SOUTHLAND BOYS' HIGH SCHOOL

Incorporated 1877

Opened 1881

Southland Boys' High School

HERBERT STREET, INVERCARGILL

BOARD OF GOVERNORS

Chairman: J. CHEWINGS, Esq.

Miss E. M. NELSON, Drs. G. B. ORBELL, M.B.E., N. G. PRENTICE and L. R. STEWART,
Messrs. J. W. FRASER, H. P. FOWLER, F. K. KNOX, and W. R. J. MAY.

Secretary and Treasurer:

L. H. ALLOTT

Rector:

L. M. CORNWELL, M.A.

Positions of Responsibility:

G. C. MARTIN, M.Sc., A.N.Z.I.C. (Deputy Rector)	G. H. KNIGHT, B.Sc. (Lond.) (Head of Mathematics)
C. R. ROBERTSON, B.A. (Head of Social Studies)	W. S. WATERSON (Biology)
T. C. BERRIDGE, M.A. (Head of English)	T. T. RYDER, M.A. (Geography)
*P. FITZGERALD, M.Sc., A.N.Z.I.C. (Head of Science and Hostel Manager, "Coldstream")	G. D. ALABASTER, Dip.Phys.Ed. (Physical Education)
N. P. H. JONES (Head of Commerce)	A. D. FYFFE (Agriculture and Careers Adviser)

Assistant Masters and Mistresses:

J. C. ALABASTER (on leave)	W. D. HENSTOCK
V. W. BEMROSE (Woodwork)	R. G. JAMES, B.A., L.T.C.L., L.R.S.M., A.T.C.L.
Mrs. S. H. BOAG, M.A.	Miss D. M. KING
B. V. BRIGGS, B.Sc.	D. D. McCLYMONT, Dip.Phys.Ed.
Miss S. P. CARROLL, B.A.	A. M. McINTOSH, B.A.
*E. R. CURRIE, M.A.	D. PARISH
C. R. D. DOWNES, M.A., Dip.Ed.	*G. A. PEARSON, M.Sc.
R. J. H. CURTIS, B.A.	J. H. M. SMITH, A.F.C., M.A. (Cantab.), A.R.Ae.S.
T. W. M. DUERDEN	L. K. TURVEY
M. EGAN, M.A.	C. R. WILLIAMS, B.A.
R. S. FRANKLIN, F.T.C.L., L.T.C.L., L.L.C.M. (Music)	Mrs. A. D. WILSON (Art)

* Denotes Housemaster, "Coldstream"

Secretary to the Rector: Miss M. WEBB

Librarian: Mrs. I. E. GRAY

School Caretaker: A. F. PERKINS

Groundsman: F. C. SHUTTLEWORTH

SCHOOL OFFICERS - 1967

Head Prefect:

J. M. CHAPLIN

Prefects:

N. F. M. WALKER (Deputy Head), N. A. BLACKMORE, M. J. CAMPBELL, G. B. CHALMERS, R. A. FORREST, B. S. HUTCHINS, J. R. MYERS, A. L. NEWTON, J. R. PRITCHARD, J. D. SCANDRETT, D. B. SCOTT, I. M. SHIRLEY, B. J. TRAVERS, T. R. McINTYRE, A. T. PENNICOTT, I. S. ALSWEILER.

Coldstream Prefects:

B. S. HUTCHINS, B. S. WATTS, D. K. SPITTLE, I. MAXWELL, R. JENNINGS, L. V. EVANS, N. D. COLLIE, H. S. LEITH.

Team Captains:

Rugby—1st XV: J. M. CHAPLIN. 2nd XV: N. A. BLACKMORE. 3rd XV: B. M. WALLIS.

Cricket—1st XI: I. M. SHIRLEY. 2nd XI: D. G. PEAKE.

Basketball—1st V: G. N. ADAM. 2nd V: B. M. WALLIS.

Soccer—1st XI: A. R. HUGHES. 2nd XI: B. SOUTAR.

Hockey—1st XI: J. R. PRITCHARD

Harriers: B. J. TRAVERS

Softball—1st IX: A. T. PENNICOTT

Swimming: D. R. KENNEDY

Tennis: N. F. M. WALKER

Life-saving: J. R. PRITCHARD

Athletics: G. R. R. HUNTER

B. J. TRAVERS

Clubs—Radio Club: M. DIACK. Crusaders: Mr. FYFFE. Chess Club: Mr. BERRIDGE. Debating: Mr. JONES. Photography: B. SOUTAR. Rifle Club: B. M. WALLACE. Rowing Club: K. MORTON. Motor Mechanics: J. MYERS. Civil Defence: Mr. JONES. Science Club: M. DIACK. Folk Music: P. JOHNSON.

Librarians: M. BERRIDGE (Head), B. MILLER, R. CAPIL, A. CARR, P. JOHNSON, D. HARRISON, K. MILLER, G. WILSON, B. SOUTAR, G. MACASKILL, D. NEILSON, D. SPITTLE, G. MORGAN, P. VANDERLEY, R. AUTON, B. BENNETT, G. BURNS, G. MILLS.

Bookbinding: C. ALEXANDER, G. DONALDSON.

Bookroom and Stationery: N. A. BLACKMORE, D. B. SCOTT, M. J. PASCOE, R. A. DYNES.

School Council:

President: D. C. CULL. Secretary: B. A. WALLIS.

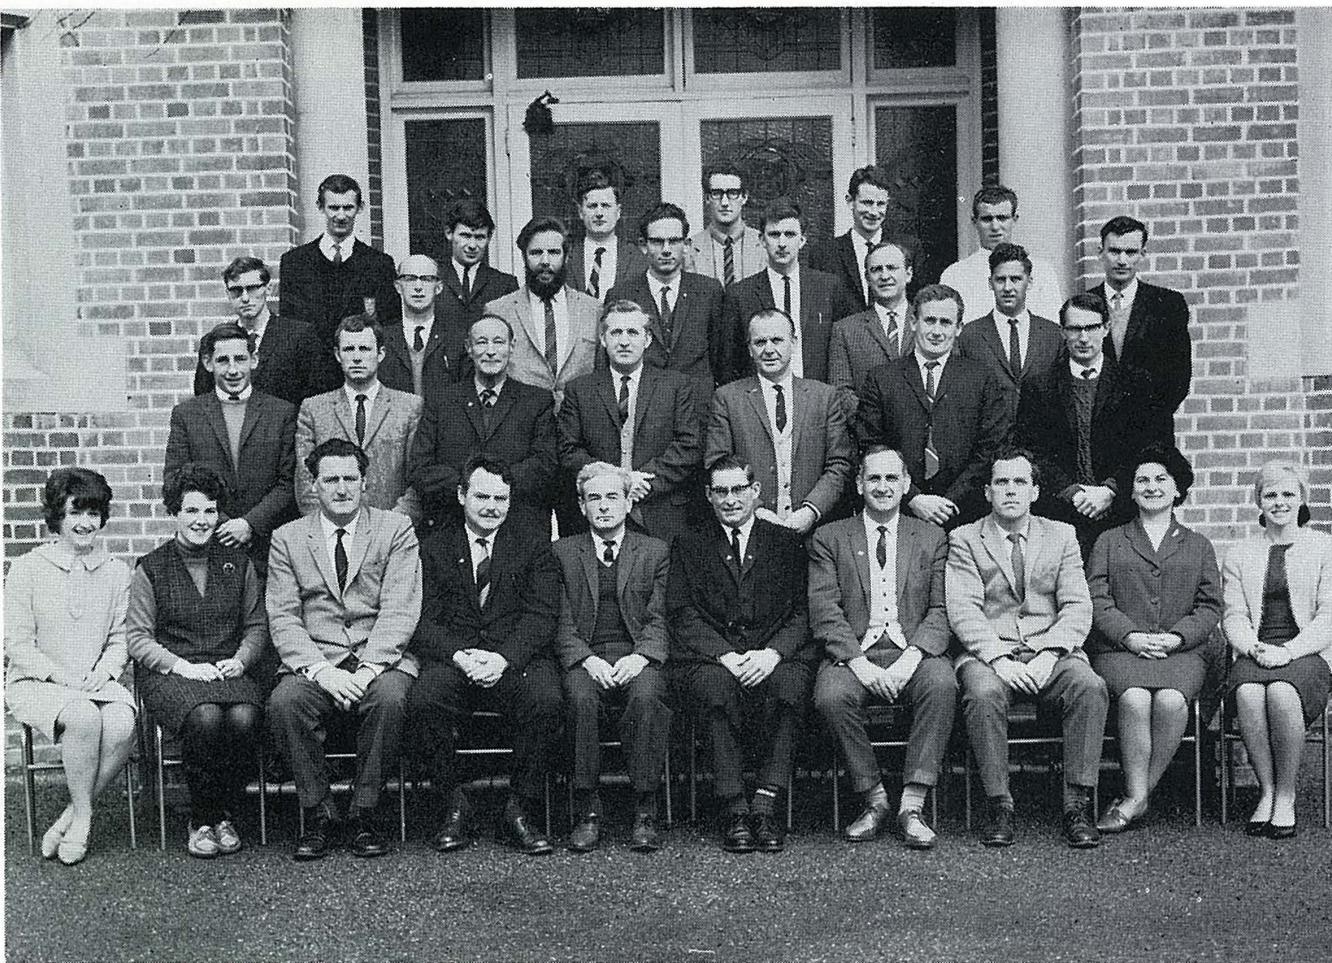

School Pianists:

B. A.AITKEN, A. M. SKENE, D. J. M. HIDDLESTONE.

Magazine Committee:

D. C. CULL, R. A. FORREST, N. F. M. WALKER.

STAFF

Back row: R. S. Franklin, M. Egan, T. T. Ryder, C. R. Williams, L. K. Turvey, D. D. McClymont

Third row: W. D. Henstock, T. W. M. Duerden, G. H. Knight, R. J. H. Curtis, A. M. McIntosh, W. S. Waterston, R. G. James, G. A. Pearson

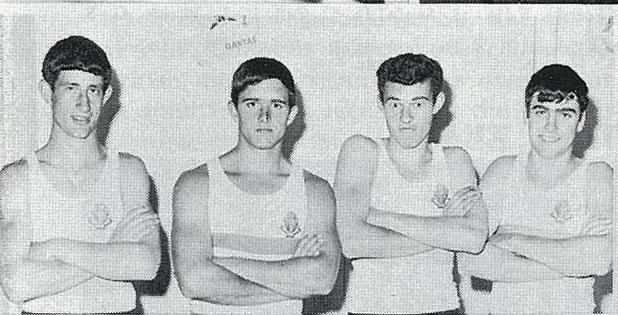

Second row: E. R. Currie, D. Parish, J. H. M. Smith, V. M. Bemrose, A. D. Fype, B. V. Briggs, G. D. Alabaster

Front row: Miss D. M. King, Mrs. S. H. Boag, T. C. Berridge, N. P. H. Jones, G. C. Martin, L. M. Cornwell, C. R. Robertson, P. A. Fitzgerald, Mrs. A. D. Wilson, Miss S. P. Carroll

PREFECTS

Back row: A. L. Newton, J. R. Pritchard, T. R. McIntyre, B. J. Travers, A. T. Pennicott
Middle row: G. B. Chalmers, M. J. Campbell, N. A. Blackmore, B. S. Hutchins, D. B. Scott
Front row: J. D. Scandrett, I. S. Alsweiler, J. M. Chaplin (Head), N. F. M. Walker (Deputy Head),
I. M. Shirley, R. A. Forrest

Top left: " My ball! "

Top middle: A debatable subject

Lower middle: Southland junior record breakers

Bottom left: "... and old Tom Cobley and all! "

Top right: Roll out the barrel

Right middle: School Council heads

Bottom right: Prefects' last stand

Top centre: Fred Knight, A.F.S. Scholar, 1967

THE UPPER SIXTH, 1967

Back row: B. J. Travers, P. N. Johnson, S. J. Dermody, B. S. Watts, D. J. Watson, J. M. Chaplin, S. P. Brooks, M. B. Weeds, D. R. Kennedy

Third row: R. F. Slaughter, R. J. Baxter, N. Withington, J. B. Hightet, J. R. Oliver, M. B. Diack, M. T. Berridge

Second row: D. K. Spittle, D. K. Peake, R. A. Forrest, F. W. G. Swain, D. C. Cull, E. L. Blaikie, G. S. Stanley, D. B. Scott, M. J. Campbell

Front row: B. S. Soutar, J. R. Pritchard, G. R. MacGregor, B. S. Hutchins, D. R. Nicholson, J. D. Scandrett, I. M. Shirley, G. G. Chalmers, A. L. K. Newton, N. A. Blackmore

Absent: N. F. M. Walker, C. J. McKay

DEBATING TEAM

Back row: J. J. Waldron, D. C. Cull, Mr. N. P. H. Jones, G. R. Stanley, R. D. Checketts

Front row: L. S. Gray, R. Dynes, P. J. Clarke, A. J. Pomeroy

EDITORIAL

With the new trend in education in New Zealand favouring the American system, Southland Boys' High at present finds itself in a very challenging position.

Our school has been established along the traditional lines of the British education system of the eighteenth and nineteenth century. Emphasis has been on activities that engender school spirit and tradition, and this is unquestionably essential to the maintenance of a pride in one's school long after leaving it. This characteristic of the system has, however, led to the subordination of the development of personality, individual thought and self-confidence to the development of school spirit. Unfortunately school spirit is not going to facilitate the expression of one's own thoughts on a specific subject, and this lack of individuality and of the desire to express one's own opinions could conceivably be manifested in the "complacency of New Zealanders" (to use a hackneyed phrase).

This reluctance to exert personality and individual opinions is virtually non-existent in American society, since emphasis in the American system of education is on self-confidence in expressing one's thoughts and opinions; on social relationships by building co-educational schools, and on individuality and personality by the system of student bodies as governing councils of the schools' activities, by the absence of school uniforms, and by closer teacher-pupil relationship. So, like the British system, the American system of education has many beneficial characteristics. However, again like the British, the American has its own major weaknesses. The lack of emphasis on solid tradition means that the school's activities are heavily influenced by a boisterous exhibitionism which is prevalent in many American-influenced co-educational schools in New Zealand, and also it means that the matured "old boys" or alumni will have nothing solid or worthwhile to look back on with pride.

So the challenge for Southland Boys' High is that it has a wonderful opportunity at the present time for the combining of the best qualities of both the British and the American systems of education. To the solid tradition of school spirit and school pride we have added the American-style School Council to encourage personality and individuality, and it is a significant comment on the underlying suppressed feelings of the New Zealander as an individual that this Council has stimulated the imagination and personalities of boys to give a unique New Zealand atmosphere to the proceedings, and it is thankfully lacking in the rigidity inherent in British, and in some American institutions. The trend of closer teacher-pupil relationship is being decidedly influenced by American ideas, as is the trend for a more intensive, enquiring, and personal approach to education. A manifestation of this latter trend was the Southland-wide seminar held earlier this year. So Southland Boys' High has all the foundations on which to build an integrated Anglo-American type of education that would, once it became established nationally, soon be moulded into a unique system; with the encouragement of a similar government policy—into a modern system that could truly be called "the New Zealand system of education".

—N. F. M. W.

SCHOOL DIARY

TERM 1

FEBRUARY

Wed. 1st: 3rds and 6ths return. Prefects' bike-stands filled with 3rds' bikes. 23 3rds wear caps into Assembly Hall. 6ths introduced to A.F.S. scholar, Fred Knight.

Thurs. 2nd: U6th forms invade bookroom. "Please leave all chemistry books where they are," asks Mr. Jones. All chemistry books are promptly snatched up by scientific 6th formers. 3rds book issue in afternoon. Rest of School returns.

Fri. 3rd: First assembly held. "For the assembly was confused; and the more part knew not wherefore they were come together" (Bible). Book issue capably handled by Blackmore and his select crew. New teachers welcomed to School: Mr. Egan, Mr. Henstock, Mr. Poole. Houses are again formed. House names other than Red, White, Blue and School to be used.

Mon. 6th: Miss Carroll and Miss King are introduced at assembly. Rector notes that the assembly is most unsteady. "I should like to know what is the proper function of women" (George Eliot).

Wed. 8th: Clubs are formed again. Folk music and vehicle maintenance seem popular. Someone suggested a surfing club.

Fri. 10th: Bluff bus loses wheel. "Rough is the road, your wheel is out of order" (George Canning).

Tues. 14th: Mr. Smith claims U6th Physics classes sabotaged by late-comers. "Too late, too late: ye cannot enter now" (Lord Tennyson).

Wed. 15th: Messrs. J. and G. Alabaster depart to play cricket in Dunedin. "It it a silly game where nobody wins" (Thomas Gainsborough). Senior School votes for prefects.

Thurs. 16th: Mr. Jones opens second-hand case shop after a number of cases are confiscated outside R2.

Mon. 20th: Prefects announced.

Tues. 21st: Inspectors at School.

Thurs. 23rd: Travers tries to convince the prefects that he was attacked by a shark when surfing this morning. "The imagination of a boy is healthy" (John Keats). Mr. Robertson sympathises with Chaplin on seeing he is the only one in Upper 6th History without chewing gum. Mr. Curtis's Mini can do 0-50 m.p.h. in 7 secs. now. Prefects go to leadership course at Y.M.C.A. Dined on "mince and spuds".

Tues. 28th: House names announced. Sports afternoon. U6th entered "en masse" in the Senior Mile. N. Blackmore wins in 5min. 25sec. Field stopped after first round by Rector, and restarted. Foul play suspected, eh Watts?

MARCH

Wed. 1st: Senior Mile hits headlines. Dashing photo in paper with unfriendly caption. Shirley well to the front. Prefects entertained Girls' High prefects, who come to watch sports. "They're coming, here they are, don't look at them" (Paul Stookey).

Thurs. 2nd: Forrest reads out tremendous fatigue list after being given advice by Mr. Ryder, "Hold your head up, boy!" Song books issued. Used for first time. "Our solemn hymns to sullen dirges change" (Shakespeare).

Mon. 6th: Cricket against King's High. Scandrett breaks first window in prefect's room. "The head flew off, you see, sir."

Tues. 7th: Cricket ends in a draw.

Wed. 8th: Prefects visit Girls' High sports.

Thurs. 16th: Mass raid on suitcases in bottom corridors brings welcome finance to prefects' furniture fund. Certain boys thrown out of U6th English for talking. "Anarchy and competition are the laws of death" (Ruskin). Mr. Knight at form meeting: "I don't see, just 'cos you're 6th formers, why your parents can't make up their own minds whether to come to the P.T.A. meetings."

Fri. 17th: Mr. Cornwell tells School that our grounds are the best in Australasia. "Well not the best, . . . well almost the best . . ." (Mr. Kimble).

Mon. 20th: Sports teams return from successful meeting at Oamaru. Discus record broken by 20 ft. by Newton. Hunter wins Long Jump. 1st XI and 1st Tennis leave for Otago Boys'.

Tues. 21st: Progress report on Mr. Jones' moustache: "It's coming along nicely, thank you."

Wed. 22nd: Teams return from Otago. 1st XI lose honourably; Tennis wins 17-4. School breaks up for Easter. "You idle creatures, get you home; is this a holiday?" (Shakespeare).

Wed. 29th: Mr. Berridge announces that Southern Comedy Players will not be performing.

APRIL

Fri. 7th: Rector places back track and Queen's Park out of bounds. "Oh how I long to travel back and tread again that ancient track" (Henry Vaughan).

Tues. 11th: U6th biology trip leave for Stewart Island. "Let me go, sir" (Hilaire Belloc). Mr. Egan gives U6A English a spelling test! "I copied all the letters in a big round hand" (William Gilbert).

Fri. 14th: U6th Biology returns.

Mon. 24th: Anzac Day service—Mr. Cornwell speaks.
“Another yet the same” (Alex Pope).

Thurs. 27th: Dave Donaghy scores his first try at practice tonight.

MAY

Wed. 1st: Swimming sports held at Baths. Deaker House takes the honours.

Tues. 2nd and Wed. 3rd: 6th Form seminar. “They have learnt nothing, and forgotten nothing” (Talleyrand).

Thurs. 4th: School dance held.

Fri. 5th: School breaks up for holidays.

TERM 2

Mon. 22nd: Mr. Briggs gets married during holidays.
“A young man married is a man that's marred” (Shakespeare). Rector introduces Mrs. Boag. Rector praises School's success in art competitions.

Tues. 23rd: Mr. Currie knocks at prefects' door. “Come in, lad. Up!” says Scandrett.

Wed. 24th: 1st XV wins match against Varsity Old Boys—Mr. Ryder referees. “He never wants anything but what's right and fair” (Thom. Hughes).

Fri. 26th: In spite of repeated pleas by Scandrett, 6th Formers going to St. Hilda's ball have to leave after 3.30 p.m. “Not Hebrew, Arabic, Syriac, Coptic, or even the Chinese language seems half so difficult to me as the language of refusal” (Anon.).

Wed. 31st: Mr. Waterston warns School: “I do not like being a policeman.”

JUNE

Thur. 1st: Rector warns that he intends to install permanent loudspeaker system in hall. “Forewarned is forearmed” (Anon.).

Tues. 6th: Mr. Franklin breaks arm over week-end.
“Wilful men, the injuries that they themselves procure must be schoolmasters” (Shakespeare).

Wed. 7th: 1st XV triumphs in first inter-school by trouncing James Hargest by 32-9, in spite of strong opposition from Hargest's vocal support.

Mon. 12th: Mid-year exams begin. “I know nothing” (Sarge Shultz).

Tues. 20th: Exodus of U6th to business firms round town. Mr. Smith gives back U6th Physics paper and tells Brooks that a triple point is not a three-pin plug. Otago Boys' arrives—Debate lost 318 to 310 in spite of heroic efforts by Pomeroy.

Wed. 21st: In Arctic conditions, interschool fixtures continue. 1st XV loses 10-5, 2nd XV wins 6-3, 1st XI loses 5-1, Hockey wins 2-0, Basketball loses 45-39.

Thurs. 22nd: School Council holds first meeting. Cull is new President, Wallis new Secretary. “It's my opinion, sir, that this meeting is drunk sir!” (Chas. Dickens).

Wed. 28th: Mating dance held. “Birds of a feather, flock together” (Anon.).

Thur. 29th: Bluff bus explodes outside School. “Not with a bang but a whimper” (Thom. Eliot). School undergoes dollars and cents test.

Fri. 30th: Dr. Des Crowley, Rector of Adult Education Dept. of Sydney University, enlightens School on Mr. Cornwell's school days. “But I was young and foolish, and now am full of tears” (William Yeats).

JULY

Wed. 5th: Waitaki and Linwood visit the School. 1st XV win 10-6, 2nd XV lose 11-0, 1st XI 8-4. Debating triumphs 338-250.

Thurs. 6th: 20 degrees frost for departure of teams at station.

Mon. 10th: Mid-term break.

Tues. 11th: Rector holds Holiday Special Assembly for 5ths and 6ths during lunch hour.

Thurs. 13th: Ball preparations underway. “Much ado about nothing” (Shakespeare).

Fri. 14th: Wild West theme best ever. Fantastic show.

Mon. 17th: Rector praises ball. Cull sleeps through double English period but doesn't wake Mr. Egan. “Surely, surely, slumber is more sweet than toil” (Lord Tennyson).

Tues. 18th: Representatives from the Blind Association speak about Braille Week. 1st XV and 1st XI leave for King's High.

Wed. 19th: King's games—1st XV wins 22-9, 1st XI loses 10-2, Basketball loses 63-47. Rector, in Labour Union type speech, warns against lifting pianos, or any hard work.

Fri. 21st: Mr. Cornwell appoints Mr. Waterston as a Special Board of Inquiry into various dubious fire drill activities in the pavilion.

Mon. 24th: Mr. Martin clamps down on trumpeting nose-blowers in assembly. “Little Boy Blue, come blow up your horn” (Punch).

Tues. 25th: Mr. Robertson gives U6th History first full double period of work for year. “And many that are first shall be last” (Bible). School Council visits a session of the City Council at night.

Wed. 26th: Mr. Martin tells School to leave untidy habits at home.

Thurs. 27th: Mac Chaplin, Alister Newton and Alun Pennicott chosen for South Island Secondary Schools' rugby team.

AUGUST

Thurs. 3rd: "Proby" MacGregor returns to School after a year in the States and gives the Senior School a speech.

Fri. 4th: Girls' High ball—quite good.

Mon. 7th: 1st XV and 1st XI away at Timaru.

Tues. 8th: Prefects receive a very kind invitation to the 4th Form social from the Girls' High prefects, a reply to which is promptly sent by Travers.

Wed. 9th: For the second time in a week "Ernie" Wallis lashes out at the School: this time he smashes a window. "Many a tall fellow had destroyed so cowardly" (Shakespeare). 1st XV return from Timaru—drew 11 all; 1st XI lost 4-1.

Thurs. 10th: Another of Travers' sharks is sighted by Travers. 1st XI beats Masters in soccer, 5-1. Mr. Williams shooting the only goal for the Masters. "With spatter'd boots, strapp'd waist and frozen looks" (William Cowper).

Mon. 14th: Photos of various teams taken, as well as U6th who find they have some new members, who are Dermody and Watts. "And treat those two imposter just the same" (Rudyard Kipling).

Tues. 15th: "Round the Park" races held. "We run because we like it, through the broad bright land" (Chas. Sorley). Hargest Debating team trounced 285-220 by young S.B.H.S. side.

Wed. 16th: Various teams, i.e. Hockey, Basketball, Soccer and Rugby, go to Gore and Winton. Very successful results except 2nd XV. Senior speech competitions held. Berridge wins with fine speech. Members of West Coast rugby team in assembly.

Fri. 18th: Otaki Scholar speaks to 6th Form. U6th's donation to Penny-a-week Fund handed in, all 3/- of it. "With the poor, and mean, and lowly" (Cecil Alexander). Prefects use new humiliation method derived from Pillory to discipline smart 4th Formers.

TERM 3

SEPTEMBER

Fri. 15th: Mr. Alabaster and Mr. McClymont caught training for the Masters v. The Rest rugby match. Prospective teachers visit the Dunedin Teachers' College.

Mon. 18th: The Rector enlightens the School about constitutional monarchy. "Is Queen Elizabeth II King of New Zealand?"

Wed. 20th: Clubs resume. Another valiant and praiseworthy effort by Chaplin, Travers and Weeds to legalise a surfing club.

Thurs. 21st: Annual battle between the Masters and Prefects v. The Rest. The official result records a win 19-17 to the Masters.

OCTOBER

Thurs. 5th: School exams begin. "I thought they were another week away" (Ernie).

Tues. 10th: Exams end with ill-forebodings for most outside exams yet to come. "As the sands of time trickle away, so do our hopes" (Moreton).

NOVEMBER

Mon. 20th: School Certificate begins. Scholarship, Bursaries and University Entrance exams also begin this week. "All you really need is Hope" (Pop song).

DECEMBER

Fri. 8th: School breaks up for the year. "We've gotta get outta this place" (Pop song).

PRIZE LIST - 1966

The annual prize-giving ceremony was held at the School before a very large gathering on Friday, 9th December, 1966.

The guest speaker for the occasion was Commodore C. C. Stevens. Presentation of form prizes and certificates and special prizes was made by Mr. J. E. Mason, President of the School's Old Boys' Association.

During the ceremony, the School's Treble Choir sang two folk songs.

SPECIAL PRIZES, 1966

Athletics.—Under 14 Champion: P. M. Ferguson. Junior Champion: G. Aitchison. Intermediate Champion: A. C. McKenzie. Senior Champion (Len Hanan Memorial Cup and Sports Trust Miniature): K. G. Todd. 880 Yards Senior (Sutherland Cup): K. R. McLean. Interhouse Relay (Auckland Old Boys' Cup): White and School Houses (Captains, C. McKenzie and C. Wallace). President's Shield (Southland Centre N.Z.A.A.A. interclub meeting at Gore): Capt. K. R. McLean. Marshall Cup (Southland Centre N.Z.A.A.A. standards meeting): Capt. K. R. McLean.

Round the Park Races.—Under 14: R. Keith. Junior: W. Pottinger. Intermediate: W. B. Poutu. Senior: K. R. McLean. Inter-form Shield: Form IIID (R. Keith, D. Takitimu, C. de Boer, F. Forbes).

Swimming.—Junior Champion: W. Brown. Senior Champion: D. R. Kennedy. Secondary Schools' Relay (Collegiate Swimming Club Trophy): S.B.H.S. (Capt., D. R. Kennedy).

Rugby.—S.R.F.U. Third Grade Championship: Capt., J. M. Chaplin. S.R.F.U. Fifth Grade Championship: Capt., I. M. Shirley. S.R.F.U. Sixth Grade Championship: Capt., A. Jones. Makarewa Seven-a-side Tournament, Fifth Grade A: Capt., I. M. Shirley.

Association Football.—Conduct Cup: S.B.H.S. 1st XI (Capt., B. Hesson).

Cricket.—Most Improved Cricketer (1959 Prefects' Cup): A. Newton.

