tackling and the inability of the local team to finish off moves resulted in a deficit of points in the first half. Despite a desperate rally for the remainder of the game the Southland team lost narrowly to a spirited Otago team.

The team would like to thank Mr. Hamill for his time and dedication put into coaching during the season.

The team: Forwards — G. Johnstone, B. Jones, R. Crawford, P. Wilkins, T. Insull, R. Silke, M. Humphries, B. Atkinson, B. Hagen, G. McCrostie, J. Reid. Backs — A. Blackie, R. Ward, P. Stevenson, P. Mitchell, I. Brown, B. McPherson, P. Annear, W. Spence, L. Forbes.

SECOND RUGBY FIFTEEN

Back row: P. J. Stevenson, P. D. Wilkins, M. D. Humphries, T. J. Insull, I. W. Brown, P. G. Mitchell
Middle row: P. N. Annear, B. A. McPherson, R. J. Silke, W. A. Spence, B. E. Atkinson, Mr. L. J. Hamill

FIFTH GRADE

Captain: M. Ross

This year's team was not as strong as past Fifth grades. It was much younger and contained only two players who had actually played as backs before. But this deficit was easily made up in talent and enthusiasm. The team played with terrific spirit and with more fitness could easily have matched any team in the competition. The team lost B. Atkinson to Fourth grade and B. Winsloe left school, but we gained the valuable services of D. Laing who more than made up for this. Our sincere thanks go to Mr. Fitzgerald for a really enjoyable season of rugby.

The team: G. Fokkens, M. Christie, B. Taylor, P. Ballantyne, B. Ward, D. Laing, G. Cowley, J. Simpson, B. Winsloe, M. Ross, M. Turner, W. Willow, J. Anderson, G. Gunn, C. Hamilton, K. Mitchell, L. Kelly, C. Young, N. Keown, B. Atkinson, G. Hannan, (J. McCall occasionally).

Coach: Mr. Fitzgerald

coached us until Mr. Bailey arrived from Australia to coach us for the rest of the season.

The best game of the season was the game against the School 'B' team, who had beaten us 8-3 in a previous match; we trounced them 13-3. This game was the result of teamwork and fantastic play by everyone in the 'C' team.

The forwards played exceptionally well in every game, the backs played well, but injuries took their toll; and as 13 of the 20 players were forwards, difficulties arose, but they were overcome. The team scored 70 points and had 200 points scored against it.

We wish to thank Mr. Bailey for his time, effort and invaluable assistance in coaching us this season.

The team: A. Ferguson, W. Lowry, N. Bourchier, S. Furness, S. Riley, M. Gavan, A. Robertson, L. Gallop, H. Robertson, G. Billows, R. Munro, P. Beaton, W. Grieve, R. Perry, A. Watson, J. Johnson, W. Skilton, M. Devery, R. Whelan.

SIXTH GRADE A

Captain: D. Simpson

Coach: Mr. East

Record — played 14, won 11, lost 3, points for 417, against 83.

Throughout the season the team played bright, attacking rugby. However the team achieved only third place in the local competition behind Kingswell H.S. and Southland College. Highlights of the season was beating and playing so very well against Hargest (won 30-3), Marist (won 48-0), and Southland College (won 20-0); all these games being in the second round. The winning or losing of the last game, against Kingswell, determined the competition, but we lost 12-14.

The whole team played well and there was never a lack of team spirit. Mention should be made of Steven Pokere who notched 107 points for the season.

Special thanks to Mr East for his valuable time and training to the team to get them playing as 15 men.

The team: J. Jones, M. Rankin, S. Gould, N. Lockwood, K. Johnson, S. Pokere, G. Dawson, B. Gilbertson, P. Gilbertson, S. Wells, P. Davis, M. Thompsons, G. Forbes, M. Redpath, D. Simpson, M. Leckie, M. Scobie, L. Cowles, Q. Reid.

SIXTH GRADE B

Captain: G. Godby

Coach: Mr. Thyne

Throughout the season the team played with great team spirit and showed consistently good sportsmanship. However, only four wins out of fourteen games were recorded, but Ian Ballam scored 72 out of the team's 96 points. The highlight game of the season was against Marist College in the first round, the lead changed hands several times with the final score ending up as 28-23 in our favour.

The team's thanks goes to Mr. Thyne for devoting much of his time in coaching the team. The team learnt a lot from him and his encouragement was a great help.

The team: G. Godby, I. Hay, S. Rabbidge, A. MacDougall, R. Van der Lem, J. Cournane, C. Harwood, M. Popham, M. Squires, M. Cowie, P. Jones, G. Dunbar, P. Langford, C. Lindsay, I. Ballam, D. Shields, D. Anderson, M. Fitzgerald.

SIXTH GRADE C

Captain: A. Ferguson

Coach: Mr. Bailey

At the start of the season we had no permanent coach, our thanks to E. Soper and Mr. V. Bemrose who

SEVENTH GRADE A

Captain: P. I. McKinnel

Coach: Mr. R. Sinton

Played 12, won 8, lost 4.

The team at the beginning of the season was very inexperienced and as a result three early losses occurred. But then the team suffered only one further loss. The two teams who won the first round against us were well beaten in the next round. Outstanding performances were turned in by I. Adamson, D. Hamilton and G. Cuff in the backs while in the forwards M. Kahuroa and P. McKinnel played outstanding rugby with good support coming from M. Little and L. Falconer. But the highlight of the season was when the best of the seventh grade played Kingswell (competition winners) and convincingly won 10-0.

