PRIZE GIVING

RECTOR'S REPORT

This year's 7th formers began at Southland Boys' in 1989. 1989 was my first full year as Rector of the school. Tonight, I want to touch on some of the developments that have taken place over the past five years.

The education system has been revolutionised. By that, I mean the whole system has been transformed completely by the changes that have been forced on schools.

'Tomorrow's Schools', initially, met with little resistance from schools. There was a great deal of support, in fact, because the bureaucracy was going to be downsized. The savings, the 'pot of gold', would go to the schools, which would become self managing units, able to make their own decisions through their own elected Board of Trustees.

It sounded attractive. No longer would schools have to fundraise. Picot acknowledged that we had a good education system, because we had good, dedicated teachers, and that once schools were freed from the Education Board shackles efficiency would triumph because our destiny would be in our own hands.

I accept that I'm talking in generalisations, but the prevailing mood in 1989, when this year's sevenths were third formers, was one of optimism.

With the obvious help of hindsight, looking back we can see what did really happen.

Firstly, Boards of Trustees, in good faith, accepted the responsibilities that piled up on them. After all, they were being paid for meetings. And so, the Boards struggled gamely with the mysteries of Governance and sometimes with the principals over the boundaries of management, and so followed the long hours of often fruitless frustration over the demands for Charters, policies, asset registers, property occupancy agreements, and audit requirements. Naturally, Boards looked to Principals and Principals to teachers to work out what was to happen, so, plenty of people were involved in the devolution process, which, I'm sure, thrilled those in control of education.

The other 'result' that I'd like to focus on for a moment or two, was the freeing up of enrolments. Initially, schools had to accept maximum rolls until that was superceded by schools having to set their own maximum rolls, but, in reality, schools were keen to accept everyone, because each school's funding is roll driven. Consequently, we've seen quite unhealthy competition amongst schools in the drive to attract numbers.

Five years ago, there was no money budgeted for marketing. Today, the promotion of the school is a major item. It's quite simple. If you don't have the numbers, you lose out on funding and staffing, and, once you're on a decline, you're likely to remain on it.

Thus, Government initiatives put the pressure squarely rather than fairly, on the schools. Quite quickly, schools became used to a seige mentality. Besieged by paper warfare, the concept of consensus crumbled. We were on our own. The Government could change its mind, and the rules, and the focus, all in the best interests of the 'clients'. And what about the students? I don't believe the students suffered at all.

There was general acceptance that change was necessary, and so the Boards and the teachers accepted the challenges. At the same time, our Board and teachers decided that we had to carry on with the business of educating our students.

The third formers of 1989 were the first to study all subjects in their first year. This was a massive curriculum change for SBHS and it came from within the school. The curriculum initiatives in the senior school over the past few years also came from within.

The reality of the Senior College development came from the determination of teachers from SBHS and SGHS to work together to maintain and ever increase choices for students in the face of cuts to staffing and absolutely zero movement on funding.

Corporal punishment passed into history with scarcely a whimper. It's unlikely that there's a boy still at school who has ever been caned and I believe we are all the better for it.

Instead, the school developed its own discipline system, and our own school climate, negotiated with the boys.

Without doubt, we have a safe school, in which there is an acceptance that when things do go wrong, they will be worked through reasonably and fairly, without drama, and in the best interests of everyone concerned.

Communication between the school and home has increased dramatically through form teachers, Deans, newsletters, the SBHS Times, teacher-parent meetings.

The school is open to criticism, advice, consultation and scrutiny, because there is a determination to improve performance in whatever we undertake.

In retrospect, there is no way that we would want to go back to the pre-1989 days. There is a certain irony in this.

On the one hand, we have been subjected to increased workloads and responsibilities which have tested patience and human resources to the limit.

On the other hand, the intense pressure to perform has seen intense self-analysis and the end of complacency.

We do have a proud record of achievement in

The Rector, Mr E R Currie

academic, sporting and cultural pursuits over 113 years. We do have a well equipped school in a superb setting. But we can't assume that location and tradition alone will ensure success.

Ultimately, we rise or fall on our human resources. That is where we have real strength.

I can't imagine a harder working and more effective Board than our present Trustees. Their whole emphasis is on getting things done, in the best interests of the school.

This absolutely positive approach is mirrored by the professional integrity and commitment of the staff to help and support the boys in their preparation for life. The fact that so many opportunities are available for boys at this school is a direct reflection on the willingness of staff to take on extra responsibilities. In this respect, the school owes a debt of gratitude also, to the parents who have contributed so willingly in taking out-of-school activities.

On a purely personal note, I am proud and grateful to have the opportunity to work closely with Mr Baldwin and Mr James. They are top people and the school is indeed fortunate to have their services.

This year, we farewell Mr Goodwill, our Head of Science, and Mrs Anderton, our Library Assistant. Both have given sterling service over many years and we thank them sincerely for their contribution to the school and wish them well in retirement.

Next year, Mr Williams will return to his position as Head of the Social Science Department and Mr Russell will take up an assistant's position in the Technical Department.

A great deal of planning and preparation has been undertaken this year by Subject Departments, initially for the Education Review Office Assurance Audit early in Term 3.

The ERO report was very complimentary indeed over our high level of compliance and suggested that we were right on track for the next review, on effectiveness.

I would suggest that, whatever outside agencies might say, the real test of our effectiveness has to be our ability to review ourselves.

I believe that in the next five years, we need to assert our independence. We, meaning students, parents and teachers, know what we want and we need to be left alone to do it.

After all, this was a main aim five years ago. To be truly self governing and effective, there has to be an end to 'administrivia' changes. We need money and resources and staffing and time to concentrate on what we do best, the teaching of our students. In turn, our students deserve to have the full attention of our teachers if really effective learning is to continue.

No one knows exactly what will happen, 5 years into the future. My prediction is that the students of this school will have a fair say in what does develop along with the teachers and the parents.

Administration Manager

Students have seen a new face around school lately.

Many have wondered who she was, which teacher was leaving, who would be having her as a teacher, why was she here.

The new face is that of SBHS's new Administration Manager, Vanessa van Uden. Ms van Uden is the first full time Administration Manager appointed to a Southland secondary school. It is Ms van Uden's job to take care of the school's finances, asset register and marketing.

Ms van Uden was formerly an accountant for Cadbury's and has had to adapt to school life once again, the difference being she is now attending school as a staff member, not a student. The Board of Trustees wanted a suitable person for the job, one with financial expertise. As well as the financial side of the job, Ms van Uden will be helping promote the school through marketing and publicity.

It's Time

Seize the day.

Now is the time to be all that you can be.

You may soon be starting a job or going on to tertiary education.

There are some important decisions to make, many of them to do with money.

When you're ready, The National Bank have two clear, helpful services which you can tailor to meet your needs.

'IT'S TIME TO GET STARTED' and 'IT'S TIME FOR BURSARY.'

If you're about to begin work, then 'IT'S TIME TO GET STARTED' will start you off on solid ground. It can include everything from savings accounts, free automatic payments and cheque accounts to Cashpoint and VISA cards.

If you're going on to tertiary study, 'IT'S TIME FOR BURSARY' can cover everything from overdrafts, savings accounts and term deposits to personal effects insurance and VISA cards.

We've even put together a booklet

called 'IT'S TIME'. It covers a host of things from your legal rights when going flatting, to getting a passport.

They're all available now, at any branch of The National Bank, so seize the day.

The time to do it is now.

The National Bank

The thoroughbred among banks

FOREIGN EXCHANGE FOR SCHOOL TRIPS? THAT'S OUR BEST SUBJECT.

Thomas Cook Invercargill have made organising your pupils' foreign currency for school trips simple arithmetic.

Here's how. Just send us a list of each child's foreign exchange requirements and we'll deliver each pupil's foreign currency in individually labelled packets.

Alternatively, a Thomas Cook representative can call to take orders. Whichever you choose, our work will always be on your desk on time.

For all the details, call Robert at Thomas Cook in Invercargill on 218 2099.

TRUST US, WORLDWIDE.

Thomas Cook, 33 Dee Street, Invercargill, Ph 218 2099.

SCHOOL TRIPS? WE'LL DO THE HOMEWORK FOR YOU!

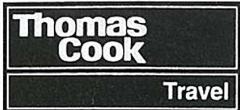

Organising school trips is one of our best subjects.

Thomas Cook, Invercargill specialises in putting together itineraries, packages and quotes for group bookings especially suited to school parties.

We'd be happy to call and discuss your group's requirements. Or you may prefer to visit our office at 33 Dee Street, Invercargill.

Whichever you choose, our work will always be on your desk on time.

For further details, call Robert on 218 2099.

TRUST US, WORLDWIDE.

Thomas Cook, 33 Dee Street, Invercargill, Ph 218 2099.

HEAD PREFECT'S SPEECH

Mr Currie, Board of Trustees, Staff, Students and guests. As a 7th former, having passed through 5 years of schooling here at SBHS, I have seen a lot of changes. Changes in the school's structure, changes in the schooling system and changes in the boys who have completed their 5 years here with me.

Buildings have been torn down and rebuilt. Tomorrows Schools is in the classroom of today and the small chap we used to pick on has now shot up and has muscles on his muscles which does not bode well for close encounters in the corridor.

I believe that the majority of these changes have strengthened the school, both as an institute of education and as a place of growth and development for its pupils. The predominant change whilst I have attended Boys' High is the redevelopment of the Pearce Block. As a 3rd former my class was located where the new library is today, high in the West Wing of the Pearce block. Half way through that first year we were bundled out and the construction workers moved in. This was the beginning of the refurbishment. Now we have a modern block both in appearance and technology, which still retains its flavour of history and tradition through the facade at the main entrance to the school. More importantly, this refurbished block contains the wholesome 7th form common room which

Carl McKenzie

EVERY DAY 40,000 CHILDREN DIE UNNECESSARILY

For just \$1 a day with World Vision Child Sponsorship you can help provide these children with hope. You'll become a partner with the child's family and community, giving them the resources and support they need to care for your sponsored child. Your help will provide food, clean water, education and a future these families can call their own. Will you help?

***Your small change can make a large change in one child's life.
Please phone World Vision now. Toll free 0800-800-776***

was new last year. Upon inheriting it we decided to decorate it strategically with posters which on the whole were very tasteful and much appreciated.

A new car park and the tennis courts have also been established, as well as the pavilion obtaining a face lift at the beginning of this year. All these facilities are integral to the further development of the boys that attend this school, both in the classroom and on the sports field, and we are extremely appreciative of the means we have been given to learn and grow.

The schooling system has also changed dramatically whilst my fellow 7th formers and I have been present here. As already mentioned, Tomorrows Schools is here and the results of the implementation of this scheme are many and varied. Also, having a considerable impact upon the school is Mr Baldwin, whose arrival has seen the balance of order and chaos been given a swift kick in the direction of the former. Now the bullies are the ones who are bullied and theft and robbery are things that have been erased and will have only occurred if I do not receive Dux or at least Approxime tonight!

Furthermore, no longer do we see the cane wielded as a deterrent to speaking loudly and incessantly in class.

However, of upmost importance to the students here, we have seen girls invade this bastion of boyhood. Last year SBHS and SGHS introduced "mixed" classes, which has involved boys going to Girls' High for some subjects and also girls coming to Boys' High. This new concept provides greater opportunities for both schools and so far most of us have emerged uncorrupted.

Finally, we have seen the change in the boys themselves. If I may now quote Herbert Spencer who said "Education has for its object the formation of character". I believe that Southland Boys' has provided quality schooling which has produced a group of fine young men, strong in the friendship and camaraderie which a boys school induces. We have evolved along the conveyer belt of education from a rowdy pack of carefree young boys, to mature, responsible adults. This is a school's main perogative and one in which SBHS has succeeded.

My time at Boys' High has had more than its fair share of highlights. Yet, not possessing the best of memories, my recollection of events before the start of this year do not number many. However, in general I believe my younger days saw much discussion focussing around sports and girls. It seemed to me that the older blokes had a distinct advantage in both categories if the exploits of my senior 1st XI team mates were to be believed.

But now we are seniors and it is us who downed

Otago Boys' on the rugby field and shattered records on Sports day. (Not me personally, but I know a few athletes). Plus, not only do you have girls to add to the excitement of Chemistry periods, but if you become a Prefect, you get to play in nice, friendly games like Netball and Touch against Girls' High, which is a hard task but someone has to do it.

The annual Netball match between the schools prefects was definitely one of the more enlightening events on our busy social calendar. The highly fancied Girls' High combination was given a drubbing which was quite surprising, both for them and for us. Once we had come to grips with the no-contact rule we were on fire, with Geoff Folster giving an outstanding display from inside the shooters circle. In fact, young Geoffrey was so impressive I wondered whether he would monopolise the Netball awards at the Girls' High prize giving last night if he had a couple less ounces of testosterone.

The combined 7th form Ball was the focal point of our year, with the exception of the 1st XV's 9-3 victory over Otago Boys'. A monstrous amount of time and effort went into preparation for this big event, the Ball, not the rugby. All the lads were spruced up and looking good with many mums catching this not-to-be repeated moment on a seemingly endless supply of film. I'm sure our partners were impressed, not only with our scrubbed up appearance, but also with the odd dazzling display of footwork.

One big moment for me this year was the Production, where not only did I have to speak in front of a rather large audience, but I had to attempt to act as well. Pretty heavy stuff for a lad whose only previous displays of acting were milking penalties after being a victim of high tackles on the rugby field. Yet I must say I loved every minute of Fiddler on the Roof, especially the singing.

I'd like to take a quick pause to thank the various people who have ably assisted me this year - the prefects, social committee, Mr Currie and Mr McKenzie, not forgetting Aaron Kerr, my deputy. Thanks very much.

Thank you Southland Boys' for what you have given to us as 5th years, and for what you will offer to those staff at school. Cliches appear quite often at this concluding point in a speech and my little gem has been used many times before and will be used many times in the future, but this does not lessen the importance of the fact that "you have to make the most of your opportunities". Southland Boys' provides an abundance of chances or breaks to take advantage of, so make sure you seize them. Once again Southland Boys', thank you very much.