Tennis.—Junior Singles (Cup): L. Smith. Junior Doubles: J. Shaw and H. Leckie. Senior Singles (Cup): N. Walker. Senior Doubles: N. Walker and L. Smith.

Badminton.—Singles Champion (Skelt Cup): M. J. Pascoe.

Fives.—Junior Singles (Cup): K. McKenzie. Junior Doubles: A. R. Jones and M. E. Galbraith.

Indoor Basketball.—Under 14 Boys S.I.B.A.: S.B.H.S. A (Capt., R. Keith). Junior S.I.B.A.: S.B.H.S. A (Capt., T. J. Ryder). Men's D Grade Championship: S.B.H.S. No. 2 (Capt., S. A. Wallis).

Gymnastics.—Inter-3rd Form Team Competition (John Page Memorial Cup): Form IIIA (Capt., M. S. Robertson). Under 14 Champion: M. S. Robertson. Junior Champion: M. E. Galbraith. Intermediate Champion: M. D. Anglem. Senior Champion: C. Burns.

Royal Life-Saving Society (Southland Sub-Branch) —
Best Junior Life-saver: J. C. Alexander. Best Senior Life-saver: J. R. Pritchard.

Rowing—Most Improved Rower (E. J. Lines Trophy): M. D. Heenan.

Shooting Awards—Junior Champion .22 (Cup): S. J. Vallance. Senior Champion .22 (Shield): B. M. Wallis. Champion Shot .303 (Shell Case): I. N. Murray.

Public Speaking: Junior (Prof. John Collie's Prize): J. J. Waldron. Intermediate: A. R. Dynes. Senior (T. D. Pearce Memorial Prize): A. J. Graham and A. Derbie.

Library Prize: L. R. Watson.

French—French Embassy Prize: A. J. Pomeroy.

Chess (Cup)—C. T. McKay.

Best All-round 3rd Former (1964 Prefects' Cup)—R. J. Thomson.

Best All-round 4th Former (1950 Prefects' Cup)—J. A. Shaw.

Donald Young Memorial Prize in Science (Best 4th Form General Science)—A. M. Skene.

Jules Tapper Memorial Prizes (Best All-round Sporting Record)—C. W. McKenzie, A. L. Newton, G. D. Keith, J. R. Polson, G. N. Adam, R. M. Erskine, P. A. Elder, B. R. Watts, R. C. Wallace, M. Heenan, J. M. Chaplin, S. A. Wallis.

D. G. Grant Memorial Prize (given by Old Boys' Association for leadership, initiative, courtesy and co-operation in Fifth Forms): I. S. Alsweiler.

Deschler Cup (Physical and Scholastic Improvement)—G. J. Strang.

Head Prefect (Award on basis of character and leadership)—R. C. Wallace.

FORM PRIZES - 1966

Form IIID

Certificates: A. R. TELFER—1st Woodwork, 2nd equal Mathematics. P. R. HUNTER—1st Mathematics. R. A. POWLEY—1st English.

Prizes: A. J. GOUGH—2nd equal Mathematics, 3rd Science, 3rd equal Social Studies, 3rd Aggregate. K. F. BRADLEY—1st Social Studies, 1st Option Book-keeping, 2nd Aggregate. P. I. BUCKINGHAM—1st Science, 2nd Social Studies, 3rd English, 3rd Woodwork, 1st Aggregate.

Form IIIC

Certificates: G. W. HENDERSON—1st Option French. P. S. JONES—1st Social Studies. G. SHARP—1st equal Option Art. T. YOUNG—1st Woodwork. P. W. MINTY—1st Mathematics, 2nd equal Option Book-keeping.

Prizes: J. W. HARPER—1st Science, 2nd Agriculture, 3rd Mathematics, 3rd Aggregate. R. A. IBBOTSON—1st equal Option Art, 2nd Science, 2nd Aggregate. G. G. HAMPTON—1st English, 2nd Mathematics, 2nd Social Studies, 2nd Option French, 3rd Science, 1st Aggregate.

Form IIIB2

Certificate: D. R. STILES—1st Social Studies, 3rd English.

Prizes: L. R. McDONALD—Best 3rd Form Woodwork. I. T. RUDDENKLAU—1st 3rd Form Agriculture, 3rd Science. D. H. ANDERSON—1st Science, 3rd Mathematics, 3rd Aggregate. P. F. HORNER—2nd Mathematics, 2nd Science, 2nd Social Studies, 3rd Book-keeping, 2nd Aggregate. S. J. PATERSON—1st English, 1st Mathematics, 1st Book-keeping, 1st Aggregate.

Form IIIB1

Certificates: R. J. THOMSON—1st Mathematics, 3rd Science. P. TROTTER—2nd Social Studies, 2nd English.

Prizes: M. A. WILSON—1st English, 1st Science, 2nd Mathematics, 3rd Social Studies, 3rd Aggregate. P. De la MARE—3rd French, 2nd Aggregate. R. G. BOWMAN—1st French, 1st Social Studies, 2nd Science, 1st Aggregate.

Form IIIA

Certificates: A. A. DRAGE—1st Mathematics, 1st Latin. R. W. BUNTON—3rd Mathematics, 3rd Science, 3rd equal Social Studies. L. S. GRAY—2nd Latin, 3rd equal Social Studies.

Prizes: J. J. WALDRON—1st English, 2nd Mathematics, 3rd Latin, 3rd equal Social Studies, 3rd Aggregate. M. S. ROBERTSON—1st Science, 2nd French, 2nd Social Studies, 2nd Aggregate. A. J. POMEROY—1st French, 1st Social Studies, 2nd English, 1st Aggregate.

Form IVE

Certificates: G. D. CAMBRIDGE—1st Science. E. R. EDGERTON—1st Woodwrk. T. C. HAYES—1st English. W. J. SHAW—1st Mathematics.

Prizes: R. A. STEWART—2nd equal English, 2nd equal Social Studies, 3rd Science, 3rd Aggregate. B. W. WARD—2nd Mathematics, 2nd equal Social Studies, 2nd Woodwork, 2nd Aggregate. R. J. S. HEATHCOTE—1st Social Studies, 1st Aggregate.

Form IVD

Certificates: K. J. STEVENSON—1st equal Art. N. D. WILSON—1st equal Mathematics.

Prizes: R. V. BAKER—1st Science, 1st Woodwork, 3rd Mathematics, 2nd equal Aggregate. W. R. BAKER—1st English, 2nd Social Studies, 3rd Science, 2nd equal Aggregate. R. J. URWIN—1st Social Studies, 1st equal Mathematics, 2nd equal English, 2nd Science, 3rd Option Book-keeping, 1st Aggregate.

Form IVC

Certificates: R. N. WILSON—1st equal Option Book-keeping. K. B. DAWSON—1st equal Art. D. L. MANNING—1st Mathematics, 1st equal Option Book-keeping.

Prizes: I. J. BEMROSE—1st English, 1st Option French, 2nd equal Social Studies. L. P. GRIEVE—1st 4th Form Agriculture, 2nd Science. R. S. ERICSON—2nd equal Social Studies, 3rd Aggregate. R. J. COLLINS—1st Social Studies, 2nd English, 3rd Art, 2nd Aggregate. B. J. WARD—1st Science, 2nd Agriculture, 2nd Mathematics, 1st Aggregate.

Form IVB2

Certificates: R. A. DYNES—1st English, 3rd equal Social Studies. B. W. RAMSAY—1st equal Social Studies.

Prizes: R. W. KING—2nd English, 2nd Science, 3rd Aggregate. J. S. COLLIE—1st equal Social Studies, 1st Book-keeping, 2nd Mathematics, 1st equal Aggregate. R. M. HAZLETT—1st Mathematics, 1st Science, Best 4th Form Woodwork, 1st equal Aggregate.

Form IVB1

Certificates: P. HEMMINGSEN—1st Science. M. H. STRANG—1st equal English. G. B. THOMSON—1st Social Studies, 1st French.

Prizes: M. E. GALBRAITH—2nd Mathematics, 3rd Social Studies, 3rd Aggregate. S. J. KING—1st equal English, 3rd Mathematics, 2nd Aggregate. I. G. PLUNKETT—1st Mathematics, 2nd Social Studies, 2nd Science, 3rd French, 1st Aggregate.

Form IVA

Prizes: J. A. SHAW—3rd English, 3rd Mathematics, 3rd French, 3rd Latin, 3rd Aggregate. A. M. SKENE—1st English, 1st Mathematics, 1st Science, 2nd Latin, 3rd equal Social Studies, 2nd Aggregate. D. M. SHIRLEY—1st French, 1st Latin, 1st Social Studies, 2nd English, 2nd Mathematics, 3rd Science, 1st Aggregate.

Form VD

Certificates: M. G. HAMPTON—3rd equal English, 3rd equal Science (d). D. J. McEWING—2nd English, 2nd Art.

Prizes: E. T. W. McGIMPSEY—1st English, 1st Mathematics (e), 2nd Science (d), 2nd Geography (d).

Form VC

Certificates: J. W. COCKBURN—1st English. N. D. ROBERTSON—1st Book-keeping (b).

Prizes: A. T. DUFF—1st equal Agriculture, 2nd Geography (c). J. G. RUDDENKLAU—1st Geography (d), 3rd Science (c), 3rd Mathematics (d). H. S. LEITH—1st Science (c), 2nd Mathematics (d), 3rd Geography (c). N. D. COLLIE—1st equal Agriculture, 2nd English, 2nd Science (c).

Form VR

Prizes: B. EDGAR—1st Art, 2nd Science (f), 3rd equal Mathematics (c). J. W. TROON—1st English, 1st equal History (b), 3rd Geography (e). G. B. LLOYD—1st equal History (b), 2nd English, 2nd Geography (e), 2nd equal Mathematics (f). G. W. WATSON—1st Mathematics (d), 1st Science (d), 1st French (b).

Form VB

Certificates: I. S. ALSWEILER—1st English. J. A. MORRIS—1st Geography (a). B. I. SHAND—1st Mathematics (c).

Prizes: R. B. TRAVERS—1st Science (a), 1st Geography (e), 2nd English, 2nd Mathematics (b).

Form VA

Certificates: R. R. GRENFELL—1st History (a). A. W. McINNES—1st Science (f). S. M. WARD—1st Mathematics (b). D. M. CAMPBELL—2nd Mathematics (f), 3rd Science (a). I. J. ROBERTSON—2nd French, 3rd English. W. J. TUCKEY—2nd History (a), 2nd Science (f).

Prizes: R. B. McDOWELL—2nd English, 2nd Latin, 3rd Mathematics (b). L. H. BRIGHTON—1st Mathematics (f), 1st Geography (c). K. R. ROMERIL—1st English, 1st Latin, 1st French, 2nd Science (a).

Form V Upper

Certificate: M. S. LIDDELL—1st Science (e).

Prizes: L. D. GALBRAITH—1st Mathematics (a), 2nd Science (b). G. W. THOMPSON—1st Science (b), 2nd equal Geography (b), 3rd English. M. A. SLIGH—1st English, 1st Geography (b), 2nd Mathematics (a).

Form Lower VIS

Certificates: E. L. BLAIKIE—2nd Chemistry (a), 3rd Physics (a). R. C. RASSELL—2nd Add. Mathematics, 3rd Chemistry (c).

Prizes: S. J. CHALMERS—1st English, 2nd History. B. S. HUTCHINS—1st Chemistry (c), 2nd Physics (a), 1st Add. Mathematics. G. R. STANLEY—1st Mathematics (a), 1st Chemistry (a), 1st Physics (a), 3rd Add. Mathematics.

Form Lower VIC

Prize: W. DAWSON—1st English, 3rd Physics (c).

Form Lower VIB

Certificates: A. L. NEWTON—1st English. D. G. PEAKE—1st Mathematics (b).

Prizes: G. W. HAZLETT—1st Physics (c), 2nd Geography (a). M. J. SOUTAR—1st Geography (a), 3rd English. H. A. COLLIE—1st Biology (b), 1st Chemistry (b), 2nd Physics (b), 3rd Mathematics (b).

Form Lower VIA

Certificates: W. L. HANLEY—2nd English, 3rd equal Geography (a). G. B. CHALMERS—1st Biology (a). R. M. HENDERSON—1st Mathematics (c).

Prizes: P. S. BROOKS—1st Physics (b), 3rd Biology (b). R. A. FORREST—2nd Chemistry (b), 2nd Physics (b), 2nd Mathematics (b), 2nd Biology (b). M. J. CAMPBELL—1st Geography (b), 2nd French, 3rd English. N. F. M. WALKER—1st English, 1st French, 1st Latin, 1st History.

Endorsed School Certificates: J. R. Baxter, M. G. Berridge, A. Billows, E. L. Blaikie, R. J. Booth, S. P. Brooks, S. J. S. Brown, M. J. Campbell, G. B. Chalmers, K. J. Craig, J. M. Cross, D. C. Cull, W. A. Dawson, M. N. Diack, D. W. Donaghy, R. P. Erskine, G. J. Fallow, R. A. Forrest, B. C. Fredric, A. J. Graham, M. D. Heenan, J. B. Highet, D. B. Hughes, B. S. Hutchins, A. N. Jennings, R. E. Jennings, D. R. Kennedy, G. T. Latchford, G. R. MacGregor, C. T. McKay, T. R. McIntyre, D. T. McKenzie, P. B. McLauchlan, P. C. May, I. E. Maxwell, B. W. Miller, A. J. Morrison, K. L. Morton, D. R. Nicolson, R. J. Norman, A. R. O'Brien, J. R. Oliver, N. J. Polson, J. R. Pritchard, R. C. Russell, J. D. Scandrett, I. M. Shirley, R. F. Slaughter, W. T. Smith, B. Soutar, D. K. Spittle, G. R. Stanley, F. W. G. Swain, A. J. Thompson, D. L. Thompson, B. C. Thomson, B. J. Travers, N. F. M. Walker, H. G. Walsh, D. J. Watson, M. B. Weeds, D. S. Wicks, B. M. Williams, S. N. Withington.

Form Upper VIB

Certificates: N. J. CARTER—1st Physics (b). L. N. SINGLETON—2nd History, 3rd English. K. J. SEMPLE—2nd English, 2nd Geography.

Prizes: M. G. SOPER—1st Chemistry (b), 2nd Mathematics (b). R. P. BUCKINGHAM—1st Biology, 1st Mathematics (b). G. J. STRANG—1st English, 1st History.

Form Upper VIA

Certificates: N. D. JENKINS—1st French. J. W. CAMPBELL—2nd Chemistry (b), 3rd Biology, 3rd Mathematics (b). G. W. A. RONALD—2nd English, 2nd Physics (b).

Prizes: L. R. WATSON—1st Geography, 2nd Biology, 3rd equal English. D. S. FOUGERE—3rd equal English, 3rd Chemistry (a), 3rd Physics (a), 3rd Mathematics (a), 3rd Add. Mathematics.

Proxime Accessit: G. F. WALKER—1st Add. Mathematics, 2nd Physics (a), 2nd Chemistry (a), 2nd Mathematics (a).

Dux of the School (Prizes presented by Old Boys' Association): P. R. POOLE—1st English, 1st Chemistry (a), 1st Physics (a), 1st Mathematics (a), 2nd Add. Mathematics.

Higher School Certificates: P. R. Adams, P. C. Benfell, H. S. B. Binnie, B. A. Boivin, G. M. Breen, R. P. Buckingham, W. L. Buckingham, J. W. Campbell, N. J. Carter, M. S. Cook, A. Derbie, P. A. Elder, G. D. Evans, D. S. Fougere, R. B. Frost, C. J. Hamilton, N. D. Jenkins, C. M. Leith, G. L. McArthur, P. J. McGregor, C. W. McKenzie, K. R. McLean, C. J. Paterson, P. R. Poole, W. E. Pritchard, G. W. A. Ronald, K. J. Semple, L. N. Singleton, I. A. Smeaton, M. G. Soper, P. L. Spencer, K. B. Stephenson, G. J. Strang, E. J. Tait, K. B. Taylor, A. R. Townsend, G. F. Walker, R. C. Wallace, S. A. Wallis, C. W. Ward, J. R. Watson, L. R. Watson, K. J. Whyte, T. A. Wilson.

Examination Results

University Scholarship: Scholarships were awarded to—P. R. Poole, G. F. Walker. Pass with Credit "A" Pass—D. S. Fougere, R. P. Buckingham. "B" Pass—P. C. Benfell, H. S. Binnie, G. W. Ronald, L. R. Watson.

University Bursaries Examinations: "B" Pass: P. A. Elder, C. M. Leith, G. J. Paterson, W. E. Pritchard, L. A. Smeaton, M. G. Soper, P. L. Spencer, A. R. Townsend.

University Entrance Examinations: R. J. Baxter, A. J. Bayne, N. P. Benfell, M. G. Berridge, N. A. Blackmore, E. L. Blaikie, K. J. Bowie, S. P. Brooks, M. J. Campbell, G. B. Chalmers, S. J. Chalmers, J. M. Chaplin, H. A. Collie, D. C. Cull, R. Davies, W. A. Dawson, M. N. Diack, R. P. Erskine, G. D. Fairbanks, G. J. Fallow, R. A. Forrest, W. S. Hanley, P. A. Hannan, W. M. Harper, G. W. Hazlett, J. B. Hight, B. S. Hutchins, D. R. Jones, D. R. Kennedy, G. T. Latchford, M. D. Lock, G. R. MacGregor, C. T. McKay, R. M. Megget, A. J. Morrison, A. L. Newton, D. R. Nicolson, J. R. Oliver, D. G. Peake, D. E. Peryman, J. R. Pritchard, R. C. Rassell, J. D. Scandrett, D. B. Scott, I. M. Shirley, R. F. Slaughter, B. Soutar, M. J. Soutar, D. K. Spittle, G. R. Stanley, L. W. Takitimu, B. J. Travers, N. F. M. Walker, H. G. Walsh, D. J. Watson, M. B. Weeds.

School Certificate Examination: G. N. Adam, J. G. Adams, F. P. Adank, B. A. Aitken, M. J. Alexander, I. S. Alsweiler, B. K. Anderson, D. C. Barham, M. G. Blackmore, J. A. L. Blick, L. H. Brighton, C. H. Burns, P. A. Buxton, S. C. Cain, D. M. Campbell, S. G. Chalmers, P. J. Chapman, P. J. Clark, G. A. Clement, P. D. Cochrane, W. J. Cockburn, K. R. Cocker, N. D. Collie, W. J. Couper, G. Cowan, E. R. Dahm, K. J. Davidson, N. F. Dixon, M. R. Drake, L. K. Dudfield, A. T. Duff, R. B. Edgar, L. J. Evans, P. A. Fallow, J. A. Fitzgerald, S. H. Fraser, L. D. Galbraith, N. H. Georgeson, A. S. Graham, R. R. Grenfell, A. J. Grieve, G. D. Heenan, D. J. Henderson, A. H. Henry, I. M. Hight, S. G. L. Hoffman, E. R. G. Horner, N. J. Hubber, G. M. Jukes, D. J. Lamb, S. D. I. Leckie, H. S. Leith, M. S. Liddell, G. B. Lloyd, J. Matheson, J. S. Maxwell, L. G. McAllan, B. J. McDowell, R. B. McDowell, D. J. McEwing, E. T. McGimpsey, A. W. McLaines, J. S. McKerchar, D. J. McLean, P. A. McMillan, L. C. Moffat, J. A. Norris, R. E. Newton, J. R. Pannett, J. E. Parr, A. T. Pennicott, S. F. Pittaway, W. A. Richmond, I. J. Robertson, N. D. Robertson, K. R. Romeril, C. R. Ronald, J. G. Ruddenklau, B. I. Shand, M. A. Sligh, B. J. Staite, A. C. Tee, I. Thomas, G. W. Thompson, J. P. Thomson, R. B. Travers, A. W. Treffers, J. W. Troon, W. J. Tuckey, J. C. Waldron, N. J. Walker, A. H. Ward, S. M. Ward, B. I. Watson, G. W. Watson, B. S. Watts, A. S. Wilson, W. H. Wright.

BLUES AWARDS

1966

Athletics: K. R. McLean, T. R. McIntyre, K. Todd, R. C. Wallace.

Life-saving: J. Pritchard, B. Travers, A. W. Treffers, D. Wicks.

Cricket: G. N. Adam, J. G. Adams, M. E. Galbraith, L. D. Galbraith, J. H. Morgan, C. W. McKenzie, A. L. Newton, M. J. Pascoe, J. N. Polson, I. M. Shirley, J. R. Watson, K. J. Whyte.

Tennis: G. M. Breen, G. D. Heenan, B. I. Shand, L. J. Smith, P. L. Spencer, N. F. M. Walker.

Softball: R. M. Erskine, G. D. Keith, A. J. Pennicott.

Rowing: M. Chaplin, W. Harper, M. Heenan, R. Meggett, K. Morton, G. Strang, B. Watts, N. Withington.

Shooting: S. Brown, I. Murray, J. Scandrett, B. Wallis, S. Wallis.

1967

Athletics: G. R. R. Hunter, A. L. Newton, K. Winchester.

Indoor Basketball: G. N. Adam, D. M. Campbell, P. J. Chapman, D. J. Henderson, J. H. Matheson, R. B. McDowell, K. R. Rankin, I. J. Robertson.

Hockey: A. Carr, K. L. Morton, K. R. Romeril, J. R. Pritchard.

Rugby: J. M. Chaplin, G. Chalmers, S. Dermody, A. Henry, G. R. R. Hunter, L. Laughton, A. McKenzie, A. L. Newton, A. Pennicott, W. Poutu, S. Pittaway, J. Shaw, N. Walker, B. C. Watts.

Shooting: S. Brown, S. Martin, J. Scandrett, G. Stanley, B. Wallis.

Soccer: I. Alsweiler, P. Ash, P. Brooks, G. Clements, A. Hughes, J. McEwing, B. McGregor, G. McGregor, J. Milton, D. Peake, F. Swain, G. Thompson.

Swimming: D. R. Kennedy.

Life-saving: W. Hayes, J. Pritchard, C. Ronald, A. Thompson.

SCHOOL ROLL - 1967

† Denotes left during the year.

* Denotes "Coldstream" boarder.

(2) Denotes second generation pupil.

(3) Denotes third generation pupil.

Sixth Form Seminar

At a principals' meeting early this year it was decided to hold a Sixth Form Seminar with guidance from the Curriculum Development Unit. This school was represented by the Rector, Mr. L. M. Cornwell, as Chairman, and Mr. R. Robertson as Secretary, and the Steering Committee was composed of delegates from the secondary schools participating in the seminar.

Arrangements for the seminar were soon under way and all schools gave both their interest and support. Similar seminars had been held in other centres where staff and students alike had found them stimulating and at times exciting. It was indeed fortunate that with the help of Mr. Griffin, of the Department of Education, a group of the most able and thought-provoking speakers were secured.

The seminar, "New Zealand in the Modern World", was officially opened at 9 o'clock on the 2nd May by His Worship the Mayor, Mr. N. Watson, and sessions continued until 3.30 p.m. the following day. The programme was as follows:—

Lecture 1: Sir Guy Powles, Ombudsman, formerly High Commissioner for New Zealand in Samoa and India, gave the opening address, "Focus on the Pacific" a diplomat's view on the problems facing New Zealand in the Pacific World.

Lecture 2: Mr. G. R. McDonald, Department of Education, who had worked in Medan, Sumatra, gave a New Zealander's view of life in Indonesia.

Lecture 3: Mr. H. C. Templeton, Head of United Nations Division of the External Affairs Department, a former Rhodes Scholar and Southlander, discussed the position of New Zealand in the United Nations.

Lecture 4: Dr. J. R. Flynn, Professor Elect of Political Studies, University of Otago, referred to some of the pertinent questions besetting both New Zealand and the U.S.A.

Lecture 5: Professor K. Janaki, Director of the Centre of Asian Studies, Victoria University, spoke on "India in the Asian Setting". A thought-provoking analysis of the problems that face India, delivered from the standpoint of an Indian.

Lecture 6: Mr. T. R. Rafter, Director of the N.Z. Institute of Nuclear Research, evaluated the various ways by which New Zealand, within its limited financial resources, is contributing to conquests in the world of science.

The aim of the seminar was that sixth formers would come to participate and not simply to listen to a succession of speakers. Everyone was placed in a discussion group and a period for discussion followed each of the lectures. Each discussion group had a sixth former as a chairman, a teacher for guidance, and a student who acted as both the recorder and spokesman for the group.

Each group was allocated its own meeting place in the Scottish Hall and proceeded to that spot following each lecture. A selection of group reports was presented by specified recorders to the whole seminar on the return of the various groups to the lecture hall and questions were answered by the lecturer. The seminar concluded with a panel discussion by lecturers.

Schools were represented in proportion to the numbers in their Sixth Forms. Some of the comments from our sixth formers who were among the 300 attending:—

"I came to understand what other students thought of New Zealand's responsibilities and future."—G.C.

"I never knew the non-white population of Auckland (14 per cent.) was now equal in percentage to that of Chicago in 1950!!!"—A.N.

"The seminar brought in a wide range of topical points of view . . . it promoted interesting discussion . . . it created a greater understanding of international relations."—M.A.C.

"It gave me a chance to see how students from other schools think."—D.B.S.

"There should be regular seminars on similar topics—but with even more emphasis placed on group discussions."—N.F.M.W.

"How can India be expected to listen to advice from all over the world when the total aid the world gives India is \$2.35 per head per year!"—J.S.

"The idea of participation and discussion with the answers offered by experts in their field was a totally new thing for Southland secondary schools."—D.C.

American Field Service Scholar

This year we were fortunate to have in the School Fred Knight, who is in New Zealand as an A.F.S. scholar. Fred hails from White Bear Lake, Minnesota. Here are his impressions on the differences between his American school and his host school, Southland Boys' High:—

THE BEAR FACTS

It is 8.45 a.m. in Invercargill, New Zealand. The boys of Southland Boys' High School are just starting their school day.

At nearly the same latitude in the northern hemisphere and 75 degrees east the time is 2.45 in White Bear Lake, Minnesota. The students of White Bear Lake High School have just completed their school day.

Here are two schools nearly 10,000 miles apart and in different countries. In what ways are they similar? How are they different? To compare two schools in every area would be endless, so we must narrow the discussion. Also, since the readers will be more familiar with S.B.H.S. rather than W.B.H.S., I will include more facts concerning W.B.H.S. First, then, an introduction to W.B.H.S.—certainly representative of an American high school, if there is such a thing.

W.B.H.S. is a co-ed school of 1,800 students, serving a community of 30,000 people. Because of the large increase in population in the past decade, W.B.H.S. has enlarged, and a new school building was built in

1964. (Already an addition has been made to the school.) The new school is a revolutionary look at school design: three circular buildings connected by a circular administrative unit. The large academic circle houses most of the classrooms and laboratories, student study centres, teacher planning centres, a library with audio-visual and photography departments, and audio-language laboratories. In the fine arts circle there are instrumental and vocal music rooms, art rooms, and a 400-seat theatre. The third circle contains the cafeteria, which doubles as a study hall, a 2,000-seat auditorium-gymnasium with changing rooms, other athletic facilities and shop, mechanics, electronics and woodworking areas.

W.B.H.S. is a three-year high school. In his three years (ages 16-18), the student is required to take three English courses and three social studies courses (World History, American History, Current World Problems) and at least seven other courses. The elective courses are divided into groups. Four languages (Spanish, French, German, Latin) are offered in one to four-year courses (starting the year before high school). There are both general and specialised science courses, but unlike S.B.H.S., students take only one science course in each year. Mathematics courses are again different in that they are specifically divided with one each year, i.e. Algebra, Geometry, Shop Maths, Probability and Calculus. W.B.H.S. has an expanding dramatics and speech department as well as extensive arts and music courses. There are three choirs and two 70-piece bands which meet daily.

Students at W.B.H.S. are encouraged to vary their programmes with little early specialisation in only science or arts. A schedule for a better-than-average student could be: English, American History, Spanish, Chemistry, Trigonometry and Instrumental Music. While all schedules are not as completely filled as this one, there is much more variety than at S.B.H.S. During the year students may have a study period instead of an actual class. This lightens the students' work and gives him time for study during the day.

The United States does not have any national examinations that compare with S.C. or U.E. Each high school has marking periods during the year and final examinations, and these are based on daily work, class participation and regular tests. At the end of the year, if a student has passed all his subjects, he advances to the next grade. About 95 per cent. of the students reach this standard and the vast majority of these finish high school (called graduation). Whereas in New Zealand the slow students are cut out of school by the year-end national exams, the slower students in the U.S. can sneak by with low grades and still graduate from high school. Even though sixth form work compares with last-year high school work, the standard of achievement in passing exams is higher in New Zealand and consequently more students are defeated.

Two differences between the schools stand out above all others—(1) co-ed. or all boys; (2) uniforms or no uniforms. In outward appearance and classification these points separate the schools. Certainly today the question of co-education is an important one, but it is a question that will be completely answered in the future. Again the use of uniforms is another arbitrary design of schools, inherited and kept by some countries, abandoned in others.