The team wish to thank Mr. Sinton for his time, effort and valuable coaching throughout the season.

The team: P. McKinnel, M. Kahuroa, M. Little, I. Adamson, G. Cuff, I. Falconer, A. Findlay, D. Henly, D. Hamilton, A. Jones, M. Matheson, A. New, D. Pennington, S. Seniviratne, B. Wiskers, R. Clyma and R. Dean.

SEVENTH GRADE B

Captain: B. Morton

Coach: M. Sarson

The team played reasonably well during the season, showing fine sportsmanship, but was unable to record the necessary wins. Players to stand out were C. McDonald in the forwards and M. Sullivan in the backs. Our thanks to coach Mr. Sarson for his efforts during the season.

The team played 12 games for 4 wins and 8 losses.

The team: M. Sullivan, G. Suddaby, G. Sadlier, R. Soper, R. McCall, R. Pierce, R. Sutherland, L. Warnock, G. Robertson, R. Agnew, B. Morton, P. McKinnel, P. Kidd, P. Dale, W. Hodson, T. Popham, I. Muir, P. Thorn, R. Smith, C. McDonald.

EIGHTH GRADE A

Captain: D. Millar

Coach: Mr. Cocks

Played 11, won 9, lost 2. Points for 335, against 30.

The team played well during the season and showed good team spirit. The highest score was 66-0 win over S.B.H.S. 'B'. Our congratulations to A. Coldicott who scored 104 points for the team, a total of 26 tries. The strength in our backs came from A. Coldicott, G. Sharp, B. Vallance and R. Hoskin and in the forwards D. Millar, T. Hammington and J. Hunt. Our sincere thanks to Mr. Cocks for his encouragement and for the time he took to coach the team.

The team: D. Millar, A. Coldicott, B. Vallance, R. Hoskin, R. Kahuroa, G. Sharp, J. Erskine, B. Pascoe, P. Jillings, E. Doidge, T. Hammington, J. Hunt, B. Padget, G. Buckingham, T. Kirk, L. Singleton, P. Burk, A. Christie.

EIGHTH GRADE B

Captain: P. Hilton

Coach: D. Pethig

Due to change in weight restriction we fielded two teams. This resulted in a strong and not so strong combination. However we managed to develop into a well

drilled team thanks to Mr. Pethig who spent a lot of time coaching us, which the team appreciated very much. The team played some very good rugby on many occasions. The results of the matches played were twelve losses, one win and one draw out of fourteen games. Marist 'A' won the competition with our team lying fifth, our congratulations to Marist 'A'. Our best game of the season was against our 'A' team which we lost 12-0.

The team: Aitken, Crawford, Duxfield, O. Evans, J. Evans, Fokkens, Grant, Hilton, King, Larkins, McPhail, Paterson, Payne, Richmond, I. Robertson, C. Robertson, Smith, Swain, Warhurst, A. White, P. White, Wootten and Peters.

Back row: Mr. J. F. Vercauteren (Coach), R. A. Grantham

Middle row: H. G. Rikkerink, P. D. Middlemiss (Vice-captain), D. A. Carter, K. J. Hawkes, J. M. Williamson

Front row: E. G. Mathieson, R. J. Hesson, S. K. Erickson (Captain), W. Emerson, D. R. Murdoch, R. Koik

FIRST ELEVEN

Captain: S. Erickson

Coach: Mr. Vercauteren

We began this season with 8 players from last year returning, which gave promise of a successful season. These 8 players made up the nucleus of the team throughout the season.

This team which is probably the best the school will ever have has come through the season with an outstanding record which will remain unmatched for some time to come.

Club record: Played 19, won 13, lost 3, drew 3. Goals scored: for 84, against 34.

Inter-school record: Played 5, won 3, lost 2. Goals scored: for 20, against 9.

Inter-school results:

School v. Linwood H.S., won 9-1; School v. King's

H.S., lost 2-4; School v. Otago B.H.S., won 4-1; School v. Timaru B.H.S., lost 1-2; School v. Narwee B.H.S., (Sydney), won 4-1.

Chief goal scorers: E. Mathieson 31, G. Simpson 14, R. Murdoch 13, J. Williamson 9.

The three highlights of the season were the defeat of Otago B.H.S., Linwood H.S. and Narwee B.H.S. The team wishes to thank the school for its support during these games, for without it the result may have been different.

The team ended up by coming runners up in both First Grade competitions, which is the closest the school has ever been to winning and the team's thanks go to Mr. Vercauteren for the time, invaluable coaching and devotion he has put towards the team during the 1973 season.

INTER-SCHOOL GAMES

v. Linwood High School — won 9-1

Thanks to the school's support and tremendous team play the school won one of its hardest inter-school games this season. Although the ground was muddy, some first class soccer was played by both teams.

The twin strikers, E. Mathieson and G. Simpson both combined well with each other and both ended up scoring 3 goals each.

v. King's High School — lost 2-4

A rather disappointing game for the school team. The school, during the first half, just couldn't settle down to its usual standard of soccer. Losing most of the ball, the score at half time was 3-1.