A Day to Remember - 1993 Form 6 Prefects were announced at 28 October assembly, where they were presented with their badges. The new prefects pictured with Mr Currie are (from left to right) Kerry Goodall, Jody McCambridge, Chris Frisby, Simon Wylie, Tim Hulls and Toby Braun

MRS ANDERTON

On a sadder note, The Southlandian has learnt that Mrs Barbara Anderton will be retiring at the end of this year. Mrs Anderton, who has been the school librarian since 1976, has been a vital part of information services at SBHS. Few people really know the extent of her contribution to the school. Most staff have found that asking Mrs Anderton is the quickest way to track down that elusive resource, whether it is a newspaper item, a painting in the school's extensive collection, or a commentary on Milton's "Paradise Lost".

But behind the responsibility of the library have ranged her intelligent and knowledgeable participation in a number of areas. Mrs Anderton was for years the chief recorder for the annual school athletic sports, and has been the first stop for student debaters looking for a chairman for their interschools. On staff quiz teams she was valued for her broad general knowledge, and also for her knowledge of matters military. For school productions she helped out as properties and stage manager. Mrs Anderton is held in high regard for her personal interest in the students - even to the extent of tidying their uniform and manners and, of course, her friendship.

And few can forget the huge fund of anecdotes that illustrated many an occasion.

Mrs Anderton has never ceased learning about her job. She was once heard to declare that if a computer came into the library she would quit. Now she teaches others to use them, and insists a

school library without a computer catalogue just isn't a viable service. Next year her claim will be put to that test as the new catalogue comes into operation.

The library and the school will miss Mrs Anderton. We all thank her for the generous and unstinting contribution she has made to Southland Boys' over the past 18 years and wish her well in her retirement.

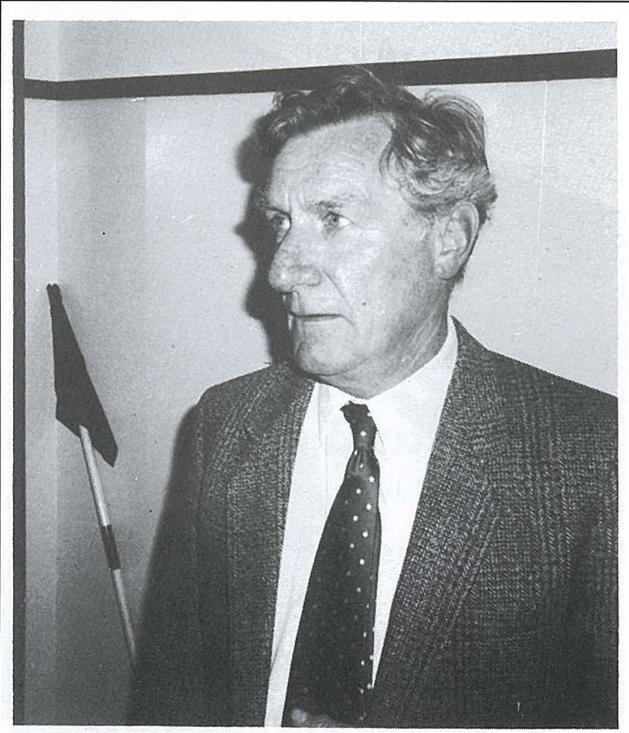

MR GOODWILL

Recently Mark Downey interviewed one of his science teachers, Mr Goodwill, who will be retiring from the Head of Science position at the end of the year.

Mr Goodwill described the highlights and aspirations of SBHS in a short talk. The greatest highlights of his years at the school were the ones where he saw achievements by the pupils. For example he enjoyed coaching a soccer team between 1979-88 and viewing the victories they received, and he was always happy to see his students achieving highly in exams. Mr Goodwill also had the pleasure of being part of the staff golfing team which ensured many enjoyable games.

The retiring Head of Science firmly believes in single sex schools and expressed that it would be sad to see them go (if things came to that), and he hopes the Government will ensure a good education for present and future students.

Mr Goodwill stated that he will miss SBHS but he won't miss working in the school labs.

6TH FORM MOUNTAIN BIKING CAMP

I have now had the pleasure of taking away three mountain biking camps to the Queenstown area. 1993 is no exception to the other two years in its challenge and enjoyment.

On the Monday we travelled to Arrowtown and set up 'camp' in a house there. That afternoon we rode to Macetown for a McDonalds. They haven't opened a branch there yet so we returned to Arrowtown. Most of the riders had the 'buzz' of passing a motorbike on the way out. He was a little peeved. We had an accident on this ride which was a timely reminder to be cautious. Fortunately no major injuries.

Tuesday we tackled Mt Bowen. This was a new ride for all on camp and at 4900 ft was a grunt. But all is bearable for the down-hills that follow. These were good. So good some chose to walk down

parts of them. This ride which took in part of Skippers was described by an avid MTB rider on the camp as the best he'd done ever.

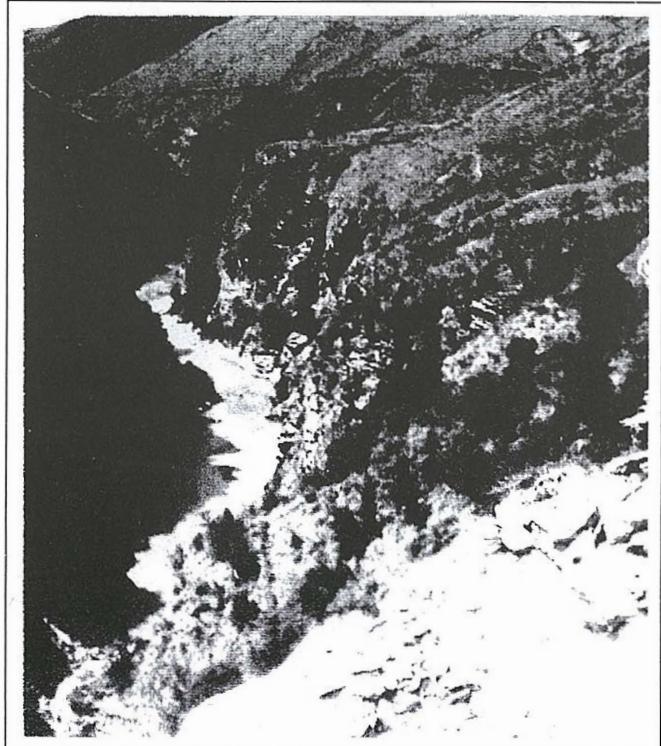

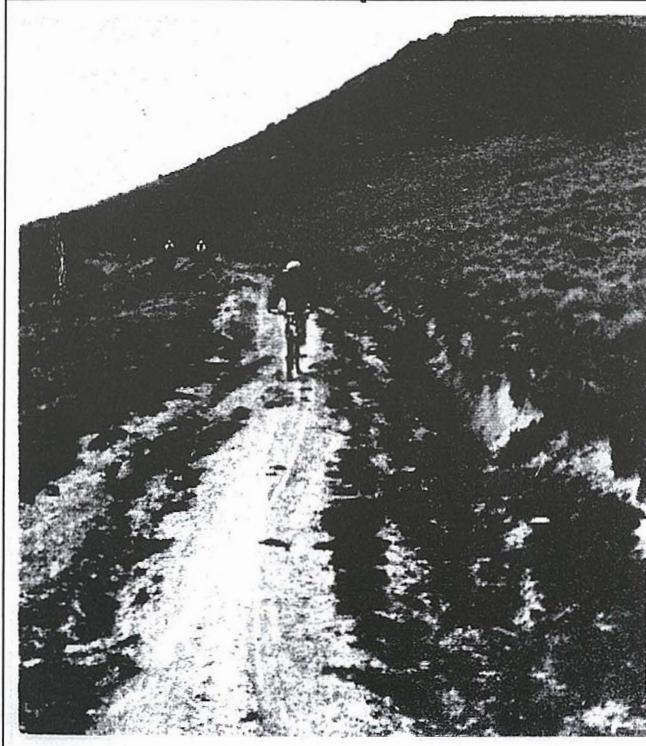

Wednesday we rode the Moonlight/Moke Lake track. A big ride but very enjoyable. We found a McDonald's in Queenstown too! There is a lot of country to explore out there.

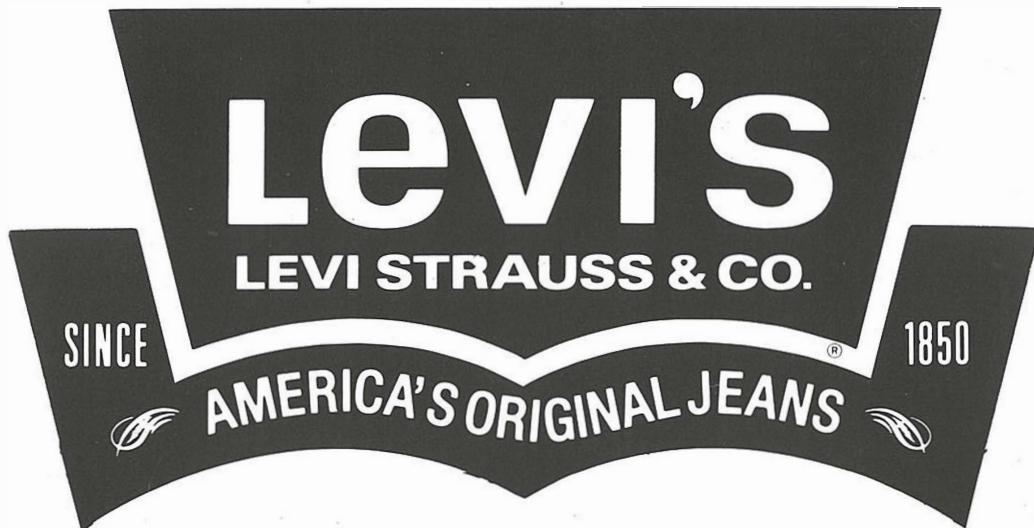

Thursday was pack-up day but we squeezed Tobin's Track in. 15 minute climb - 3-4 minutes drop!

This camp is a challenge and all on it are surprised at what they and their bikes can take. Two or three are making definite plans to return in their holidays.

The word most used to describe the four days - Awesome!!

RAKIURA CAMP

On Monday 15 November eight pupils and two teachers assembled at the Foveaux Express Ferry terminal at Bluff harbour. We were all quite excited and rearing to go. The catamaran departed at 9.30am. The strait was calm and allowed for good photo opportunities.

As soon as we set out on our tramp to Port William it began to rain, and it was not the last shower we were to experience. The tramp from Oban to Port William took 3 hours. It was a leisurely walk and we had a few stops along the way - one at Maori beach swing bridge where we relaxed and had a swim. We thoroughly explored the area around Port William hut, went fishing and swam. It was a splendid location with wonderful scenery.

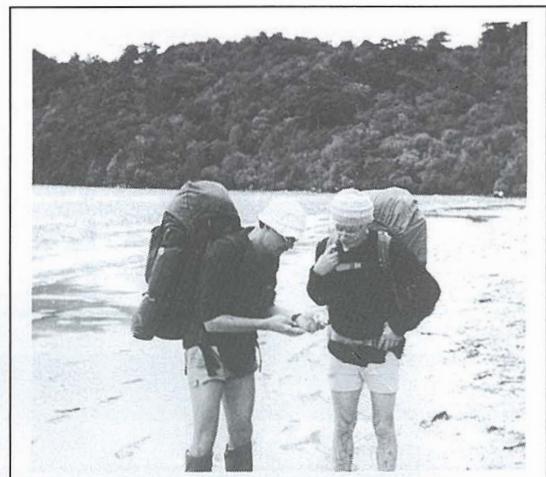

Next morning we set off for the North Arm hut. This took approximately 5 hours and was slightly easier than the previous day. After 5 hours we reached the lookout point, 305 metres above sea level. The view from this point was breathtaking. Just about all of Paterson Inlet was in view and we were busy with our cameras. The hut is in a very

sheltered position and we explored all around the area. It was too blustery for successful fishing.

For the first time on the tramp we encountered other trampers - three Japanese and a New Zealander shared the hut with us.

The third day was the easiest so far - from North Arm back to Oban. The group arrived back at intervals. It was good to have a sit down and rest. We pitched our tents at Ferndale and enjoyed a hot shower.

The final day was occupied by sightseeing, mountain biking and kayaking. It was very interesting exploring Oban by land and sea. This was followed by free time until the ferry left at 3.30pm. The return crossing gave us an insight into what the strait can get like. Holding on to something solid was certainly the order of the day! I would like to take this opportunity to thank Mr McGillivray and Mr Lawrence who organised and accompanied us.

SOUTHLAND SENIOR COLLEGE . What is it?

The Southland Senior College has been established with the cooperation of both SBHS and SGHS to provide greater educational and social opportunities for 5th year students of both schools.

The combined classes enable a wider range of subjects to be offered to 5th year students and the chance to pursue a course which is made possible by both schools working together.

The college enables greater opportunities for social interaction for the students of both schools. Now that the College has been firmly established, the time is right for it to have its own identity.

All students will receive a folder containing personal timetables, study contracts and other important information.

All 5th year students of both schools will belong to the

Southland Senior College even though not all will be directly involved in combined classes. The year will begin with a special function and conclude with its own social occasion.

"I've met new people and I like the change of scenery"

"We thought the minibus was great"

The Senior College is a good chance for the two schools to mix"

SCHOOL BALL A GLITZY OCCASION

On Friday 11 June the combined SBHS/SGHS Formal Ball was held in the SBHS hall for the first time for some years.

This year's Ball was organised by fifth years from both schools. As has been the case in the last few years, students attending the Ball have been able to invite partners who are fifth year students from other High Schools.

Our Head Prefect, Carl McKenzie, said that the social committees of both schools got together before the event and worked out all the jobs that needed to be done. This included tickets, dance practices, a band, decorations and supper.