Obviously there are many other differences between S.B.H.S. and W.B.H.S. and they are not entirely related to one another. At W.B.H.S. there are no daily assemblies, and announcements are given in the morning and afternoon over a public address system in each

classroom. Also religious instruction is forbidden in organised form at W.B.H.S., while it is part of the daily routine at S.B.H.S., W.B.H.S. has nothing equal to the prefects. There is an active Student Council, but its members do not have any special privileges. They act as a communication device between students and staff, as well as providing an after-school snack bar and sponsoring social and cultural activities for the students.

There is a much bigger sports emphasis at W.B.H.S. Instead of having many teams in each sports so that almost everyone can participate as at S.B.H.S., there are only one or two teams for each sport—with a high standard. Consequently, not as many boys get to play in school matches. This in turn also leads to much better support and enthusiasm toward the school team. The average autumn football games (played on Friday night) may have 2,000 or more spectators plus a marching band for half-time and cheer leaders.

These cheer leaders are one of the most active groups in the school. At each sport game, whether it is football, basketball, ice hockey or some other, these girls lead the "fans" in support of their team. This and an inter-mural sports programme are the only things the school offers in girls' sport.

Many more extracurricular activities revolve the American public schools than the New Zealand ones. There are clubs at W.B.H.S. for almost every interest in the school, and these clubs are active throughout the year. Along with their regularly scheduled meetings, the clubs take special outings concerned with their interests. But, of course, these activities require money and the clubs do their share of fund-raising also.

To do this the club may sponsor a school dance held after a sports game on Friday night. Or it may sell a product to the students or the community. Each year the choir sells candy and the band sells calendars. The money that is raised from these campaigns goes toward the annual band or choir trip to other schools.

At the year's end both S.B.H.S. and W.B.H.S. incorporate the year's activities into a magazine or year-book. In addition to this, W.B.H.S. prints a newspaper every two weeks with current news, sports highlights, opinion and humour.

Although this is only a sampling of the vast material of S.B.H.S. and W.B.H.S., it gives a look into the two schools together. Their main purpose is to develop a mature student—certainly that's similarity enough.

The School Ball

Timber, wallpaper, paint and odds and ends, begged, borrowed or stolen, were fashioned by craftsmen and others into the Western Town of Cornwell Creek as decorations for this year's ball. The night itself was the culmination of many weeks' work in preparation. Large sets, prefabricated in the bandroom, when transferred into the hall transformed it into a very real likeness of a western town. Board walks, also pre-fabricated, set in front of shops and business premises lining the walls, gave it a very real atmosphere. Signs hung on these businesses, featuring people connected with the School, provided the essential humour. With decorations such as these an extremely pleasant atmosphere was prevalent.

The supper, again held in the gym., was magnificent and our thanks must go to the ladies who prepared it. We must also thank Mrs. Wilson whose help with the painting was invaluable.

Coldstream

Mr. E. R. Currie, Mr. G. Pearson and Mr. Briggs (who was later replaced by Mr. Newall), as house-masters, assisted the Manager, Mr. P. Fitzgerald. Miss Hamer, the Matron, returned to begin another year's work, although she later left to return home to Australia and was replaced by Mrs. King.

The year began with the general initiation of the newcomers. To take control of them and those who returned, eight able-bodied prefects were elected: B. S. Hutchins (Head Prefect), B. S. Watts, D. K. Spittle, I. Maxwell, R. Jennings, L. V. Evans, N. D. Collie and H. S. Leith. These were reinforced by Dermody and Morris in times of strife.

A sudden appearance of water pistols among the ranks caused unusual disorder which was rapidly quelled when masters, prefects and reinforcements moved in. Unfortunately the prefects had trouble in deciding whose side to take and eventually the masters confiscated the prefects' confiscated pistols.

During the year several improvements were made to the Hostel. These included the extension of the bike sheds, building of a record player, the addition of a drinking fountain, and the installation of heaters. An innovation was the formation of a committee to provide the boys with extra entertainment and hobbies, but unfortunately it did not function for very long.

The School has been divided into new house systems, Coldstream being one of the six houses. Coldstream House proved to be very successful in the interhouse athletic sports, gaining twice as many points as its nearest rival. The hostel contributed to all sports teams, with B. S. Watts, S. J. Dermody, L. Laughton and N. D. Collie in the First Fifteen, but the Second Fifteen representation has slackened off to one member, R. Cameron. Eight boys from the hostel qualified for the Southland athletic championships, in which Dermody and Winchester gained titles. Watts, Laughton, Cameron and Dermody were in the first eight rowing crew which represented the School. Activities inside the hostel included table tennis, billiards, chess and model-making. Other activities of a traditional nature are also carried out. . . . !

Adventure Camps

The Adventure Camp scheme was instituted late in 1965 after the abandonment of the Cadet Corps. The camps are held at the Y.M.C.A. camp site in the Hokonui Hills and are aimed at extending a boy's knowledge of map-reading, bush-walking and general self-reliance.

Three Lower Sixth Form camps were held early this year, with the prospect of the Junior School having camps towards the end of the year.

The week spent at camp by Lower Sixth Maths. C was particularly enjoyable for everyone involved. We arrived at camp early one Sunday morning in April, accompanied by Mr. Alabaster and Mr. Currie. The first day was spent setting up camp and noting the schedule for the week ahead. We were divided into four groups and each group had its own tent, situated near the camp buildings. We slept in the tents and had our meals in the main building.

During the first few days we set out on hikes to West Peak (1,911 ft.) and to the Dunsdale Stream, so as to familiarise ourselves with the terrain and to gain some experience at map and compass work. We also spent some time at the confidence course, both improving

our ability to overcome the various obstacles around the course and trying to get our groups over the course in the shortest possible time, by assistance and co-operation within each group.

The meals were good and the system of having each group on cook duty for a day worked well. During the evenings one could play cards, join in a game of four square in the recreation room, or take part in communal singing to the accompaniment of a guitar and a piano-accordion. A neighbouring farmer took a party of boys out on his truck to spotlight opossums on two successive nights, and these proved to be most enjoyable excursions.

The climax of the whole camp was the two-day hike which began early on Wednesday morning after we had been issued with tents and rations the night before. The hike began at the end of the road and passed over several ridges until it came to a waterfall on a tributary of the Makarewa River. We followed a trail from the waterfall to West Peak, crossed a saddle to the Knoll, and descended to a clearing where three of the groups camped overnight. The fourth group made slow progress in the early stages of the hike and had to camp on West Peak. The second stage of the hike followed a trail to the Dunsdale Stream, then along a sawmilling railroad and back to the camp. To celebrate the hike we had cream cakes and savouries for supper on Thursday evening.

Friday morning involved inter-group competitions at the confidence course and at the rifle range. After lunch the tents were taken down and the ropes from the confidence course stored away. We left the camp early in the afternoon and returned to school by bus.

Perhaps the most important things we learned while at camp were group co-operation and a greater respect for our fellows, through having walked and talked with them to a greater extent. The Adventure Camp has an important part in our school curriculum.

Biology Excursion to Stewart Island

On a fine April morning, fifteen enterprising Upper Sixth Biology students, and the soon-to-be-married Mr. Briggs (who nearly missed the boat), crossed Foveaux Strait for four days of isolation. The aim of the venture was to make studies of inter-relationships and adaptations of plant and animal life in an ecological survey. We berthed at Stewart Island before midday and made our way to our accommodation which consisted of two houses, one being at Halfmoon Bay while the other was half a mile away at Golden Bay. After a reconnaissance of the immediate area, we started a plant collection. During the reconnaissance "Cowboy" Nicolson, the wild boy from the Western Districts, almost succeeded in kicking a football through the window of the island's general store. This did not help us in our bid to gain support for our work from the locals.

Early the next morning a group of boys from the house at Golden Bay went for a run and managed to procure many interesting specimens from phyla Mollusca, Crustacea and Colenterata, not to mention several dozen rock oysters. It was noted that Greg Chalmers

Guess Who—Prototype: Brer Rabbit. Theme song: "I've Reformed". Favourite saying: "What's your excuse, Baxter?" Career most suited to: Professional twelfth man.

was considerably slower than the rest of the party. A transect of the rocky shore was to be studied when the group returned that morning but owing to the fact that Swain proved ineffective as a "cuisiniere de Rolled Oats", breakfast was late in Chaplin's hut and their transect had to be postponed until the afternoon. However, in the afternoon it was high tide, so the transect had to be postponed until early the next morning. It was understandable that the evening meal was a gloomy affair in Chaplin's camp and it was only the lusty and spirited guitar-picking by Greg and Paul "Evergreen" Johnson that roused the aspirations of the members.

The following day, after a hard night's merry-making, all proceeded to the transect area, where a dedicated, diligent and industrious morning's work was carried out. It was reported later that Mr. Briggs had commented favourably on our attitude.

A before-dinner Rugby match was arranged in which certain members were found to be vulnerable to damage.

The afternoon was devoted to the pursuit of special topics which included the ecological appreciation of the change of character of flora of the Oban area by Alistair Newton, and the dissection of a large dogfish by Chaplin with Peake and McKay. There were also studies of *Hormosoria Banskii* by MacGregor and

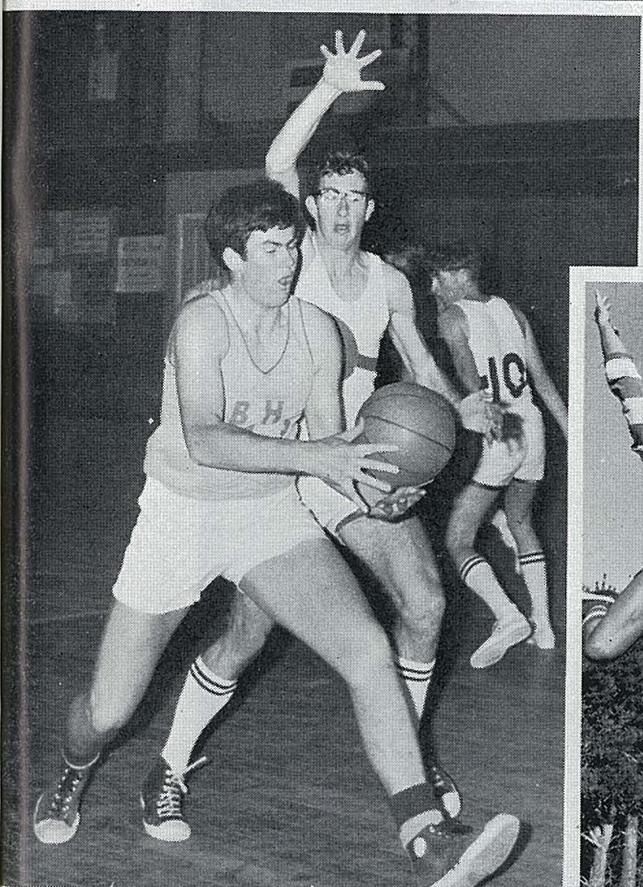

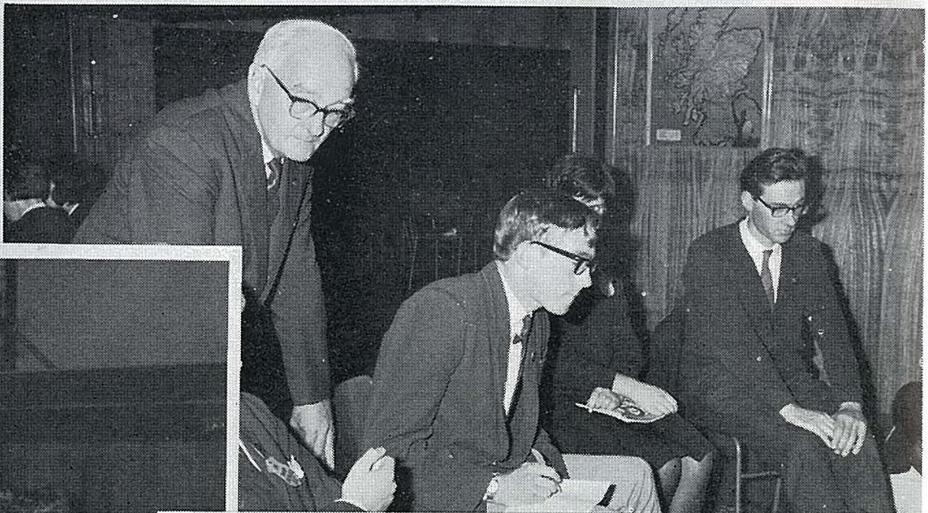

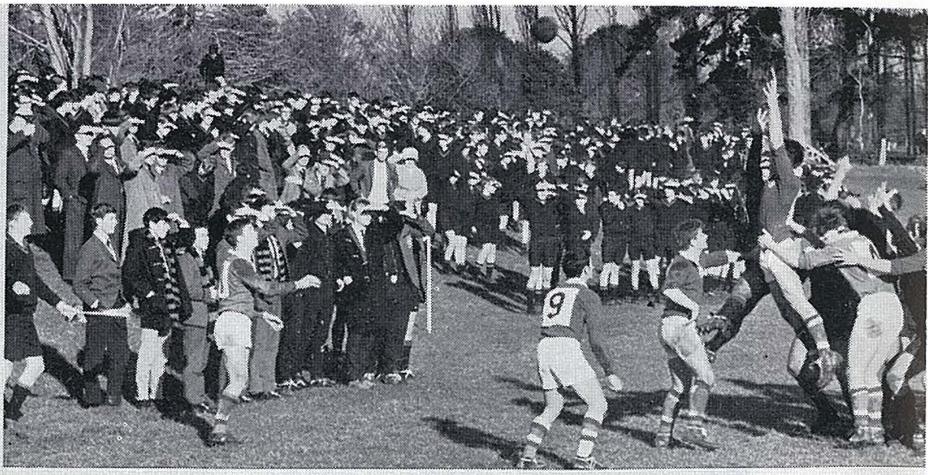

Brooks, and the dissection of a Paua by Chalmers. The local residents showed special interest in our topics.

Later on in the day, after a first-class meal, MacGregor and Brooks set out for the Halfmoon Bay camp, the former aided by a novel means of illumination. Inadvertently, Brooks, in defence of MacGregor, set upon a much surprised Mr. Briggs who had stealthily approached them. However, Brooks was also surprised when he discovered the nature and true identity of his victim.

It was apparent that the other camp's meals were not up to the standard of the Golden Bay's for Forrest found it necessary to make frequent visits to deep forboding places for his relief.

The next day we completed our plant collections and Kennedy and Scandrett re-discovered two interesting "flowers" behind the counter of the general store. Before making the return trip, MacGregor, to prevent the recurrence of a minor sea ailment which had plagued him on the way over, went without his dinner, and this proved advantageous.

In conclusion, we would like to thank Mr. Briggs for the time he put into planning the trip and the islanders for their interest and appreciation in what proved to be a most rewarding excursion.

Top left: "Who blew that b—ugle?"

Middle right: "Surely you have some complaints."

Bottom left: Hot potato

Top right: "Up, up and away!"

Bottom left: "Look Mum! No feet."

Bottom right: " Over and over "

SCHOOL ACTIVITIES

The School Council

The School Council didn't get operational this year until the second term, at which time D. Cull and B. Wallis were elected President and Secretary respectively.

Considerable problems of organisation faced the Council at this stage, but after a visit by most of the Council to a City Council meeting, some of these were overcome. For instance, an agenda has been printed and handed out for the perusal of the members before meetings, since about the third meeting of the Council.

Although the Council has a long way to go before it can be regarded as smooth running, it is developing well. If future councillors are prepared to devote some energy to it, it will become a strong voice in the School.

The Library

This is the first full year of the new library, and one thing has become obvious: there is not enough room to accommodate all the boys at interval and lunch time. It is a pity that on rainy days there is no alternative place to keep warm. For most of the year, especially winter, the School has unfortunately had to be divided into Juniors and Seniors, although this was not always strictly adhered to. It is to be hoped that in future a better arrangement can be found.

Television is beginning to show its effect on book-borrowing. The total number of books issued each year is decreasing in relation to the population growth. Up to September, 1965, 11,477 books were issued; to September, 1966, 12,732; and to September, 1967, 10,631. The modern world is taking it upon itself to relieve the imagination of any strain whatsoever. Whether the borrowing of books will continue to decrease is yet to be seen, but it is obvious that the library is losing its original function.

The bookbinders are facing a limited future because although there is plenty for them to do, there is becoming less and less room to do it in. With most of the 500 new books that come in each year to be covered, as well as repairing worn books and hard-covering paper-backs, they are kept busy all the time, and frequently Mrs. Gray must add covering to her endless list of jobs.

Overdue book lists this year were generally smaller than last year and few classes had to be excluded. The fines system has produced added incentive to return books on time.

The shelves, for once, have not been unmanageably overcrowded. In summer, during club periods, the Library Club has helped to keep the shelves in order, and of course the librarians, who each have their own section of the library to keep in order, have done their best to do this unrewarding duty.

Warmth and colour have been added to the library by Mrs. Gray and Mrs. Wilson with flower arrangements and pottery and art displays. These undoubtedly give the room a brighter atmosphere.

Finally, I would like to thank Mrs. Gray and Mr. Berridge for their tireless work in the library and also the librarians who turn up regularly to perform the dull but essential duties which kept the library functioning as successfully this year as it has in the past.

Music

School music continues to flourish with a growing and awakening interest in the pleasures and benefits that can be obtained from the subject both classical, sacred and secular.

The School has boys, for the first time for many years, taking music for School Certificate and University Entrance, a factor that bears witness to the above statement. The School choir consists of some 95 boys from the Third Form and has sung at both the prize-giving and for the Old Boys' annual general meeting, singing a wide variety of songs. All Third Form boys had the pleasure of hearing the National Symphony Orchestra give a concert for schools, and this was most impressive and very well introduced and conducted by Owen Jensen. Works performed were by Mozart, Dvorak, Villa Lobas, and Stravinsky.

School accompaniments to the hymns in assembly have been very creditably carried out by Bruce Aitken, Allan Skene and Dilwyn Hiddlestone. It is hoped that next year opportunity will be given to those who wish to receive instrumental tuition to do so, and this will greatly enhance the School's musical activities.

Art

New monumental heights were attempted in sculpting this year by the Fine Arts Prelim. boys. Bruce Edgar cast his clay model in cement fondue, using as many as ten pieces in the cast. It was no 9 a.m. to 3.30 p.m. task: sometimes we worked till midnight, and several week-ends were spent on it. At one stage of the proceedings it took the combined strength of three of the mightiest in the First Fifteen to turn the piece over! John McEwing used a build-up method and his brooding "Mother and Child" in concrete was in such proportions to make our table legs sag! Steven Cain sculpted from limestone manhandled from Orawia a wistful piece called "The Sisters".

These three boys along with Donald Mackenzie and the Fifth art boys, a few of the Thirds and Fourths, had work in the "Young Contemporaries' Exhibition" which showed up well. Most of the prizes from the art section of the Winter Show went to the Boys' High entries, including the three major poster prizes. Bruce Edgar won the first five-guinea prizes competently, Peter Moen made an excellent second, and Roger Holm's poster, which survived three despairing trips to the waste paper basket, came in a good third!

Kevin Stevenson was placed in a national competition for a Youth Chamber Music Programme cover design. Twenty pieces of work were displayed in the South Island Secondary Schools' Exhibition. This is the greatest number so far we have had accepted.