In the second half the school team settled down and began to play football. The pressure was kept up until the finish, but King's finally scored another goal.

v. Otago Boys' High School — won 4-1

One of the most outstanding games played by the school team this season. Right from the first minute the team combined well and played some tremendous soccer. This victory was due to a combined team effort with everyone doing his job well. E. Mathieson and G. Simpson both combined well once again, both scoring 2 goals each.

v. Timaru Boys' High School — lost 2-1

Played on a hard ground and in very hot conditions the team had a very disappointing game. The first half showed Timaru as the better team, and they scored two goals. Many of our shots hit the cross bar and side posts making things very depressing, but finally G. Simpson scored a goal.

v. Narwee Boys' High School (Sydney) — won 4-1

Probably one of the most exciting games played by the team this season. Before the game the school team was considered the under dogs, but as the score shows this was not true. The game was played especially on a Sunday afternoon with the hope of attracting a large enough crowd to cheer the school team on.

The ability of the school team was unmatched by Narwee all through the game. From the first minute the school team went on to attack and the first goal was finally scored after 20 minutes of play. A Narwee defender placed a misjudged pass back to their keeper and as a result a goal was scored by them for us.

This goal broke the tension of the game and the school team began to play tremendous football.

Chief goal scorers: E. Mathieson 1, R. Grantham 1, Narwee 2 (for us).

Thanks once again should go to the tremendous support of the school and other members of the community.

THIRD GRADE A

Captain: M. R. Furness

Coach: Mr. Lonsdale

The team had a shaky start to the season this year suffering a few close defeats. However, after the addition of several new players, and the constant, thorough practices run by Mr. Lonsdale, the team began to perform more as a unit and achieved several hard fought victories. The annual inter-school visit to Gore against Gore High School was a closely contested and enjoyable game with the eventual score 2 all after a comeback by Gore High who were down 2 nil at half time.

The results of this year's competition were: played 14 games, won 8, drew 4, lost 2, which makes the team first equal with College.

The team: M. Furness, J. Hammington, D. Parsons, P. De La Mare, A. Dodd, I. Thomas, A. Young, R. Johnston, D. Kirkbright, D. Dimmock, G. Cowie, G. Hoffman.

THIRD GRADE B

Captain: R. Williams

Coach: Mr. P. McMullan

The team this year was unsuccessful in gaining a good position in the competition. Our lack of success was partly due to the removal of 3 of our best players to the A team. Our closest games were played against our A team the scores being 4-3 and 2-1.

Special thanks to Mr. McMullan for his loyal services to the team.

The team: R. Williams, G. Mark, A. Rowsell, D. Bakker, J. Horseman, B. Davis, P. Davis, P. Braam, J. Van Gelder, G. Hoffman, J. James.

FOURTH GRADE A

Captain: S. Pokere

Coach: N. Bennett

Played 12, won 8, lost 2, drew 2.

The team ending up 2nd in the competition. All games were played with vigour and determination which contributed much to the success of the team.

Special thanks to Mr. Bennett for his effort and valuable coaching throughout the season.

The team: S. Pokere, P. Baird, I. Johnson, C. Bell, J. Rikkerink, T. Putt, G. Putt, G. Matheson, C. Sellars, P. Coates, A. Grant.

FOURTH GRADE B

Captain: C. Kalpage

The team lost all its games this season. At first the losses were by very wide margins, but games became less one-sided as the season progressed. Full-back R. Glew and centre-forward G. Adamson played excellently and pulled the team out of many a tight spot.

The team: C. Kalpage, R. Glew, G. Hammington, I. Inglis, S. Nielson, C. Simanu, G. Adamson, R. Ameratunga, D. Blackburn, G. Wilson, C. Young, A. Keen, P. McBeth, N. Swain.

FIFTH GRADE A

Between the first game against Riverton and the last against Kingswell the team showed great improvement. Through the efforts of Mr. Grantham (who coached us

Monday nights and Sunday mornings) the team produced a fine standard of play.

Top goal scorer John Grantham displayed good form right through the season. Overall the team's efforts and sportsmanship were of a high order.

FIFTH GRADE B

Captain: C. Baxter

Coach: Peter Mills

The season was a somewhat ignominious one for although at times the team worked hard it failed to achieve any notable victories. The team was greatly crippled by a lack of players. Consequently the team's obligations were fulfilled by a core of 'reliables' with some others having to be brought in for particular games.

The team: C. Baxter, P. Bartlett, G. Morris, P. Martin, J. Fleming, D. Rowe, R. Mitchell, N. Macindoe.

FIRST HOCKEY ELEVEN

Back row: I. J. Sherborne, P. H. Adamson

Middle row: G. R. Osborne, D. J. Comer, G. L. Cowie, I. J. Thomas, G. J. Skene, Mr. R. G. James (Coach)

Front row: K. R. Rayner, J. P. James, G. W. Patterson (Captain), K. G. Sandri (Vice-captain), D. G. Cowie

FIRST ELEVEN

Captain: Geoff Patterson

Coach: Mr. R. James

Eight of last year's team returned to make the first eleven an experienced team. The season started with matches against James Hargest and Kingswell High, which resulted in two good wins to S.B.H.S. The team played in the local Senior competition again, and the last match of the season against Collegiate which resulted

in a 6-1 win to S.B.H.S. put S.B.H.S. in third position in the competition. Our first competition game of the season against Tuis resulted in a 6-5 win to Tuis, this was an exceptionally good effort by S.B.H.S. against such a strong spirited opposition and the team was unlucky on this occasion not to have won this match.

S.B.H.S. played three enjoyable matches against S.G.H.S. and no doubt S.G.H.S. found our vigorous play overpowering.

All of S.B.H.S. team represented the Southland Secondary School team and G. Patterson played some matches for the Southland Men's team and K. Sandri and P. James played for the Southland Colts.

Our thanks must be given to Mr. James who spent his time in coaching and directing the team, and his presence at the games every Saturday was appreciated.