All the decorations were brought to our school on the night before the event, and next morning both social committees decorated the Hall.

The band was 'Midnight Cruise' and they did a superb job, playing a mix of ballroom dances and modern music. The theme for the night was 'Jungle Fever', and the Hall was decorated very appropriately.

The evening started with people going out to restaurants of their choice. They assembled at the Hall between eight and eight thirty, when the first dance was held. The Grand March took place at nine o'clock and dancing resumed until ten.

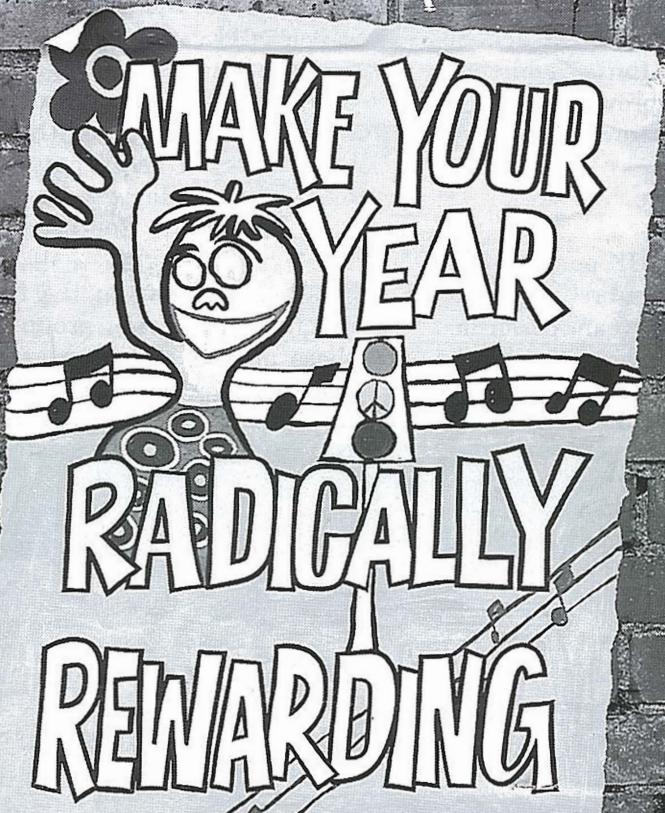

After supper dancing continued until midnight. Many thanks must go to all who were involved in making this event a success, including Mr Shipman, the Master of Ceremonies, and Mr King and Mr Capil, who were the 'bouncers'.

THEATRESPORTS

Theatresports, the only sport in the world known to be completely steroid free, has gone from strength to strength at SBHS in 1993. This form of improvised drama is growing rapidly and this year's squad of rampant thespian players has done the school proud.

It all began early in the season with schools competing on Monday nights. Initial audiences numbered around three, which proved helpful as it gave the players practice at improvising massive applause and adulation themselves. This is a big element far too important to be left up to the audience.

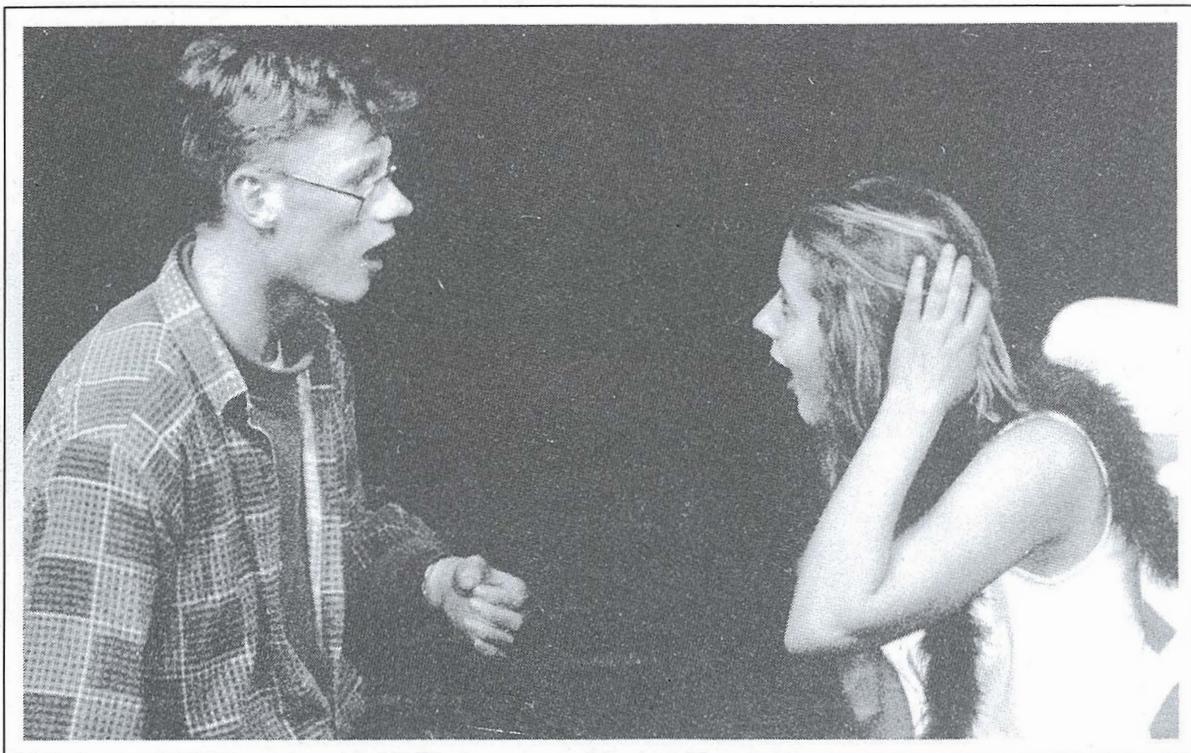

However, this changed when SBHS performed at Hargest during lunchtimes, regularly drawing crowds of approximately 300. The team performed well enough to be classed as favourites in the finals.

The semi-final was held in Gore, where our team "Silence of the Trout" won convincingly, and advanced to the final. The same team - Tim Hulls, Jason Grieivng and Blair Simpson - were joined by Greg Gimblett to form "The Introvert" for the final, held at the State Insurance Theatre.

A packed theatre, including massive support from SBHS set the scene for a great standard of play from Hargest, Central Southland, St Peters, SBHS and a guest team from the audience.

SBHS started badly but improved and lost only by 1 point to Hargest 86-85. Two members were picked from the Southland squad to compete in the national finals.

The focus is now on the future. Mrs Randall is coaching a growing group of players. Hopefully these players will keep up the high standard set over the last four years.

PRODUCTIONS ARE HARD WORK

At the mere thought of a school production you may groan painfully, envisaging some geeky actor standing on the stage and singing loudly in an out-of-tune voice.

Of course everyone has his own opinion, but you would be surprised how much work goes into each production. Put it this way; don't cross Ms Williamson in the week before the production starts.

The last combined SBHS/SGHS production, 'Fiddler on the Roof', was the first production in ages to use the hall. It was performed profess-

ionally, making full use of the Hall's wonderful sound and light facilities.

Says our very own music teacher, Ms Williamson, 'The production took about three months to plan. There was a lot of cooperation with SGHS staff as well as the actors themselves. However, it was still a very stressful time.'

Ms Williamson is not sure what productions will be carried out in the future, but she is sure that they will be just as successful as past ones, as the acting talent Boys' High and Girls' High produce is very high. I say, good luck with them. *Duane Stronach*

PRODUCTIONS ARE HARD WORK

On Thursday 22 July, the 6th and 7th formers were fortunate enough to watch the touring show 'Too Much Punch for Judy'. This is an educational drama, based on a true story about two sisters, Joanna and Judy. One night, they decided to have a night on the town. When they left the wine bar, Joanna wanted to drive home but Judy said that she had had too much to drink, so Joanna threw the car keys to Judy. On the way home, Judy smashed the car by driving off the road, and killed her sister. This drama is acclaimed in the USA, Britain and New Zealand. The main purpose is to warn teenagers about the dangers of drinking and driving. Using a true story, such as this one, makes teenagers more aware of the dangers of drinking and driving.

After the hour long play, the four actors held a workshop with the students. This consisted of the students giving the actors bits of information about their lives,

then they acted it out. The aim of this exercise was to make us, the teenagers, think about the dangers of drinking and driving.

EXCHANGE STUDENTS

TETSU FUJIOKA

Hi, my name is Tetsu Fujioka from Japan. I'm here in New Zealand for a year for exchange with AFS.

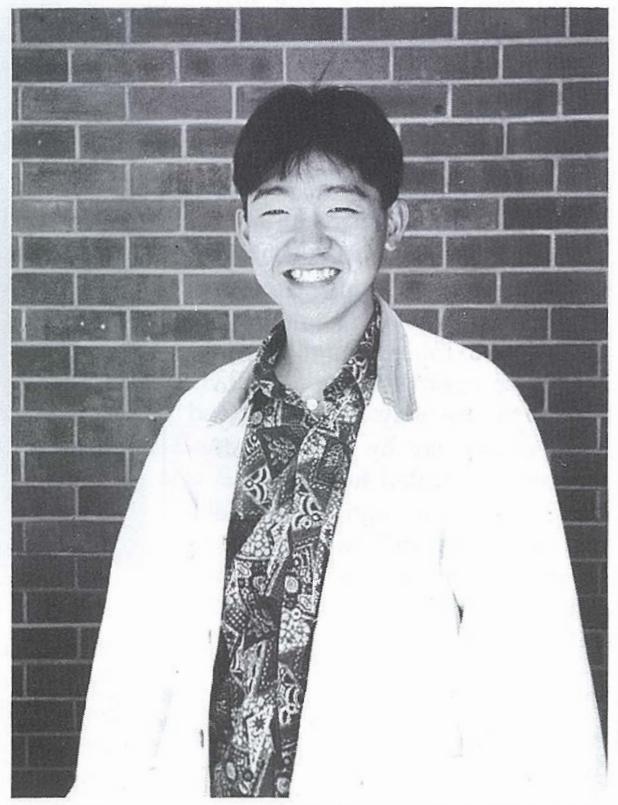

The way of life in New Zealand seemed to be different from the one I'd had in Japan. Everyone goes home directly after school, goes to sleep around ten, and so on.

School is different too. You can choose subjects you want to do. You have to wear uniform. (In Japan lots of schools have uniform but my school doesn't). No girls come to school. To be honest, I didn't really like school uniform and single sex schools but now I have found good points in them and got used to it. Because you don't have to choose what you are wearing, you can sleep one more minute - it's quite good. Also, school starts and finishes 30 minutes later than my Japanese one which is good because I'm not good at getting up from my bed.

I thought it different when I first came to New Zealand. Now I don't think the base of people is far different anywhere. If you really need help there is always someone who does something for you.

I had two really good camps in November - PE camp and 6 Form camp. Waterskiing, kayaking in the river and freezing in the lake at Wanaka, hard tramping, seeing penguins, and eating beautiful chocolate at Stewart Island, were all part of an unforgettable experience.

For Invercargill, New Zealand, Boys' High, I'm

Tetsu Fujioka

only one of the exchange students, but for me, its part of my life I'll never forget.

Lastly I want to say thank you to everyone who has done something for me, and to the school for letting me attend. Thank you.

ERIK NORELL

My name is Erik Norell. I'm an exchange student from Sweden.

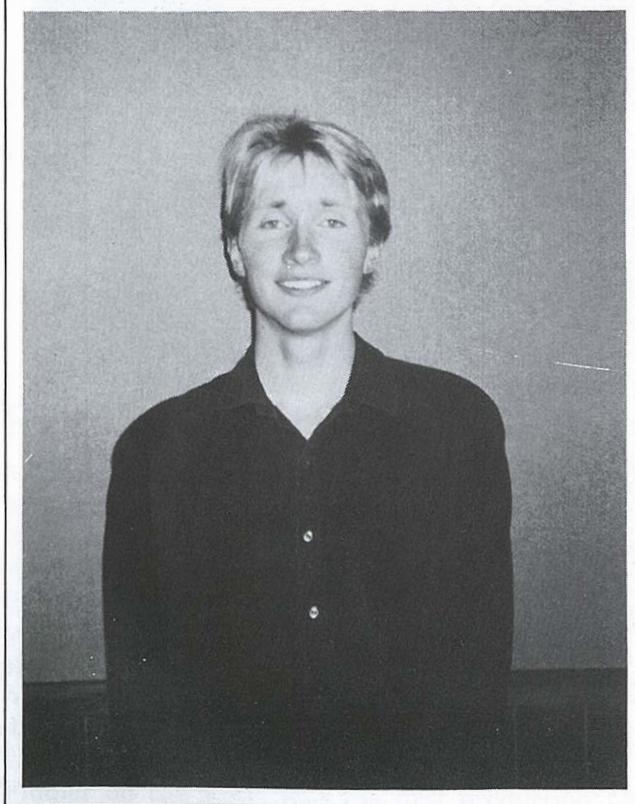

I've really enjoyed my school year at Boys' High. This year has been a very good experience for me and I'm really lucky to be here.

I've learnt a lot of things in school here, so school in Sweden is going to be much easier for me now than it was when I left. Also, this year as an exchange student has made me much more motivated so I'm going to do well in the last one and a half years of 'High School' in Sweden.

Boys' High has provided a variety of activities through school. This year I've played for the 1st VI Volleyball team. We competed in Dunedin a couple of times and played many games in Invercargill.

I've run for the cross country team. As a good end of the running year we won the Southland championships in Te Anau. We also competed in Dunedin and Timaru. I've enjoyed playing for the 2nd V Basketball team.

I've met many wonderful girls in Invercargill and ended up being asked to three different Balls. The SBHS/SGHS Ball was brilliant. I entered the

Erik Norell

speech finals this year and found this a very good experience.

I've used lunch periods for doing weights in the school gym and for swimming in the Queens Park pool. This was really good.