There is a nationwide growing interest in art, and as no nation has become great without being also artistically mature, we're working diligently to do our bit in the civilising process. When we have replaced the football on the Boys' High crest with a palette, we will be satisfied!

~~~~~  
Guess Who—Prototype: Ray Harper. Favourite saying: "I've got just two things to say." Theme song: "This is My Song". Career most suited to: Farmer.

## The Vehicle Maintenance Club

This year the running of the club was much improved, giving a considerable measure of success. The club utilised the old bandroom as workshop. Many motor cars were brought along to School for the boys to inspect, ranging from Mr. McIntosh's "Austin 7" to Mr. Curtis' "hotted-up Mini". These motor cars provided the boys with much practical knowledge as well as a theoretical insight into the workings of these machines. Discussions were held in Room 22 on many aspects of these automobiles. These discussions proved to be very informative, illustrating such things as the difference between two-stroke and four-stroke engines.

The club would like to offer its sincere thanks to Mr. Knight for his assistance and advice in organising club activities.

The officers elected were: J. Myers (President), J. R. Oliver (Secretary) and J. B. Hight (Treasurer).

## Drama

This year, despite the lack of a major production, the Drama Group continued in good heart, thanks to the services of Mr. Parish.

In the second week of the first term we were introduced to Mrs. Josephine Mann, who proved very helpful, giving the club instruction in stage movement which should prove very useful in the future.

Towards the end of the first term Mr. Parish produced "Marmaduke" for the British Drama League Junior Festival. The players were Jonathan Gadsby, Chris Knox, Ian McMillan, Craig Nicholson, Wilson Fraser, Keith Miller, Donald Brown, David Ramsay, Roger King, Jeremy Waldron, Bruce Stirling, Roger Dawson, David Webster and Ross Redpath. Jonathan Gadsby played the title role, and made a very good job of it. He was well supported by the rest of the cast. The play (a farce) was well received by the audience.

After the mid-year exams, Mr. Parish produced "Windswept Week-end", a comedy, for the B.D.L. Senior Festival. To do this production the group combined with a group of girls from S.G.H.S. and our thanks go to Miss Deaker for allowing them to work with us. The story is about a "get fit" programme carried out in a country cottage where life isn't the luxury that the participants, Pat (Susan Manson), Mary (Eliz. Poole), Juliette (Shelley Reid), Peter (Keith Miller), Bryan (Dave Cull) and Ian (Ian Maxwell) are led to expect. They are given a hard time by Phoebe Hamstring (Sandra Durie), who runs the campaign,

but fool her in the end, thanks to the efforts of Josh (Roger Bowley) who lives on a nearby farm.

Special thanks are due to Donald Brown who was "props man" in both plays, and who did an excellent job both times, and to Marion Poole for help in the second play.

## Debating

Debating in the School this year, though sadly lacking in competent senior debaters, has been strong, and has given a good account of itself.

The first interschool debate was held against Otago Boys, the School team consisting of Cull as leader, with Pomeroy, Dynes and Gray. Although we lost, this was only by 318 points to 308, and, everything considered, the home team put up a pretty good show. In the second interschool, against Waitaki, the School team was made up of Stanley as leader, and Pomeroy, Gray and Cull; and although we won 340 points to 260, this reflected more Waitaki's weakness than our own strength. The third and final interschool, and probably the one which aroused most audience reaction, was against Hargest, who brought with them their 6th Form for support. This contest was won very ably by the three-man team of Pomeroy (leader), Gray and Dynes, 285 points to 270.

Three two-man teams also participated in debates in the S.C.S. competitions and proved themselves very capable. They were Gray and Pomeroy, Dynes and Waldron, and Clarke and Checketts.

This year, the most remarkable finds for the club have been Gray and Pomeroy, two Fourth Formers who not only showed great talent and wit, but kept it up consistently. Pomeroy especially kept audiences constantly amused. Dynes and Stanley were also consistent and reliable debaters.

Overall, debating has increased its following this year as more of the School start to realise that debating can be a very interesting and absorbing activity. It has thus been more universally accepted. With many promising young debaters rising through the School, we can look ahead with optimism and expectation to a very successful year in 1968.

## Crusaders

This year celebrates the centenary of the Scripture Union Movement with a membership of 1,400,000 throughout the world.

The Crusader Union is part of this world-wide movement which brings Bible reading and study to schools and universities in all countries.

The purpose of membership is not only academic but through fellowship in the weekly meetings and daily readings of the Scripture, comes an understanding of the precepts and concepts in the Word, enabling and encouraging members to work in the Christian pathway, carrying out the command, "Witness unto me."

Although the numbers have declined in the School this year, there has been regular attendance by those who are interested, and it is hoped that much benefit has been obtained from the study of the Epistle to the Romans.

As a union we can look forward to an increasing membership and fellowship in the coming year.

**Guess Who**—Prototype: James Robertson Justice. Favourite saying: "Everywun happy with that?" Theme song: "Multiplication". Career most suited to: Teaching.

## **The Photography Club**

This year the club was not so successful as in previous years as there was little enthusiasm among the members. However, the darkroom facilities remained popular with the more genuine participants, who found the quality of chemicals more satisfactory than last year.

Mr. M. Reeve, from a local photography shop, gave a very informative talk on films and how to select the correct one for the correct situation. It is hoped that this type of talk will become more frequent in forthcoming years as it teaches the finer details of photography.

The club thanks Mr. Curtis for his efforts to keep the club running smoothly.

Committee Members.—President, B. Soutar; dark-room operations, P. Buckingham.

## **Life-saving**

A large, promising group of Third Formers joined the club this year, and it is obvious from the keenness shown that life-saving is well established in the School. It is hoped that those who have passed their initial exams will strive to gain higher awards and therefore become valuable members of the community.

The planned, heated and covered 25-metre swimming pool to be sited in the school grounds will be a great asset, and will help the club's activities.

The club has recently acquired two resuscitators which should aid the club particularly in the field of land drill.

In all, 1967 has been a most successful year.

The following awards were made this year:—

Award of Merit.—C. B. Ronald, K. Thompson.

Instructors' Award.—W. J. Hayes.

Bronze Cross.—H. D. Paterson, O. T. Butler, A. G. McFarlane, R. G. Bowman, M. S. Robertson.

Bronze Medallion.—B. K. Sherbourne, I. W. McCrosbie, P. J. Lindsay, M. F. Treffers, N. A. Rees, K. R. Cocker, F. K. Knight.

## **Radio Transmitting Club**

CQ — CQ — CQ de ZL4CT

Hello CQ — ZL4 Charlie Tango calling.

The Radio Transmitting Club's station was set up in the old library room in the top storey of the School in the May holidays, 1967. This is an ideal location as it provides adequate height for an aerial across the spacious lawn to the north. Test calls on a temporary aerial established contact at loudspeaker strength (necessary for the benefit of all club members) with stations as far north as Christchurch. The aerial was improved in the first week of the winter term and club meetings were held on subsequent Monday evenings, taking the form of Morse practice and radio theory for an hour, followed by an hour "on the air". The first evening call was answered by Station VK2KT, Sydney. Several contacts made in afternoons after school with Station ZL3ABU, Cashmere High School, have proved specially valuable to club members.

The layout of the station and aerial is to the credit of Jim Parr, who has passed the theory and regulations sections of the Amateur Radio examination.

## **.22 Shooting Club**

President, B. M. Wallis. Secretary: J. D. Scandrett.

As in previous years, because of the popularity of the club, it was necessary to hold an elimination shoot. This meant that forty-odd boys had to find other activities.

Many of the younger, newer members proved extremely competent with the rifle. Every Wednesday, club members each fire ten rounds to give a total of 50 points. The odd possible was scored throughout the year. Two of the club members, S. J. S. Brown and B. M. Wallis, scored possibles at the School adventure camps, while two or three were registered at the School rifle range during the year.

As the year progressed, the competition for the trophies became tougher until about four or five members were left to contest the top prize. This was finally won by B. M. Wallis in the senior section and S. P. Vallance in the junior section. Wallis also took the prize for the 1966 season. Among the first-year boys, B. R. Pol and Weir proved to be consistent shooters who gained recognition throughout the year, Weir finally winning the junior section.

The club would like to express its thanks to Mr. T. T. Ryder for his extreme interest, valuable coaching, and his time spent in supervising the club.

## **Science Club**

The year 1967 saw the largest roll ever for the Science Club since its formation at the start of club activities. Unfortunately, more lucrative clubs appear to have lured away some of the more senior boys, but the work completed by the junior boys certainly compensates for this.

On the advice of Mr. Martin the club this year is run by a three-man committee, presided over by M. Diack, which has control of the experiments undertaken. Some of the work undertaken this year includes experiments using a Van de Graaff machine in tracing electrostatic fields in Carbon Tetrachloride by N. Baxter. P. Buckingham has been studying the lifting capabilities of various gases and also the study of polymorphic properties of salts and the estimation of Vitamin C in various materials are in progress.

The committee would like to take this opportunity of thanking Mr. Martin for his help in getting the club started at the beginning of the year, for his advice and aid throughout the year, and for his work in taking the Third Form boys in elementary chemistry. Also our thanks go to Mr. Briggs who has taken a small group of boys interested in biology, and to the lab-boys for the assistance with apparatus and materials.

## **Rowing**

The club has not been so active in the past season. This was due to the lack of keen senior rowers, caused by school-leavers last year.

School crews were also unlucky with regatta racing this season. Two regattas, in which crews were entered, were cancelled due to bad weather, and at the third—Queenstown—a broken boat caused the crew of R. Slaughter, L. Laughton, R. Cameron and M. Berridge to be scratched. They had trained well for this race and it was bad luck that kept them from rowing.

With the Waihopai Rowing Club's new shed being opened at Oreti, the School should benefit from training on the better water over there. The club would like to thank Mr. Fitzgerald and Mr. S. Adamson for their help. A keen junior school looks promising and the club faces brighter prospects next season.

## **Gliding Club**

Through the generosity of the Southland Gliding Club in offering flying tuition to schoolboys at cost, a sub-branch of the club has been formed within the school. Conditions of entry are parents' permission and the member must be 15½ years old. Solo flying can be done after the age of 16.

Russell Baker was the first member to fly solo, which he did on 16th September.

Our thanks to Mr. Smith for making this venture possible.

## **RESULTS OF ANNUAL SPEECH CONTESTS**

Third Form: J. Gadsby 1, G. Morgan 2, P. Wheeler 3.

Fourth Form: A. Pomeroy 1, D. Takitimu 2, R. Thompson, R. King and G. Hampton (equal) 3.

Senior: M. Berridge 1, R. Dynes 2, R. Hazlett 3.

# ORIGINAL CONTRIBUTIONS

## ASSEMBLY

We trot from classrooms near and far  
In direction of the hall;  
The door is shut, the prefects bar  
The numerous bolts and all.  
Inside the hall confusion reigns:  
The prefects yell and scream;  
A boy's thrown out, a master canes;  
Silence is supreme.  
A raucous voice calls from the back,  
"School stand! School stand!" says he.  
Staff rambles up—there is a lack  
Of steadiness I see.  
"Hymn 80!" cries our rector king,  
('Tis "Bong! For All the Saints.")  
Then we all begin to sing  
This hymn of our acquaint'nce.  
At last the final "Bong!" is played,  
The pianist leaves with haste;  
A prefect with the Rector's aid  
Attempts to find the place.  
The reading's o'er, the prayer's been drawled,  
The Rector does complain  
That broken windows round the school  
Cost two pounds ten a pane.  
"The dollar that you pay," states Sir,  
"Is not nearly half the sum,  
And therefore the remainder  
From your sports fund still must come."  
He takes exception to a fact,  
And after a dim view  
His presence on the stage is lacked;  
We stand, as is his due.  
The masters then file from the hall,  
Mr. Martin sits us down.  
He says: "Do not let litter fall!"  
Then leaves with flowing gown.  
The prefects start in unison  
A-reading of their notes;  
One of them wants the Benevolent Fund  
(But most just want our throats!).  
A prefect starts to read his list  
Of kids on fat-i-gues,  
Thirdies, fourth-forms, even fifths,  
Accompanied by boos.  
Mr. Ryder's rugby team  
Is snatched up from the hall—  
To attend a practice, it would seem,  
In rain, hail, snow and all.  
Slow, but sure, the prefects move  
To send us from that place.  
The exit starts off very smooth . . .  
But ends in a "rat-race".

—J. J. W., 4A

## THE MANNER OF BOYS

Ouch! Was my back burned? I'd spent the whole day on the beach, and now I was paying for it. It was half past seven, but the air was still too hot to do anything but lie on the bunk.

The day had been glorious at Frankton. So had the day before and the day before that; and tomorrow would be hot too.

I was very bored. There was never anything to do when it was so hot. What would I do tomorrow? . . .

"David!"

I was awakened from my slumber.

"David!"

It was Mark.

"David, are you coming to the shop?"

I hauled myself from my bunk and took a clean shirt.

"Yes, I'll come."

"Mother wants us to get some eggs."

As we walked down the road, I hooked a stone with my toes. It was hot, so I flicked it across the road. I noticed the dust was also warm, and most of the oil on the road had dried. All the grass at the edge of the road was dusty and dry too. All the lawns and trees were dry. Nothing to drink.

"Do you want something to drink?" Mark asked me when we reached the shop.

"Yes, get me a milk shake to-take-away."

"Two please."

They had no eggs, so we slowly walked back down the dry road. As we approached the crib, the boy from next door hurried past us with a bucket of water.

"There's a fire up at the terrace. Hurry."

We hurried, and what a sight we saw. It was a real laugh. There were young people rushing here and there, beating the fire with sacks. The owners flung things out of the circle of flames, the remains of a tent. And someone dragged a huge sack of beer bottles away. We saw several small children run up the terrace with basins of water. Old folk busied themselves, ringing the fire brigade and soaking sacks in buckets of water. They stood around in groups pitying the owners and showing off what they had done to help.

Mark and I just stood there and laughed. We didn't think of helping—I don't know why. The only thing we did was clench our sides and splutter over our milk shakes.

Mark's mother saw us, and came hurriedly down to the terrace—angry and ashamed. She had a black smudge on her cheek, and her eyes were red and watering. She glared at us for a moment, then went back to the crib.

Mark and I went down to the lake and cooled off.

—D. O., 5B

## THE SHORE

The restless waves, their journey at an end,  
Roll one upon the other over sands of tireless change,  
To smash or gently rest their turbulent mass  
Far back, or high up on the sloping shelf.  
Their energy now spent they slowly slide  
In quiet retreat far back to native soil,  
Replenishing the family store of might  
Once more to thunder in forms of darkened swirls  
Upon that strip between two worlds.

—T. McL., L6B

## THE VIOLET DODO

The door slams, the plane spins and then filled with horror  
The lambs go to the slaughter;  
Without the insidious colour-filled flour  
That proverbial symbol of serenity  
Lies crushed, seedless, cold to purple,  
And the earth revolves—revolves in mock tranquillity;  
And the inhabitants go on not knowing,  
Not wanting to know, not caring to know,  
Not scaring into knowing, but knowing  
A form of death comparable to peace.

—R. J. B., U6B

## RULES AND REGULATIONS

My name is Wana Tire and I is a Maori. I live in the country near Hastings. Although I am only eleven years old, I can run faster 'an anybody at school. My teacher, Miss Goodman, says I might go to the 'lympics when I get bigger. I think she right.

I like playing sport, specially football, and I good at it, best in school, but I not allowed to play much because I too young. That a rule at school. Not allowed to play footy until twelve. I twelve in free months, then I play football good.

I live about mile from school and every morning I bike—but I always get told off and not allowed out of hut for free hours, then Mr. Jones bring me home in his black car 'cos I ride on the footpath. I like riding on the footpath, I go real fast. Last week I knock old Mrs. Gilby down off her feet. I laugh, but very soon I stop when I see Mr. Jones helping her to get up. Next day I locked in hut after school and don't get any tea.

I ask Mr. Jones why I not allowed to ride on footpath and he say it against the law. I get angry at all these rules, but no more I ride on footpath. I ride on road, and next day I get no tea 'cos I'm locked in the hut. Mr. Jones tell Mum and Dad I do something wrong. I go through a sign where I got to stop. I nearly live in hut now, and I get hungry a lot.

Now I have to walk to school because Dad gave my bike away for some money. Next day I in hut again for walking across the road and nearly hitting a car. I got to walk across road where white lines are.

Eleven days gone since I last in the hut and I happy. So Mum and Dad. Then on next day I back in hut again. Mr. Jones very angry when he bring me home. He say he ashamed of me for stealing lollies from Mr. Smith's shop. But I didn't know it was wrong to steal 'cos I saw Peter Jones, Mr. Jones' boy, do the same thing the day before. I not tell him though. I'm brave.

Dad and Mum let me out of the hut and take me inside and say sit down. Dad talks to me, he not smiling either. When he not smile he angry. He tell me that some things right and some things wrong. Them wrong things are against the rules and regulations of the world. He say when I do right things, they proud of me and tell everyone, but when I bad and do things against the rules and regulations they angry as anything and lock me in the hut with no food or anything.

So Dad say everytime I be bad, he take sixpence off my money, which means I only get threepence, and everytime I do something good he give me one more sixpence, then if I good for three weeks I can buy that waterpistol I want. So I going to be good like anything and obey the rules and regulations for always and if I do, God will let me go to the 'Lypic Games as a reward for being good and keeping the rules.

—B. M. A. W., L6B

## A NIGHT'S ENTERTAINMENT

Those T.V. ads. must fight it out:  
Tonight's the instant coffee bout.  
Computers roar and kettles pour,  
But now they've changed to lino floor—  
Magic cleaners, like a dream,  
Provide a non-slip glossy gleam;  
And next we see a liquid soap  
Produce two pairs of hands. I hope  
I never get it on my feet;  
I'd have some trouble in the street!  
Chocolates march, eggs can walk,  
Even canned tomatoes talk.  
This lady here, whose head is aching,  
Scalds the milk and burns the baking.  
See how painfully she's frowning:  
Watch this little pill she's downing—  
Aches and pains, a second after  
Clear, and now she's full of laughter.  
How I wish this remedy  
Of instant cure would work for me!  
Now a carpet, loomed to last,  
Unfolds before my eyes—it's vast  
And varied range of Nature's hues,  
A great array from which to choose—  
From palm-trees in a setting sun,  
To a water-coloured one.  
Healthy, lively families show  
That all it takes to thrive and grow  
Is in the jar upon the table,  
Daily spoonful make them able  
Easily, to spend all day  
Just beaming in a cheerful way.  
How very simple things would be  
If jars of stuff could keep me free  
From any trouble, care or strife,  
And I'd be smiling all my life.  
Now a schoolboy scores a try—  
The sound's turned off, for I know why:  
He's so much stranger than the rest,  
And I know where he gets his zest.  
You see, I have a hunch  
Of what it is he has for lunch.  
My Vono mattress waits for me,  
And now I'm going to leave T.V.:  
That mattress ad's just guaranteed  
I'm sure to get the sleep I need.

—M. VC

## WHEN I WAS YOUR AGE

We boys have our hair so untidy,  
It's always disgracefully long;  
Wherever we go, "Get a haircut"  
Seems to be our master's theme song.  
Now our Dads never had this trouble:  
In their day the fashions were sleek.  
We know that they always were tidy  
For they tell us at least once a week.  
Their hair never hung on their collars  
Or dropped down over their eyes;  
When we tell them we've just had a haircut  
They accuse us of telling them lies.  
They'd never heard of a square cut  
Or Beatles or lined cuts or flat tops;  
They only knew short back and sides  
And took a dim view of long mops.  
So let's look on our fathers with pity  
From under our long woolly locks:  
All too soon will our tops be as tidy as theirs  
As the years bring us neat shining blocks.

—I. G. P., 5A

## MY CHURCH

Mine believes this,  
His thinks it's right,  
This one says such and such,  
And this one says they might;  
But I couldn't say.  
Never read it myself;  
They should know what they're doing.  
They've learnt it inside out.  
I go, and I listen,  
And I believe what they say:  
That's what they're there for;  
I was brought up that way.  
The world's not too good now,  
There's lots of problems near;  
I hope they're doing plenty,  
Oh here's my cheque for the year.

## THE HARY AND THE TORTOISE

Once upon a time a tortoise dwelt in a wood. He was a standard Mk. III tortoise, finished in olive drab with a top speed of one mile per hour.

He was conscious of his undistinguished specification, and decided to improve upon it, beginning with an alloy head, high compression lungs, a high-lift diaphragm and a full-flow intestine. Then he added magnesium feet with slicks on the rear, anti-roll bars and a candy-apple red paint job with a green G.T. stripe. Instead of a standard tortoise he now looked like a standard tortoise in bad taste.

One day the tortoise was waiting for the green light at a zebra crossing when along come a hary, wearing beautiful hand-made Italian bodywork. He regarded the tortoise with contempt.

"How 'bout a drag, man" he drawled.

The light turned green and they were off. The hary immediately sprang into the lead, taking every corner in a four-foot drift and accelerating away, leaving the tortoise plodding away behind. The finishing line approached and the hary slackened pace, confident of victory. He was almost home when a candy-apple blur flashed past, which, once over the line, revealed itself as the tortoise, and the winner.

Moral: There is more than a pint of methyl-benzine in every gallon of tortoise shell.

—P. J. C., 5A

## THE GATHERING OF THE CLANS

With wild war-like cries they bellowed and whooped  
As waving their weapons they streaked for the door;  
Some screamed terror as they savagely swooped;  
The first of the creatures was followed by more.  
From the hills tumbled some more hairy men  
Who raced for the steps like the monsters before;  
They crushed opposition casually, then  
Wrestled their own type for a bloody encore.  
The sounds of battle battered the air:  
The tramp of the feet, the clashing of metal,  
The ringing of bells, the screaming of fear,  
Pulpy thuds of the unfortunate who fell.  
And now they poured in a solid flow  
And fighting and cursing they kept up the race;  
The poor victims who fell were crushed below,  
While the clans filled up what was once empty space.  
Now they were there, to the very last man:  
The Rector walked in and assembly began.

—P. J. C., 5A

## WOMAN

|                      |                                                                                                                                                                                                                                                                             |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Symbol:              | We.                                                                                                                                                                                                                                                                         |
| Atomic weight:       | 120 lbs.                                                                                                                                                                                                                                                                    |
| Occurrences:         | Found where man is found; seldom in a free state.                                                                                                                                                                                                                           |
| Physical properties: | Generally rounded in form; boils at nothing; may freeze at any minute; melts when treated properly; very bitter if not used well.                                                                                                                                           |
| Chemical properties: | Very active, possesses great affinity for gold, silver, platinum and precious stones. Violent reactions when left alone. Able to absorb astonishing amounts of food. Turns green when placed alongside a better-looking specimen. Ages rapidly in cosmetic-free atmosphere. |
| Uses:                | Highly ornamental; useful as a tonic in accelerating of low spirits; equalises the distribution of wealth—probably the most powerful income-reducing agent known.                                                                                                           |
| Caution:             | Highly explosive in inexperienced hands.                                                                                                                                                                                                                                    |

R. B. McD., L6S

## TERETONGAN OCTOBER

Then it was overwhelmed with people;  
Suffocated by high-octane fumes;  
And oppressed by the buzzing of speeding racers  
Like noisy bees, all fighting to lead the swarm.  
Then, the boisterous main-stream of merry spectators,  
Engulfed any melancholy undercurrent  
With the temporary ease of a flash flood in spring.  
But now, the only noise is the incessant whisper of the  
marram grass and lupin;  
The air is salty and fresh,  
And the stark, black raceway seems forsaken  
Without its clamouring, colourful surround of rabble.  
Now, the silence blots out any other sound,  
And the whole scene seems to contemplate its memories,  
And wait.

## THE COUNTRY LAD

So you townie students think you have it made, with your Woolworths, Rugby Park, touring shows, and public transport. Well, I will stop this by showing you the country lad is superior on all counts.

1. Education: I know the difference between a wether and a ewe. Do you?
2. Sport: I play rugby, badminton, table tennis, I fish and shoot. Do you?
3. Entertainment: I go to Hullabaloo, the movies, the church socials, every wedding and 21st dance in the district. Do you?

I travel to the place of learning by school bus. This, I consider, is the greatest experience of the lot, where you get education, sport, and entertainment for 32 miles —morning and night.

Where did I learn to puff contentedly on a fag? Where did I learn to deal from the bottom of the pack? Where did I learn to push a girl aside to get the last seat? Why, the school bus!

This sort of education is what you townies miss, and is what remains when Pythagoras and Milton are just words you heard so long ago.

—G. C., L6S

### COMPOSED IN ROOM 25

Hail, Horrors, Hail,  
This room is an infernal hell  
Which possesses minds by fair play or foul.  
The student's mind is forced to compose  
A piece of articulate literary prose—  
An elegy if you're crazy,  
A rhyming couplet for the lazy.  
This room has nothing more to display  
Than minds in scattered disarray  
Whose sole dedication  
Is meditation  
On attempts  
At contempt.  
I fear I am becoming irate—  
Composing poetry is my pet hate.  
It just so happens I can't think  
What on earth to put down in ink.  
But I do not fear  
For now I hear  
That sound which shrilly symbolises  
The adjournment of the assizes,  
For at the summons of the bell  
We promptly shuffle from cell to cell.

—L. E., L6S

### DISTORTION OF A WELL-KNOWN TALE

Once upon a time Little Red Riding Hood was on her way to her grandmother's place with a basket of goodies. Now Little Red Riding Hood was a silly little girl who didn't obey her mother. Her mother had told her not to talk to any wolves on the way, especially the big bad variety.

But Little Red Riding Hood had to go through the woods on the way to Grannie's. A quarter of an hour later, after a wolf had jumped out and gobbled her up, all that was left was her cape.

This is not where the story ends, however. The wolf, well satisfied, retired into his cave, but a short time later died an agonising death from food poisoning.

Moral: Don't wolf your food.

### GUILTY CONSCIENCE

I was by myself  
When I lit my fag;  
I was shaky and didn't want to get caught—  
I puffed away trembling:  
I wasn't sure whether I was enjoying it or not.  
My tongue was hot;  
My hands were sweaty and I was jumpy.  
Then all at once I heard a squeak outside my door.  
I dropped my fag thinking it was my father—  
But after all that shaking, trembling, sweating,  
It was only a cat.

—R. K., 4D

### HEARD IN ROOM 9:

"W-l-r-n, you are an idiot."  
"Yes, Sir."  
"What are you, -a-d-o-?"  
"An idiot, Sir."  
"I'm glad we agree about something."

### STEEP TURNS

An awful feeling I had,  
Flying in an aeroplane:  
He turned the aeroplane quickly;  
I was pushed down in my seat;  
I thought we were going to crash.  
It was like we were being pushed down  
And the aeroplane was going up.  
I thought we were going to go through the  
bottom of the plane.  
I couldn't move while it happened.  
After awhile I wished he would do it again  
Because it happened so quickly.

G. S., 4D

### THOUGHTS OF THINKING

Project: Write an essay plan.

THINKS: What use is an essay plan to me; (BUT . . . not yet fool) I do not use essay plans, therefore I do not need an essay plan; so it cannot be any use whatever and all or even somewhat; BUT, I have been given a project by a very indeed teacher who will be disappointed and markless with regard to my personal and even my person's work sheet and general score card which to me is vitally important because of the general possibilities involved and opened outward upon and otherwise included or tripped over. These before-mentioned and otherwise alluded to and generally stated and talked about reasons or sub-conscious thinks thwims or otherwise (very otherwise) without a doubt and with complete justification all the way for to there and so on withal crossing the road for the chicken is categorically and to a certain but probably for all practical and certainly impractical purposes reasonable extent right and even correct, and what is more, true.

So; for these abundant, bounding like and, popularly many, reasons, I will should and in general and without most of the usual, excluding but a few, excuses (thinks) will write this essay plan.

My teacher thinks: "This man is a fool." (He took psychology and even philosophy) and knows better than to give vent to his true feelings which without a doubt would cause me to stop trying and become very relatively moody and irritable and perhaps even start working which would cause him untold hardship as he would no longer be able to mark my general work and even essays and especially essay plans with a single round numeral but would instead have to spend several minutes on them and it before categorically deciding pending long 30 second argument with himself that the effort was after all but not therefore worth considerably more than previous not efforts but attempts so as perhaps a long skinny numeral with above it many pages of writing tending or at least attempting to give encouragement to this and that or something but probably not other, i.e. picking out the half sentence or one or less than two which is worth the effort of rewriting.

So; if I was a teacher teaching myself I certainly would not give vent to my feelings even if I had not taken psychology or even philosophy for apart from the mental anguish of having to mark efforts at attempts at essays and so on and plus etc.

—D. K. S., U6B

## THE IN-BETWEENS: THE PLACE OF THE FOURTH-FORMER IN SECONDARY EDUCATION

While attending primary and intermediate schools, we, this year's fourth-formers, were considered immature young children, naturally irresponsible, and were treated accordingly. Our misdemeanours were not dealt with too harshly and allowances were made for our juvenile failings. Then we became third-formers and, as such, were given a year in which to adjust to the different conditions prevailing at a secondary school.

After this transition stage came a change in the attitude of authority. As fourth-formers we are now looked on as responsible members of the higher education system and expected to be fully accountable for our behaviour. This we welcome as a recognition that our childhood days are now past. But here comes the rub: although held fully responsible for any transgression of the rules, we still have no real say in the making of them. Responsibility without representation has, in all ages, led to dissatisfaction among the under-privileged classes. Time and again, history shows the consequences of a ruling class imposing its will on a people with little or no say in government. The American War of Independence, and the French and Russian Revolutions, were all triggered off by circumstances such as these. So have been the coup d'états and insurrections which still periodically occur in the under-developed countries of Asia, Africa and Latin America. Although, not for one moment could such a result be even remotely conceived in our education system, the underlying principle still remains—non-representation breeds antagonism.

Certainly, as fourth-formers, we do have representation on the School Council, but what does that amount to?—a minority voice in an organisation that has no legislative power but can only recommend a proposed course of action. This is the age-old expedient of attempting to pacify a disgruntled group by deluding them into thinking that they too have an active part in the policy-making. Any view we put forward has first to receive the support of the senior school with its superior voting power before it can even be recommended to the Rector, who still has the power of veto. Many proposals, although approved by the Rector, have still never been implemented but been allowed to lapse through apathy.

Probably the group with the most direct power over the pupils in normal circumstances is the prefects. This is as it should be, but again we come up against the same fundamental objection—restricted participation in appointment. Only members of the Fifth and Sixth Forms have a vote in the election of this body, whose authority extends over the whole of the students. Surely this is yet another example of a privileged minority class dictating the rules applicable, not only to themselves, but also to the voiceless majority.

Of course we could avoid any controversy by taking the view that we can tolerate the present position until next year when, as fifth-formers, one more step up the pecking order, we will no longer be directly affected. This, however, would simply be evading the problem and helping to perpetuate an existing injustice. We owe it to all future fourth-formers to see that present-day conditions do not apply in the future. Until then we can only trust that vested authority will appreciate our point of view and alleviate our current position.

Like the policeman in the well-known song, "a fourth-former's life is not a happy one, happy one."

—A. J. P., IVA

## THE TALE OF ENZO, THE MECHANIC

Once there was a mechanic named Enzo. Enzo was a good mechanic, a very good mechanic: he could fix anything.

Enzo had a car, he called it a hot-rod.  
The hot-rod was Enzo's pride and joy.  
When the big factory machines came to town  
Enzo entered in their race.

His friends thought he was crazy.  
Other people thought he was crazy. . . .  
They thought Enzo had an inferior car.

But Enzo smiled a sly smile.  
He knew his car was fast.  
Mr. Brabham laughed;  
Mr. Clark laughed;  
Even Mr. McLaren laughed.

They thought Enzo had an inferior car.  
But Enzo just smiled, little did they know. . . .

On the day of the race Enzo was confident,  
Although he was on the back row of the grid.  
The crowd cheered Enzo.

But Enzo was concentrating on the starter.  
Then the flag dropped.

Enzo roared away: it was neck and neck.  
For the next three hours Enzo drove.  
He drove as he had never driven before.  
He drove like a madman.

At the end of the race, where was Enzo?  
Enzo was last.

Because Enzo had an inferior car. —J. R., L6S

## SOME PHYSICS ABOUT OUR NORTH-WEST WIND

When the Fohn plays leapfrog across Southland's Plain,  
From direction Nor-wester there isn't much rain;  
The temperature soars to unseasonable heights.  
"Latent heat is the score" say the Fiordlandites.

'Cross Old Tasman's Sea this strong wind doth caper,  
Picking up tonloads of warm water vapour:  
On reaching the mountains this vapour condenses,  
So E.K. ad lib: to the air it dispenses.

Now this makes the warm air rise higher and higher,  
Just as if pushed from below by a fire:  
Then at the top there's a monstrous great cloud:  
"It's the Nor'wester Arch" we cry out aloud.

Now this dry air hurtles straight down again  
And licks at and bounces from right off the Plain.  
To all sailplane pilots this air is a tonic;  
These waves will continue with motion harmonic.

The top of each wave should be marked by a cloud  
(Of lenticular shape, it must be allowed);  
So fly just in front where the lift's strong and even,  
Or fly too far back and get tossed down from Heaven.  
The Fohn wind still roars across South Island's Plains,  
Having hurdled the high Alps and leaped up again.  
These waves still go up to incredible heights.  
Ask sailplane pilots: they've all had some frights.

Eight miles plus proved, by some glider-plane flights;  
Eight miles and more, proved by glider-plane flights.

J. S.

## A BIRD

Across the infinity of the Universe

There appears

A speck of life

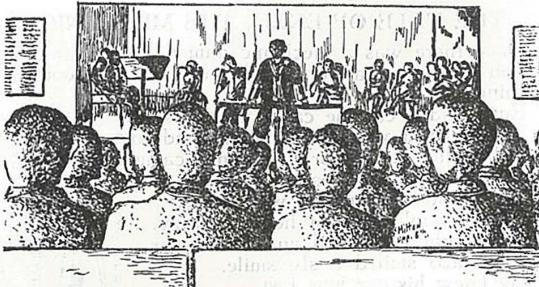

Silhouetted there

Against the absurdities of naught

A gem

Of beauty Insignificant

Compared and gone. —J. C. B., 4A

## Staff Notes

For many years, an outstanding feature of the staff was its stability, but the 1960's have seen a constant turnover. There are only six of us remaining from 1961: Mr. Martin (since 1945), Mr. Waterston (since 1949), Mr. Robertson (since 1956), Mr. Smith and Mr. Ryder (since 1958), Mr. Berridge (since 1960), and Mr. Bemrose (since 1961).

The following is a list of departures and their destinations over the last three years:-

Mr. Braithwaite—retired.

Mr. Blaikie—Headmaster, Central Southland College.

Mr. McNamara—North School.

Mr. Button—Head of English and Languages, Timaru Boys' High School.

Mr. Allen—local accountancy firm.

Mr. W. Jones—Wales.

Mr. McBride—retired.

Mr. D. Ruhen—lecturer, Dunedin Training College.

Miss Grant—England.

Mr. S. Collins—Blenheim.

Mr. P. Sullivan—America.

Mr. T. Sullivan—America.

Mr. Lash—England.

Mr. Carter—post-graduate work, Canberra.

Mrs. Aker—Herbert Street.

Mr. P. Ruhen—University studies.

Mr. Simpson—Wairarapa College.

Mr. Weaver—Australia.

This year we have welcomed to the staff:-

Mr. Henstock—from Otago University.

Mr. Egan—from Christchurch Teachers' College.

Mr. Pearson—from Christchurch Teachers' College.

Mrs. Boag—relieving.

Miss Carroll—relieving.

Miss King—relieving. Departed for America after the second term.

We would like to congratulate Mr. Jack Alabaster on his successes at University and his inclusion in the New Zealand cricket team to tour Australia at the end of this year.

Following their success last year, the staff again entered the C Grade section of the Y.M.C.A. Indoor Basketball League and performed with credit. Badminton has continued on Thursday nights with keen support.