With a number of players leaving this year, hockey at school will be in a weak position and with few new players coming to school, this will mean S.B.H.S. will probably be regraded from the Senior to the Intermediate grade.

INTER-SCHOOL FIXTURES

v. Waitaki Boys' High — a 4-2 win to Waitaki. In the second half Garth Cowie netted two fine goals. A well spirited game in which the better team won.

v. St. Peter's — a 2-1 win to S.B.H.S. This was a fast match in which St. Peter's scored first. Garth Cowie and Gary Osborne scored S.B.H.S. goals.

v. King's — resulted in a 2-1 win to S.B.H.S. This match was one of the biggest disappointments of our season. The game, played in Dunedin, was refereed by two New Zealand graded umpires who upset players in both teams by not letting the game flow and for poor decisions. As a result certain boys' play became rough and three players were sent off. The Cowie brothers scored for S.B.H.S.

v. Otago Boys' High — a win to Otago by 3-1. This game was lost in about five minutes in the first half when by our mistakes we let Otago score three consecutive goals. K. Sandri scored our only goal.

The team: Geoff Patterson as captain was the mainstay of the forward line with his brilliant stickwork and he was ably supported by Philip Adamson, a speedy right wing, and Gary Osborne who at centre-forward showed he has promise. Garth Cowie proved at home in either the half-line or inside left and his brother Graeme, though a young player was equally adaptable. He played generally at full back with Keith Rayner, a quick thinking player. D. Comer in goal always played consistently while Ian Sherborne at left wing coped well in a difficult position. The half-line comprised Peter James who was solid on defence and attack, Ken Sandri whose play was always of a high standard, and Ivan Thomas who showed considerable improvement during the season. The two emergencies were Geoff Skene and Warren Scobie who always gave of their best when called upon.

SECOND ELEVEN

Captain: W. Scobie Coaches: Mrs. Rich and Miss Hood

The Second XI competed in the city Intermediate Grade Competition, finishing Third behind Hargest A and Kingswell. The team played well throughout the season, however both Hargest A and Kingswell improved a great deal as the season progressed.

The team thanks both Mrs. Rich and Miss Hood for coaching and being at our Saturday games.

The team: W. Scobie (Captain), R. Paton, D. Erskine, L. Buckingham, I. Nish, C. Morison, I. Morison, K. Morison, S. Bunting, N. Lee, N. Mason.

G. Osborne and G. Skene who were in the team at the start of the season went to play for the First Eleven.

Basketball

FIRST FIVE BASKETBALL

Back row: A. R. Randall, B. J. Davies, M. D. Humphries, I. N. Boniface
Front row: A. K. Wilson, B. R. Riddell (Captain), D. R. Cross

FIRST FIVE INTER-SCHOOL MATCHES

v. King's High School — won 67-61

The final score indicates a closely fought game, but this was not the case. Having a decisive lead at half time, 46-25, the score narrowed down due to our poor play at different times, rather than the opposition's good play.

v. Otago Boys' High School — lost 75-60

An exciting game between two evenly matched teams. Due to a bad patch at the end of the first half and beginning of the second half, O.B.H.S. gained a lead. After this things started to come right again and our scoring became more consistent.

v. James Hargest High School — won 76-63

This game, considered the final of all finals rounded off the rivalry between the schools. A good game, with two high scores, indicated a fast moving and scoring game.

v. Narwee College — lost 79-62

Taking the court as underdogs, things turned out on the contrary. After our team leading by 16 points during the first half, the visiting team's experience became obvious, ending with them drawing away to take the lead.

SOUTHERN ZONES TOURNAMENT

In a round robin tournament for southern high schools' teams, we came second, losing the final to James Hargest 47-37.

Number of games played: 24, won 11, lost 12, drew 1. Points for 1,074, against 847. Team free throw percentage 58.1%.

S.B.H.S. first in Men's B Grade Competition.

The Team

Bruce Riddell, as captain, led the team well and took scoring opportunities when available. As one of the more experienced players in the team, Ian Boniface on occasions dominated games with aggressive rebounding and accurate shooting. David Cross had a good start to the season and at times his shooting reached great heights. Probably the most consistent points scorer of the team was Barry Davis, and he always posed a threat to the opposition. Rex Randall was the fittest player in the team. When he did score points he looked a good player. The most improved player in the team was Alex Wilson. As the season progressed he became a leading points scorer for the team. Malcolm Humphries was a newcomer, the tallest player in the team and he took some good rebounds.

SECOND FIVE

Captain: Maurice Watson

Although players appeared to be few and far between at the outset to the season, many willing players, seeing it as a chance to keep in training for other activities, soon joined our ranks. By the end of the season we were able to call on no less than a dozen players, as well as supporters, for our weekly matches. Our main 'strength' lay in eight of the First XV rugby team who played with us at various times.

Not to be put off at having no coach and our practices usually consisting of playing opposition while the First Five tried out their various set plays, our team was usually able to put a full team on the court each week

although in one game we played the whole of the second half with three players.

Probably the greatest success that the team 'enjoyed' was beating a certain rival team, from a certain rival school, twice, but this did not really put us high among the final placings.

It was on the whole a most enjoyable season which on one particular occasion heard the S.B.H.S. Haka resound through the Y.M.C.A. stadium from a full line up of the First XV and Second V.

In conclusion I would like to thank the following people for the parts they played through the season — Dugald Matheson, Iain Manson, Howard Weir, Brent Everett, George McKenzie, Duncan McKenzie, Peter Skelt, Russel Fowler, John Ballam, Murray McBride, Rodger Guise and other players and supporters.