Through the Transition service I got help to decide what job I want to study for. I am now fully convinced that I want to become a Marine Biologist.

Also this year I've been on two PE camps. We went to Queenstown for three days skiing in the winter. A couple of weeks ago I went with my PE class on the best school camp ever. We went to Glendu Bay in Wanaka and in beautiful weather enjoyed windsurfing, waterskiing, fishing, kayaking and snorkelling. It was absolutely awesome! The first week of school I went on the senior camp to Tautuku Lodge.

At the end of this year I've done some rowing, squash in the winter term and golf for a tournament in Gore.

All these activities have made my school year a wonderful year. They have made my year a time when I've learnt a lot about myself and about other people. I have made many friends.

I want to thank everyone at Southland Boys', the staff and the students, for making my year a marvellous one.

I can now go home and speak very highly about New Zealand. I will always speak very highly about my year at this school.
I wish you all the best in the future.

Pictured above is **Ben Dempster** with the symbol of France, the Eiffel Tower. He achieved a recommendation in the Alliance Francaise French Competition in Dunedin, which should be good practice for when he says 'Au revoir' to New Zealand and goes to France next August for ten months with AFS.

FBI CLUB (Faith Builders International)

This is a Christian club which meets every Thursday lunch hour in P4.

1993 has seen a number of new members join from the ranks of the junior school. Videos such as "Twice Pardon", and inter-school visits to SGHS and JHHS once again proved popular.

This year has also seen valuable input from John Nicol (Youth Worker at Grace Street Chapel) and Lyall Penisula (Youth Director at the Apostolic Church).

Next year student leadership development will be given a boost with the appointment of Jane Troughton as the new Southern Area staff worker for Scripture Union.

Our thanks go to Mr Paris for helping organise this year's activities.

F.B.I. On the Meaning of Love

The Way of Love

Love never gives up.
Love cares more for others than for self.
Love doesn't want what it doesn't have.
Love doesn't strut,
Doesn't have a swelled head,
Doesn't force itself on others,
Isn't always "me first,"
Doesn't fly off the handle,
Doesn't keep score of the sins of others,
Doesn't revel when others grovel,
Takes pleasure in the flowering of truth,
Puts up with anything,
Trusts God always,
Always looks for the best,
Never looks back,
But keeps going to the end.
Love never dies.
So no matter what I say, what I believe,
And what I do, I'm bankrupt without love.

6TH FORM BUSINESS STUDIES

SBHS introduced a new course for all 6th formers interested in learning about how businesses operate. Throughout the year the students had to participate in such things as a seminar promoting a product of their own choice, field trips to small businesses, and completing a location study. We have also been taught the basic accounting equations to help us get started in a business. In this topic we had the chance to use the computers which gave us additional skills. We have also been fortunate enough to have guest speakers come and talk to us about running a business. These speakers took time out of their busy schedules to come and speak to us and it was very much appreciated.

This course covers all the necessary aspects of running a business. It is a very interesting and different course. There is not as much theory involved in Business Studies as there is in other subjects which makes it unique. I would strongly advise anyone interested in operating their own business to consider studying Business Studies.

1993 SMOKEFREE ROCKQUEST

Expecting to win, two bands from Southland Boy's entered the 1993 Smokefree Rockquest and travelled to Dunedin to compete in the regional finals.

The bands were: 'Flowers Of The Post-Modernist Revolution' - Cheyne Ryder (lead guitar), Marcel Bevan (bass guitar), Brendon Dick (drums), and Ricky Frisbee (vocals), and the second band was 'Deep' - Manu Tei (guitar, vocals), Duane Stronach (bass guitar), Gary Imlach (drums) and Andrew Genge (saxophone).

The bands had practised for two or three months and had each worked out an original to play.

Both teams travelled up in a mini-bus to the

finals, and discovered that they were competing against about twenty-five other bands from around the region. 'Deep' was on first, and they nervously stuttered out their song. 'Flowers...' followed, and played a straight cruise through their loud, aggressive piece. Ricky Frisbee, their singer, screamed the lyrics as loudly as he could, Cheyne's lead was excellent and the whole band's performance was very good.

However, neither band made the finals and the judges scored them both about equal.

There's always 1994, but 'Deep' will not be playing as they have since disbanded.

Duane Stronach

DEBATING

The interschool debating team consisted of B Simpson, H McNeilly and G Gimblett. After the first two interschools it looked like the debating team would make a clean sweep as they did in 1992, but we lost to Waitaki Boys'.

Ben Dempster was included in the team for the interschool against Timaru Boys', and along with Tim Hulls and veteran G Gimblett, shattered the oppositions hard line debating style.

Over the year Greg Gimblett was best speaker in eight of the ten debates. T Braun and S Wylie showed great improvement.

Debating as a sport is strong at SBHS and young debaters such as Ben Dempster are making sure it stays that way.

ORIGINAL POEMS

By Jeremy van Riel

AS MY CANDLE BURNS

Shadows surround my room
And the smoke
Which is seen by my eyes
Quickly chokes my mind with dancing fingers.
The light of my candle flickers and dims
According to will
And I realise I cannot control
The way it swings and moves
Slowly, very slowly.
The candle's life burns away
Leaving nothing
But memories of what was.
My incense fills my mind with images
Given to me by smell,
Memories haunt me
For the one purpose that I am here
To be haunted
And I feel alone.
Angels come to sing for me their nothingness
Their sound is sweet and fills my ears and body
With a solitude
Which is unexplainable by words alone.
Around me colours of blue and black
Run together to show me
Pictures of the music I feel
As my candle burns.

KILLED BY SOCIETY

My name is James
I am a child of today's society.
The world is happy with me and yet
I am not.
To look at me
I am beautiful
To be me
Nothing is so ugly.
I belong to the people around me
And not to myself.
I belong not to:
The trees
The rivers
The fun of being alive and young.
Instead:
I belong to society.
How?
How will my life be shaped
Will I be rich and powerful like my mother and father
Or, will I be just another teenage suicide who
possesses everything in the world
But true love?

My name is James
Look at me
Touch me
Tell me I am loved
Tell me I am wanted
To you my life of riches and
Wordly possessions is great
But to me your love
Given to you by your parents
Is worth more than anything I'll ever own
My name is James
I am fourteen
And I am DEAD.

COMPUTER LABORATORY

When the Pearce Block redevelopment plans were being first discussed it was decided that the new computer laboratory would be fitted with new computers to replace the outdated BBCs that were in use at that time.

During late 1991 and all through 1992 pupils at SBHS participated in several fundraising enterprises. Apart from Work Days, the biggest of these schemes was the sale of chocolate santas and marshmellow Christmas trees. All of this contributed to the purchase of 27 brand new 386SX computers.

The computers are now set up without many major problems, and are attracting many students in intervals, lunch times and after school. They use a basic system of Windows 3.1, and the general MS-DOS programmes including both a word processor and a desk top publisher, that can be used to type out professional looking school assignments and projects, and runs A-BASIC which teaches pupils a simple programming language.

The old BBC computers are now used mainly to train junior classes.

Each one of the new computers is equipped with a

Super VGA colour monitor and mouse, and each is hooked up to the main SBHS network. This allows each student to log into his own personal directory, to create and save files and to work on school projects and assignments without the access of any other student.

All in all the new computers improve the system no end, and allows all students access to computers regardless of financial situation. *Matthew Barber*

Mainstreaming at S.B.H.S

JEFF MOYLES

Jeff is based at Waihopai School's Park Unit. This year he has started attending SBHS three to four hours a week for Social Studies in Mr Paris' Form 3 class in room P4.

Buddies meet him at the Herbert Street gate and escort him up to the classroom in the new Pearce Block lift.

Jeff wheels himself over and back to the Unit, being supervised at both ends. He remembers the days and times very well.

Jeff enjoys the social side of mainstreaming at SBHS. He has grown in both independence and personal maturity.

The students in 3KG have also enjoyed assisting and helping Jeff both inside and outside the classroom.

AIR CUSHION SOLES™

THE SPIRIT OF NEW ZEALAND

By Hamish Buchanan

Earlier this year I had the opportunity of representing SBHS on the Spirit of New Zealand on her 150th voyage. This started at Lyttleton and was scheduled to arrive in Wellington ten days later.

On the first day myself and 39 other trainees (high school students), 2 leading hands (previous trainees), 4 watch officers, 2 mates, a cook, an engineer and a captain all assembled. A crew of 51 started the voyage and luckily a crew of 51 finished.

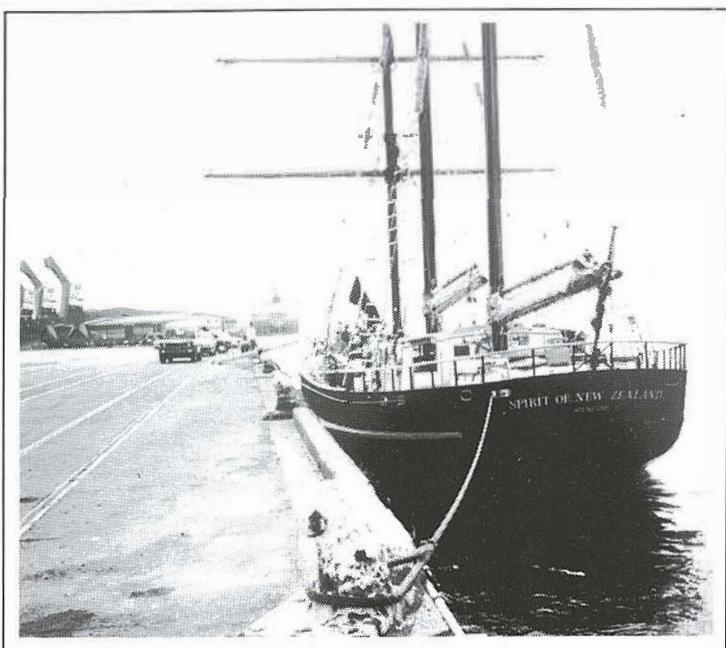

We all met at 1030hrs (10.30am) and waited for the last trainees to arrive. At about 2.30pm we sailed from Lyttleton and made anchor at Port Levy. All trainees were then split into 4 groups of 10 (5 girls and 5 boys) and in these groups we did our daily duties.

The first night my group was on watch which meant in pairs we spent two hours at a time looking after the ship.

Day two started off at 6.00am with physical training and a swim! After breakfast at 6.45am it was time to clean stations. At 8.00am we had colours, which involves the raising of the New Zealand ensign and the reading of the weather forecast. After colours each morning the groups finished cleaning and prepared their sail stations.

The boat is divided into 4 sail stations, foredeck, midship, main sail and mizzen. Every day the groups move on to the next station.

That second day it was decided to sail non stop for the Marlborough Sounds because of the rough

Spirit of New Zealand

weather forecast. It took us 47 hours and 55 minutes at an average speed of 4 knots per hour. Once at the Sounds it was relaxation time and only light sailing, small boating, rubber boat races, BBQ's, bush walks and even a rare visit to a shop. On the ninth day we headed from the Sounds over to Wellington in what was record time. That evening the Officers were elected and I was fortunate enough to be elected a Warrant Officer in Charge of the Main Sail Station.

On Trainees day the Trainee Captain and Officers set a course and it was our goal to try and achieve it. Prizes were awarded that evening at our farewell. Knowing that many of us would never meet again we all said our goodbyes and went our own ways.

The Spirit of New Zealand is an excellent opportunity designed to build self esteem, confidence, leadership and cooperation skills and to make strong friendships.

The cost to the trainee is \$675.00 but with various local organisations offering grants it is made much lower.

A typical day on board:

6.00am	Wake up call
6.05am	Physical training/swim
6.45am	Breakfast
7.00am	Cleaning of ship
8.00am	Colours (raising of NZ Ensign)
8.15am	Finish cleaning, lectures, relaxation
12 noon	Lunch
12.30pm	Sailing
7.00pm	Dinner
8.30pm	Evening activities, videos
10.30pm	Lights out

LABORATORY UPGRADE

During the early days of August we heard the good news that approval had been given to upgrade Laboratories U1, U2 and L4.

Unchanged for generations, these rooms have begun to disintegrate over the last eight years through borer action and the open drains were no longer acceptable.

Association between Architect and Science staff has been established already to ensure that we obtain the best possible outcome that will carry the school into the next century. Essentially the new laboratories will be like L5 and L6 which allow flexibility in desk arrangement and have practical work carried out round the perimeter. Lower desks and chairs will backrests are planned so that comfort will be improved and movement will be curtailed.

The first classes will be using these laboratories in February 1994, assuming that a start is made in mid-November!

LIBRARY REPORT

Catalogue on computer at last!

The information revolution has arrived at SBHS! For many years our students have been able to convince themselves that the library has not had the information they have sought, when in fact they just hadn't learned how to find it. No longer will that complaint hold up, because numerous computer screens can tell whoever asks, not only what the library holds, but also whether it is available (after all, a library stores mainly those things nobody wants, the rest are already on loan) and where it is held - it could be held in a special collection or by some other school department, or the stack... Finding information should now be easy, but there is still going to be the work involved in using that information. However, successful learning is fun, and if boys are more often successful then they will have more fun, and the learning revolution will begin as well.

And what happened last year?

Last year a gremlin got into the arrangements at about the time our library report was to be included into the 1992 Southlandian (you've gotta believe that!) and so we can now catch up on two years progress.

Our Head Librarian was Warwick Cranstoun in 1992 and he led an enthusiastic team of boys who helped at lunch times and intervals with

photocopying and general circulation duties such as issuing and shelving books. These boys also helped maintain the vertical file, the stack, poster, map and video collections. Warwick is now enjoying life in the Air Force at Wigram studying avionics. Coin operated colour

This year Robert Donaldson has been Head Librarian. Along with all the traditional library duties, he and his team have had to come to terms with assisting boys using the Ubix colour photocopier. This new toy has been popular, but probably not quite popular enough, even at the bargain price of only \$1 per A4 copy. Nevertheless projects and assignments have seldom looked better, many being printed on the new computers in the room next door, and illustrated in colour in the library. Posters, copied A3 size from cassette covers, for \$2 have also gone home to numerous bedroom walls, and enlargements of the family 'snaps' have been made into posters and even Christmas cards.