## Prefects' Critique

**J. M. "Mac" Chaplin.**—Intended career: Marine biology. Probable destiny: Coaching rugby at Surfers Paradise. Prototype: John Drake. Quotation: "Marriage is like a tourniquet: it cuts off the circulation" (Alfred E. Neuman). Favourite saying (to Scandrett): "I don't know about you, but I'm going to do some work this period." Favourite pastime: "Being a nice guy."

**N. F. M. Walker.**—Intended career: Teaching. Probable destiny: Male model. Prototype: Alfred E. Neuman. Quotation: "His hours filled up with riots, banquets, sports" (Shakespeare). Favourite saying: "I wasn't in assembly today." Favourite pastime: Smiling cheesily in tennis photos.

**N. A. "Sodium" Blackmore.**—Intended career: Veterinarian. Probable destiny: President of Federated Farmers. Prototype: Any contented country gentleman, with a dog. Quotation: "Clop me thudder" (Denis Blood-nock). Favourite saying: "With me, School!" Favourite pastime: Trying to make a profit in the bookroom.

**M. J. "Hullabaloo Jack" Campbell.**—Intended career: Teaching. Probable destiny: Touch-judge for Western. Prototype: Mr. Efficiency '67. Quotation: "All country people hate each other" (William Hazlett). Favourite saying: "I can't raise my arm above my head." Favourite pastime: Recovering from rugby injuries.

**G. B. "Cham" Chalmers.**—Intended career: Agricultural scientist. Probable destiny: The last of the big spenders. Prototype: The Limeliters. Quotation: "Get money, still, get money boy; no matter by what means; money will do" (Ben Jonson). Favourite saying: "What do you think of my legs?" Favourite pastime: Wishing he could play the guitar like Celia.

**R. A. Forrest.**—Intended career: Dentist. Probable destiny: Racing hotrod-up Chryslers. Prototype: Harvey Forrest. Quotation: "Fleet of mind but slow of foot" (Anon). Favourite saying: "Well, maybe he can get us some, Shirl." Favourite pastime: Out with the boys.

**B. S. "Tub" Hutchins.**—Intended career: Civil engineering. Probable destiny: Mayor of Manapouri. Prototype: Barry Crump. Quotation: "He would hunt in the dark" (Field). Favourite saying: "Well, this joker told me." Favourite pastime: Hushing things up at the hostel.

**A. L. "Albie" Newton.**—Intended career: Teaching. Probable destiny: Fat lady at the circus. Prototype: "Gigantor". Quotation: "Who's your fat friend?" (Brummel). Favourite saying: "The bus was late, sir." Favourite pastime: Going for a "tonk".

**J. R. Pritchard.**—Intended career: Dentist. Probable destiny: Caroline of "Confide In" fame. Prototype: "Jack the Beanstalk". Quotation: "He's a finished gentleman from top to toe" (Byron). Favourite saying: "Well, I've worked it out, and it can't be anything else but . . ." Favourite pastime: Watching Sue play hockey.

**J. D. "John-John" Scandrett.**—Intended career: Business management. Probable destiny: Unbusiness management. Prototype: Jethro Clampett. Quotation: "He quoth, 'A large cold bottle, and a small hot bird.'" (Field). Favourite saying: "Is that right, Doug?" Favourite pastime: Smashing.

**D. B. "Scotty" Scott.**—Intended career: Teaching. Probable destiny: Hospital caretaker. Prototype: Donald Duck. Quotation: "Strange the difference of men's talk" (Pepys). Favourite saying: "Hiya there Dave." Favourite pastime: Needling Mr. Robertson.

**I. M. "Shirl" Shirley.**—Intended career: Teaching. Probable destiny: Southland under 12 cricket coach. Prototype: Any other Shirley. Quotation: "Leg spins and French cuts, Cricket's a game for silly mutts" (Original contribution). Favourite saying: "I must get myself a woman." Favourite pastime: Listening to Forrest.

**B. J. "Dick" Travers.**—Intended career: Metallurgical scientist. Probable destiny: Spearing sharks off a surf-board. Prototype: The exceedingly gay cavalier. Quotation: "I couldn't help it; I can resist everything except temptation" (Oscar Wilde). Favourite saying: "Ooh, I hate folk-music." Favourite pastime: Relating week-end activities in lurid detail.

**T. R. "Moose" McIntyre.**—Intended career: Teaching. Probable destiny: Big John. Prototype: Officer Muldoon. Quotation: "How is the air up there?" (La De Das). Favourite saying: "Chalmers, you've been at my lunch again." Favourite pastime: Flipping bottle-tops.

**A. T. "Bart" Pennicott.**—Intended career: Teaching. Probable destiny: Orange-boy for New York Giants. Prototype: Earl Kirton. Quotation: "Fat people are happy people" (Roy Kinnear). Favourite saying: "Lordship will hose in at Forbury." Favourite pastime: Gambling.

**I. S. Alsweiler.**—Intended career: Agricultural scientist. Probable destiny: Agricultural scientist. Prototype: Billy Bunter. Quotation: "I copied all the letters in a big round hand" (Gilbert and Sullivan). Favourite saying: "These English soccer boots are . . ." Favourite pastime: Being moral.

## Parent-Teacher Association

Once again the Association has proved a valuable link between parents and the School. To the end of the second term, three meetings have been held, and it is intended to hold another during the third term. All meetings have been well attended, especially the one following examinations in June which must have been a record attendance. This must be very encouraging for Mr. Cornwell and his staff and is so for those members of the Association who have made themselves available and are doing such a good job on the Committee.

A pleasant and informal time is spent at these meetings and we are grateful indeed to the speakers, who are so necessary for the success of our gatherings, for giving of their time.

We are indebted to Mr. Cornwell and his staff for their co-operation in attending to the many interviews on meeting nights.

We commend the ladies of the Committee for their efforts in preparing suppers, afternoon teas, etc.

The following were elected at the Annual Meeting:—President, Mr. C. N. McKenzie; Vice-President, Mr. O. Lawrence; Secretary, Mr. J. W. Tuckey; Treasurer, Mr. J. Matheson; Auditor, Mr. J. G. Henderson; Committee—Messdames I. D. Anderson, H. Forrest, E. N. Adams, P. McGregor, G. C. Blackmore, J. B. Clark, L. E. Chapman, E. J. Moen, A. S. Alsweiler, W. D. Ward and T. E. Collie, Messrs. J. Galbraith, I. Ronald, K. Herbison, D. McLennan and A. Weallans.

The first meeting, held on 16th March, was principally for parents of Third Form pupils and was addressed by Mr. Cornwell and the heads of departments. They spoke on the aims and organisation of the School.

Mr. F. W. G. Miller spoke on his trip to South-east Asia at our Annual Meeting on 20th April.

Mr. Cornwell chaired a panel discussion between Mr. J. H. Alty, Superintendent of Police, Mr. B. Harder, Superintendent of Borstal, and Mr. Findlay, of the Child Welfare Department, at the June meeting. Their discussion was on "Young People Today".

## Upper 6th Critique

**R. J. Baxter.**—Intended career: ?. Probable destiny: ???. Prototype: Lucille Ball. Quotation: "Red men scalped each other by the great lakes of North America" (Macaulay). Favourite saying: "Is that diagram to scale, Mr. Briggs?" Favourite pastime: Needling Mr. Briggs.

**M. J. Berridge.**—Intended career: Mechanical engineer. Probable destiny: Head librarian, Te Kuiti Public Library. Prototype: Terry. Quotation: "He who speaks, from heights is often dizzy" (G. X. Tipperworth). Favourite saying: "If you put twin carbs on, Stan. . ." Favourite pastime: Helping his father write his speeches.

**E. L. "Ted" Blaikie.**—Intended career: Engineering. Probable destiny: Commissar in Eastern Ukraine. Prototype: Bertrand Russell. Quotation: "A rebel without a cause" (Lewis Carroll). Favourite saying: "I don't agree: . . . what did you say again," Favourite pastime: Going agin the government.

**S. P. "Paddy" Brooks.**—Intended career: Veterinarian. Probable destiny: Dog-dosing. Prototype: Jimmy Grieves. Quotation: "Oh Paddy dear and ye hear the news that's going round?" (Popular song). Favourite saying: "England for the cup." Favourite pastime: Defending England.

**D. C. "Big Dave" Cull.**—Intended career: Law. Probable destiny: Chief cook for the Tribe. Prototype: Chairman Mao. Quotation: "Hold the fort for I am coming" (Philip Bliss). Favourite saying: "Ooh bull." Favourite pastime: Arguing sarcastically.

**M. N. Diack.**—Intended career: Electronics engineer. Probable destiny: Disc jockey on Radio Hauraki. Prototype: Marconi. Quotation: "Let there be light" (Bible). Favourite saying: "I can understand radio but T.V. has really got me fogged up." Favourite pastime: Fouling up Civil Aviation communication network.

**J. B. Highet.**—Intended career: Mechanical engineer. Probable destiny: Grease-monkey. Prototype: Eccles. Quotation: "Like a blue-bottle fly on rather a large scale" (Barham). Favourite saying: "Are you sure that's right, Stan?" Favourite pastime: Concocting chemicals.

**P. N. Johnson.**—Intended career: Medicine. Probable destiny: President St. Bede's Old Boys' Association. Prototype: Father O'Flannagan. Quotation: "Formless grey confusion covers all" (Thomson). Favourite saying: "You dunno what you're talking about." Favourite pastime: Arranging loans from the "Penny a Week Foundation".

**D. R. Kennedy.**—Intended career: Optometry. Probable destiny: Boutique manager in Carnaby Street. Prototype: "Flipper". Quotation: "Tis a naughty night to swim in" (Shakespeare). Favourite saying: "Giggle, giggle." Favourite pastime: Doing the backstroke.

**Guess Who.**—Prototype: Paul Bryan of "Run For Your Life" fame. Theme song: "Won't You Come Home, Bill Baillie?" Favourite pastime: Collecting black eyes. Career most suited to: Olympic Games torch runner.

**C. T. McKay.**—Intended career: Teaching. Probable destiny: Golf-caddy. Prototype: "The silent muncher". Quotation: "Anything for a quiet life" (Dickens). Favourite saying: "Want a chew?" Favourite pastime: Remaining unobtrusive.

**G. R. "Crack" McGregor.**—Intended career: Dentistry. Probable destiny: Billiards I at Otago University. Prototype: "Lightning" McGregor. Quotation: "We must be cracked up" (Dickens). Favourite saying: "Capital M, small c, capital G, sir." Favourite pastime: Training his dog to retrieve everyone's golf balls."

**D. R. Nicholson.**—Intended career: Geology. Probable destiny: Shearer. Prototype: Herman Munster. Quotation: "Champion playboy of the western world" (Synge). Favourite saying: "Aaaah no sirr. Campbell comes on another bus, sir." Favourite pastime: Swearing from the bottom of rucks.

**J. R. "Ollie" Oliver.**—Intended career: Civil engineering. Probable destiny: Stanley's batman. Prototype: "Tabatha Twitchit". Quotation: "The show of quiet civility" (Shakespeare). Favourite saying: "Oh yes Graham". Favourite pastime: Being attentive.

**D. G. Peake.**—Intended career: Science. Probable destiny: Secret agent. Prototype: David MacCallum. Quotation: "I'm a second eleven sort of a chap" (Barry). Favourite saying: Anything ostentatious. Favourite pastime: Poking at off-cutters on the leg stump.

**R. F. Slaughter.**—Intended career: Civil engineering. Probable destiny: Comfortably married. Prototype: Florence Nightingale. Quotation: "A medical doctor a-cocking his medical eye" (Dickens). Favourite saying: "Oh shutup Blaikie!" Favourite pastime: Taking Carryl to the R.S.A.

**B. Soutar.**—Intended career: Aeronautical engineer. Probable destiny: Distilling "Scotch". Prototype: Fyffe Robertson. Quotation: "There are few more impressive sights in the world than a Scotsman on the make" (Barry). Favourite saying: "Och, it's a wee bit risky." Favourite pastime: Taking cheek.

**D. K. Spittle.**—Intended career: Science. Probable destiny: Psychedelic artist. Prototype: I. R. Hocker. Quotation: "He has gone, departed, slunk off, and got clean away" (Cicero). Favourite saying: "Anything sick from MAD." Favourite pastime: Agreeing with anyone who's arguing against Blaikie.

**G. R. "Stan" Stanley.**—Intended career: Scientific research. Probable destiny: M.C. at a wild party. Prototype: Cycling Sam. Quotation: "Now move on lads, before I call the police" (Popular song). Favourite saying: "The mess wasn't bad really." Favourite pastime: Advising Mr. Knight on a better way to do it.

**F. W. G. Swain.**—Intended career: Medicine. Probable destiny: Upper 6th S.B.H.S. Prototype: Twiggly. Quotation: "Whilst angels sing to thee their airs divans" (Cowley). Favourite saying: "Do Re Me Fa So La Te-he." Favourite pastime: Starting illogical conversations in the middle.

**D. J. Watson.**—Intended career: Mining consultant. Probable destiny: N.Z. karate champion. Prototype: Mohair Sam. Quotation: "A wolf in sheep's clothing" (Anon). Favourite saying: "Try Pomona Street, Max." Favourite pastime: Throwing his weight around on the rugby field.

**M. B. Weeds.**—Intended career: Mineral technologist. Probable destiny: In trouble with Travers. Prototype: Barney Fyffe. Quotation: "I am the very slave of circumstance and impulse" (Lord Byron). Favourite saying: "Yeah, Dickie." Favourite pastime: Conducting door-to-door searches for game.

---

**Guess Who**—Prototype: Barry Crump. Favourite saying: "Well, I've drunk my quota." Theme song: "All You Need is Love" or any other song of "The Flower Children". Career most suited to: Publican at Scott Base.

# THE SPORTING SCENE

## Rugby

### FIRST FIFTEEN

Captain: J. M. Chaplin. Coach: Mr. Ryder.

This was a team which at the beginning of the season appeared to be of only moderate ability but which developed into a particularly strong and successful side, the most successful in some respects for several years.

The record:

Played 21 games, won 17, lost 3, drew 1.  
Points scored for, 421; against, 119.

Inter-schools:

versus Hargest—won 32-9.  
versus Waitaki—won 10-6.  
versus Timaru—drew 11-all.  
versus Otago—lost 10-5.  
versus Kings—won 22-9.

Three boys were selected for the South Island Secondary Schools' team. They were Chaplin, Pennicott and Newton.

In club rugby we were runners-up in the Third Grade competition, the first time for five years. Our congratulations go to Invercargill for their two deserving wins. In the past they have often gone close to victory; this year they accomplished it.

Again the team is indebted to Mr. Ryder for his coaching and immense loyalty. The team, when down, always took heart from his remarks at half-time and at practice. An awareness of time may not be his hallmark but the intensity of his coaching and in building of team spirit could well be. Mr. Ryder also arranged the series of talks by many prominent Southland rugby men at the beginning of the year, and from these, the many players who attended, learned much about the game. For all this, we thank you Mr. Ryder.

Our thanks also go to the many parents and friends who supported the team on the sideline each Saturday.

In all, the 1st XV of 1967 was a most successful team, not only from the point of view of results, but also from the point of the strong loyalty and spirit that existed throughout the season.

### The Players

CHAPLIN, J. M.: A much more confident captain this year. His leadership was outstanding and his team's loyalty never in question. Courageous and superbly fit, he brought his team to a fine peak for the inter-schools and can be proud that his pack bowed to none.

LAUGHTON, L.: Got himself into top physical condition and was always concerned to build and develop his game. Took good ball at two in the line-out and contributed to a very strong front row. The most improved forward in the side.

PITTAWAY, S.: Tight-head prop and line-out block of impressive strength, and the thrust to drive into and often through the opposition. When speed is added to this, his equal will be hard to find.

CHALMERS, G.: A vivacious team man, tidy at the front of the line-out and swift to strike for the ball. At his best, a top-ranking hooker and never far from the heat of action.

WATTS, B.: Rarely conspicuous around the field but invariably in the ruck head down, arms binding. In the line-out his jumping became higher and steadier and he often maintained a flow of ball of glorious certainty. By far his best season.

NEWTON, A.: The reluctant lock continued his good service to the Firsts. His play at No. 3 in the line initiated the drive that wore down many of our opponents and his boot was as fruitful as ever (again nearly 150 points). The 55-yard penalty against Timaru would have brought joy to D.B.'s heart.

DERMODY, S.: He brought "go it" to the lips of more supporters than any other player. Shoulders hunched and legs driving, he made full use of his speed with ball in hand, and relished quick possession when standing wide at the kick-off. A good ball-pinner in rucks.

SHAW, J.: The youngster of the team earned everyone's admiration. Bobbing, dodging, scuttling and shrugging, he put sting into the forward play and tarnished the reputations of no few schoolboy forwards.

COLLIE, N.: An honest, vigorous, most reliable forward and promising front-row prop. His return to school next year will be welcomed. An excellent team man.

POUTU, B.: He coped very well with considerable coaching pressure and it is to his credit that his service quickened considerably. He added variety to a solid backline and finished the season against Timaru in fine voice and form.

PENNICOTT, A.: Vice-captain and a fit one. His shift from full-back to first five, surprising to many, paid handsome dividends. His hands were reliable, his kick with either foot strong and accurate, and his running powerful and decisive. Quick to learn, he has considerable promise.

HEENAN, G.: A run of injuries and forced changes brought him into the side late in the season at second five-eighth and he proved a sound, sensible and safe link to the three-quarters. Backing up and comprehensive tackling were among his best features.

HUNTER, G.: This year he wasn't plagued by industry but delayed passing for unselfish reasons brought a host of problems. He largely overcame these and was our outstanding back against Timaru. His play has become sounder and on his day his tackles were bone- and morale-shattering.

MCKENZIE, A.: Long of leg and swift, we had high hopes of him, but he suffered a series of injuries which checked his development. Against King's he looked and was a class player and scored a hat trick of tries: a repetition of his Hargest effort.

**WALKER, N.**: A clever runner who, deprived of sufficient room, rarely produced his best attacking capabilities. He proved valuable in the left wing. There he covered splendidly, barely dropping a ball all season and gave the backline spark as an extra man.

**HENRY, A.**: Of undistinguished physique, he was a colossus at full-back. The greater the crisis, the sharper his anticipation, the steadier his nerve, and the greater his courage. He was the rock against which many of our opponents had their hopes dashed. He stopped fast rushes brilliantly and his left foot was safer than his right.

**FERGUSON, P.**: Long, awkward and keen, he gave everything a go and worked hard to improve his game. In full stride difficult to bring down. Will be a greater force next year.

**ROBERTSON, N.**: Small and plucky, he trained hard and did his best to play above his physique. With overlap he was swift to score and has a useful outside break from his right foot. Injury wrecked his season.

### INTER-SCHOOL GAMES

#### **James Hargest—won 32-9**

This was the 1st XV's first inter-school and was played on a Wednesday at Hargest on a wet ground. We began decisively. From a switch to the short side, McKenzie gathered up a loose pass, ran down the touch and scored. Hargest came back into the game with a succession of line-out ball and Fyffe scored to level the points situation. Then, much to the delight of the Hargest spectators, Cochrane kicked a penalty from an infringement in front of the post. The score, 6-3 to Hargest. Undaunted, school retaliated with Hunter running past his opposite number and giving McKenzie the easiest run in to level the scores. We regained the lead when Hunter, carving his way through, scored. This began a sustained burst of play which put the result beyond doubt.

We attacked from the kick-off and Walker, breaking across the field, fed McKenzie who scored his third try in the corner. From the resulting kick-off, Hunter again broke through, fed the ball to Dermody who drew the full-back and sent Hunter for his second try. Just before half-time, Poutu broke from the scrum, dummied, and dropped a goal.

In the second half the teams were fairly evenly matched but Hunter ran much too strongly for the opposition and scored his third try. Henry converted. Then the Hargest winger accepted a misdirected kick from Pennicott, gathered the ball and scored. Then just on full time Pennicott centre-kicked, scooped up the ball as it bounced off the posts, and dived over. Henry converted to make the final score 32 points to 9.

#### **Otago Boys' High School—lost 10-5**

On a ground that was little short of a snowfield, Otago Boys' beat us 10-5. After snow overnight, a covering lay on the ground when play began, but fortunately the sun did shine. Otago came down with a good reputation enhanced after beating King's 27-0, but their confidence was shaken from the outset.

Following the kick-off, School attacked with the forwards driving powerfully into rucks and line-outs, feeding the backs with a plentiful supply of ball. In these early stages, the scrum was particularly good with three tight heads coming from the first three scrums. It was not until midway through the first half that School scored. From their own twenty-five, Otago won the ball, but it was dropped by the second five close to their line and in the ensuing scramble, Shaw, always

close to play, scored. Newton converted to make it 5-0. The score remained this until half time, when McKenzie left the field with a muscle injury and was replaced by Campbell.

Otago in the second spell applied more pressure, especially through their backs. It was good covering by the School five-eighths that prevented them from scoring. Our forwards continued to give our backs the majority of ball and territorially the game remained ours. Walker was unlucky not to score from a good cross-kick, but that signified a last chance. Poutu had difficulty in clearing line-out mauls and we steadily drifted back into our own territory. Then, in a moment of disorganisation, after losing Ferguson and playing a wing short, Roy, acting as dummy half, fed Blair who put the blind-side wing in for a try. It was converted to make the score 5-all. This heartened the Otago side and their game lifted for a crucial five minutes. Ten minutes before full time, from a scrum on the twenty-five, Otago won the ball and with the blind-side winger in, scored. This was converted and School were down 10-5.

School now began to fight back. We drove into their half and in the next ten minutes crossed their line twice but to no avail. The score remained Otago 10, Southland 5.

Of the players, Henry played a faultless game, swooping on the loose ball and clearing brilliantly. Pennicott also had a fine game, carving through their line often and backing up continually. Laughton, Newton and Watts were well supported in the line-outs, while Chalmers hooked a wealth of ball both for and against the head.

In all, it was a hard-fought fixture, marked by lost opportunities for we held the upper hand for three-quarters of the game.

#### **King's High School—won 22-9**

Playing on a moderately firm ground at King's, the 1st XV defeated King's 22 points to 9. The sun shone brightly as the two teams took the field and straight away the School attacked, and after three minutes, from a scrum in the corner, the ball came to Pennicott who cross-kicked and McKenzie gathered up the ball and scored in the corner. Newton converted and it was 5-0.

The forwards at this stage played hard, quick-rucking rugby and worked effortlessly. Then from two infringements, Kings managed to kick two penalties and it was 6-5. This inspired the team and from a scrum in front of King's posts, Poutu flipped the ball to McKenzie who dashed over for his second try. The School maintained the 8-6 lead until half time.

The King's team after the break functioned much better, and from a mark in front of our posts they dropped a goal, after missing two penalties. King's led 9-8. Then Henry, playing his most brilliant game in a concussed state after stopping many forward rushes, kicked a penalty to give us the lead. At this stage Pittaway, Newton and Watts began to dominate play from the line-out and from a blind-side movement McKenzie went over in a tackle for his third try. School were back in front 14 points to 9.

With ten minutes to go, Henry kicked another penalty and Chaplin, playing rugged rugby, aggravated an injury to his back but continued to play with a lot of dash. Then, with about a minute's play remaining, Poutu was tackled short of the line and a quick ruck formed. Newton gathered the ball up as it came out and dived over beside the posts for a try. Henry converted to make the result Southland 22, Kings 9. This was a thoroughly deserved win against a team out-played for most of the time but which, until the last twenty minutes, were always too close for comfort.

### Waitaki Boys' High School—won 10-6

On a ground which was sticky after a heavy frost, School (stung by the narrow defeat by Otago Boys High) defeated Waitaki 10-6.

From the kick-off Waitaki steamed on to attack but were soon driven back into their own half by strong, decisive rucking of the pack as a whole. Our forwards played at the top of their form, getting quickly to breakdowns and rucks and winning a steady supply of ball. By breaking through their line-out, we had them going back much of the time, and although their backs did manage to run the ball once or twice, this was stopped by good tackling by the midfield backs and coverwork of the five-eighths.

We opened the scoring after about a quarter of an hour in the first half. From a scrum, Pennicott kicked across for Ferguson's wing. In the race for the ball, Ferguson won and Newton converted from close to the touch. About ten minutes later, Waitaki converted a penalty to make it 5-3 at half time. Early in the second half, Newton and Henry missed penalties from in front of the posts, but despite the disappointment, we continued to camp in their twenty-five. Then after about 25 minutes, Walker came in from the blind-side wing after a line-out to take the pass from Heenan, stepped through a couple of tackles and scored between the posts. Henry added two very useful points.

At this stage Waitaki threw everything into their attack but our defence held, until from a line-out in our own half, Waitaki spun the ball with the blind-side winger in to produce the overlap. School came back on attack and maintained pressure until the end.

In this game the team played as a unit, winning plenty of ball from scrums and line-outs to give the backs a good possession which they used to advantage.

### Timaru Boys' High School—drew 11-11

In a game which two strong packs could not gain any degree of domination, the 1st XV drew with Timaru 11-all. The day was brilliantly fine and underfoot the ground was very hard. School felt the early loss of Chalmers, who was replaced by Blackmore.

The game started with Newton's long kick-off and the team at once went into attack. After two minutes, when Timaru were hard on defence, the ball was won from a scrum and Pennicott kicked for the corner and Hunter dived on it to score a try. Newton converted and the School led 5-0. Newton added another three points about five minutes later with a magnificent 55-yard penalty. The score 8-0. At this stage Chalmers came off.

Timaru came back into the game and from a centre kick by their first five, a forward gathered in the ball, flipped it on to another who scored in the corner—8-3 was the score. Then Rowley for Timaru scored their second try, which they again failed to convert. It was now 8-6. Despite several attacks by both sides and also strong defence, the score remained 8-6 until half time.

In the second half, both teams attacked vigorously, but with close marking by both sets of backs, no scoring occurred until the twenty-third minute, when Shool tried a long throw-in which was not caught, and Timaru kicked it away to score. They converted, and it was 11-8 to Timaru. As if inspired by this, the School forwards played ruggedly and several times players were tackled short of the Timaru line. Then from a line-out just short of their line, Pennicott again cross-kicked to find the defence badly outpositioned and Walker gathered in the ball for the easiest of tries. Henry failed to convert and it was 11-all.

School attacked relentlessly for the last two or three minutes but just failed to make the line. The final whistle went and we had drawn the last game of a most encouraging season.

### Seven-a-side Tournament

On Saturday, 2nd September, the Pioneer Football Club held their annual seven-a-side tournament at Newman Park, Gore. The Third Grade was the largest competition. After a series of fast games, the School team, with a great asset of fitness and speed, played to and won the final.

The team consisted of S. J. Dermody, P. Johnston, B. Poutu, A. Pennicott, G. Hunter (Captain), A. L. Newton and A. C. McKenzie.

Results:—versus Edendale B, won 39-0; versus Old Boys, won 16-6; versus Pioneer, won 8-0. Final: versus Edendale A, won 8-5.

### School's Representation in South Island Secondary Schools' Team

Three members of the 1st XV had the distinction of being selected as members of the South Island's Secondary Schools' rugby team which played the North Island as the curtain-raiser to the Jubilee Test Match in Wellington.

The three members—Newton, Pennicott and Chaplin—were flown as guests of the N.Z.R.U. on the Wednesday preceding the game. On arrival at the airport they were met by the Centurion Rugby Club officials with whom they were billeted. On the Thursday, the teams met at Athletic Park and were addressed by Mr. Tom Morrison and Mr. Fred Allen. The teams were handed over to their respective billets, then trained at Wellington College. In the afternoon team photos were taken and at night many went to the International Trade Fair. On Friday morning both teams trained with the All Blacks and all were very impressed. In the afternoon they were entertained by Shell representatives to a film and a talk by John Thornett, followed by a tour of the city.

The game itself on the Saturday at 11.45 a.m., was held before a crowd of about 4,000. The feeling of the South team was that it would be beaten, but succeeded in playing as a unit. The North team, traditionally the top-dogs, played more as individuals.

After the game both teams were entertained at the home of the selector and left on the Sunday about lunchtime for home.

### SECOND FIFTEEN

Captain: N. A. Blackmore. Coach: Mr. Fyffe.

The team, ably captained by Blackmore, had a successful season in winning the Town Fourth Grade A Competition for the first time for a number of years. It also provided five players for the Town Fourth Grade team.

The forward pack was one of the lightest that the 2nd XV has fielded and also one of the lightest in the competition.

In the pack the loose forward combination of Shirley, Johnson and Watson was very mobile and was always

---

**Guess Who**—Prototype: Sir Bernard Fergusson; Favourite saying: "... abreast of the bar at sixteen." Theme song: "I Am the Very Model of a Modern Major-General". Career most suited to: St. John's Ambulance Cadet.

on hand to take up the loose ball. Adank, though very light, was a good hooker and tidied up the front of the line-out. Forrest was originally a hooker but played very well at tight head prop for most of the season after Sinclair was injured early on. Cameron took a lot of clean ball in the line-outs and was very ably supported in this and the locking berth by both Liddell and Cowie.

The team's main attack was in its backs and the combination of Chalmers, Fitzgerald and Heenan was a firm basis for the many attacking movements. McClean, a promoted fifth grader, at centre, had great acceleration and a good eye for the gap. On the wing, Paris and Slaughter developed greatly as the season progressed, and Baker also showed promise. Sligh was safe at full-back and added an extra sting to the back-line when he joined in.

Of the reserves, Adam and Jones were two steady players with good hands. In the forwards, Cull played a good game.

Of the inter-school fixtures we won one and lost two.

The game against Otago Boys' High was played in very poor ground conditions. School lost the toss and kicked off with very little sun behind it. Play was confined to the Otago half until Shirley opened the score with a good penalty kick, making it 3-0 to Southland. The Otago attack was repulsed and Shirley kicked his second penalty goal. Otago retaliated by scoring a good try and the half-time score was Southland 6, Otago 3.

The score remained the same throughout the second half with play moving from one end of the field to the other. Otago's superior weight in the forwards was starting to tell late in the game.

School again lost the toss in the Waitaki game and kicked off with a bright sun behind it on a frost-hardened ground. The Waitaki forwards, with their great weight and height advantage, gained the majority of the ball but the strong defence of the School backs and the good covering by the forwards kept the score down to 11-0 to Waitaki.

This year the team travelled to Gore for the game which was played in good conditions. The team won the toss and played into a stiff breeze for the first half. It was even going for the first 20 minutes of the game before School team started to dominate play and Shirley went over for a good try. The conversion missed. Southland 3, Gore nil. The score remained at this until ten minutes into the second half when Gore were dominating and kicked a penalty which was awarded in front of the posts. They followed this up with a good forward try which was converted. Southland 3, Gore 8. The School team once again gained the upper hand and many strong attacks by the backs, after some good rucking by the forwards, just failed to score points. Then Heenan kicked a good field goal—the third this season. Southland 6, Gore 8. The score remained the same, though on many occasions the School team came close to scoring.

The team's club record this year is: Played 16, won 13, lost 2, drawn 1, points for 246, points against 71.

The team would like to thank Mr. Fyffe for the time he gave so willingly to coaching and building up the great team spirit which was evident this year.

The team was: Blackmore (captain), Sligh (vice-captain), Adank, Forrest, Cameron, Liddell, Cowie, Sinclair, Watson, Johnson, Shirley, Cull, Chalmers, Fitzgerald, Heenan, McClean, Paris, Baker, Slaughter, Jones, Adam.

### THIRD FIFTEEN

Captain: B. M. Wallis. Coach: Mr. Williams.

This year's 3rd XV began the season with games against country teams, of which we won one, drew one, and lost the third. Then it was decided to play the team in the Fourth Grade B competition. The season began with a group of 38 players, and because it was necessary to give every boy a game, we could not function smoothly as a team. This is perhaps the reason for our unsuccessful season—winning 4, drawing 1, and losing 11.

As the season progressed, Mr. Williams cut the group down to a regular 17 or 18 boys. These consisted of:

Blick, Mackenzie, and either Gibb or Jennings as the front row, who were as good as any we met; Mackenzie was often spectacular, as was Blick, with his powerful drives. Gibb and Jennings were hard and rugged in the tight. Cuthill and Galland were always reliable but perhaps did not use their height in the line-outs. Bunton was usually reliable also and jumped well in the line-outs. Staite and Ogilvy always spelt danger for the opposition: they played hard, fast rugby throughout the season. Macaskill at No. 8, who later went out to the wing, was fast to the loose ball, and often made good ground despite his tendency to run across field.

Pannett at half-back was a tremendous asset to the team. His passing was always reliable and his breaks from the scrum often left the opposition in a desperate position. Scott at first five was always cool under pressure; his good hands and accurate kicks always set the backline in motion. He had a good eye for a gap.

McDermott at second five was fast and reliable and seldom let his opposite past. Later in the season, Dahm and Murdoch came into the second five position. Both were as good as any we met with their hard running.

Wallis at centre and captain, led the team well. His powerful running resulted in him scoring almost half the team's points for the season. He had the ability of timing his passes to the wing. He was also a reliable kicker. Donaghy and Barham were both big, strong wings. Donaghy as keen as anyw player in the team. Barham was a hard runner and together they had a successful season.

Hay at full-back was a reliable touch-finder, but could have been calmer under pressure. His goal-kicking was usually good.

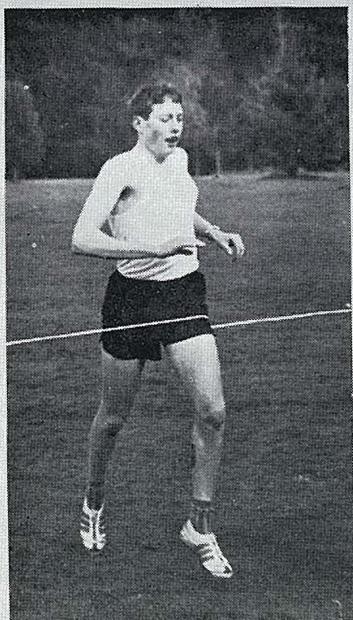

The team's thanks must go to Mr. Williams for his expert coaching in all phases of the game.

### FIFTH GRADE A

Captain: L. Evans. Coach: Mr. Currie.

The team won the S.R.F.U. Fifth Grade competition again this year, winning all its matches. The highest try scorers were Horner (21 tries) and Weallans (20 tries). Over 350 points were scored; this total included only three penalties. Most of the tries came from the backs.

Pottinger at first five-eighth was very elusive and scored in most games through fleet footwork. Thompson, outside him, ran strongly and often made crashing breaks. Shirley, at centre, showed deceptive pace and often set up tries for the wings. Stevenson, at half-back, controlled the game well and tackled magnificently despite his size. All the forwards played well throughout the season although it was not a heavy pack. Stewart excelled in the line-outs closely supported by Poole and Rodger. The front row of Leith, Paris and Heathcote was a formidable unit and they gained many valuable

## 1st RUGBY FIFTEEN

*Back row:* G. R. Hunter, G. L. Laughton, A. H. Henry, S. J. Dermody, N. D. Collie, A. C. McKenzie  
*Middle row:* J. A. Shaw, G. D. Heenan, N. F. M. Walker, P. M. Ferguson, G. G. Chalmers, N. D. Robertson,  
Mr. T. T. Ryder

*Front row:* W. B. Poutu, S. F. Pittaway, A. T. Pennicott (Vice-Captain), J. M. Chaplin (Captain), B. S.  
Watts, A. L. Newton

## 2nd RUGBY FIFTEEN

*Back row:* P. A. Sinclair, W. J. Cowie, M. S. Liddell, R. A. Cameron, R. F. Slaughter, I. M. Shirley  
*Middle row:* S. J. Chalmers, S. J. Paris, D. J. Watson, P. N. Johnson, F. P. Adank, Mr. A. D. Fyffe (Coach)  
*Front row:* W. R. Baker, R. A. Forrest, M. A. Sligh (Vice-Captain), N. A. Blackmore (Captain), J. A. Fitzgerald, G. D. Heenan, L. R. McClean

## 1st SOCCER ELEVEN, 1967

*Back row:* P. J. Ash, G. R. MacGregor, G. C. Clements, F. W. G. Swain, D. J. McEwing, Mr. R. S. Franklin (Coach)  
*Front row:* B. E. MacGregor, J. A. Milton, I. S. Alsweiler, A. R. Hughes (Captain), S. P. Brooks (Vice-Captain), D. J. Peake, G. B. Thomson

tight heads. The loose forwards—Dudfield, Galbraith and Evans—were not needed for any desperate defence work but they played good supporting rugby. Evans, the captain, was a constant source of inspiration with his rallying cry of "ruck". At full-back Waldron was always safe and his frequent sallies into the backline often resulted in tries.

Fifteen members of the group were selected for the Town Fifth Grade representative team in which they performed creditably.

The team would like to thank Mr. Currie for his enthusiastic coaching and support.

The team was: Waldron, Weallans, Horner, Shirley, Thompson, Pottinger, Stevenson (vice-captain), Dudfield, Galbraith, Evans (captain), Rodger, Stewart, Poole, Leith, Paris, Heathcote.

Played 12, won 12, lost 0, drawn 0, points for 359, points against 26.

#### FIFTH GRADE B

Captain: S. Cain. Coach: Mr. Fitzgerald

The 1967 season was a successful one for the Fifth Grade B team, winning eight out of twelve games played and gaining second place in the competition.

Two games were lost to our A's, and Tech. managed to avenge their 32-5 loss by beating us 15-14. Our only other loss was to our C team, 13-12.

Although everyone performed well, the three outstanding forwards were Morris, R. Wilson and Clarke (who was selected for the Town team).

The backs, although lacking in speed, played well. The outstanding players were Humphries (vice-captain) and full-back Laidlaw, who gained by far the most team points.

Members of the Fifth Grade B team were: Tyson, Clarke, R. Wilson, Moffat, Morris, Todd, Ward, Cain (captain), C. Wilson, Troon, Humphries (vice-captain), Boult, Laidlaw, Low, Ballantyne, Redpath, Gavin; also Dynes and Edgar who played for part of the season.

The team would like to thank Mr. Fitzgerald for his coaching and support throughout the season.

#### FIFTH GRADE C

Captain: B. Peryman. Coach: Mr. Pearson.

The first round of the competition was not very successful for the team. With increasing fitness and co-ordination the team improved tremendously and was well prepared for the second round.

The second round proved to be more successful. The highlight of this round was the win against the runners-up of the competition, Fifth Grade B, by 14-13.

The win against Waikiwi 21-11 was also a good achievement but due to an appeal lodged against the team by the Waikiwi Club we lost our points.

The inter-school match against the Riverton 1st XV was drawn 5-all, due to the invaluable kicking of Johnson and a try by McKenzie.

The team would like to thank Mr. Pearson for his helpful support.

The team was: Andrew, Collie (vice-captain), Osborne, Stiles, Freeman, Burns, Redpath, Wilkinson, Peryman (captain), McKenzie, Johnson, McMillan, Millar, Ward, Hight, Wilson, Lindsay.

#### SIXTH GRADE A

Captain: A. R. Rankin. Coach: Mr. Bemrose.

The team did not have a very successful season as far as the record book is concerned. However, we did provide some stern opposition for the other teams in the competition. The best display would be against

Marist—the eventual winners of the competition—in the last round, where we went down, in a very close game, 8-3.

Inability to quickly ruck the ball, plus indecisiveness in the inside backs, spoilt many good scoring opportunities and robbed, what appeared to be a speedy three-quarter line, of many chances.

The team wishes to thank Mr. Bemrose for his coaching and support at the games.

The team consisted of: Ryder, Bennet, Kouka, Breen, Rankin (captain), Wilson, Donaldson, Dawson, Hayes, Dermody, Baker, Herbison, Watson, Stewart, Jones, Calder, Lock and Crozier.

#### SIXTH GRADE B

Captain: B. Valentine. Coach: Mr. Egan.

Although the team did not win any of its games this season, the whole team tried to play well. Some of the games were closely fought and the lucky breaks usually went to the opposing team.

Prominent among the backs was the half, Valentine, who showed determination when the ball came his way. Naismith also played a steady game at second five-eighth, making several good breaks. The best forward was Anderson, who was always attacking. The whole forward pack would have been better if the forwards had worked much more together. The team: Valentine (captain), Huffadine, Cocker, Boniface, Reid, Dickie, Boyd, Naismith, Anderson, Wilkinson, Bath, Weeds, McKenzie, Callaghan, Hay, Lindsay, Fraser, Cochrane.

#### SEVENTH GRADE A

Captain: M. Dixon. Coach: Mr. Knight.

The final of the Seventh Grade competition was played against Marist at the School grounds, resulting in a well-earned win for the School team 14 to nil.

Throughout the season our team has improved with every game and full credit for this must go to our coach, Mr. Knight.

In the backs McKechnie, Wilson and Dixon made some fine breaks which often resulted in tries. Our kicker, McKechnie, was in good form all season, scoring a handsome total of 68 points. The rest of the backs also played very well.

In the forwards, Noble as vice-captain was in the thick of things all the time. He took good ball in the line-outs, as did G. Hampton and A. Hampton, Prentice, Poole and Stevens also made some good breaks. Scott and Collie also played very well all through the season. During the season the team scored 185 points and only had 31 points scored against them.

Team: M. Dixon, T. Morton, A. Hillis, B. Hay, B. McKechnie, M. Wilson, C. Morland, E. Stevens, N. Prentice, G. Hampton, L. Scott, A. Poole, A. Hampton, L. Noble, A. Collie, R. Bell.

#### EIGHTH GRADE

Captain: B. Burrows. Coach: Mr. Berridge.

The Eighth Grade rugby team had a good season, finishing second in the competition. Of the twelve games played, six were won and six lost. The record did not look very promising after the first seven games, with only two wins. But the team pulled together splendidly with everyone trying hard and playing as a team, and consequently we won four of our last five games.