SENIOR

The Senior Inter-school Basketball Competition this year was played between five teams, all from S.B.H.S. and was won by the 'A' team.

Senior A

Team: C. McCulloch (Captain), A. Pierce, W. Popham, G. Sinclair, P. Palmer, N. Scott, G. Young, B. Nieuwenhuyse. Won 7, drew 1, lost 0.

Senior B

Team: G. Bridgman (Captain), R. Morris, N. Bourchier, P. Braam, A. Stodart, L. Beer, G. Gunn. Won 1, drew 4, lost 3.

Senior C

Team: W. Martyn (Captain), E. Campbell, S. McPhail, M. Lee, D. Bennett, G. Barron, G. Skegs, S. Lindsay. Won 4, drew 1, lost 2.

Senior E

Team: M. Ross (Captain), B. Taylor, P. Annear, D. McKinnel, J. McCall, L. Kelly. Won ..., drew ..., lost
All teams' thanks go to coach, Mr. J. C. Alabaster.

INTERMEDIATE

Intermediate B

Team: N. D. Beer, S. J. Clyma, G. R. Gibson, B. D. Harris, D. R. Lines, P. A. Manson, R. B. Niederer, K. A. Wilson. Won 2, drew 1, lost 5.

Intermediate C

Team: W. Ball, W. Cook, D. Davies, J. Falconer, A. Leask, J. Leefe, J. Scott, T. Townshend, A. Ward. Won 3, lost 6.

JUNIOR

Junior A

Team: G. McPhail (Captain), P. Kahukura, G. Johnstone, N. Bartlett, P. Gibbs, R. Wilson, N. Townshend, P. Broughton, H. MacDonald.

The team played well to come Third in the Inter-school Competition.

Junior C

Team: J. Dainty (Captain), S. E. Sharp, R. N. Hoskin, E. H. Murdoch, A. Gordon, J. E. Mason, G. M. Westergaard, J. Wyma, M. C. Smith. The team won four games out of nine.

Both teams extend their thanks to Mr. Lee-Smith for his fine coaching during the season.

Harriers

The club held its opening run as the guests of Mr. and Mrs. Lauren and a large turnout was very pleasing. This year saw teams in all three applicable grades; namely Junior Men (17-19), Senior Colts (13-16) and Junior Colts (under 13). Registered membership was over twenty this season, but once again illness plagued several competitors. Warren White was out of the running literally after only one inter-club event, and John McKenzie and Mark Alabaster were also out, but unlike Warren, were able to rejoin.

Club Captain this year was David Moreton, with Mark Alabaster backing up as deputy. Although not enjoying the privilege of having individual Southland titleholders in the club, teams ran consistently well throughout the season and entered in two open relays which were considerably out of our grade. Other guest runs were from the homes of Mr. and Mrs. Moreton and Mr. and Mrs. Turnbull.

Several runners, although not gaining major placings supported the club with their keenness. These included E. Donaldson, N. Grieg, M. McGowan, L. Hamilton, D. Hepburn, D. Collie, D. Mead and G. Bennett. During the season Southland teams travelled to Timaru for a competition against North and South Island teams, and to Christchurch for the 1973 National Cross Country Championships. David Moreton and Robert Schmidt were members of the winning Southland team in the colts section at Timaru and Paul Miller, accompanied by

David, was the first Southlander home at Christchurch in the Junior Nationals. Another good performance from Paul who travelled to Dunedin two years ago for the same event.

One inter-school was held this year when the team travelled to Dunedin and competed against a King's team stronger than that which beat the club last year. Experience was gained however by all runners on the gruelling hill-climb, and the trip was enjoyed by all participants.

The club would like to thank Mr. Lauren for his coaching and organising which he did during the season, and was appreciated by all.

BADMINTON TEAM

M. J. Lindsay, P. R. Brass, N. D. Skelt (Captain) A. J. Furlong, D. A. Small, Mr. T. C. Berridge (Coach)

Coach: Mr. Berridge

The loss of two of last year's key players combined with a serious leg injury which kept Nigel Skelt our No. 1 player in plaster for two months, meant that the school No. 1 team was hard pressed to maintain its enviable record in the Secondary Schoolboys' Competition.

However maintain it they did and for the fourth year in succession they won the W.I. Brown trophy though it must be admitted that James Hargest on several occasions gave us a very hard battle and in one match in particular, in which we won by a meagre 4 points. The school also won the B Grade section of this competition thus showing the depth of badminton in the school. Competitors from all schools taking part in this competition owe a debt of gratitude to Mr. Berridge for organising and controlling this competition.

Our sole inter-school match this year was against King's High and this game played in Dunedin. We won handsomely 7 matches to 1. Our team comprised David Small, Michael Lindsay, Peter Brass and Tony Furlong, and with the addition of Nigel Skelt. This formidable line up would be equal to that of any other Secondary Schoolboys' team in the country. It is hoped as inter-school badminton becomes established among northern schools that more inter-school visits will be held.

Once again the real strength of badminton in the school was shown with the results of individual players at N.Z. and provincial level. Michael Lindsay shared the under 16 N.Z. doubles title and also won the Southland under 16 singles, doubles and mixed doubles and to top it off, won the Southland Open B Grade Championship

Singles title. Michael was also a member of the Southland under 18 team which retained the Woolworths trophy in an exciting competition between South Island teams.