Where to next?

Who knows what next year will bring, but CD-ROM is being carefully considered as our next encyclopedia update. PC INFOS, a data base of statistical information, is definitely on the shopping list, so all those students studying the state of the nation will need look no further.

6TH FORM JAPANESE TRIP

In May this year the 6th Form Japanese class along with teachers Mrs Eri Kojima-Mathieson, Mrs Denise Randall and parent John Buchanan, travelled to Japan for a three week study tour.

On Tuesday 6 May we left Invercargill airport and travelled to Christchurch where we spent the night.

Wednesday saw us fly out from Christchurch to Auckland and then direct to Narita Airport - a 16 hour flight! This was followed by a 1 hour train journey to Tokyo Inn where we were met by Mr and Mrs Kojima (Mrs Kojima-Mathieson's parents).

The next day we travelled by train to Kumagaya where we were met by a small group of people from the City Council. At the City Hall Mayor Kobaiyashi welcomed us and then we visited the biggest department store in the city. That evening we returned to City Hall for our formal welcome and the meeting of our host families. We had a meal together and then went home with our hosts.

That Friday, only three days after we left Invercargill, we visited the Kumagaya Rugby Stadium, the Cable Channel and the Girls' High School.

Over the weekend our hosts took us places such as Disneyland, Tokyo and Nikko. The next week and a half was spent at school -Language School (for foreigners learning Japanese) in the mornings and Junior High and the Girls' High in the afternoons.

We then said goodbye to our hosts and spent the next few days sightseeing and travelling around, ending up back in Tokyo where we shopped and spent a full day at Disneyland. Miss Kojima helped us get there on the trains but

Mt Fuji

The Haka

then deserted us. For eight hours we walked around and tried out many of the rides available. The highlight for me was Space Mountain - a really fast roller coaster.

The next two days was free time and we spent it in various ways, sightseeing and taking

photos. We left Japan at midnight NZ time and we arrived in Auckland 18 hours later, where we managed to get some autographs from the touring British Lions. A few hours later we were back home. It was a truly great experience. *Philip Munro*

SPEECH FINALS

This year every student was allowed to attend his Form's speech final, rather than only those participating in the finals.

This was in response to the decision to place as high a level of importance on academic and cultural achievement as on sporting achievement.

Every student at SBHS presented a speech to his form class late in the first term as an English assignment. All forms presented speeches, form third formers to seventh formers.

The finals are split up in to four levels - third

form, fourth form, fifth form and seniors. The top two or three speeches from each class go through to the finals. These were organized by our head of the English department, Mr Lawrence, who made sure that everything ran smoothly.

All the participants performed extremely well but as we know, there can only be one winner and a lot of unfortunate losers. All speakers showed confidence and their efforts were appreciated.

Results:

Seniors: 1st= Erik Norrel and Hamish McNeilly

Fifth Form: 1st= Ben Dempster and Ricky Frisby

Fourth Form: 1st James Irvine

Third Form: 1st Duncan O'Neill *Aaron Sangster*

TELFORD FARM TRIP

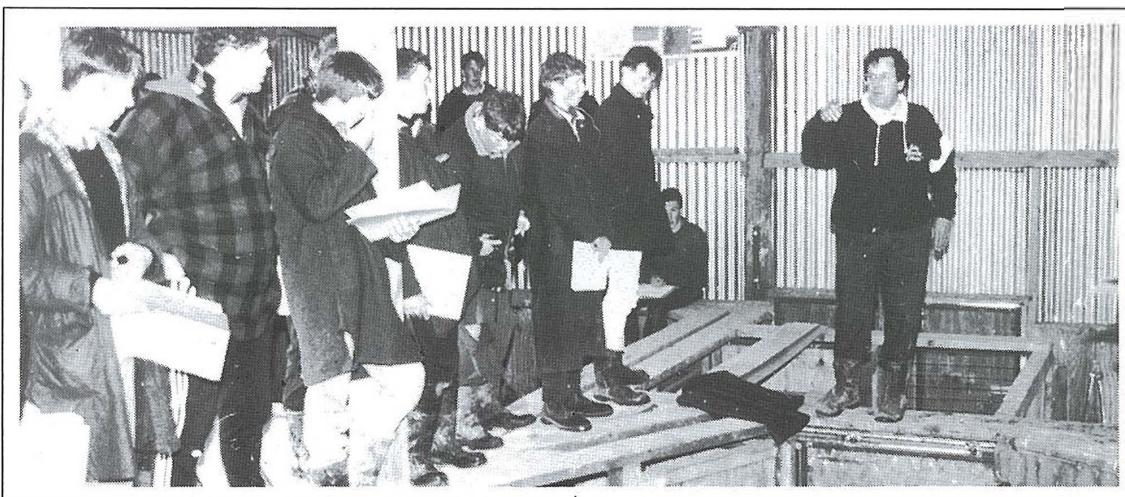

On Friday 24 September 50 Form 5 Agriculture pupils left for Telford Farm on a field trip. This trip formed an important part of the internal assessment requirement of the course.

We left Boys' High at 8.00am and arrived at Telford Farm at 10.00am.

The morning was spent visiting various sites where we looked at different pastures and soil types.

Pupils were kept busy collecting soil samples and data to be used for pasture analysis. In the afternoon we visited the Sheep Production Unit, the Deer Unit and a Dairy Farm. Pupils collected information on these different farms.

We left Telford at 3.00pm and arrived back at school at 5.00pm.

AQUACULTURE

On Saturday 2 October, 23 pupils and parents left from Bluff to travel to the Salmon Farms in Big Glory Bay at Stewart Island.

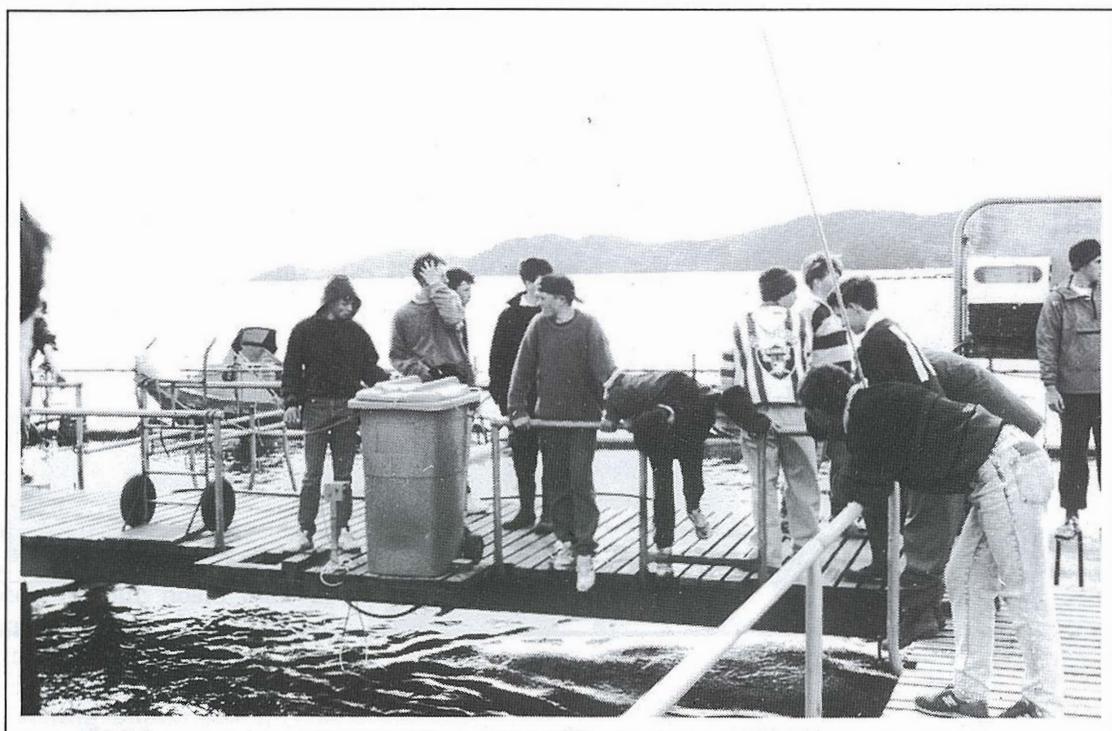

We have recently been studying Aquaculture (Farming in water) as a source of human food production. This innovative industry is found just beyond the shores of Invercargill.

We travelled across in one and a half hours and spent about an hour at the salmon farm. We saw the large pens that each hold 70,000 fish. We also saw the different types of pens that hold the fish

from the SMOLT stage through to the ADULT stage.

We were fortunate to arrive when a diver was going into each of the pens and taking out the dead fish so that predators wouldn't put holes in the net. We also saw the mussel farms, which were situated close to the salmon farms.

We had lunch at Ulva Island and in the afternoon spent a couple of hours fishing on our way back to Bluff. Most pupils were fortunate to catch some Blue Cod. We arrived back at Bluff at 5.00pm.

BADMINTON

This year was a very successful season for the team, winning both interschools and being runner-up in the Southland Schools competition.

The first interschool was against Otago Boys' played in Invercargill. This was a close match with SBHS coming out the winners 4-2. All players showed class.

The second interschool was against Kings' at Dunedin. We had little trouble against weak opposition, winning 6-0. This win made it four years in a row that the team has not lost an interschool. The record for any sports team at school!

The Southland Schools' Championships was our big match for the season. Our Round Robin matches were won easily, beating SBHS III 6-0 and Verdon 6-0. In the final we played Hargest who had a very strong team. After the six matches the scores were tied 3-3 and the sets were tied 7-7. It went down to points with Hargest winning by 10. They then went on to win the South Island Champs and finish 3rd in New Zealand.

The highlight for our team was Nic Soanes taking a New Zealand title and winning the NZ U16 doubles.

Individual performances:

Geoff Folster - Southland U18 team, SI U18 team, Southland Senior B team, NZ U18 umpires champ, winner NZ U18 consolation plate singles, winner Otago U18 mixed doubles, runner up SI U18

doubles, runner up SI U18 mixed doubles, SI U18 ranking of 5.

Tony Cox: Southland U18 team, SI U18 team, Southland Senior B team, runner up SI U18 doubles, SI U18 ranking of 6.

Kerry Goodall: Southland U18 team, runner up NZ U18 doubles plate, SI U18 ranking of 8.

Nic Soanes: Southland U16 team, SI U16 team, winner NZ U16 doubles, winner Otago U16 singles, winner Otago U16 mixed doubles, winner SI U16 doubles, winner Southland U16 doubles, runner up SI U16 mixed doubles, SI U16 ranking of 4

BASKETBALL

1ST V BASKETBALL

This year's team, while appearing very strong on paper, failed to meet their expectations for the season.

For various reasons including injury problems and other sporting commitments, the team didn't 'fire' as often as they should have.

In the interschool match with Otago Boys', one of New Zealand's top teams, they had a lead of 47-17 by half time and eventually won the game 98-39. Cory Nicol top scored with 13 points.

By the second interschool the team had learnt a lot and began to play up to their capabilities. With sustained defensive pressure we were leading 34-17 at half time and won 71-46. Jamie Frisby top scored with 20 points.

The final interschool with Kings' High demonstrated excellent defense by both teams, and at half time Kings' had a narrow lead of 23-17. Unfortunately due to some poor shooting, we failed to capitalise on a game that should have been ours, and eventually went down 61-37.

Team:

Number 5 - John McCarroll - an excellent controlling force and tactician. Top effort at both ends of the court.

Number 6 - John McLeod - showed exciting flair but lacked personal motivation.

Number 7 - Kushlan Aluwihare - a dazzling player. While only being a 5th former shows a huge potential.

Number 8 - Karl Hawkes - an aggressive competitive player, never willing to give the opponents a chance.

Number 9 - Riki Tamariki - an exciting player with a good outside shot.

Number 10 - Junior Tume - a useful player but due to rugby commitments we never saw his best.

Number 13 - Jamie Frisby - excellent leader who showed immense dedication by playing most games with a very painful foot injury.

Number 14 - Ryan Lelievre - practised long and hard but must work on his mental approach to matches.

Number 15 - Cory Nicol - the dominant rebounder in the team. Gave 100% at all times.

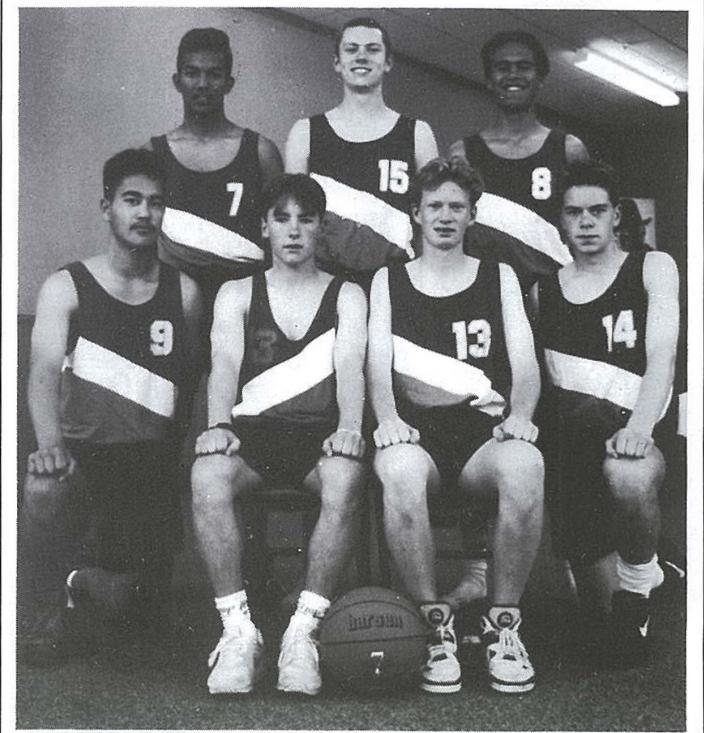

Photo: 15cm x 10cm - 1st V

U16 BASKETBALL

A TEAM

Coaches: Marc Mulholland and Mr King

This team was a mixture of single and multi sporters. Because of other sporting commitments many players found it difficult to attend practices regularly. As a result the team took time to settle to positions and playing patterns. This lack of team experience was cruelly exposed during the

*K Aluwihare, C Nicol, J McLeod, R Tamariki,
C Hawkes, J Frisby, J McCarroll*

semi finals where SBHS went from 6 ahead to 6 behind when the heat came on.