~~~~~  
Guess Who—Prototype: (Sir) Francis Chichester.
Theme song: "Those Magnificent Men in their Flying Machines". Favourite pastime: Cursing P.S.S.C. equipment. Career most suited to: Fashion designer.

The captain of the team was B. Burrows, a very determined leader of the forwards, and the vice-captain was B. McKenzie, an active and resourceful inside back. Other outstanding players were W. Cambridge, B. Craig, J. McClure, R. Dawson, B. Bennett, and D. Waldron. Probably the best match was against Marist. In this game the team played their best rugby of the season. The score was 13-nil and could have been higher had we been able to make the most of every opportunity.

The boys would like to thank Mr. Berridge for his valuable help and time in coaching the team during the season.

Association Football

FIRST ELEVEN

Captain: A. Hughes. Coach: Mr. Franklin.

Playing once again in the Southland Football Association's Second Grade competition, the 1st XI contested this season with eight teams for top honours. Of the eight teams, United and Thistle proved the strongest rivals. The team lost to United 2-8, 2-6, and drew 2-2; v. Thistle, lost 2-5. Of the remaining six teams, Gore Wonderers, although a weak team, managed a draw and a win against the 1st XI. High School B, playing its first season in the Second Grade competition, was defeated by the 1st XI, 4-0, 6-2. Some good victories were recorded during the season—v. Waihopai 12-0, v. Queen's Park 12-1, v. Old Boys 8-3, v. Thistle B 8-1. Games during the competition were either hard or comfortable victories which unbalanced the team, especially before important matches. The team scored a large number of goals this year, but also had a large total scored against it.

Towards the end of the long season, with the top teams having their losses, it became a struggle for points each Saturday.

The School team retaliated towards the end of the season with a win against the competition leaders, Thistle, 3-1. In a play-off, the 1st XI ran out the winners and so hold the Dresden Cup.

The team played 27 games during the season. The record was:—

	P.	W.	D.	L.	F.	A.
Second Grade Competition	22	16	2	4	114	44
Inter-school Competition	5	2	0	3	18	26
Total	27	18	2	7	132	70

Highest goal-scorers: Hughes 60, Thompson 24, Milton 20, Brooks and McEwing with 10 each.

The team's thanks go to Mr. Franklin for his time and management spent towards the 1st XI on and off the field.

The Players

ALAN HUGHES (inside-left, captain): Alan was a captain who led by example. His remarkable ball control, skill and accuracy in shooting is well illustrated by the fact that he scored over 60 goals this season. His fitness and determination inspired the rest of the team. Without a doubt, Alan is one of the finest players the School has seen.

P. BROOKS (centre-half): Playing his first season at centre-half, Paddy filled the position successfully. He showed a good understanding of the game and played a prominent part in most goal-scoring moves. He was a very steady player and provided the defence with experience.

F. SWAIN (goalkeeper): Fred joined the team early in the season. His lack of experience was made up for by his determination and enthusiasm to learn the required skills.

G. CLEMENTS (goalkeeper): Glen joined the team later in the season. With a little more anticipation he could develop into an able goalkeeper.

I. ALSWEILER (right full-back): Ian played strongly throughout the season. His hard tackling, together with his clearing kick, proved very effective when under pressure. He must, however, develop more strength in his left foot, and concentrate on accurate passing.

B. McGREGOR (left full-back): Bruce is one of the youngest players in the team, but showed maturity in his approach to the game. He played confidently and proved a hard player to beat. His anticipation will improve with experience.

P. ASH (right-half): Paul was an inconsistent player. His sudden burst of speed proved effective in setting up quick attacks and provided the defence with pace which it did not have before. Paul must learn the importance of positional play and develop kicking strength.

D. PEAKE (left-half): David played determinedly all season, but again experience was lacking. His positional play was excellent, whether on attack or defence. David's passing, however, was often astray, but it will improve with practice.

G. MacGREGOR (right wing): With his powerful kick Gordon filled his position successfully. His centring brought off many needed goals, while his accurate corner kicks always worried the opposition. Gordon, however, lacks the essential skills of ball control, and must develop these to become more effective.

G. THOMPSON (inside right): Graham moved into the inside-forward position this year and had a good season. His shooting was always accurate but he showed reluctance to cover his opposite number. His sudden change of pace proved valuable and he used this to his full advantage.

J. McEWING (centre forward): John played reasonably well but must learn to pass more. His positioning was good but showed a lack of determined running. John used his height to advantage and was always dangerous when the ball was in the air.

J. MILTON (left wing): A newcomer to the School, Jeremy combined well with the team. His shooting will improve with confidence. He was inclined to beat his man too often, rather than pass. Jeremy used his speed effectively.

INTER-SCHOOL GAMES

v. Otago Boys' High School

(played at Surrey Park, Invercargill). Lost 5-1.

Adverse weather conditions the night before had left the ground in a heavy condition. The team began well and was rewarded by a goal from Hughes when he accurately placed a direct free-kick past the goalkeeper. This aroused the team's spirit, but Otago Boys soon began attacking with determination and only fine defensive work kept their forwards out. It wasn't long, however, before O.B.H.S. scored their well-earned first goal. Just before half-time their second was scored when Swain, playing in goal, misjudged a shot, and allowed it to slip through his arms.

Half-time score: O.B.H.S. 2, S.B.H.S. 1.

The second half began with the team again defending strongly. But the O.B.H.S. forwards were soon rewarded with two fine goals. The S.B.H.S. team launched occasional attacks but seemed to lack the finishing touch. Midway through the second half S.B.H.S. was awarded a direct free kick in front of the O.B.H.S. goal, and only a fine display of goalkeeping kept Hughes from scoring again. Minutes before fulltime O.B.H.S. scored again, and the final whistle went with both teams fighting hard for possession.

Final score: O.B.H.S. 5, S.B.H.S. 1.

v. Linwood High School

(played at Surrey Park, Invercargill). Won 8-4.

The game began at a fast pace with both teams having their share of the ball. L.H.S. did not take long to settle down, and produced good football in the early stages. A good first-time shot by the Linwood left wing gave Swain little chance. It wasn't long before another three goals were put through a floundering defence. At this point Southland changed its style and produced some good movements which resulted in McEwing scoring. After continual attacks by the Southland forward line, Thomson placed two fine shots past the Linwood goalkeeper.

Half-time score: L.H.S. 4, S.B.H.S. 3.

In the early minutes of the second half Thomson scored again for Southland to even the score. From then on Southland had control of the game and attacked the Linwood goal relentlessly. A centre from G. MacGregor found an unmarked Hughes who headed it past the goalkeeper to put Southland in the lead. Minutes later a misdirected centre from G. MacGregor was misjudged by the Linwood defence and the ball rolled over the line. However, Linwood still fought back but seemed to lack their earlier fire. Brooks held the Southland defence together, collecting the loose balls and distributing them out to the wings. On two occasions the quick reactions of B. McGregor saved certain goals. In the closing stages Hughes dribbled his way through a weary defence to score the final goal.

Final score: L.H.S. 4, S.B.H.S. 8.

v. King's High School

(played at K.H.S.). Lost 10-2.

The game began at a fast pace with S.B.H.S. in possession. The retreating K.H.S. weren't quick enough to stop a long ball from McGregor to Milton, who hit it first time to score the first goal. However, K.H.S. settled down and played good soccer. After a series of short passes a King's player found himself in a shooting position and made no mistake in scoring. K.H.S. now looked very confident and scored three more goals.

Half-time score: K.H.S. 4, S.B.H.S. 1.

The second half began with a determined K.H.S. attack. Their forwards continually penetrated a shaken defence and soon had their total up to seven. S.B.H.S. still fought hard but couldn't finish off their moves. A shot by Thomson was punched against the bar by the K.H.S. goalkeeper only to land at Hughes' feet: he made no mistake in scoring. Before the end of the match K.H.S. scored three more times to give the final result of 10-2.

v. Timaru Boys' High School

(played at Timaru). Lost 4-1.

Ground conditions for this game were ideal. T.B.H.S. accustomed to these dry conditions took control of the game immediately and began attacking. Only fine defensive play kept the well-drilled T.B.H.S. forwards out. Nauta, T.B.H.S.'s outstanding player, dribbled his way

through School's defence to score. S.B.H.S. forwards then combined well and began a determined attack, proving dangerous. Hunter hit the crossbar with a fine shot but T.B.H.S. cleared. T.B.H.S. took advantage of a bad defensive kick, and Nauta scored again. Attacks see-sawed between each goal until Hughes hit across from the right wing into the goal.

Half-time score: S.B.H.S. 1, T.B.H.S. 2.

The second half began poorly for S.B.H.S. as the team couldn't control the game as well as expected. Nauta again scored for T.B.H.S. after a melee in front of the S.B.H.S. goal. Then followed a period of intense struggle for supremacy. A corner by T.B.H.S. found the head of Nauta who scored a lucky goal. Thus ended a disappointing match, but the team had gained experience.

Final score: S.B.H.S. 1, T.B.H.S. 4.

v. Southland Technical College

(played on School ground). Won 6-3.

A very heavy ground with many patches under water gave little chance of the 1st XI to play a high standard of football. School attacked from the start and soon began probing the S.T.C. defence. Midway through the first half Milton scored after a switch of play. Then Thompson went through for two goals, minutes within each other. Hughes scored from a centre before half-time to make the score 4-0.

The second half began with S.B.H.S. again in the S.T.C. goal area trying desperately to walk the ball into the net. S.T.C. had occasional breakaways and on three occasions scored. The only goals for S.B.H.S. in this half were from long shots, Brooks and Milton scoring.

Final score: S.B.H.S. 6, S.T.C. 3.

SECOND ELEVEN

Captain: B. Soutar. Coach: Mr. Parish.

The 1967 season was a very encouraging one for the 2nd XI. For the first time the team played in the Second Grade competition and performed creditably considering the size and ability of the opposition. To strengthen the side, it was decided to play both the First and Second Eleven coaches. This experiment was successful.

In goal, Webb was steady, saving some desperate situations. His weaknesses were failing to get behind the high shots and inaccurate clearing kicks. Nevertheless his standard was high. Hulls at right-back improved markedly as the season progressed, but spoilt many aggressive movements through inaccurate passing. Sharp was a consistent player, but was frequently drawn away from his man. This most often was due to indifferent marking by the half-backs, who were chosen from Nicholson, Mr. Franklin, Soutar and Rose. Nicholson was an excellent player, combining much ball control with an attacking style. It was unfortunate for the team that Mr. Franklin broke his arm midway through the season and was on the sideline for the rest of the time. Rose also possessed good ball control but at times he became too aggressive, leaving the rest of the defence an extra attacker to contend with.

Guess Who—Prototype: The handsome windblown driver (Steve Reeves). Favourite saying: "I might just confiscate that photograph." Theme song: "Smile, You're On Candid Camera". Career most suited to: Mr. Twiggy.

The forwards were disappointing, lacking the ability to finish off many inspiring movements. Burgess was a developing player who, through this year's experience, will be an asset in the future. Fairweather was playing very well at the end of the season, centering the ball consistently. The 2nd XI coach, Mr. Parish, played quite well for his first season, creating clever movements. Hunter, in the centre, was inconsistent but had the best shooting ability, a fact reflected in the list of goal-scorers. Smith possessed the best ball control of the team but was unable to finish off his movements. Pratt showed outstanding speed on the left wing and, as he developed his left-foot shooting, he became a most dangerous attacker.

The team thanks Mr. Parish for his enthusiasm and able coaching.

Goal-scorers: Hunter 10, Smith 7, Pratt 5.

Goals

Played	Won	Lost	Points	For	Against
18	6	12	12	33	73

The team was: B. Soutar (captain), R. Webb, M. Hulls, L. Sharp, F. Nicholson, Mr. Franklin, G. Rose, S. Burgess, R. Fairweather, Mr. Parish, J. Hunter, L. Smith, C. Pratt.

THIRD ELEVEN

Captain: R. Malcolm. Coach: Mr. Smith.

This year's 3rd XI started the season in good style and although some of the team-work disappeared in the later stages, the team won the competition. Being the youngest and smallest team in Third Grade was a disadvantage. All the games were hard-fought with no really easy wins.

Of the players, B. Collins was a tower of strength, making some good saves in goal. Brighton, Brown and Ward in the backs improved steadily during the season. In the forwards the two combinations of Butler-Parmenter and Hutchby-Baird worked well and played some good soccer. Malcolm at right-half played good constructive football all through the season. Dixon at centre forward was the team's top scorer. R. Wilson joined the team from Fifth Grade halfway through the season and worked in well.

These players represented the Southland Schoolboys under 14 team: O. Butler, G. Hutchby, B. Collins, R. Malcolm (captain).

The team was: B. Collins, B. Ward, R. Collins (captain), G. Brighton, D. Brown, R. Malcolm, P. Baird, S. Hutchby, G. Dixon, G. Parmenter, O. Butler, R. Wilson.

A record of the team's performance:

Goals

Played	Won	Drawn	Lost	Points	For	Against
17	7	3	1	17	54	20

The team's thanks go to Mr. Smith for his support and encouragement throughout the season.

THIRD GRADE B

Captain: R. McIntosh. Coach: Mr. Turvey.

Despite several close and valiant attempts, we did not quite manage to win one game. Attendance and spirit on the Saturdays were good, though few were as keen as "our Maz" to have practices. (He was rewarded by improved play as time went on.) Glen Clements was an especially good goalie and took over as captain from Allott about mid-season.

The team: Anderson, Allott, Berridge, Clements, Knight (on loan from U.S.A.), Lawrence, Luzmoor, Maslin, McIntyre, Perkins, Simpson, Tuckey, Weir, White.

Sincere thanks go to those parents who assisted at various times.

FIFTH GRADE A

Captain: S. Grant. Coach: Mr. Turvey.

This team contained many of the best third formers and some good fourth-formers and should have done better in the competition: better positional play was needed. We finally finished third out of eight teams.

The team consisted of: S. Grant (captain), I. Brooks, B. Aylward, G. Alsweiler, B. Aitken, R. Auton, B. Berg, A. Cockcroft, A. Grey, P. Morris, B. Pol, J. Mulholland, M. Rees, R. Shirley, A. Mennie.

S. Grant was selected for the Under 14 Southland team.

FIFTH GRADE C

Captain: G. Amos. Coach: Mr. Duerden.

C team had an enjoyable season. It usually met superior opposition but at all times the team made a determined effort.

Members were: Amos (captain), Holz (vice-captain), Carter, P. Dale, Gadsby, Hammond, Houston, Lowery, B. McKay, Mackrell, Moen, Schrier, P. Wilton.

Hockey

FIRST ELEVEN

Captain: J. Pritchard. Coach: Mr. James.

This year's 1st XI had one of the best seasons for several years, losing only three games throughout the season and then only by thesmallest of margins. The team ran out winners of the Intermediate Competition and so hold the Lewis Shield—the first time for some years.

Record:

Played	Won	Lost	Drew	For	Against
18	15	2	1	100	12

A number of members received the distinction of being selected for Southland representative teams—Men's A: A. Carr. Southland Colts: R. Baxter, K. Morton, J. Pritchard and K. Romeril.

Secondary Schools' team which travelled to Dunedin: A. Carr, N. Pritchard, J. McClure, H. Paterson, K. Morton, J. Pritchard, L. Butler and K. Romeril.

The team started the season by developing very quickly into a good unit. At first team members were rather too individualistic, but by the time the inter-schools arrived, the team was reaching its peak. After a very successful game with Otago Boys', several team changes were made, and this again strengthened the team as the 2-all draw with the very strong Gore High team indicates.

Throughout, the team's discipline was of a high standard and with everyone working as a team, the 1st XI became a very happy unit. With few team members leaving, next year's 1st XI should be a very strong one. Our grateful thanks are due to Mr. James and also Mr. Carr who kindly coached us on Saturday mornings.

Once again our annual match with S.G.H.S. was most enjoyable. The boys won by 5 goals to nil.

The Players

J. PRITCHARD (captain): A versatile player who began the season as centre-half from where he directed the team's attack with no little skill. Later played at inside-left and gave the forward line a greater impetus in the circle. John made an able captain and encouraged the team to its best efforts. He will be missed for his skill and determination, but it is to be hoped he will continue the sport in the future.

K. MORTON (vice-captain): Ken was undoubtedly one of the mainstays of the 1st XI. His ruggedness and thought retrieved the team from many awkward situations. Throughout the season, no matter where he has been asked to play, Ken has always given of his best. He has developed to the stage of a very talented player and with practice should go a long way.

R. KENNEDY: Ross is essentially a team man, an attribute which many fellow team members could follow. He was asked to play in a position which is perhaps one of the hardest on the field; but by keeping his position and following the basic principles, he had many good games. Of particular mention is the Otago Boys' game in which Ross scored both goals.

R. BAXTER: Ray was perhaps one of the best finds of the season, enabling the team to be re-arranged for strengthening purposes. Ray always gave of his best in goal and his selection for the Southland Colts' team was a fitting climax to his season. Ray has the qualities needed of a good goalie and, if developed, could further advance in hockey circles.

K. ROMERIL: A very talented player who had many good games throughout the season; however, a player who at times became erratic mainly as a result of his own lack of confidence. Once he has mastered this problem and accepted team discipline, he will be a great asset to any team in which he plays.

L. BUTLER: Lindsay is one of the team's most promising young players. He had a very successful season; his stickwork and general teammanship has reached a very high standard. His penetration and thought in the forwards was greatly valued. With practice this young lad will develop into a very talented player.

G. ANNEAR: Geoff is a young player who gave of his best at most times. His major fault was that of lack of confidence. He has the basic skills and qualities but must learn to use them. His speed, for example, must be used to full advantage in his position as a winger.

D. NEILSON: David has not altogether had the best of luck this season. His size is a natural disadvantage and in his position as an inside forward, vigour and speed are essential qualities. David must realise that physical fitness is needed to play a hard game. However, despite this, David helped greatly in the team's successes and with development of his skills will become an asset to future elevens.

H. PATTERSON: Hugh is a talented player who had some very good games. However, his rather lackadaisical attitude at times was a fault which he must learn to master. Overall, Hugh did his best for the team and with his good stickwork produced many attacking opportunities for the forward line.

T. HAYES: Trevor is a player who lacks experience but is always willing to help team-mates. He tried his best at all times and this is all that can be asked of any player.

N. PRITCHARD: Neil is a very robust player who plays his hardest throughout the game. He was asked to play as full-back this season, and though not his natural position, he adjusted quickly and, with Jeff McClure, developed a very fine combination.

A. CARR: Alister was undoubtedly one of the team's greatest assets. As a goalie he played excellently, and when asked to play in the forwards later in the season he played very well, scoring some very fine goals. Alister's standard in hockey has now reached a very

high one and with additional experience he should go a long way.

D. CLARK: Although Darryl was brought into the team late in the season, he quickly adapted his play and played several good games. Darryl is the type of player needed in any hockey team, his ruggedness and tenacity helping the team in many awkward situations. He should be a great help to future 1st Elevens.

J. MCCLURE: Jeff is undoubtedly a full-back with talent. He played many good games, a feature of his play being his reliability at all times. Jeff also should be a great asset to future 1st Elevens.

INTER-SCHOOL GAMES

Otago Boys' Won 2-1

In wet and slippery conditions after overnight snow, the S.B.H.S. 1st Hockey XI won by 2 goals to nil.