Nigel Skelt despite a season badly curtailed by injury won the North Island and N.Z. under 18 boys' doubles and mixed doubles events. Partnered by brother Peter who of course plays for the First XV, they made the semi-finals of the N.Z. Open Men's Doubles. A very fine performance and one that has never been matched in the history of N.Z. badminton. The two brothers between them won the three Southland Open Championship titles. Peter winning the singles. They shared the doubles and Nigel at 16 became the youngest ever holder of the mixed doubles title. Nigel also won the Southland under 18 singles and mixed doubles titles.

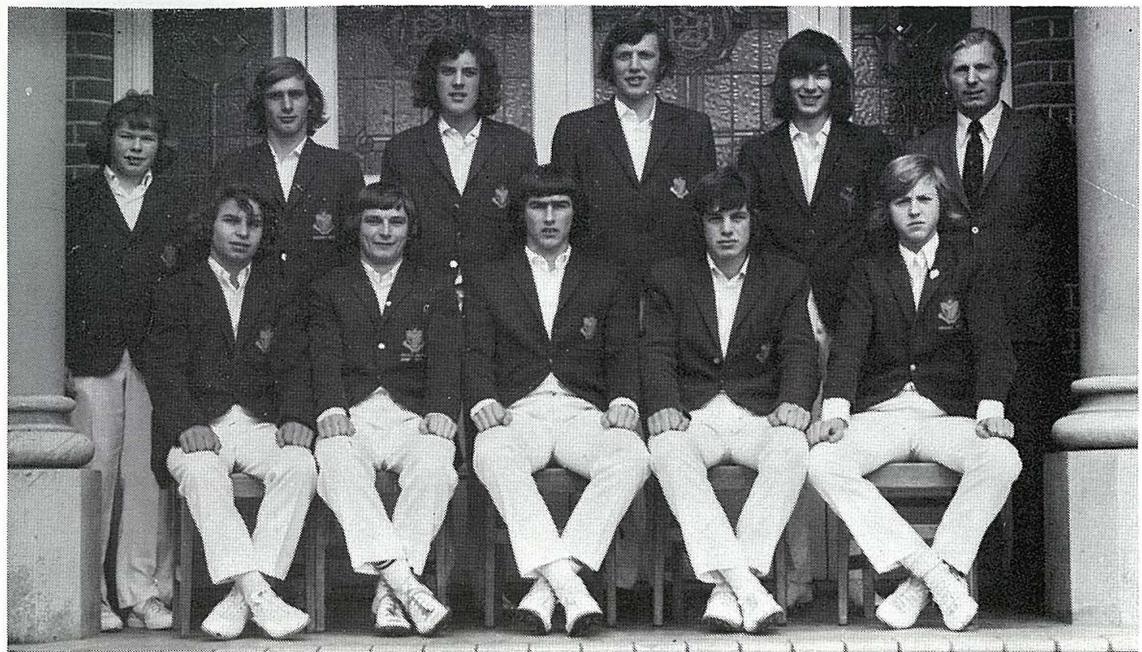

Other members of the school team, although not achieving such success played very well in local championships, David being runner up to Nigel in the Southland Under 18 Singles Championships and runner up to Michael in the Southland B Grade Singles.

In the School Championships David Small did well in winning the Skelt Cup, in a worthy final against the titleholder Michael Lindsay. David fully deserved the title as he has played consistently well all year. Perhaps one of the year's most improved players was D. Neilson who won the Junior Championship.

All members of the school club wish to thank Mr. Berridge for the work he has done for Badminton both as a coach and an administrator and the school must look on with increasing interest as Badminton in the school moves from strength to strength.

FIRST CRICKET ELEVEN

Back row: M. J. Lindsay, D. G. Cowie, A. D. Pierce, S. Shepherd, R. E. Logan, Mr. D. Pethig (Coach)
Front row: J. R. Faul, D. R. Murdoch (Vice-captain), E. J. Soper (Captain), B. C. Everett, D. G. Matheson
Absent: N. J. McArthur, G. Paris, B. Howard, M. Pittaway

FIRST ELEVEN

Captain: E. Soper

Coach: Mr. D. Pethig

The 1st XI suffered from an indifferent start to the season, but recovered as it progressed to finish with nine wins and three losses from 17 games. Most of the team lacked the experience necessary to win games, but towards the end of the season the results proved the progress that had been made by most of the players. With continued effort and renewed spirit the team should do better in the coming season.

The team would like to thank Mr. Pethig for his coaching during the season which has been responsible for much of the improvement shown in latter games.

INTER-SCHOOL GAMES

v. St. Andrew's at S.B.H.S., 5th-6th December 1972

St. Andrew's won the toss and elected to bat on a good batting wicket. Against a steady attack they scored 234. S.B.H.S. batted next and after a slow innings declared at 158 for 7 with N. McArthur unbeaten on 59. St. Andrew's then scored a brisk 140 and declared leaving 216 for S.B.H.S. to chase. The challenge wasn't met and

the game was drawn with S.B.H.S. 128 for 5 with J. Faul unbeaten on 31 holding the innings together.

Scoreboard:

St. Andrew's — First innings	234
S.B.H.S. — First innings	158 for 7 declared
(Top scorer N. McArthur, 59 not out)	
St. Andrew's — Second innings	140 for 7 declared
S.B.H.S. — Second innings	128 for 5 wickets
(Faul, 31 not out; A. Pierce, 29 not out; R. Murdoch, 28)	

v. Geelong College, 25th-26th January 1973

Geelong won the toss and sent S.B.H.S. in to bat, with 4 hours rained out on the first day and with only 8 possible for play the game appeared to be headed for a certain and uneventful draw. However declarations by both sides enabled an exciting finish to this ruined game.