However, the raw talent, height and potential of the team helped it win the round robin competition, dropping only one game to the eventual champions, that polished Verdon lot.

A core of committed and skilful players are certain to go forward and play for higher honours next year.

B TEAM

Coach: Mr King

Sharing sport and determination the team went into every game to win. It is a tribute to their record of attendance and practice that they completed the season undefeated.

Players like Nathan Burgess, Wattie Tui and Sheldon Hutton gained significantly in both technique and ball control. Wattie's ball-in-hand ability coupled with Nathan's height and dominance under the net proved to be crucial factors. Josh Webb, Sol Thompson, Andrew Knox, Nic Soanes and Chris Walsh developed as fine individual and team players.

C TEAM

Coach: Mr King

This was the social bunch of the U16 grade. However the boys practiced and played with enthusiasm, winning more games than they lost. There was a great team spirit and everybody seemed to enjoy what they were doing most of the time.

Brigham Niwa and Chris Beckley showed pace and skill, moving up to play for the 'B's late in the season. Michael McPhedran 'got serious' and moved up the 'A's.

CRICKET 1ST XI

The 1992/93 season was a successful one for the team at SBHS. The bulk of the previous year's side were still available to play for the first half of the season. This ensured that the team got off to a fine start in the club competition, easily ahead on points when the season broke over the Christmas and New Year period.

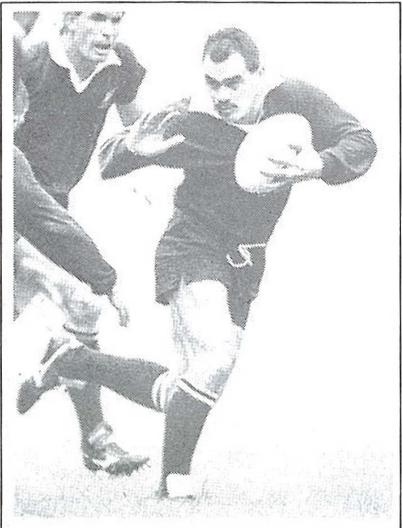

The New Year saw many established players leave for university and the workforce, resulting in an influx of new players and a mostly young and inexperienced team. However this new look side did not squander the lead gained earlier in the season and performed extremely well. A last round loss to James Hargest, our only defeat in the club competition, meant we were forced to share the Senior Reserve title with them.

The 1st XI is now packed with potential and next season should hopefully see this promise perform in the annual interschools. Cricket at SBHS in the near future looks exciting with so many talented young players, and a planned tour to Australia next year should bring the best out of this team.

Back: D Petre, R Oliver
Middle: Coach: P Skelt, G Folster, G MacFadyen, B MacDonald
Front: G Freeman, K Johnstone, C McKenzie, J Dobbie, G Davis

The Sports Professionals

"Proud Sponsors of Southland Sport"

JUNIOR WHITE CRICKET

Coach: Mr Paris; Captain: Aaron Reynolds

Throughout the season the team progressed into a team with a mission. We have talent in our strike bowlers with Sean Burns, who was the leading wicket taker, with very economical figures and Eddie Cuthers, a player who had the pace to match it with the best.

Paul Burke, in the middle order, and Tom Cooney the opening batsmen, batted well throughout the

season, scoring over 50 runs in a single innings. Aaron Reynolds captained the team with confidence.

Team: A Reynolds, T Cooney, S Burns, P Burke, A Todd, J McNeill, M Simmons, A Knox, J Knox, P Nicholson, W Kennedy, E Young, T Lowe, E Cuthers.

Thank you to Mr Paris for his time and commitment as coach.

CROSS COUNTRY/HARRIERS

Coach: Mr Crowther

Once again the school Harrier team went through the season with a small but loyal team of runners who rarely tasted success but always competed well in all events.

v Otago Boys' High School

Juniors lost 13-23; Seniors lost 17-19

Notable performances:

Jeremy Lewis 2nd

Barry Ledington 2nd.

v Waitaki Boys' High School

Juniors lost 17-19; Seniors won by default

v Kings' High School

Juniors lost 16-20; Seniors lost 13-23

Notable performances:

Craig Peterson 1st

Barry Ledington 2nd

v Timaru Boys' High School

Juniors lost 9-11; Seniors lost 13-15

Notable performances:

Craig Peterson 2nd

Jeremy Lewis 3rd

Barry Ledington 2nd

Southland Cross Country Championships

U14 Boys Sam Muir 16th

Craig Brinsdon, Barry Ledington, Mr Crowther

CYCLING

The cycling team enjoyed a very good season throughout 1993. With the bulk of the team in the Southland squad there was no lack of experience. The first two interschools were held at home. The first was against Shirley Boys' who had a team as even as ours. This clash resulted in a draw and saw SBHS very happy with its performance. The next was against Kings'. This was another hard battle but the team work was magnificent, sending Kings' home disappointed with a loss.

The last was against Otago Boys' in Dunedin. Their team was made up of New Zealand champions and was very difficult competition. Our team showed its potential by winning the clash 2-1.

This ended a great season and with the team staying intact next year we look forward to some impressive performances once again.

Craig Brinsdon

RUGBY

1ST XV

Captain: B Hodgkinson

Coach: P Skelt, Assistant Coach: I Baldwin

The school 1st XV this year was a very young and untried team. With only four caps back from the

very successful 1992 side the prospects for another successful season didn't auger well.

The team trained hard during the pre season and were aware of the task that confronted them in a highly competitive local U21 competition as well as the traditional inter-schools.

From the outset the team adapted well and showed that they would compete in all facets of play. Our only concern was a lack of height in the lineouts but with numerous variations we were able to ensure that we won enough quality ball.

In the local U21 competition the school dominated. The first two rounds saw us unbeaten with the forwards turning into a hard driving pack and the backs showing speed and flair, scoring some quality tries.

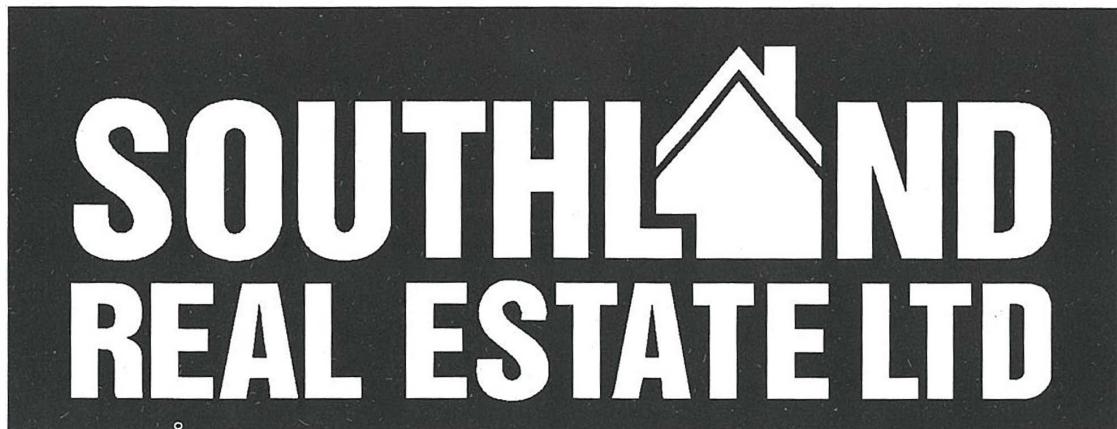

The final against a very old and experienced Star team resulted in a 14-14 draw.

The game was a very physical and torrid affair with neither side dominating the other. The result was a fair one and ensured that the unbeaten record of two years in the local competition remained in tact.

The team enjoyed a very successful interschool record with wins over our traditional rivals Otago Boys', Waitaki, Kings' and Timaru Boys'.

The team would like to thank Mr Skelt and Mr Baldwin who spent many arduous hours in coaching and stood by us all when the going got tough.

1st XV 1993

Back row: G S Maher, D P Newton, T R Knowles, B R Savoury

Third row: N R Horrell, C J McKenzie, D G Crengle, A J Walker, P T R Ono

Second row: I M Baldwin (Assistant Coach), N J Brown, D K Ropata, C D Frisby, C J Flynn, P T Skelt (Coach)

Front row: M J Mitchell, J Tume, C R Jennings, B C Hodgkinson (Captain), J D Kennedy, T N Talamahina, N L Milne.

To our parents and supporters, the team thanks you for all the encouragement and atmosphere you created at our games. It was much appreciated. To the team, thank you for your support throughout a long and highly successful season. In the words of the coaches - Believe in yourself and just do it.

PEN PORTRAITS

Ben Hodgkinson Captain, Centre. Excellent contribution. Proved to be a very exciting attacking player. Possesses good skills. Led the team well.

Michael Mitchell Hooker. Worked hard on improving his all round game. Must continue to improve lineout throwing. Looking for a big year in 1994.

Nigel Horrell Prop. Outstanding season. Very strong scrummager who excelled in the tight. Must work on fitness for next season. Selected for Southern Regions.

Angus Walker Prop. Showed huge improvement throughout the year. Never shirked his responsibilities. A fine year.

Chris Jennings Prop. Very young player who

developed well. Excellent technique. A bright prospect for next year.

Nathan Brown Lock. Very light but proved highly mobile. Very solid worker in the tight, and an enthusiastic player. Needs to work on lineout techniques.

David Toko Lock. Strong physical player who needs to work on mobility. Solid scrumhalf.

Daniel Crengle Flanker. A very reliable player who impressed with his round the field play. Proved an asset jumping at two.

Tim Knowles Flanker. Extremely mobile, light forward. Put his body on the line. Very high tackle count.

Chris Frisby No 8. Excellent contribution. Very strong and aggressive runner. Must improve lineout technique. A huge asset next year.

Craig Flynn Flanker. Limited opportunities but is developing a sound performance. A good prospect for next year.

Damon Ropata Did not take full advantage of his opportunities on the field. A good team member. Worked hard to improve.

Damon Ropata Did not take full advantage of his opportunities on the field. A good team member. Worked hard to improve.

Blair Savory Halfback. Made great progress especially with his passing. Developed his kicking game well. Beginning to run the game better. A fine season.

Nigel Milne Halfback. Came into the team late but proved to be a nuggety performer. Improving his pass both ways. A good prospect next year.

Jayson Kennedy 1st Five Eight. Starting to tactically read a game. Still needs to bring more variety into his play. A big punter of the ball.

Junior Tume A very good organiser of the defensive lines. A good passer of the ball but needs to work on speed. A big season expected next year.

Glen Maher Wing. Disappointing early in the season but finished strongly. Has the ability to beat a man.

Tim Talamahina Wing. Very exciting player who possesses speed, elusiveness and the ability to finish. Potential to develop further.

Phillip Ono Wing/Fullback. Strong runner with an aggressive outlook. Very good ball skills. An exciting prospect next year.

Daniel Newton Utility. Lacked a little confidence early on but as the season progressed proved he has the ability to compete at the level. Made good progress.

Carl McKenzie Fullback. Reliable last line of defence and very safe under the high ball. Developed his attacking skills and has the ability to beat a man.

INTERSCHOOL REPORTS

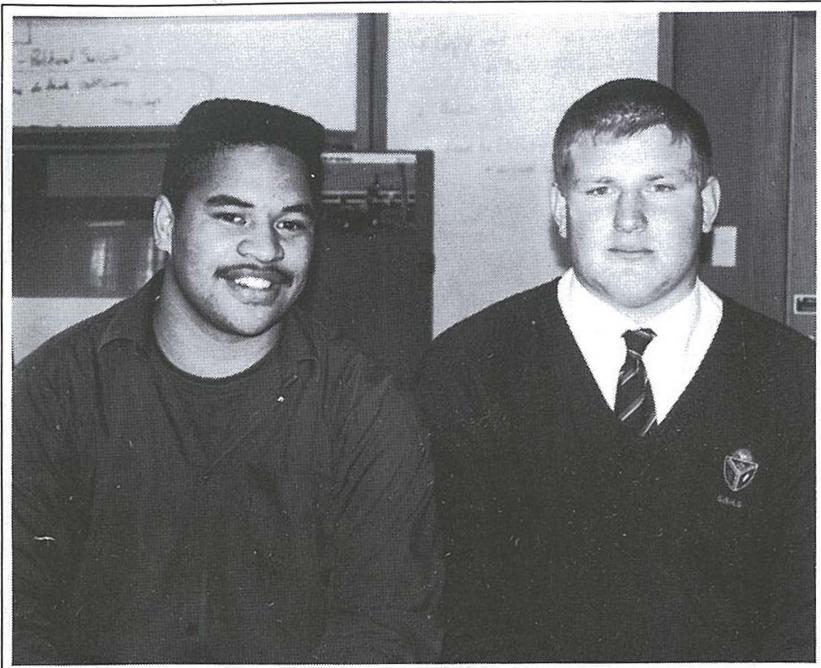

v OTAGO BOYS' 9 - 3

Played at the Homestead Stadium as the curtain-raiser to the Southland/Lions game. The school started very strongly with the forwards in dominant form and making many bursts towards the Otago Boys' line. However school couldn't convert the pressure into points and went to the break 3-0 down. Otago Boys' started the second half in torrid fashion and the forward exchanges were often brutal. The backs had few opportunities but when they did they basically cancelled each other out.