The first half saw a dour struggle develop, both teams trying attacks at every opportunity but to no avail, the defences of the teams being very strong. Half-time came up with no goals being scored for or against. It became apparent that in the second half we would have to go all out on attack using the advantage of the bad weather behind us.

In the second half we used this technique, and from good following up Ross Kennedy scored a good goal. Minutes later he repeated this performance, and after some very good stern defence the final whistle blew with the School team winning the game for the first time in many years.

There were no really outstanding players on the day, every team member playing to the best of his ability. This, alone, was the reason for our victory.

Gore High School Drew 2-2

In very good overhead and ground conditions, the School team drew with Gore 2-all. In the first spell scoring opened quickly with Alistair Carr netting from a very fine solo run from just inside his own half. Both teams were very slow to settle down and it was not until after half-time that good hockey was played.

In the second half Gore completely mesmerised our defence, scoring two very fine goals, but with time running out Lindsay Butler managed to net, making the final score 2-all.

All players played well but in particular Baxter, Carr, Clark and Butler played outstanding games.

R.N.Z.A.F. Colts Lost 8-3

In atrocious weather and ground conditions, the School team was defeated 8 goals to 3. In spite of the ground conditions some very good hockey was played. Both teams gave of their best. The School team was at rather a loss having lost three of their players through injury, but even so the team played very well, and what is more important, never gave up trying until the final whistle (a feature of this season's play).

The R.N.Z.A.F. team had earlier been beaten only 2-1 by the Southland Under 21 team, so the score of 8-3 was a fine one indeed.

The outstanding player of the match was Alistair Carr who scored all of the team's goals and played a major role, even if slightly unorthodox, in the defence. However, the rest of the team played very well considering the team changes, and not one gave up trying.

Guess Who—Prototype: Caswell Bligh. Favourite saying: "Well, that's another period shot down in flames." Theme song: "This Land is My Land". Career most suited to: Committee organiser.

SECOND ELEVEN

Captain: D. Clark. Coach: Mr. Briggs.

The team, playing in the Junior Competition, improved continuously throughout the season, attaining a good standard in the latter games with a win over Primary A, a draw with Technical A, and narrow losses to Hargest A (1-nil) and High A (3-nil).

The season was highlighted with a 6-2 win over Central Southland College, where the forward line co-ordinated in their best game, with R. Smith (3 goals) outstanding.

Paterson, at centre-forward, Baxter in goal, and Clark an able captain at inside-right gave the team much confidence, contributing to its improvement. They were badly missed when they were deservedly promoted to the 1st XI.

The team would like to thank Mr. Briggs for his time and support during the season.

The team: D. Clark (captain), D. Neilson, R. Baxter, P. Hemmingsen, P. McKerchar, H. Paterson, B. Fredric, R. R. Baxter, R. Neilson, R. Butler, B. Sherbourne, G. Burns, A. Morison, R. Smith, A. Fallow.

Basketball

FIRST BASKETBALL

Captain: G. N. Adam. Coach: Mr. Alabaster.

Once again the First Basketball Five competed in the A Grade competition at Surrey Park and finished fifth in the competition of seven teams. Most of the teams were more experienced than we were, but all games were hard fought and the benefits of these games will be of great value to all players.

As only three players returned from last year the team was very inexperienced, and this combined with a lack of height, found the team struggling in most games. Rebounding is an important part of basketball, but in this department the team was not very strong, with only two players able to gain rebounds consistently. With the loss of K. Winchester halfway through the season the team was further weakened. With the experience gained this year, a more aggressive outlook, and harder concentration, the team for next year should be a formidable one.

The team would like to thank Mr. Alabaster for the time he gave to coaching the team, and also for his experience as a player in the early part of the season. His support was appreciated by all.

During the season I. Robertson played for the Southland Men's team, while N. Adam, J. Henderson and P. Chapman played for the Southland Colts.

INTER-SCHOOL MATCHES

v. O.B.H.S. Lost 45-39.

The game was played at the Surrey Park Stadium before a small crowd of keen spectators. Interest remained in the game right up to the final whistle, mainly because of the closeness of the scores, but O.B.H.S. ran out the winners 45-39. The School team could not match the brilliance of the O.B.H.S. captain, J. McDonald, who scored 31 points. I. Robertson and K. Winchester had good games for School, scoring 19 and 15 points respectively.

v. K.H.S. Lost 63-47

This game was played in the K.H.S. gym., which was smaller than a normal size court, but had a good floor surface. The School team took a long time to settle down, and King's, who were used to the conditions, had gone into a 16-point lead before School scored. Once the team settled down the game was played almost point for point, but the initial lead gained by King's never looked like being overtaken. The game ended in a win to King's 63-47. I. Robertson top-scored for School with 28 points.

SOUTH ISLAND TOURNAMENT

Held annually in Dunedin, the tournament has most of the major basketball schools in the South Island competing, and is run on a Round Robin basis with all teams playing at least four games.

After a close first game against King's, which was lost by two points, the team failed to reach the same standard of basketball in any of the remaining games. This was mainly due to the 'flu, which reduced the team to six players, including the key player, I. Robertson.

Results: v. King's High 46-48, v. Taieri 37-32, v. Christchurch B.H.S. 22-58, v. St. Andrew's 25-34.

SECOND BASKETBALL

Captain: B. Wallis. Coach: Mr. Alabaster.

This year's Second Five playing in C Grade competition, although not having a successful season, thoroughly enjoyed all their games. Many were hard fought and often only a matter of one or two points meant defeat. The team finished about halfway in the competition. The team was:—

B. WALLIS (captain): A guard who gained plenty of good ball. He was able to set the team attacking quickly and well; a good set shot who played well on attack. Good jumper.

C. RONALD: Played good basketball throughout the season. He seldom let the team down. Good guard.

J. COCKBURN: Centre. Jumped well despite taller opposition. Was a good set shot. Was good all-round player.

N. WITHTINGTON: Was a reliable player. He was often in a handy position for lay-ups. His play was hindered by lack of height but he was fast on to the loose ball.

C. BURNS: Always a dangerous forward. He was a good, fast dribbler. Scored mainly from lay-ups. Good at the fast break.

J. SCANDRETT: Was reliable in any position. Another good fast dribbler who could set the team attacking quickly.

W. WHITE: Was often caught out of position but made up for this in other plases of the game. Was a good team man.

Lack of practices was our problem, and not until later in the season did the team have regular practices with Old Boys, to whom we owe our gratitude and thanks.

To end the season, the Second Five travelled to Winton to play Central Southland College's First Five. Although the C.S.C. team had a greater height advantage, they lacked co-ordination and consequently School gained major possession, winning 30-14.

B. Wallis was the top scorer with 17 points; C Burns next, scored 7.

The College team was rather inexperienced and School was quick to take advantage of their mistakes.

THIRD BASKETBALL

Captain: A. Treffers. Coach: Mr. Alabaster

Team: W. Hayes, A. Treffers, K. Davidson, J. Thompson, B. Watson, R. Booth.

The Third Five had a rather unsuccessful season and won few games. The members lacked enthusiasm after the Third and Fourth Five teams were reshuffled halfway through the season.

The team lost Clark, Lamb, Leckie and Adams and gained Davidson, Thompson, Watson and Booth.

Congratulations must go to Hayes for being the most constant player, and thanks are due to Mr. Alabaster for his helpful and patient coaching.

FOURTH BASKETBALL

Captain: B. Aitken. Coach: Mr. Alabaster.

The Fourth Five had quite a successful season having won the majority of games. Halfway through the season the Third and Fourth Fives exchanged several team members in order to make the Fourth Five a stronger team. The first three games were won, thus boosting the team's morale.

McRobie was responsible for the major part of the team's points as he played well and developed a good lay-up. At first Shand gained many points through set shots but suffered an injury to his arm during a game and was handicapped for a large proportion of the season. Clark, one who was able to play both guard and forward successfully, established himself as a useful player. Adams rendered good service as a forward and Leckie as a guard. Lamb improved during the season and proved himself a capable guard.

Our thanks to Mr. G. Alabaster and the Old Boys' Association basketball team for their coaching.

The team was: B. A. Aitken (captain), J. G. Adams, P. J. Clark, D. J. Lamb, S. D. Leckie, R. W. McRobie, B. I. Shand.

SECONDARY SCHOOLS' GRADE

The Senior team—T. Green (captain), Plunkett, Vallance, Hampton, Wilson and McCully—were third in their competition. Top goal-scorer was Green, and S. Dermody is to be thanked for the time he spent coaching the team.

The Intermediate team had a successful season, finishing second to the Technical team. The standard of play of the team improved as the season progressed but more regular practices would have seen even more improvement. The players combined well and all had their share of goal-scoring. The team: T. Bayliss (captain), R. Ibbotson, R. King, J. Waterston, B. Withington, A. Ball.

The Junior B team did not have a very successful season. Competition was very strong from other teams and only three games out of nine were won. The team: P. Cross, S. Wild, B. McLean, M. Hensley, W. McIntyre, K. Woodley, A. Philpot.

The Junior C team fared badly from the point of view of wins. However, many of the games were closely contested and enjoyable. Good progress was noted throughout the season although the record does not reveal this. The team: G. Davis (captain), L. Haira, W. Burgess, M. Jones, M. Thomas, A. Harvey, G. Dickson.

Harriers

SENIOR HARRIERS

The Senior Harriers this year numbered 46. After the initial runs of the season of some four miles, attempts were made to increase the competitive aspects of the club as well as the distance covered. As a variation to the circular routes, boys were paired off so that one boy would cycle to a given point in the country and await the arrival of his partner who would then return by bicycle.

The obvious advantage of this system was that in the restricted time allowed, the group was able to run out in the country rather than the restricted runs inside the city boundary.

It was felt that the enjoyment thus obtained more than compensated for the disadvantage that no effective times and placings could be ascertained.

The most improved runner was A. W. McInnes, and the following boys were all consistent in their performances: McLean, Oliver, Drake, McIntyre, Leckie, Grieve, Travers, Jenkins and Bowley. Nevertheless, hearty congratulations to all those who, although they lacked ability, gave of their best. . . .

"The rank is but the guinea's stamp;
The man's the gowd for a' that."

INTERMEDIATE HARRIERS

Fifty-five lads have participated in twelve runs over a variety of courses and distances from 2 to 3.5 miles. Five boys have returned consistently good times and placings. They are:

Jellyman (5): Seven firsts, two seconds and minor placings.

Aitcheson (5B): Three firsts, two seconds and minor placings.

Schroeder (5C): Five thirds, two seconds and minor placings.

Andrews (5R): Five seconds, a first and two thirds.

Urwain (5C): Four fourths and minor placings. Other runners worthy of mention who usually finished in the first twelve home were Skene (5A), Kynaston (5A), Ericson (5C), Brown (5C), Prentice (5R), Bemrose (5B), Harper (4B2), Robertson (5C).

Congratulations to these lads and special commendation to those boys neither built nor streamlined for running. They may not have finished in the money, so to speak, yet they finished and are admired for it.

JUNIOR HARRIERS

With 110 runners in the Junior Harrier section it would appear that the School is very strong in this sport. This is far from the case. Only a relatively small number of boys were interested enough to really try. Some of these show much promise as long-distance runners, and with better opportunities and more encouragement, could find great success in this sport.

Guess Who—Prototype: "Pinetree" Meads. Favourite saying: "If you're going to do anything indiscreet, do it discreetly." Theme song: "I Am a Rock". Career most suited to: "Flatfoot" with an M.A.

The runs were usually over a distance of two miles or a little further. A distinct improvement in fitness was noticeable later in the season, most of the boys covering the courses quicker than they had done previously.

The most prominent runner was A. Clearwater who has been running consistently well. Others deserving mention are D. McIntosh and D. Takitimu. But competition in the leading bunch was always strong and there are many others who deserve congratulations for their efforts also.

A few members of the High School Club ran on Saturdays throughout the season with the Invercargill Harrier Club. With the help of Mr. Henstock they enjoyed moderate success for their first season as a club, but it is hoped there will be a greater interest shown next year as the variety and competition make it a most enjoyable experience. The team of Dynes, Leckie, Grieve and McDowell were first in the Winton Cross-Country at Forest Hill, and third in the Edmond Cup Steeplechase at Dunedin. Ross Dynes won the Senior Colts section of the Southland Cross-Country Championships. Maxwell, Schroeder, Drake, Takitimu and McInnes also ran occasionally. With the obvious talent in the School, this should become a strong club.

ROUND THE PARK RESULTS

Under 14: A. Ballantyne 1, B. Malcolm 2, B. Col-
lins 3.

Junior: A. Poole 1, R. Keith 2, M. Wilkinson 3.

Cricket

FIRST ELEVEN

Captain: I. M. Shirley. Coach: Mr. Alabaster.

The 1st XI had one of its most successful seasons in years, winning the local Second Grade competition, and had an outright win, a draw, and a loss in the three inter-school fixtures. This success can be attributed to the good team spirit created and the keenness of each player.

I. Shirley, N. Adam, G. Thomson and J. Polson were included in the Southland Brabin Shield team, and N. Adam was also included in the Otago Country team. A highlight of the season was a single wicket competition, the winner being A. Newton.

The team is indebted to Mr. Alabaster for his enthusiasm and very able coaching throughout the year. Our success was made possible by his coaching, skill and experience.

Critique

I. M. SHIRLEY: A left-handed batsman whose natural aptitude was to hit the ball hard. His value as a left-arm spinner suffered under the burden of leading the team, but he could have used himself more. As a captain his astute and positive approach was refreshing. Popular team man.

G. N. ADAM: Reliable opener not having the success deserved, but managed the highest score of the season—70 against Bluff. Soundest batting technique in team, being particularly strong on leg side. Showed moments of brilliance at wicket-keeper.

A. L. NEWTON: Aggressive left-hand batsman, was at times a match-winner against slower bowlers. Very accurate right-handed spinner and reliable slip fielder. Good team member.

J. G. ADAMS: Most attractive batsman in the side with powerful cuts and drives being his strong point. Highest aggregate in team. Fielded well in gully.

M. E. GALBRAITH: Matured rapidly as opener towards the end of the season; especially true in the King's game where concentration and occasional fluency highlighted his batting. Should be a valuable asset to the team in future.

G. B. CHALMERS: Right-handed batsman who showed deep powers of concentration. Was excellent on defence and content to wait for loose ball to hit. Fine innings against King's.

L. D. GALBRAITH: Right-handed leg-spinner who bowled too often short of a length, but his sharp spin compensated for this. Bowled excellently against King's taking eight wickets in all. Showed potential as free-scoring batsman.

M. J. PASCOE: Right-hand medium-fast bowler who bowled well at beginning of season but was later handicapped by having trouble with his action. Powerful right-hand batsman having a memorable innings against O.B.H.S. Excellent outfielder with very strong throw.

G. B. THOMSON: Left-hand pace bowler whose bowling deteriorated a little as the season progressed. Showed considerable accuracy in control of swing and should develop his off cutter. Very enthusiastic and honest trier.

A. HENRY: Unorthodox right-hand batsman with many varied scoring shots but susceptible to rising ball outside off stump. Excellent cover fieldsmen.

P. CLARK: Right-hand medium-fast bowler who developed greatly, culminating in fine performances in the two inter-schools. Unlucky to miss out on so many games, but his pace will be an asset next year.

INTER-SCHOOL MATCHES

St. Andrew's (at Invercargill)

Southland batted first and started disastrously, losing Adam on the first ball. The second wicket, that of McKenzie, fell at 27 and from then on wickets fell regularly until Southland were nine for 56. A stubborn stand of 11 by L. Galbraith pushed the score on to 72 when the team was finally dismissed.

Southland went into the field determined to dismiss St. Andrew's for a lower score and success came their way when the St. Andrew's batsmen, accustomed to hard, fast wickets, found the soft wicket difficult to play. This, coupled with fine bowling by Thomson, Pascoe

and Watson, and fine fielding enabled Southland to get them out for 37. No batsmen reached double figures.

Southland failed again in their batting in the second innings with Adam (10), McKenzie (15) and Newton (15) managing to hold out the St. Andrew's attack to score double figures. The team was once again dismissed for 72.

St. Andrew's, however, failed in their batting, the best performance coming from Galloway (24) who provided the most attacking and positive batting in the whole match. St. Andrew's were dismissed for 54, which gave Southland their first outright win in an inter-school for many years.

Scoreboard:—

	Batting		
	1st Innings	2nd Innings	
N. Adam	0	10	
C. McKenzie	22	15	
J. Polson	21	0

Thomson	7 4 2 3	12 4 2 17	
Newton		9 6 2 10	

King's (at Invercargill)

Southland won the toss and elected to bat on a wicket which favoured the batsmen. The first three wickets fell for only 31 runs but then a 50-run partnership between Chalmers and Galbraith managed to put some respectability in the score. Galbraith was dismissed for a very fine 30 and Chalmers for 53 in which he showed he was capable of both attacking and defensive shots. Intelligent batting also by Newton, Pascoe and Galbraith enabled the team to score 160.

With a reasonably good score behind them, Southland went into the field determined to succeed. Because of very good bowling by L. Galbraith and Thomson success was made possible. King's were dismissed for 151 of which Muir scored an attractive 59.

In Southland's second innings the Galbraith brothers were once more to the fore, with M. Galbraith (36) and L. Galbraith (21) sharing the majority of the runs. Southland declared at seven for 113, leaving King's 122 to get in 105 minutes.

Kings set about this objective in a forceful manner but were contained by the two spinners, Galbraith and Newton. At the close of play King's were six for 100, the match resulting in a draw.

Highlights of the match were the good doubles by the Galbraith brothers, L. Galbraith taking a total of eight wickets for 33 runs and M. Galbraith scoring a total of 66 runs. Worthy of special mention was the welcome return of G. B. Chalmers who scored an intelligent and attractive 53.

Scoreboard:—

	1st Innings	2nd Innings
G. N. Adam	1	8
M. Galbraith	30	36
A. Henry	9	0
G. Adams	9	17
I. Shirley	7	4

L. Galbraith	12 4 5 23	10 3 3 21

O.B.H.S. (at Dunedin)

Blair, the Otago captain, won the toss and put Southland in to bat on a hard, dry wicket. The two openers were dismissed cheaply but solid batting was provided by middle order batsmen. Adams (35) and Shirley (55) provided the backbone of the innings. They were ably backed up by tail-enders Thomson (16) and Pascoe (12). Southland were dismissed for 176.

Otago started forcefully with Blair and Gibbs showing no mercy for the opening attack. The first wicket fell at 53 and from then on Southland's bowling and fielding showed a marked improvement. A fiery spell by Clark started a minor collapse in the upper order batsmen and a very fast, accurate attack by Pascoe wrecked the tail order. Otago were dismissed for 171, five runs behind the Southland total.

Disaster struck Southland in their second innings, losing the first wicket in the first over. Southland never fully recovered and the Southland batsmen, trying to play too forcefully, got themselves out. Pascoe (38) and L. Galbraith (22) put on a 50-run partnership before Southland were dismissed for 124.

Otago passed Southland's score with five wickets in three-quarters of an hour in hand. The result was an outright win to O.B.H.S.

Scoreboard:—

	1st Innings	2nd Innings
M. Galbraith	11	0
N. Adam	3	19
G. Chalmers	11	11
G. Adams	35	22
A. Henry	14	2
I. Shirley	55	5

L. Galbraith	4 0 0 21	
I. Shirley		5 1 1 18

SECOND ELEVEN

Captain: D. Peake. Coach: Mr. Briggs.

A disastrous start to the season and poor attendance at the games played during the Christmas holidays prevented the 2nd XI from having a chance to win the Third Grade competition. During the latter stage of the season a change for the better occurred, resulting in a third placing for the team.

The potential in the team lay with the medium-fast bowlers of Stewart and Webb who proved their effectiveness, sometimes with startling results. MacGregor, Matheson and Peake provided the medium pace and spin attack. They were often needed to make the initial breakthrough.

The batting was often erratic with players making a score in one match and failing to do so in the next. A casual attitude developed and the team was lucky to have the middle order batsmen able to score in the 20's and 30's.

The fielding was basically sound and the quality of wicket-keeping by Brooks was good. The younger members of the team rivalled their senior counterparts by showing a particular keenness and aptitude on the field and during practices which were reasonably attended by all.

One of the most memorable games was that played against Borstal. The 70 not out by Scott and 27 by Brooks assured the team of at least a first-innings win. The fine bowling of Webb (three for 18 runs) and Stewart (seven for 15 runs) clinched the game and resulted in an outright win to the team.

The team appreciates the keenness of Mr. Briggs who showed his willingness to help on and off the field.

The team was: Peake (captain), MacGregor, Brooks, Scott, Stewart, Webb, Henderson, Matheson, Thomson, Sligh, Forrest, McClean, Shaw and Leckie.

THIRD ELEVEN

Captain: B. Soutar. Coach: Mr. Parish.

Although lacking much experience, the team proved itself a future force in its grade. Only one win was recorded during the season, but many of the games lost were very narrow losses, on the first innings only. The victory was an outright one when the team excelled itself against a strong Marist Club side.

The most consistent batsmen were Hay and Edgar who, as openers, compiled many good scores. The bowling was, overall, weak with only Cowie having sufficient pace to prove dangerous. Most other players bowled, with Valentine, Soutar and Edgar taking the largest shares.

The team thanks Mr. Parish for his interest.

The team was: B. Soutar (captain), B. Valentine, M. B. Edgar, W. Cowie, C. Hay, M. McKenzie, G. Macaskill, F. Knight, M. Alexander, D. Donaldson, K. Cocker, P. Sinclair.

FOURTH GRADE

A Team

The Fourth Grade A team had a successful season, winning all matches except one against Marist A. The fast bowling attack was good, with McKechnie and Morton outstanding. This was backed up by a good spin attack provided by Withington and Smith. All team members showed batting talent with good form shown by McKechnie in particular.

The team gives its thanks to Mr. Currie for his valuable coaching.

The team: Withington, K. C. McKenzie, Prentice, McKechnie, Morton, Morland, B. W. McKenzie, McAra, Ramsay, Aitken, Jordan, Smith.

C Team

This team had a very successful season, winning three games outright and losing only one game outright. The bowling of Paris, Ogilvy and Dermody was outstanding and with Tyson's good batting (70 runs in one match) helped the team to win. Our thanks to Mr. James for his assistance.

The team: S. Ogilvy (captain), P. Tyson, P. Paris, F. Dermody, P. Wilson, A. Huffadine, J. McClure, W. Herbison, P. McLennan, M. Bennett.

.303 Rifle Shooting

.303 shooting is limited to the Senior School only and the year began with a body of 10 shooters from which the final five members competing at Trentham were selected.

We began practice with a competitive shoot at Tapanui where the team shot surprisingly well. We by no means lacked experience with three of the previous year's team back and an added advantage lay in our using School rifles purchased early in the year.

After the Tapanui shoot, much serious practice began. The competition is held at Trentham, Wellington, and is open to all schools throughout New Zealand. This year 15 schools competed.

The team was, in firing order: B. M. Wallis, G. Stanley, S. J. S. Brown, S. Martin and J. D. Scandrett. The shoot took place at three ranges—300, 500 and 600 yards—with nine shots fired at each range, seven to count, giving a total of 35 at each range.

We arrived at Wellington on Friday morning and had a practice shoot in the afternoon. The team was shooting remarkably well, with a possible being recorded at 500 yards. But on the Saturday morning, tension told, and in brilliant sunshine the team gained a placing of fourth, behind Upper Hutt College, who recorded a record total of 478 out of a possible 525. This team included two females, attractive and very able shots. In second place was Christ's College, then Waimea College third.

Results of the shoot brought S. J. S. Brown out with the highest score for the team with a total of 95 out of a 105 possible. J. D. Scandrett and S. Martin followed closely with 93. B. M. Wallis recorded a 90 and G. Stanley an 83.

Guess Who—Prototype: Hank Kimball. Favourite saying: "I don't like your attitude." Theme song: "I Can't Make Up My Mind". Career most suited to: Hokonui consultant.

As usual, the team thoroughly enjoyed themselves and express their thanks to Messrs. C. J. Rowley (whose generosity and kindness enabled the team to practice any day of the week), R. J. Rowley and J. Rowley for their valuable coaching; also Mr. Pat McBride who supplied us with transport while in Wellington.

I am sure the team join with me in thanking Mr. T. T. Ryder for his time spent, interest shown and generosity towards us during our ordeal.

Tennis

This proved to be a successful season for school tennis. The courts got plenty of use during the school term and this is a pleasing sign.

New nets and posts were purchased at the beginning of the season and it is hoped that the courts will be resurfaced next season. The present surface of the courts leaves much to be desired.

In the Southland Secondary School Championships, Lester Smith won the junior title, defeating B. McDowell in an exciting match. Neil Walker played R. Stewart in the senior final and was unlucky to lose this match, 7-9, 3-6.

At present the School has a large group of promising junior players who should make their presence felt in tournaments and inter-school matches in the near future. The high standard of tennis in the School will continue if players practice hard and pay constant attention to stroke weaknesses.

Perhaps the highlight of the season was the overwhelming victory which the School team scored over Otago Boys' High School. The games were played in Dunedin and the results were as follows:-

Singles

N. Walker beat P. Stevens 6-3, 6-2; beat G. Kinaston 6-0, 6-0.

L. Smith beat G. Kinaston 6-0, 6-2; beat P. Stevens 6-2, 6-2.

G. Heenan beat V. Hammond 6-2, 6-2; beat R. Penno 9-7, 6-2.

B. Shand beat R. Penno 6-2, 6-0; beat V. Hammond 6-1, 6-3.

K. Stevenson lost to A. Stewart 6-3, 2-6, 3-6; beat A. Read 6-3, 6-0.

N. Lowe beat A. Read 6-1, 6-1; lost to A. Stewart 2-6, 4-6.

Doubles

Walker and Smith beat Stevens and Kinaston 6-2, 2-6, 6-2; beat Stewart and Read 6-1, 6-1; beat Hammond and Penno 8-6, 6-2.

Heenan and Shand beat Hammond and Penno 6-3, 2-6, 8-6; beat Stevens and Kinaston 7-5, 6-4; beat Stewart and Read 6-1, 6-3.

Stevenson and Lowe beat Stewart and Read 3-6, 6-3, 6-4; lost to Stevens and Kinaston 3-6, 0-6; lost to Hammond and Penno 6-8, 2-6.

Southland won by 17 matches to 4.

The Players

NEIL WALKER (captain): One of the most promising and outstanding players the School has produced. Neil plays a very stylish game and has powerful shots in all phases of play. His only weakness is that at times

he attempts to hit winners from difficult situations, often losing crucial points. He has been a tremendous asset to the School team for four seasons—was an admirable team captain and formed a powerful doubles combination with L. Smith.

LESTER SMITH: A strong, consistent player, Lester contributed much to the team's success. His continuing improvement in mental and physical approach to the game has enabled him to win matches against much older and more experienced players. He will continue to be a great asset to School tennis for many years yet.

GRAHAM HEENAN: Graham has improved his game by endeavouring to be more consistent and his powerful shots were more effective because of this. His sportsmanlike approach to the game made him a popular team member.

BRETT SHAND: Brett owned much of his success to his steadiness and ability to keep the ball in play. His game could improve if more emphasis was placed on fitness as his style of play makes great demands on his stamina.

KEVIN STEVENSON: A good steady player, Kevin showed tenacious fighting ability to win matches after being on the verge of defeat. He lacks confidence at the net but his positive approach to tennis will make him a valuable player in the future.

NEVILLE LOWE: An attacking player who possesses aggressive strokes, particularly forehand and backhand drives. He will continue to be an asset to the School team for years to come.

NEIL COLLIE (reserve): Neil's strong, attacking game suffered through lack of concentration but as he develops his concentration, his style and approach will ensure much successful tennis. He would have fared well against any of the Otago players.

Athletics

During the club's period on the Wednesday afternoon there was a keen following for athletics and the club's officers, Messrs. McClymont, Henstock and James, had to select the more promising boys for the club.

During this season the High School's Athletic Club has functioned as a strong body.

During the Christmas period the sports circuit of Otautau, Limehills, Riverton, Tuatapere and Browns was followed by a number of school athletes. Those to win trophies were: Dynes (trophy for most points at Riverton), McClymont (trophy for most points at Tuatapere), G. Hunter, D. Wealleans, N. Robertson, I. Maxwell, K. Winchester, K. McLean and D. Donaghay. Mr. McClymont, McLean, Hunter, along with Miss H. Moffat of S.G.H.S., were selected for the Southland A.A. team to compete in the triangular meeting at Christchurch last December.

On every second Wednesday night the club ran a sports meeting on the School grounds. These meetings gained the support of outside clubs and they proved most successful. At one of these meetings the Southland A.A.A. officials ran two events for record-breaking purposes. The High School's junior team, comprising S. J. Dermody, L. G. McAllan, K. S. Winchester and G. Hunter, set a new record of 47.1 secs. in the 4 x 110 Relay.