Scoreboard:

S.B.H.S. — First innings	98 for 8 declared
(R. Murdoch, 30)	
Geelong College — First innings	70 for 5 declared
(Lindsay, 3 for 11)	
S.B.H.S. — Second innings	89 for 4 declared
(B. McKechnie, 43)	
Geelong College — Second innings	115 for 5
(B. McKechnie, 2 for 54; S. Pittaway, 2 for 42)	

v. King's at S.B.H.S., 20th-21st March 1973

S.B.H.S. won the toss and elected to bat, but collapsed badly to be all out for 88. The situation was made a little more respectable by exceptionally good bowling by spin bowlers D. Matheson and M. Lindsay backed up by good fielding. In their second innings S.B.H.S. batting improved to reach a total of 193 which included an excellent 95 by R. Murdoch. With 117 needed to win King's went in to bat and due to exceptional bowling by B. Everett (5 for 18) they narrowly avoided defeat.

Scoreboard:

S.B.H.S. — First innings	58
S.B.H.S. — Second innings	88
King's — First innings	134
(McArthur, 4 for 36; Lindsay, 3 for 9; Matheson, 3 for 20)	

v. O.B.H.S. at Littlebourne, 27th-28th March 1973

S.B.H.S. won the toss and elected to bat on a pitch which had been soaked the day before. S.B.H.S. batted steadily to a total of 169 when the innings ended. O.B.H.S. followed and against tame bowling scored 295 for 9 and declared. Very little time remained and the game was played out to a draw.

Scoreboard:

S.B.H.S. — First innings	169
(McArthur, 50; Pierce, 47)	
O.B.H.S. — First innings	295 for 9
(Matheson, 5 for 50)	
S.B.H.S. — Second innings	168 for 5
(R. Murdoch, 64 not out)	

The Team

The captain, E. Soper, led his team with considerable credit, whilst vice-captain, R. Murdoch, was an outstanding batsman and competent keeper. D. Matheson was capable with both bat and ball as was N. McArthur a forceful batsman who developed into a fine medium pace bowler. J. Faul always proved a reliable player whether batting or bowling. B. Everett toiled well as opening bowler. A. Pierce was a batsman whose full potential wasn't realised during the season. M. J. Lindsay showed tremendous improvement as an off-spin bowler as did R. Logan with the bat and ball. G. Cowie showed that he is capable of scoring many runs. M. Pittaway and B. Howard were valuable bowlers while G. Paris and S. Shepherd proved their worth as batsmen.

SECOND ELEVEN

Captain: P. McKinnel

Coach: Mr. East

The team played in the newly formed College Grade, but proved too strong for its opponents. Outstanding performances were put up by Skelt, McKinnel and Jenner in batting, while in the bowling valuable performances were put up by McKinnel, Jenner, Ward and Clark.

The team wishes to thank Mr. East for his time, effort and invaluable coaching throughout the season.

The team: P. McKinnel, N. Skelt, R. Jenner, R. Ward, G. Clark, A. Pannett, M. Christie and R. Silke.

THIRD ELEVEN

Captain: J. Fraser

Coach: Mr. Lonsdale

The 3rd XI cricket team was one of two teams, the other being the 2nd XI, in the College Grade competition.

The team was second in the competition to the 2nd XI, being beaten by the latter by only 3 runs. Some players were chosen to make up a strong combined team to play the school's 1st XI and Central Southland College. The team was lucky to have the valuable services of J. Fraser, M. O'Connor and P. Skelt. The team was generally good all round, but had the occasional bad day. Apart from this there was the fine spirit shown in coaching this team. Once again many thanks to Mr. Lonsdale.

The team: J. Fraser, M. O'Connor, P. Skelt, M. Ross, D. McKinnel, J. McCall, R. Davis, L. Kelly, C. Senaviratne, G. Hammington, M. Little, G. Erskine, B. Davis, G. Putt.

FOURTH GRADE A

Captain: L. Singleton

Coach: Mr. G. Alabaster

The whole team played exceptionally well throughout the season and every member of the team showed a high degree of responsibility. The height of the season was reached when 202 for 2 declared was scored against our C's. The bulk of this score came from the bat of G. Dawson who scored 106.

The team: L. Singleton, R. Hoskin, G. Dawson, K. Johnston, C. Kalpage, M. Ballantyne, L. Henry, E. Murdoch, S. McCrostie, G. Cowie, R. Pearce, T. Hammington.

FOURTH GRADE B

Captain: R. McMillan

Coach: Mr. I. Shirley

We had an enjoyable season with varied performances during this time. With good attendance, we always had a full team with consistent batting from Neil Swain who was also successful with the ball, taking an average of two wickets a game. G. Osborne was also a consistent opening batsman making 28 as a top score.

The most enjoyable game was against Southland College, with some good fielding and all round play by all players. G. Hammington also had a good season after settling down to constant medium pace bowling taking three wickets in one game.

Our thanks go to Mr. Shirley for his valuable coaching and attendance at games.