Both teams had their chances but with three penalties to Carl McKenzie in the second half SBHS at the final whistle had won 9-3. Mention must be made of the tremendous support given to the team by the school with the haka being performed with great energy and expertise, much to the delight of the large crowd.

v WAITAKI 48-0

In very trying conditions (rain and wind making the day very unpleasant) school completely

Two South Island Reps - Junior Tume and Nigel Horrell

dominated the game with backs and forwards combining and scoring many quality tries. SBHS forward pack ensured the backs were supplied with a constant stream of quick ball and this was used to great effect. Waitaki were at no stage given a chance to get into the game and any movements were quickly shut down by hard tackling and hard worked defensive screens, school eventually running out the winners 48-0.

v KING'S 14-11

The team started slowly with King's dominating the early exchanges and they opened the scoring with a penalty. SBHS forwards were not their usual force in set pieces and went into the half 6-3 down. An individual try after a charge down by N Brown and then a penalty to Carl McKenzie saw school lead 11-6. However King's came back strongly scoring a try from a 5 metre scrum. School added a further penalty to eventually run out winners 14-11.

v TIMARU 17-9

In August SBHS had its traditional interschool with Timaru Boys'.

It was the last interschool for the winter and as usual it was fought with great courage and competitiveness.

Timaru led 9-5 at half time after SBHS had seemed to be over confident and expecting things just to happen for them. However they got their act together in the second half and with the forwards starting to win quality ball and the backs using it to greater effect, school scored two tries.

The game was a highly entertaining one with both teams trying to use the ball in a positive fashion. A win to SBHS 17-9 meant for the second year in succession the school 1st XV was unbeaten in its traditional interschool matches.

2ND XV RUGBY

Captain: Chris Murcott

Coach: Mr Capil

The 1993 2nd XV was a relatively young, inexperienced team with only two members returning from the previous year. The players started the season realising that it would be very tough compared to other years and ultimately our lack of size and experience played an important part in a lot of our games. It is to the players credit that huge development and spirit was noted by the followers of the team throughout the season.

The team focused on the four interschools as major aims for the year, as well as the U19 competition. Our first interschool was against OBHS and we were keen to carry on the tradition with a win in front of our supporters. Although we played above ourselves in the first half to be down only 11-3 at half time the lack of possession and the pressure finally told and Otago scored a further 21 points to make the final score 32-3.

Waitaki Boys then arrived down to play in horrendous conditions. We applied pressure to come out on top 23-3 at the final whistle.

We then played an important interschool against Sydney Boys'. We were told numerous stories as to how tough they were but they appeared unfit and lacking motivation and we won 31-0!

The final interschool was against Kings' High School at Kings'. We started the game well but eventually the lack of size and experience told and we found ourselves in second place at the end 23-7. The U19 competition started off very well with only one loss in eight games. In the second round however we fell from grace, struggling against bigger players. This meant our season finished earlier than we had hoped, but I feel that the team improved as the season went on, and that the players can feel proud of their efforts.

Special mention to Bradley Robertson who scored over 80 points for the season and congratulations to Nigel Carran, Jason Rutledge, Troy McNeill and Bradley Roerbtson for being selected for the Southland U16 team. Bradley also earned a place in the South Island U16 team.

Finally a note of thanks to Mr Capil for the time and effort he put into coaching us throughout the season. His dedication and commitment were much appreciated by the team members who had an extremely enjoyable year.

2nd VX, 1993

Back row: J K Rutledge, A V Ker, R T Tamariki, B R Molloy

Third row: J R Ballantyne, A J King, C R McCrostie, A J Kidd, A G Faiva

Second row: T G McNeil, C E Howard, C J Booth, R A Everett, P Thompson, R W Capil (Coach)

Front row: P M Norman, B I Robertson, U H Fletcher, C Murcott (Captain), N V Carran, N A Gormack, J D Alexander

3RD XV

Captain: Greg Hall

Coach: Mr Bailey

We began the College Pool A U17 competition with an embarrassing defeat to Ohai-Nightcaps. Ohai would later prove to be our main rivals in the competition.

After this game came a few close encounters with the Cargill and Verdon 2nd XV's. With a couple of close wins over Verdon. We eventually got the better of them in later games, winning decisively 28-10, with notable performances from winger Regan Hawkes who scored three tries and captain Greg Hall who led by example in the loose forward department.

We managed to post some large scores over Cargill, perhaps the most notable being a 34-0 victory where Jeremy Harrison played extremely well from full back, adding much flare and excitement to the back line.

After beating Winton-Drummond 5-0, with a last minute try to our German exchange student Carsten Ewertz, we went into our next game with Ohai-Nightcaps feeling confident to win. The first half was a hard grudge with our smaller forward pack contesting well and giving their all. Ohai only managed a five point advantage at the break. However the second half proved very close until a couple of missed tackles lead directly to two tries which gave Ohai the break, winning 20-0.

In the semi-finals we faced a fired up Winton-Drummond side but we were determined to make the final. A spectacular try by Jeremy Harrison, which began from our own goal line, saw us hit the lead early on. However, the huge Winton forward pack began to dominate and soon replied with two tries and a penalty. 13-5 down at half time, it was going to be a big task to come back. A try to 1st five Paul Kennedy narrowed the gap to three points, but unfortunately time was against us and the score remained 13-10.

The team would like to thank Mr Bailey for the time he put in to coaching us.

Team: C Stewart, J Weir, T Braun, A Clarke, S Lewis, B Wallace, G Perry, D Greig, G Hall, T Anderson, N McLeod, R Clarke, C Thompson, P Kennedy, J McCambridge, J Harrison, R Hawkes, C King, C Smith, C Ewertz, C Jackson

U16 RESTRICTED WHITE

Captain: Guy Freeman

Coach: Mr Boersma

At the end of a very successful and challenging season our team deservedly came out on top and won the competition. We won 10 out of 11 of our games and played some great rugby throughout the season. Our biggest victory was against Verdon 50-5, whereas our only loss of the season was by two points. Our toughest games were

against Otautau, Cargill and SBHS Blue, but inspired leadership from the senior members of the team saw us through.

Led by captain Guy Freeman, the team played exciting rugby with the prominent players being Greg Davis, Campbell Muir and David Freeman in the backs and Shane Evans, Damon Mitchel, Daniel Parry and Jason Dobbie in the forwards. Fittingly enough, the top try scorers for the season were C Muir and J Dobbie.

All team members improved as the season progressed and they developed into a tight unit. Many thanks to Mr Boersma and the parents who turned up to support us each weekend.

Team: G Freeman, M Boniface, C Carson, G Davis, J Dobbie, S Evans, D Freeman, J Kronfeld, N Johnstone, T Lock, C Muir, D Mitchell, G McAuliffe, D Parry, M McLauchlan, G Tipene, M Turner, M Walter, M Ward, J Terry, J Ogilvy, J Hawthorne, A Pene

U15 OPEN BLUE

Captain: A Knox

Coach: Mr Shirley, B McAlwee

Our team had an inexperienced forward pack who learnt more every game and soon became a formidable unit setting up quality ball for our stronger backs to score with.

The team had many good individual players who under the guidance of our coaches learnt to play as a team and played some good open Rugby.

We started the season nervously with a loss to Verdon, but regained our confidence in the second game with a decisive 35-10 win over Kingswell. We made it into the top four by beating SBHS Red twice on the way with thrilling games. Sadly we lost against the Red team when it mattered most. We also played the Southland U58kg team (South Island Champs) and drew 10 all. The Southland team asked for a rematch and we were happy to oblige. Down 15-5 with 5 minutes to go we scored two unconverted tries to draw the game again, 15-15.

Overall the team had a successful season and we all enjoyed ourselves on the way.

Team: K Boniface, K Turner, B Shirley, G Bates, J Scully, B Jenkins, S Knox, K Thorburn, W Kennedy, A Knox, G Hotton, P Duston, G Collie, D Trainor, G Mitchell, A Blackmore, M Simmons, S Cartwright, M Mackay, K King, C Carson

U15 OPEN RED

Captain: Tom Cooney

Coach: Mr Richardson

We started off with a large squad, lost two players by injury, gained one rugby league player and one hockey player.

The team's record was 7 wins and 6 losses. We beat Limehills-Star 28-26, Verdon 13-10, JHHS 22-7, Ohai-Nightcaps 35-12, Kingswell 15-10, SBHS

25-6, and we played an interschool against Menzies 63-15.

The teams we lost to were JHHS 14-9, Combined 32-0 and 23-3, SBHS 12-8 and 15-10 and Limehills-Star 17-14.

Our forwards had the potential but they couldn't consistently provide the quality ball the backs needed. Despite this, H Hardy was our leading try scorer. S Hartstonge, H Howard and J Gray were very dominant in defence while T Huynh and E Cuthers ran strongly when they got the ball. H Mitchell played very well on the side of the scrum. B Perkins, R Johns, D Clarke and S Donaghy always gave 100%.

The team would like to thank Mr Richardson for his excellent coaching.

Team: T Cooney, E Cuthers, D Peters, T Coughlan, R Johns, B Perkins, H Mitchell, D Clarke, C Lewis, S Donaghy, L Knight, S Berzett, S Hampton, C Earley, C Walsh, H Hardie, S Ruddenklau, J Gray, J Ekotone, S Raymond, H Howard, T Huynh, S Hartstonge and R Wyatt.

U16 OPEN

Captain: Jeremy Robinson

Coach: Mr Cooper

The first game of the season was against Riverton, and we lost. However we matured a great deal throughout the season with top players like Kerry Owens, Nigel Shortland, Cory Ledington, Mark Crosbie and Jeremy Robinson contributing to the success of the team a great deal.

Thanks to Mr Cooper for coaching us very well. He did a good job. Also a big thanks to Mr Capil who helped up prepare for the semis.

We finished 3rd= with Limehill/Star.

Team: T Newel, K Anderson, C Ledington, D Young, B Ross, J Robinson, T Davis, K Thompson, S Cundall, K Johnston, N Shortland, K Owens, M Crosbie, D Tekani, J Dore, T Aitau, C Barlow

U15 RESTRICTED RED

Coach: Mr Hamilton

The squad was quite inexperienced at the start of the season with some players being completely new to the game. Subsequently the first games of the season tended to be scrappy although results were positive due to the enthusiasm demonstrated on the field by all players.

The forwards were the least experienced and therefore took some time to develop driving play. Great enthusiasm by players like John Sheppard, Ritchie Bunce and Robbie Millar saw them competitive from the outset. Other players to show genuine talent were Michael Woodcock and Brent Chittock.

The back line showed great potential and on its day had no equal. From the non stop halfback Bruce Hook, through to the courageous Anthony Tauroa, and the speed and determination often

shown on the wings by Bevan Reid and Kieran Hawke. Jamie McRobbie particularly impressed playing in defence.

The inside combination of C Shanks and J Lewis was the corner stone of the back line. Two skilful players who showed maturity beyond their years in many games.

The team finished the season with a fine win over a big Star team and ended with a win/loss ratio of over 70%.

The squad, including those not specifically mentioned above, is to be congratulated on a good season and they thank Mr Hamilton for the fine coaching.

Team: A Tauroa, M Woodcock, B Chittock, C Shanks, B Reid, G Kerr, J McRobbie, S McKnight, A Glennie, B Hook, J Lewis, D Clay, J Sheppard, P McLeod, R Murphy, R Bunch, J Chalmers, R Miller, B Irving, N Thwaites, K Hawke

1ST XI SOCCER

Captain: Greg van Rensburg

Coach: Mr Neilson

1993 was expected to be a great year, being the last season in the team for most of the players. However this was not to be. We started the season strongly in the local senior 1st grade competition but our form soon slipped away from us along with our usually high moral.

The interschool matches were our top priority. Our first encounter against Otago Boys' was a tightly fought match played at Surrey Park. This match brought in the new young talent in goal as the dynamic Trent Holden filled the huge boots of Rodney Hogg. The team performed well, matching Otago Boys' all over the park except in the penalty area where it mattered. The game went the way of Otago for the eighth year running, with SBHS losing 3-0.

We travelled to Kings' High in Dunedin only to be greeted by atrocious ground conditions. The team had a poor build up to the game but we came out firing. Unfortunately Kings' scored midway through the first half with a long range shot into the top corner which was unstoppable for keeper Holden. This did not stop the frantic pace of the game with our Southern League players Gareth MacFadyen, John McCarroll and Karl Hawkes

doing a power of work and their experience had started to rub off on the younger players in the squad. The second half saw a steady flow of attacks developing and Daniel Brooks scored with a well angled shot into the corner of the net. I thought we were unlucky not to have picked up our first interschool win in at least four years. The result - a one all draw.

Our next challenge was to beat the traditionally strong Timaru Boys' side. We went into the match without our fancy footed Swedish import Robert Kilberg, who was making preparations for his journey home. Excellent conditions suited our style of play but again it was not to be our day. The opposition were 'basketball size' and they scored three goals from corner kicks, despite the efforts of the central defence and midfielder Jeremy Knox. A last ditch effort from Karl Hawkes salvaged some pride but the game had already been won by Timaru, 5-1.

The team would like to thank Mr Neilson for coaching the team this year and wish Mr Moore the best of luck when he takes over the role next season.

Congratulations to Gareth MacFadyen, John McCarroll and Karl Hawkes who were chosen to represent the South Island

UNIVERSITY SCHOLARSHIPS NEW ZEALAND ALUMINIUM SMELTERS LIMITED

Applications are invited for the New Zealand Aluminium Smelters Limited Tertiary Education Scholarships for 1994

Scholarships are worth \$1,5000 for the first year and \$1,000 a year for subsequent years for the duration of the course or degree.

Ten Scholarships may be awarded each year.

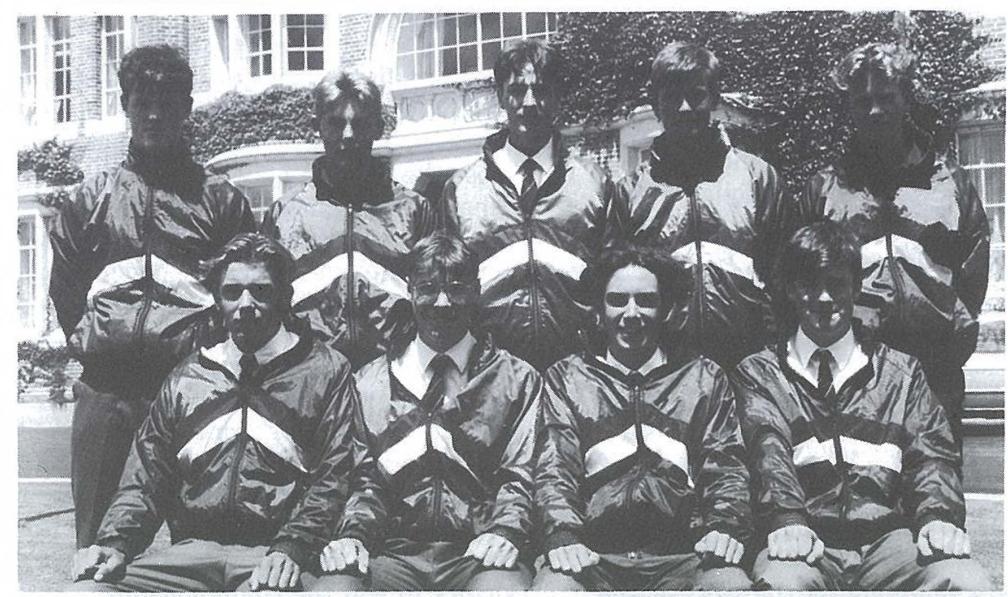

A scholarship Holder is required to undertake a full-time course which has an application to the operations of the company.

There is no bond

Scholarship holders receive priority for available summer vacation holiday employment.

Further details and application forms are available from the School Careers Advisor, or the Specialist Employment Officer, New Zealand aluminium Smelters Limited, Private Bag 90110, Invercargill

Applications close on December 31, 1994.

2ND XI SOCCER

Captain: Aaron Burgess

Coach: Mr Moore

This year the school entered a team in the local senior reserve competition. It was a relatively young team, comprising mainly 4th form students. The season was one of experience for the young players in their first season of senior soccer. The highlight was beating JHHS 1st XI 3-1.

Special thanks goes to Doug Burgess and Gary Perkins for their assistance both on and off the field, and to all the parents and supporters who were there throughout the season.

The following boys have been selected to represent Southland:

Aaron Burgess, Stephen Downey, Aaron Reed, Dion Phair, Colin Campbell, Nathan Wheeler, Brad Harwood and Nicholas Keen.

Team: A Burgess, J Lester, D Phair, A Reed, B Harwood, N Wheeler, C Campbell, N Keen, D Cracknell, C Brinsdon, G Perkins.

Below: SBHS 1st XI Soccer

U16 SOCCER

The SBHS U16 soccer team just managed to field a team most days but had a successful and enjoyable season.

We finished fourth out of six teams, yet drew with the runners-up Queens' Park, and lost by only 4-2 to the eventual winners Thistle.

The highlight of the season was the 2 all draw with Queens' Park with two well executed goals by Aaron Burgess and Simon Lind, whilst Richard Windle will not forget his goal against Enwood.

The team played 9, won 4, drew 2, lost 3 and defaulted 5. Top goal scorers were Simon Lind 11, David Pugh 9, Aaron Burgess 5 and Colin Campbell 4.

Many thanks to Mr Downey for putting together a team and taking his time to coach us.

Team: S Lind, D Pugh, C Campbell, S Downey, J Lester, D Phair, B Harwood, M Downey, R Windle, A Burgess, N Calvert, N Manning, C Ramsay and B Dempster

U15 OTAGO-SOUTHLAND SOCCER

Every two years a New Zealand U15 tournament is held in Napier, involving regional soccer teams. This year our Otago-Southland team included five Southlanders, all from SBHS. This followed our representation in 1991 of Karl Hawkes, John McCarroll and Gareth MacFadyen. This year's players were Aaron Reed (Captain), Aaron Burgess, Colin Campbell (since moved to Australia), Brendon Cross and Stephen Downey. The regional team performed well against strong opposition, winning three games in the week long tournament, held in the May holidays.

U15 SOUTHLAND SOCCER

This team achieved a highlight for the 1993 season by winning the South Island Division one tournament in September at Timaru. They played eight games, winning six and drawing two. The scored 38 goals and conceded only four.

Team: Aaron Reed (Capt), Aaron Burgess, Justin Lester, Stephen Downey, Dion Phair, Colin Campbell, Brendon Cross, Brad Harwood, Nathan Wheeler (all SBHS), plus five boys from other Invercargill schools. This team seems to be repeating the success of our 1991 side, now playing U18.

SOFTBALL

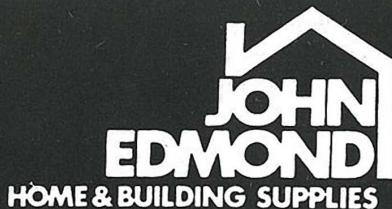

Captain: Jamie Frisby
Coach: Mr Capil

This year after rigorous trials, Mr Capil finally chose the team to play in the Southland Secondary Schools Tournament in Invercargill.

In the first game we met a rather weak Central Southland team and easily disposed of them 20-2. The second game against Kingswell was expected to be a tougher affair but we managed to pull off a rather easy win in the end, 11-2. We beat Verdon 22-1 in our third game. Then it was the final and we had to face a determined Kingswell team who rallied to a last innings win over Cargill to make the final. It was quite a tough affair with Kingswell making a last ditch effort, but we managed to keep our cool and scored an 11-8 victory to win the championship.

We then went on to represent Southland at the regional finals that were also held in Invercargill. Due to disappointing tournaments from other provinces only Wakatipu High School and Waitaki Boys' sent teams down. The Wakatipu game was a whitewash. We went on a run spree winning in three innings 34-0.

In the final against Waitaki a trip to the national finals in Hamilton was up for grabs. We needed to perform well if we were going to guarantee a place. We got off to a good start taking the early

Value/Know How/Service

lead but a number of fielding errors cost us valuable runs and we couldn't manage to come back and in the end Waitaki won 10-4.

After disappointment in the regional finals we then had to look forward to the interschool against Kings'. We played in bad conditions with rain making it difficult to play but the tactical training from Mr Capil had paid off well and we recorded two easy wins - 12-6 and 15-5.

Overall the team played very well and it was a very successful but short season for us. We would like to thank Mr Capil for his innovative training techniques and Mr Cooper for helping out also.

The team: J Frisby (Capt) J Harrison, G Kapo, S Tipu, J Harrison, R Tamariki, A Sangster, B Harrison, J Tume, M Mitchell, R Booth, J Kennedy

SQUASH

Coach: Mr Lohrey

This is very popular at school with 24 boys playing each week during Wednesday sports period, at the local courts.

On 15 August our school team, comprised of Shaun Madden, Leon Beaman, Brendon Lonsdale, Francis Springford, Douglas Carmichael and Aaron Scott, along with Mr Lohrey, travelled to Wellington for the 1993 Slazenger Secondary Schools Squash Championships. After training under the watchful eye of Southland's new professional coach Craig Andrews, the team was ready and able to perform to the best of their ability.

The first game was against Whangarei Boys', a team we didn't know much about. However, this didn't matter as everyone played extremely well to come off with a 5-0 win.

Our next game was against the stronger team of Shirley Boys'. We gave of our best but they were simply too strong for us, defeating us 3-2.

The following day we were challenged by the task of staying in the competition. In order to get into a final we had to come off with a win against St Patricks Silverstream. A local team from Wellington. We gave all we had but went down 3-2.

This trip was extremely beneficial from a learning point of view. The majority of the team will be back next year and we will be hoping to improve on our placing.

We would like to thank Mr Lohrey for his time and effort, and everyone who assisted us with fund raising efforts.

VOLLEYBALL

Interest in volleyball has grown considerably in 1993. All junior teams developed during the year and the senior teams enjoyed dominating the local competition.

Congratulations to the Senior A, B and C teams who finished 1st, 2nd and 4th in the Secondary Schools competition.

Congratulations also to the Senior A team who won their interschool against Kings' High School and finished on the top of the table in the Otago Schools Pre Qualifying Tournament. This ranked them in the top six Otago Schools - a first for any Southland school. The team was well skilled and worked very successfully as a team unit.

Senior A

Captain: Tim Hulls Coach: Mr McKenzie
Olly NauNau, Robert Kihlberg, Johnathan McLeod, Erick Norell, Aaron Kerr, Brigham Niwa, Corey Nicol

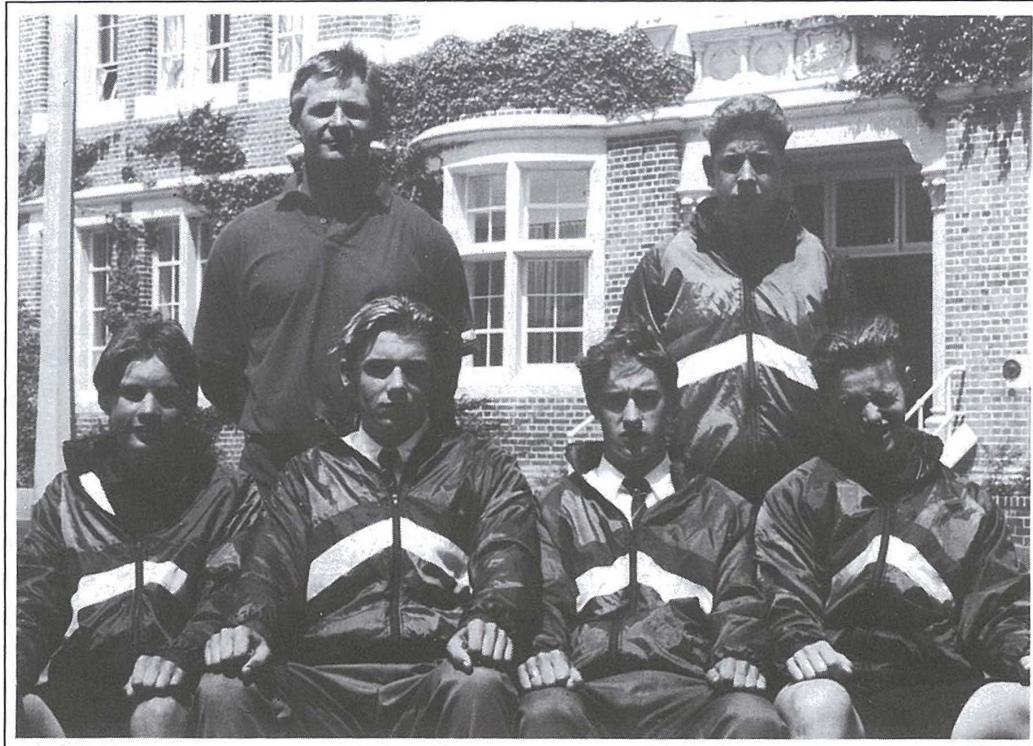

Senior B

Captain: Bradley Robertson
Coaches: Mr Lawrence, Mr McKenzie

WATER POLO

The school had four teams in the local competition. All teams played well and were competitive in their grades.

Congratulations go to the Senior A and Junior A teams who won their competition grades.

Teams

Senior A

Blair Savory, Rhys Cooper, Robert Everett, Gareth McFadyen, Lynton Stanley, Tim Coughlan, Gavin McAuliffe, James McRobie

Senior B

Tom Cooney, William Thorton, Jeffrey Manson, Ben Tuckey, Craig Stewart

Junior A

Angus Everett, Todd Symon, Dan Cooney, Justin Knox, Shane Goodwillie, Sam Muir, Trent Holden, Luke McPherson

Junior B

Gavin McAuliffe, Andrew Glennie, Richard Singleton, Deane Egerton, Cain Duncan, Grant Dick, Bruce Hook, Reuben Watson

Thanks

To the many people behind the production of The 1993 Southlandian.

NEWS FLASH

Reproduced with kind permission by the Dominion Sunday Times 3 May 1992

The Southland Retirement Fund

Frank Pearson, well known independent personal investment advisor and Trustee writing in the Dominion Sunday Times.

"My overall conclusion was that for risk-averse people with smaller amounts to invest, the Southland Retirement Fund offered exceptional relative value. The principal attractions, other than the building society guarantee, being maintained client flexibility because of no front-end fees, modest annual charges and prospectively credible investment management and returns".

Announce the SOUTHLAND RETIREMENT FUND

Designed for the conservative investor who is looking to achieve moderate capital growth without compromising security - this Fund has a unique combination of features.

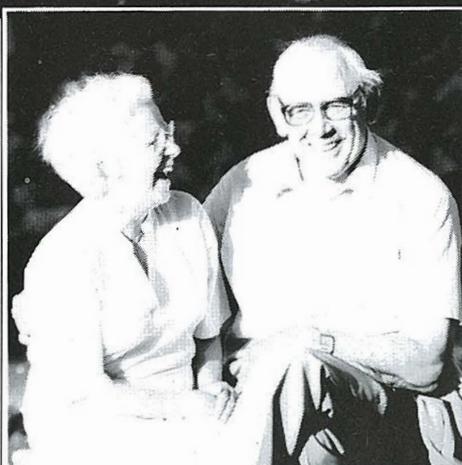

CAPITAL GUARANTEED

The Society guarantees capital invested in the Fund providing the investment is maintained for at least three years.

The guarantee is not secured against any specific assets of the Society.

TAX PAID

- As a registered superannuation scheme, all tax is paid within the Fund.
- Members have no tax liability on their returns or on withdrawals.
- And there is no liability for the superannuation surcharge.

LOW FEES

- There is no entry fee to the Fund.
- And if you are over 55 there are no withdrawal fees either.

The Society believes the Southland Retirement Fund is the most attractive investment of its kind in New Zealand.