The highlight of the club's activities was an Athletic Carnival organised in conjunction with the Striders' Club; many leading New Zealand athletes were present including Bill Speirs, N.Z. High Jump champion. The success of this meeting is due mainly to Mr. D. D. McClymont whose endless toil for the club was appreciated by all the members.

At the School's Athletic Sports the club's members were dominant in most events. Incidentally, all the championships were won by club members—Under 14, G. Annear; Junior, P. Ferguson; Intermediate, A. R. Dynes; Senior, G. Hunter.

The 1967 Athletic Team travelled to Oamaru for the Inter-Secondary Sports. Over 400 athletes were competing. The team consisted of 28 boys.

Boys to perform well in their respective events were: Under 14 880 Yards, A Ballantyne 2; Junior 880 Yards, P. Ash 3.

In the Intermediate 880 Yards, R. Dynes was third. Also in the Intermediate Discus, L. Laughton gained second place—a great achievement in a field of 26 boys. K. Winchester gained second place in the 120 Yards Hurdles. In the Senior Discus, A. L. Newton set outstanding figures on the record book when he hurled the discus 129ft. 9in., smashing the existing record by 20 feet. He also gained fourth placing in the Shot Put. In the Senior Long Jump, G. Hunter won with a leap of 19ft. 10 $\frac{1}{2}$ in., and was also fifth in the High Jump. After gaining second place in their heat of the Senior Relay, the Senior Team (S. Dermody, A. Newton, K. Winchester and G. Hunter) moved to the final where a close tussle was fought between Otago Boys' and Southland Boys High School for second place. The School Team was third.

Athletic Blues were presented to A. Newton, K. Winchester and G. Hunter.

ANNUAL ATHLETIC SPORTS

Three records were broken at the annual athletic sports which were held in mainly fine weather and on a fast track.

In the Under 14 section, G. Annear broke the 220 Yards record with a time of 27sec., clipping one-tenth of a second off the old record. Annear won the section championship.

R. Dynes smashed the 880 Yards record in the intermediate section with the excellent time of 2min. 2.6sec. The previous record of 2min. 9sec. was set in 1949.

In the Senior Discus, T. J. McIntyre and A. Pennicott both lowered the old record. McIntyre won the event, adding about 10 feet to the record.

The Pole Vault event was an innovation to the sports, and good heights were achieved by those competing.

Results were:—

Under 14

80 Metres Hurdles Final: C. Morland 1, B. Sherborne 2, P. Cross 3; time, 14.6sec.

100 Yards Final: G. Annear 1, T. Nicholson 2, P. Kouka 3; time, 12sec.

220 Yards Final: G. Annear 1, T. Nicholson 2, A. Hunter 3; time, 27sec.

440 Yards Final: A. Ballantyne 1, A. Hunter 2, P. Kouka 3; time, 62.6sec.

880 Yards Final: A. Ballantyne 1, C. Morland 2, A. Naismith 3; time, 2min. 30.4sec.

880 Yards Walk: B. K. Sherborne 1, G. D. Lawrie 2, C. M. Dickson 3; time, 4min. 24.2sec.

Long Jump: T. Nicholson 1, G. Annear 2, B. Pol 3; distance, 16ft. 0 $\frac{1}{2}$ in.

High Jump: P. Cross 1, L. Lindsay 2, B. Pol 3; height, 4ft. 6in.

Hop, Step and Jump: G. Annear 1, P. Cross 2, B. Sherborne 3; distance, 32ft. 2in.

Shot Put: R. J. Kirkland 1, B. Pol 2, T. Gavan 3; distance, 35ft. 2 $\frac{1}{2}$ in.

Discus: D. J. McLean 1, G. Houston 2, T. Nicholson 3; distance, 76ft. 4in.

Junior

80 Metres Final: P. Ferguson 1, L. McLean 2, M. Robertson 3; time, 12.2sec.

100 Yards Final: P. Ferguson 1, J. Shaw 2, P. Horner 3; time, 11.8sec.

220 Yards Final: D. Shirley 1, P. Horner 2, J. Shaw 3; time, 25.9sec.

440 Yards Final: A. Poole 1, D. Shirley 2, L. McLean 3; time, 57.3sec.

880 Yards Final: P. Ash 1, L. McLean 2, A. Clearwater 3; time, 2min. 17.3sec.

880 Yards Walk: I. McPherson 1, G. Colhoun 2, E. Stevens 3; time, 3min. 58sec.

Long Jump: P. Ferguson 1, R. Webb 2, J. Shaw 3; distance, 16ft. 9 $\frac{1}{2}$ in.

High Jump: I. McPherson 1, P. Ferguson 2, B. Thomson 3; height, 4ft. 11in.

Hop, Step and Jump: D. Watson 1, R. Webb 2, B. Valentine 3; distance, 34ft. 7 $\frac{1}{2}$ in.

Shot Put: J. Cuthill 1, G. Evans 2, A. Chartres 3; distance, 36ft. 0 $\frac{1}{2}$ in.

Discus: P. Horner 1, L. S. Walker 2, A. Chartres 3; distance, 117ft. 1in.

Intermediate

100 Yards Final: R. Dynes 1, N. Robertson 2, A. Rankin 3; time, 11.1sec.

110 Metres Hurdles Final: G. Aitchison 1, J. Murdoch 2, A. Jones 3; time, 16.7sec.

220 Yards Final: R. Dynes 1, N. Robertson 2, D. Weallans 3; time, 24.4sec.

440 Yards Final: R. Dynes 1, G. Aitchison 2, W. Pottinger 3; time, 54.8sec.

880 Yards Final: R. Dynes 1, G. Aitchison 2, A. McLean 3; time, 2min. 2.6sec.

880 Yards Walk: M. Galbraith 1, N. Todd 2, G. Cowan 3; time, 4min. 0.6sec.

One Mile Final: P. Sands 1, W. Pottinger 2, A. McLean 3; time, 5min. 8.4sec.

Long Jump Final: J. Murdoch 1, D. Weallans 2, G. W. Macaskill 3; distance, 18ft. 11 $\frac{1}{2}$ in.

High Jump Final: W. Baker 1, G. Laughton 2, A. Andrews 3; height, 4ft. 10in.

Hop, Step and Jump Final: J. Murdoch 1, G. Heenan 2, P. Sands 3; distance, 36ft. 7in.

Javelin Final: G. W. Macaskill 1, J. Murdoch 2, P. Sands 3; distance, 117ft. 2 $\frac{1}{2}$ in.

Shot Put Final: G. Laughton 1, S. Pittaway 2, G. Heenan 3; distance, 38ft. 0 $\frac{1}{2}$ in.

Discus Final: P. Sands 1, G. Laughton 2, G. Heenan 3; distance, 123ft. 6in.

Senior

100 Yards Final: A. Newton 1, G. Hunter 2, S. Dermody 3; time, 10.8sec.

120 Yards Hurdles Final: K. Winchester 1, C. Burns 2; time, 18sec.

440 Yards Final: M. Chaplin 1, K. Rankin 2, A. Pennicott 3; time, 56.7sec.

880 Yards Final: K. Rankin 1, D. Donaghay 2, I. Maxwell 3; time, 2min. 9.3sec.

880 Yards Walk Final: B. Wallis 1, I. Maxwell 2, L. Dudfield 3; time, 4min. 10.2sec.

One Mile Final: K. Rankin 1, I. Maxwell 2, D. Donaghay 3.

Long Jump: G. Hunter 1, B. Watts 2, J. Scandrett 3; distance, 19ft. 4in.

High Jump: G. Hunter 1, I. Maxwell 2, G. Chisholm and J. Scandrett (equal) 3; height, 5ft. 4in.

Hop, Skip and Jump: G. Hunter 1, B. Watts 2, G. Chisholm 3; distance, 147ft. 9 $\frac{1}{2}$ in.

Discus: T. McIntyre 1, A. Pennicott 2, A. Newton 3; distance, 118ft. 6in.

Championships

Under 14: G. Annear, 18 pts, 1; A. Ballantyne, 15pts, 2; I. J. Nicholson, 12pts, 3.

Junior: P. Ferguson, 18pts, 1; P. Ash and I. McPherson, 10pts, equal, 2.

Intermediate: R. Dynes, 20pts, 1; J. Murdoch, 16pts, 2; P. Sands, 12pts, 3.

Senior: G. Hunter, 18pts, 1; K. Winchester, 16pts, 2; A. Newton, 14pts, 3.

Open

Pole Vault: C. Burns, on count-back, 1; J. Scandrett 2, A. Rankin 3; height, 7ft 6in.

Interhouse Relays (4 x 100 Yards).—Under 14: Uttley 1, Page 2, Grant 3; time, 55.7sec. Junior: Uttley 1, Pearce 2, Coldstream 3; time, 51.8sec. Intermediate: Coldstream 1, Pearce 2, Page 3; time, 49.5sec. Senior: Coldstream 1, Pearce 2, Deaker 3; time, 48.4sec.

Old Boys-Pupils-Staff Relay (4 x 110 Yards): Old Boys 1, Staff 2, Pupils 3; time, 45.7sec.

RESULTS FROM COMBINED SECONDARY SCHOOLS' ATHLETIC MEETING AT OAMARU

Senior

120 Yards Hurdles: K. Winchester 2.

Long Jump: G. Hunter 1 (19ft. 10 $\frac{1}{2}$ in.).

Discus: A. Newton 1 (129ft. 9in.—a record).

4 x 110 Yards Relay: S.B.H.S. 3.

Intermediate

880 Yards: R. Dynes 3.

Discus: G. Laughton 2.

Junior

880 Yards: P. Ash 3.

Under 14

880 Yards: A. Ballantine 2.

Fifth: Pearce.

Sixth: Grant.

### **House Points**

Major Events (Athletic Sports, Swimming Sports, Round the Park): Points awarded 20-16-12-8-4-0 for each section (i.e. age group — Senior, Intermediate, Junior, Under 14).

Minor Events (Winter Sports, Summer Sports): 10-8-6-4-2-0 for each section of each sport, e.g. Rugby, Senior and Junior.

Cultural Activities: Drama (one-act plays), 20-16-12-8-4-0; Debating, 10-8-6-4-2-0.

### **Softball**

This year the team was a relatively new one and did not fare too well in the competition, but the team spirit was very high. Defeats were moderate and altogether it was an enjoyable season. The A Grade competition was again won by Marist and the Junior team fared quite well although numbers are beginning to get short. Thomson and Pennicott were in the trials for the Secondary Schoolboys' team.

The 1st IX was: A. Pennicott (captain), K. Thomson (vice-captain), I. Robertson, F. Swain, R. Keith, F. Knight, R. Heathcote, G. Macaskill, P. Johnston, P. Sands.

As in other seasons, we played our sister school and in most enjoyable games the better team managed to win them. The girls were far from being disgraced and all thanks go to them for arranging the game and to the members of the team who played in their own time.

Our grateful thanks also go to Mr. Berridge for the time he spent coaching the team on Mondays and Tuesdays and in the valuable support he gave them during the season.

### **Swimming**

The official swimming of the School is confined to the weekly instruction classes in the first and third terms for the third formers and to the annual school sports held in April. The importance of the instruction classes cannot be over-emphasised when one considers the part that sea, lakes and rivers play in the life of the average New Zealander.

Congratulations must be extended to A. Treffers and W. Baker who competed in the national championships at Christchurch and for their notable performances. A. Treffers gained fourth place in the Men's 110 Yards Breaststroke and third place in the Men's 220 Yards Breaststroke, while W. Baker was placed first in the Junior Boys' 220 Yards Breaststroke and reached the finals in the 110 Yards Breaststroke.

The undefeated Boys' High team again won the Collegiate Relay Trophy with a team comprising R. Kennedy, B. Travers, B. Treffers and W. Baker.

There was an upsurge in number in the swimming sports this year, thanks mainly to the strengthening of the House system in the School, but to the upset of many, the usual climax of the meeting—the Two Widths Races—were not held this year.

The Junior Champion for 1967 is M. Treffers, with B. Sherborne runner-up. It should be noted that both these boys are third formers, so with talents like this the swimming future for the School looks bright. R. Kennedy was the Senior Champion for the second year running, with W. Brown the runner-up. Congratulations to all these boys and it is hoped that by the re-organising of records that some of their fine performances may be recognised records.

### **Swimming Sports Results**

133½ Yards Junior Championship Medley: M. Treffers 1, B. Sherborne 2, L. Smith 3; time, 1min. 45.8sec.

133½ Yards Senior Championship Medley: R. Kennedy 1, B. Treffers 2, W. Baker 3; time, 1min. 31.3sec.

50 Yards Backstroke Junior Championship: G. Colhoun 1, P. Lindsay 2, P. Moen 3; time, 33.2sec.

50 Yards Backstroke Senior Championship: B. Travers 1, R. Kennedy 2, W. Brown 3; time, 31.3sec.

50 Yards Breaststroke Junior Championship: B. Sherborne 1, M. Treffers 2, L. Smith 3.

50 Yards Breaststroke Senior Championship: A. Treffers 1, W. Baker 2, K. Dawson 3; time, 32.9sec.

66 $\frac{2}{3}$  Yards Junior Grades—Final: T. Bayliss 1, B. Pol 2, C. Gaven 3; time, 46sec.

66 $\frac{2}{3}$  Yards Senior Grades—Final: J. Cockburn 1, A. Thompson 2, D. Johnson 3; time, 41.9sec.

100 Yards Freestyle Junior Championship: M. Treffers 1, P. Lindsay 2, G. Colhoun 3; time, 1min. 6sec.

100 Yards Freestyle Senior Championship: R. Kennedy 1, W. Brown 2, W. Baker 3; time, 59.5sec.

50 Yards Butterfly Junior Championship: M. Treffers 1, L. Smith 2, B. Sherborne 3; time, 35.1sec.

50 Yards Butterfly Senior Championship: D. R. Kennedy 1, W. Brown 2, K. Dawson 3; time, 29.1sec.

33 $\frac{1}{3}$  Yards Freestyle Junior Grades—Final: R. Ibbotson 1, P. Moen 2, B. Pol 3; time, 18.8sec.

33 $\frac{1}{3}$  Yards Freestyle Senior Grades—Final: R. Travers 1, A. Henry 2, D. Johnson 3; time, 17.1sec.

33 $\frac{1}{3}$  Yards Backstroke Junior Grades—Final: D. Teuwen 1, P. Dale 2, N. Weeds; time, 25.2sec.

33 $\frac{1}{3}$  Yards Backstroke Senior Grades—Final: K. Coker 1, A. Thompson 2, R. Richards 3; time, 22sec.

33 $\frac{1}{3}$  Yards Breaststroke Junior Grades—Final: H. Paterson 1, J. Moen 2, M. Rees 3; time, 26sec.

33 $\frac{1}{3}$  Yards Breaststroke Senior Grades—Final: B. Wallis 1, R. McRobie 2, J. Gallagher 3; time, 24.1sec.

220 Yards Freestyle Junior Championship: B. M. Treffers 1, P. Lindsay 2, B. Sherborne 3; time, 2min. 38.5sec.

220 Yards Freestyle Senior Championship: W. Brown 1, N. Baker 2, F. Knight 3; time, 2min. 32sec.

Junior Dive: D. Hiddlestone 1, R. Ibbotson 2, D. Ogle 3.

Senior Dive: B. Travers 1, K. Dawson 2, W. Baker 3.

House Relay—Junior (4 x 33 $\frac{1}{3}$  Yards): Uttley 1, Deaker 2, Page 3; time, 1min. 22sec.

House Relay—Senior (4 x 33 $\frac{1}{3}$  Yards): Deaker 1, Page 2, Pearce 3; time, 1min. 10.2sec.

Junior Championship: M. F. Treffers 1, B. K. Sherborne 2, P. J. Lindsay 3.

Senior Championship: D. R. Kennedy 1, W. Brown 2, W. Baker 3.

House Points: Deaker (111 points) 1, Page (91) 2, Uttley (83) 3, Coldstream (63) 4, Grant (49) and Pearce (49) equal 5.

## Badminton

The Badminton group, which played this year after school on Tuesdays, showed that this sport is growing in popularity in the School. A maximum of 22 players attended classes, but this could increase greatly if time was found for it to be played on sports afternoons. More interest would also be gained if competitions could be arranged with other schools. The School championships were won comfortably by M. Pascoe, who gained himself much credit at the National Championships.

It is a pleasure to record our thanks to the Southland Badminton Association for the use of Surrey Park stadium, and also to Mr. Berridge who ably coached the players during the season.

## Table Tennis

The Table Tennis Club was active again this year, with up to twenty boys playing after school on Fridays under the guidance of Mr. Curtis.

N. Baker, S. Lock and G. Wilson played interclub table tennis regularly, with Baker doing well in the Southland Championships, winning the Under 16 Doubles and being runner-up in the Under 16 and Under 18 Singles.

## Exchanges

We wish to acknowledge receipt of magazines from the following schools and colleges:—

Robin Gordon's College, Aberdeen; Knox College; Carrington Hall; Hagley High School; Wanganui Boys' College; Marlborough Boys' College; Hamilton Technical College; Queen Elizabeth College; Southland Girls' High School; Christchurch Girls' High School; Whangarei Boys' High School; Te Awamutu College; St. Bede's College; Waitaki Boys' High School; King's High School; Central Southland College; James Hargest High School; Southland Technical College; Timaru Boys' High School; Naenae College; Otago Boys' High School; John McGlashan College; Gore High School.

**Guess Who**—Prototype: Atom ant. Favourite saying: "Would you like me to coach the backs, Mr. Ryder?" Theme song: "When the Saints Go Marching In". Career most suited to: Prefect.

**Guess Who**—Prototype: John Hore. Favourite saying: "There's seven missing. Who are they, Form Registrar?" Theme song: "Hey, Hey! We're the Monkees!" Career most suited to: Groundsman at Wembley.

# **SOUTHLAND BOYS' HIGH SCHOOL OLD BOYS' ASSOCIATION**

**Patron: L. M. CORNWELL**

## DISTINGUISHED OLD BOYS

ALEX S. LINDSAY: Leader of the N.Z.B.C.  
Symphony Orchestra.

Dr. J. G. MORTIMER: Senior Visiting  
Paediatrician at Southland Hospital, Kew,  
Invercargill.

PETER BEADLE: One of New Zealand's  
outstanding artists.

**AUTOGRAPHS**

## General

During the year the major pre-occupation of the Executive has been the distribution of the Register Supplement published last year. Together with the 1956 Register, this forms a complete history of the School and its Old Boys; and while perhaps not yet in the "rare book" class, these volumes are in definitely limited supply. Any Old Boy who has not yet obtained copies should make prompt application.

The policy of keeping in touch with the School has been continued: the Prefects were entertained by the Executive at a morning tea function, and all boys leaving School at the end of the year were addressed by Executive members at a party on the last school day.

The School Anzac Service was again attended by a large group of Old Boys. The Rector addressed the School, and a wreath was laid on behalf of the Association. The Old Boys' party was entertained by the staff to afternoon tea following the ceremony.

Branches of the Association continue to flourish in Christchurch, Timaru and Wellington, and from Sydney has come a proposal to establish a branch there. In view of the interest taken in Old Boys' affairs in these centres, it is disappointing to have to record a decrease in membership in the Association at home. The Annual Meeting, held in the School, gave close attention to this matter, when the future of the Association was discussed by a panel comprising Mr. J. R. Mills (Chairman), Dr. N. G. Prentice, and Messrs. J. C. Braithwaite, L. V. Blakie, D. M. Leckie and J. Blomfield.

From the discussion, and the conclusions reached, there is already evidence that the Association will go on to record strength and that the School Centenary—less than 14 years away—will be celebrated, and the occasion marked in a way worthy of the School and its record. An essential prerequisite is a strong membership, and this is the responsibility of all Old Boys.

## Our Sporting Clubs

**Soccer:** While youth was the main factor in choosing last year's teams, we realised the importance of older heads and adjusted the teams accordingly; but despite this, our senior side was the youngest on average in the competition. While major successes eluded both teams last season, we feel it was good preparation, and play had improved considerably during the latter half of the season, when the senior side beat every team except one in the competition. Second Grade teams were running about the middle of the competition last year, and hold a similar position this year.

**Cricket:** The seasonable summer and few interruptions to match play and practice sessions on account of rain meant that the club enjoyed a full year of cricket. With an increasing playing membership, attendance at practice has been obligatory to secure selection in one of the two teams entered in the competition.

The completion and upkeep of practice facilities is a matter which causes concern, and members should remember this when asked to assist with ways and means.

**Rugby:** The I. B. McCurdy Memorial Squash Court, opened in February, is proving an excellent amenity. The clubrooms are open every Saturday for a social hour and all Old Boys are assured of a warm welcome.

Four teams were entered this season, and although none won their competition, all performed creditably. Experience and youth resulted in the senior fifteen moulding into a team which won their way into the final, and should perform even better in future years. The junior teams all contain players of promise, so that in playing strength the club is stronger than for some years.

## Personal Notes

**Jamies Herries Beattie** received the award of the M.B.E. in the Queen's Birthday honours.

**Dr. D. W. Crowley**, Director of Adult Education at the University of Sydney, was a visitor to the School during the second term.

**Peter Beadle**, well-known Southland painter, in August-September spent five weeks on a study tour of art galleries in Canada and the United States. Peter has been commissioned by Air New Zealand to paint six pictures of New Zealand.

**Alex Lindsay**, until recently co-principal in the London Symphony Orchestra, has taken up an appointment as leader of the N.Z.B.C. Symphony Orchestra.

**Dr. J. M. B. Smith, B.Sc., M.Sc., Ph.D.**, is now senior lecturer in medical mycology in the department of microbiology at Otago University, and has attained eminence in his field. In 1964 he spent six months in the United States and Great Britain visiting microbiological research stations. In 1966, at the invitation of the Nuffield Foundation, he presented at a symposium in London a paper on fungal diseases in rats and mice. From 1964 to 1967, when he received his present appointment, he was lecturer in veterinary mycology at Massey University.

**S. W. Mills**, manager of W.S. & Co. at Gore, has been transferred to Auckland.

**Warren Simpson** is now with an Invercargill legal firm.

**Barry Wills**, who has been for some time in Saudi Arabia, is now on the staff at James Hargest High School.

**R. Aitcheson** has taken up a position in Christchurch with N.Z. Cement Holdings.

**J. W. McChesney**, Head of Science Department at O.B.H.S., has been invited to lecture at a seminar for science teachers in Australia.

**Graeme Rea** is in Manila with the Asian Bank Development Corporation.

**A. R. Dunlop** (ex staff) has a clerical post with an Invercargill legal firm.

**H. W. Slater** (ex staff) may still be found in Geraldine.

**J. C. Alabaster** has been selected to tour with the New Zealand Cricket Team.

Old Boys continue to play an important part in education in Southland: **Drs. N. G. Prentice** and **L. R. Stewart** and **J. W. Fraser** have been re-elected to the High Schools Board, with **L. Allott** and **D. B. Hamilton** as Secretary and Assistant Secretary, and **L. V. Blakie** and **L. M. Cornwell** principals of two of the four schools under the Board's control. **D. M. Leckie** is Chairman of the Southland Technical College Board of Managers.

**Ray Morton** played only club rugby this year—for Canterbury University.

**Don Sinclair** and **Brian Holmes** are in the United Kingdom on a working holiday: they report a friendly chat with Sir Thomas Macdonald, still High Commissioner.

**Colin Soper** is now farming in the Te Anau area.

**Keith Ashley** is in business as a public accountant in Gore, with **J. Grieve**.

**J. Pope**, in medical practice in Auckland—was formerly M.O. at the Air Force Station at Ohakea.

**Alan McArthur**, formerly radiologist at Kew Hospital, is now in Dunedin.

**J. Muir** is in dental practice at Hornby.

**A. E. Levett** is at Harvard University.

**L. Everett** was on Rugby Park as a member of the West Coast rugby side—managed by **Rick Walker**.

**D. McClymont**, of the School staff, has been a regular member of the Old Boys senior rugby side, and one of the moving spirits behind the High School Athletic Club.

## Obituaries

**George Evans** died suddenly at Papatara while on a fishing expedition. His discovery in April of a Maori burial cave at Lake Hauroko has been acclaimed as the only intact burial cave of a high-ranking Maori ever found, and has acted as a spur to significant archaeology in the region. An enthusiastic fisherman and former ranger to the Southland Acclimatisation Society, Mr. Evans spent his life in the Western District.

**John Ferguson Ewart** died in Dunedin. He was 66. Mr. Ewart held seven teaching posts before retiring as Headmaster at High Street in Dunedin in 1962. A former member of the Southland Rugby Referees' Association, he controlled several representative fixtures.

**Osward E. L. Rout** died at Brisbane on 2nd August, 1967.

**James Torrence Gilmour** died at Invercargill on 1st August, aged 70. A trooper with the Rifle Brigade in World War I, he served with the N.Z. Railways and was an active and executive member of the St. Andrew's Scottish Society, the Caledonian Society, and the Southland Centre of the Piping and Dancing Society of New Zealand.

**Sinclair Calder Sutherland** died at Brisbane, aged 78. Born at Fairfax, Mr. Sutherland joined Wright, Stephenson and Co. in 1905 and embarked on a long and distinguished career. He was to become chairman and managing director of W.S. and Co., retiring in 1953; a director of the N.Z. Insurance Co. and of the Trustees Executors Co.; chairman of Electric Refrigeration (N.Z.) Ltd. and of the Linton Coal Co. On retirement he went to Australia where he was chairman of William Cooper and Nephews Ltd. in Sydney, and owned a grazing property at Moss Vale. He saw three years' service with the 1st N.Z.E.F. in France, and represented Southland at rugby in 1910-11.

**Anthony Rowlands** died in Auckland in May, at the age of 83. He began a long connection with the meat industry in New Zealand with his first job with J. G. Ward and Co. He later held positions with Vestey's and retired some years ago as general manager for New Zealand of W. & R. Fletcher Ltd. On his retirement Mr. Rowlands went to South Africa where he became actively engaged in the establishment of fish and fruit canneries. Throughout a long and active life he maintained his connections in Southland, and only a month before his death was in Invercargill to discuss his plan to leave the city his collection of over 2,000 books and manuscripts on early New Zealand, many of which are said to be priceless.

## Wellington Branch

Here is a report received on a reunion held in Wellington in July:—

Informality, gaiety and the exchanging of treasured schoolday memories were the main factors towards making the Wellington social evening of the former pupils of both Southland Boys' and Girls' High Schools such a success. The function, which was held in the New Zealand Display Centre, was attended by more than 100 former pupils and their wives and husbands.

It was organised by the joint committees of the Wellington branches of the Old Boys' and Old Girls' Associations. Welcoming the guests, the acting President of the Old Boys' Association, Mr. R. Hassed, said it was hoped to make the event, which was the first of its kind, an annual one.

The organising committee comprised Misses R. Hinchee and C. Cameron, Mesdames G. C. Jennings, J. F. Hansford, G. Morrison, D. Philp, S. J. Seelye, N. McKeachie, S. Northcote-Bade, and Messrs. J. Dakin, H. Harvey, W. Smith, T. Davin and S. Maclean. The Secretary of the Old Boys' Association was Mr. J. Neil. Miss H. M. Aitken was the Secretary of the Old Girls' Association.

Mrs. L. A. Clark was President of the latter and Mr. R. Hassed acted for the Old Boys' President, Mr. E. E. McCurdy.

Folk singing items were given by Mr. A. Toms, a troupe of can-can girls provided dancing numbers, and Mr. Robert Henry provided light music throughout the evening, as well as accompanying the lusty singing by all present of the two schools' songs and haka.

Others present were: Mr. and Mrs. K. Robbie, Mr. and Mrs. A. Sligo, Mr. and Mrs. R. Fraser, Mr. and Mrs. H. Double, Mr. and Mrs. A. Humphries, Mrs. C. Murray, Mr. and Mrs. T. Webb, Mr. and Mrs. D. McDonald, Mr. and Mrs. C. Clark, Mr. and Mrs. J. Green, Mr. J. Noble, Mr. and Mrs. C. Gray, Mr. and Mrs. K. Clapp, Mr. and Mrs. F. Capitanas, Mr. R. Gillies, Mr. and Mrs. R. Murray, Mr. and Mrs. R. Bell, Mr. and Mrs. W. Kerse, Mr. J. Thompson, Mr. and Mrs. R. Firth, Mr. and Mrs. A. Boyce, Mr. and Mrs. W. A. McNee, Mr. and Mrs. R. McIntyre, Mr. and Mrs. I. E. Allen, Mr. and Mrs. H. Algar, Miss M. Cameron, Mr. and Mrs. D. A. W. Codd, Mr. and Mrs. J. D. Ellis, Mr. and Mrs. E. Fraser, Mr. and Mrs. G. H. Geddes, Mr. and Mrs. J. A. Gregg (Palmerston North), Mr. and Mrs. F. Greenaway, Mr. and Mrs. H. Lorimer, Mr. and Mrs. F. W. Morgan, Mr. and Mrs. H. Olive, Mr. and Mrs. J. T. Paterson, Mr. and Mrs. H. Maxwell, Mr. and Mrs. M. Henderson, Mrs. H. Hemi (Featherston) and Mrs. G. C. Brown.