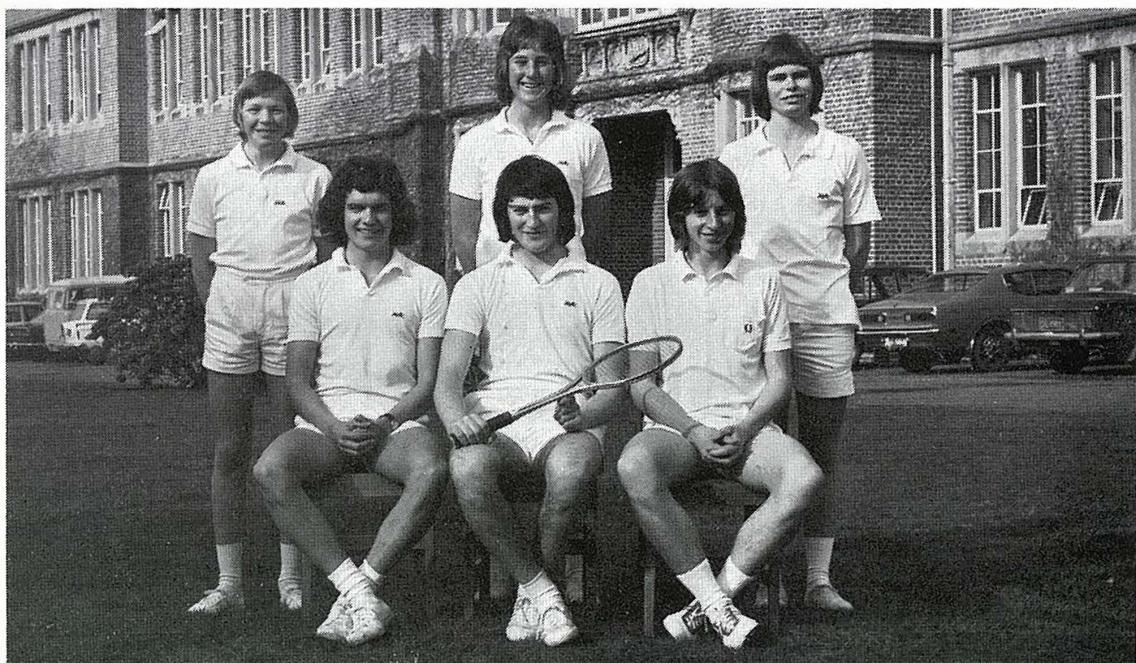

FOURTH GRADE C

Captain: A. Young

Coach: Mr. D. Cocks

The C team had an unlucky season losing all games apart from one when Southland College defaulted. Our outstanding player of the season was B. Morton. His continuously good bowling and batting made our defeats look not too bad. Morton's most successful day was against Fourth A S.B.H.S. when Bruce took 4 wickets for 58 runs. Our highest score in batting was B. Morton with 76 runs and for bowling was A. Young with 14 wickets. With thanks to Mr. Cocks and to Mr. Pethig who organised the cricket for the season.

Tennis

TENNIS TEAM

Back row: W. R. Lowry, R. J. Hesson, J. V. Reid

Front row: M. S. Bell, I. N. Boniface, J. P. James

Our veteran senior players, Ian Boniface (captain), who is a powerful and consistent player whose experience is a great asset to the team, and Mark Bell, whose intelligent anticipation combined with accurate placement of the ball appears to be the key to his success this season, were in grand form this year. Ably supported by Peter James, whose enthusiasm is reflected in increasing steadiness, a very effective service and pleasing style. John Reid, a dependable player who wastes no energy on flamboyant play and makes few errors, Robin Hesson, who combines sound court tactics with a range of effective strokes and a workmanlike style which, with determined practice, will make him a very formidable opponent and Wayne Lowry, who with improving steadiness should do well this season, we were justified in expecting to turn the tables on Otago

Boys' High in the main inter-school fixture of the season, played at Dunedin. With Mark winning every game, Ian losing only one and Barry Lindsay, as reserve, going down fighting for every point, victory eluded us by only a single rubber, the final score being 12 games to 9, to Otago Boys'. For Otago, it was unquestionably a hard-earned victory.

Inclement weather terminated the Southland Secondary Schools' Championships somewhat prematurely, however both Senior and Junior matches were played with spirit, with Grant Suddaby leading a very promising Junior team. From the sidelines R. V. Ameratunga, P. Dale, P. Kahukura, T. A. Popham and C. J. Seneviratne all looked good; undoubtedly the nucleus of a highly formidable team this season.

Athletics

ATHLETIC TEAM

Back row: J. W. M. Adamson, S. T. Pokere, I. W. Brown, G. L. Cowie, G. W. Simpson, W. T. Compton, G. L. McPhail, G. E. Sharp, S. J. McDowell

Middle row: Mr. M. J. Lauren, T. A. Young, A. K. Wilson, M. D. Humphries, R. N. Schmidt, P. H. Adamson, W. S. White, A. R. Randall, B. E. Atkinson, R. Kolk, J. B. Anderson

Front row: A. Grant, P. N. Annear, P. D. Miller, G. G. McAuliffe, I. J. Sherborne, B. J. Gilbertson, L. A. Kelly, S. J. McPhail

Athletic Club

School athletes performed with distinction once again at the Southland Centre N.Z.A.A.A. Athletic Championships, winning both the Colts and the Junior team's sections. Andrew Morris and Ian Sherborne provided a monopoly in the field events while Philip Adamson, Russell Fowler and Ronald Kolk competed with distinction in the shorter track events. Paul Miller and David Moreton were the most successful in the distance races and Chris Moreland also performed well in the pole vault.

Inter-school Athletics

Following a spate of record breaking at the school athletic sports, athletes from the school carried this mood forward to the two inter-school meetings and many notable performances were achieved, both individually and in team competitions. Placings at the two inter-school meetings were:
